

THE NORFOLK WEEKLY NEWS-JOURNAL.

NORFOLK, NEBRASKA, FRIDAY, NOVEMBER 28, 1902.

NEBRASKA IS THE VICTOR

Administers Defeat to Northwestern by a Score of 12 to 0.

CORNHUSKERS ARE UNBEATEN.

Wind Up Football Season With Unbroken Series of Victories. Their Goal Not Crossed During the Year.

Lincoln, Nov. 28.—The football season of 1902 at the University of Nebraska was terminated yesterday in a blaze of glory. Before 6,000 people, the greatest crowd that ever assembled about a Nebraska gridiron, the unbeaten Cornhuskers administered a decisive defeat to the Northwestern university eleven, scoring twelve points and emerging from the contest with their own goal line still uncrossed, a record not achieved by any other college aggregation in the country. Nebraska's victory, however, was not easily bought. Hollister's men contesting every inch of territory. Once they carried the oval from the middle of the field to within the shadow of Nebraska's goal posts, but the whistle blew and deprived them of the only chance they had to sully the Cornhuskers' goal.

Nebraska, not having lost a game this season, or even being scored against, on the record claims the championship of the west.

KANSAS DEFEATS MISSOURI.

Get Busy in Second Half and Win by a Score of 17 to 5.

Kansas City, Nov. 28.—Kansas university, 17; Missouri university, 5. The twelfth annual Thanksgiving game between the Jayhawkers and the Tigers was snappy from start to finish, and was played on dry ground, with bright, crisp weather and before a crowd of at least 8,000 persons. The teams were about evenly matched, both stronger on the offensive than the defensive, but early in the second half the Missouri boys weakened all in a bunch. In the first half, which resulted in Kansas scoring 6 and Missouri 5, Vincent scored a touchdown and Jenkinson kicked a pretty goal, Ellis following closely with a touch-down for the Tigers, but Ardinger missing goal. In the second half after fifteen minutes' play, Captain Vincent scored the second touchdown for Kansas, Jenkinson kicking goal. Ten minutes before time was called Jenkinson made a third touchdown for the Jayhawkers and attempted to kick a difficult goal, but failed.

MICHIGAN WINS CHAMPIONSHIP.

Ann Arbor Eleven Overwhelms the Minnesota Team.

Ann Arbor, Mich., Nov. 28.—By a score of 23 to 6, Michigan yesterday defeated Minnesota on Ferry field and earned the undisputed title to the western football championship. It took one hour and ten minutes of furious play to finish the game. At times both teams, especially Michigan, were brilliant. At times the game on both sides was ragged, but it never ceased to be desperate.

The superiority of the Michigan men is not questioned. In the first half they carried the ball 205 yards, compared with eighty-five yards to the credit of Minnesota. In the second half Michigan made 180 yards, against 165 for Minnesota. Minnesota braced wonderfully after Flynn's touchdown and played a better game thereafter than they had done previously. It was no fault of their determination that they did not score again; it was rather that they were up against a team wonderfully well drilled in defense as well as offense.

ILLINOIS IS VICTOR OVER IOWA.

Hawkeye Eleven Defeated by Wide Margin of 80 to 0.

Champaign, Ill., Nov. 28.—Illinois defeated Iowa, 80 to 0, yesterday. In spite of mud Illinois played the fastest game of the year. Iowa never entered Illinois' territory and gained the required five yards but once during the game. Powell of Iowa was carried off the field unconscious. All of Illinois' touchdowns were earned by straight football. Rothgob tore up Iowa's line for five or ten yards every time he was called on to carry the ball. Illinois kicked off to Iowa at the beginning of the game and scored after five minutes of play. Iowa secured the ball only twice during the first half. Score at end of first half, 41 to 0. In the second half Iowa played a better game, while Illinois used her entire scrub team.

Pennsylvania Defeats Cornell.

Philadelphia, Nov. 28.—The University of Pennsylvania football eleven yesterday defeated the Cornell team by the score of 12 to 11. The Ithacans kicked a goal from placement and scored a touchdown from which a goal resulted in the first half, while Pennsylvania scored two touchdowns and kicked two goals in the second half. Never has more intensely exciting interest been exhibited on Franklin field. Until the final blast of the referee's whistle announced the cessation of hostility there was a painful uncertainty in the hearts of Pennsylvania supporters.

READY FOR LIVE STOCK SHOW.

Chicago Exposition Will Be One-Third Larger Than Last Year.

Chicago, Nov. 28.—Everything is in readiness for the informal opening tomorrow of the third international live stock exposition at the stock yards in Chicago. The exposition this year is one-third larger than last year, ahead of any other exhibition in the world in point of number of exhibitors. Many foreign countries have sent special representatives as delegates, or notifying their diplomatic and industrial representatives in this country to attend and make a full report of the progress and conditions of live stock as shown in the exhibits and in the competitive events. Railroad officials and the exposition management estimate an attendance of 500,000 people from outside the city of Chicago and great efforts have been made to list and provide accommodations for this throng of visitors.

Wednesday a new \$100,000 building, provided by the Union Stock Yards company as permanent headquarters for the pure bred live stock record associations of the United States and Canada, will be dedicated by Secretary of Agriculture James Wilson and the governors of a number of agricultural states who have accepted invitations to attend.

EXPORTATION IS PROHIBITED.

Foot and Mouth Disease Exists to Alarming Extent Down East.

Washington, Nov. 28.—Secretary of Agriculture Wilson issued a sweeping order directed to the agents of railroad and transportation companies of the United States, stockmen and others, notifying them of the establishment of a quarantine on cattle, sheep and other ruminants and swine in the New England states and prohibiting the exportation of such animals from the port of Boston until further orders.

Recent investigations in the department of agriculture disclose the fact that what is known as foot and mouth disease exists to an alarming extent in Connecticut, Rhode Island, Massachusetts and Vermont. The expert of the department, D. Mohler, Dr. Leonard Pearson of the University of Pennsylvania and Dr. James Law of Cornell investigated the infected districts and united in a recommendation that in order to prevent the spread of the disease a quarantine should immediately be established.

Secretary Wilson said that this is the most serious case the department has had to handle for some time, but that all the resources of the department would be employed in stamping out the disease. He declared that if it should spread west of the Hudson river it would be nothing short of a national calamity.

BOSTON PEOPLE ARE STIRRED.

Embargo on Cattle Threatens Curtailment of Its Foreign Commerce.

Boston, Nov. 28.—The order of the secretary of agriculture, placing an embargo on the shipment of cattle from the port of Boston, will give great assistance to the Massachusetts cattle commission in its effort to stamp out the epidemic of foot and mouth disease in this state. At the same time, the order threatens curtailment of the foreign commerce of Boston, in that it is likely temporarily to cut off the shipment to Europe of an average of 2,500 head of cattle a week.

It is with the hope of preventing further infection, especially to the western part of the state, and to stamping out of the disease where it now exists that the department of agriculture and the state authorities have joined hands. The government order was received with surprise, not only by the cattlemen of Brighton, but by the steamship agents as well, as it means a considerable loss to the four or five foreign lines carrying cattle to Europe from this port. Such drastic measures have seldom been adopted by the United States government. Several agents cabled to the home office in London for instructions.

Sold Salted Gold Mine.

New York, Nov. 28.—William H. McNutt, who says he is an electrician at the Rossmore hotel, was arrested here at the request of the Chicago police. According to the police McNutt was indicted in April last by the Cook county grand jury, together with Daniel Kelly, James Lonergan, Edward Schultz and William C. Martin, for swindling William T. Block out of \$13,000 by selling him a salted gold mine. Kelly and Schultz were tried on the charge and are now serving a four and a six year sentence respectively. Lonergan and Martin are said to be in Europe.

To Investigate Murder.

Telluride, Colo., Nov. 28.—Judge Theron Stevens has issued an order requiring the sheriff to subpoena a grand jury to investigate the murder of Arthur L. Collins, general manager of the Smuggler-Union Mining company.

Theodore Parker Cabot Dead.

New York, Nov. 28.—A private cablegram has been received announcing the death at Madras, India, of Theodore Parker Cabot. He was about thirty-four years of age and was appointed consul about six months ago.

STEAMER SINKS IN GALE

Coal Laden Ship Plunges to Bottom of Lake Erie.

CREW FINDS WATERY GRAVES.

Steamer Sylvanus J. Macy Last Seen Helpless in a Terrible Storm Off Port Burwell, Ont., and Wreckage is Found Since.

Detroit, Nov. 28.—In a furious southwest gale on Lake Erie Sunday night the steamer Sylvanus J. Macy sprang a leak off Port Burwell, Ont., and plunged to the bottom, probably carrying her entire crew with her. The barge Mabel Wilson, which was being towed by the Macy, broke away from the steamer in the darkness and succeeded in sailing up the lake to Amherstburg, where she arrived yesterday. The first news of the disaster was reported by J. J. Auterson of the steamer Albright, which passed through five miles of wreckage Wednesday thirty miles southwest of Long Point, parts of the cabin, life preservers and doors of some vessel.

The vessel was painted white, but there were no distinguishing marks to tell what vessel it was from. The arrival of the Wilson, however, leaves no doubt but that the wreckage is from the Macy, as the last seen of that steamer was in the near vicinity.

The Macy, with the Wilson in tow, left Buffalo last Saturday with a cargo of coal. When half way up Lake Erie the gale was encountered and when abreast of Port Burwell the tow line of the barge was thrown off by the crew of the Macy, leaving the schooner to shift for herself. When last seen by the crew of the Wilson, the Macy was laboring heavily in the sea and was evidently making for shelter. If the crew had time to leave their ship before the plunge to the bottom, it is not believed that the small boats could have lived long in the terrible sea running.

That nothing has been heard of them has convinced the owners that all are lost. The Macy was owned by P. J. Ralph & Co. of Detroit, and was insured for \$16,500. She is one of the older type of wooden steamers.

The only names of the crew obtainable at the office of the owners of the Macy are: Captain M. W. Gotthard, and son, Richland City, Wis.; P. Gregory, Detroit, first engineer; George Webb, second engineer; John Nugent, Algona, wheelman.

STEAMER IS PROBABLY LOST.

No Hope for Safety of Bannockburn on Lake Superior.

Chicago, Nov. 28.—Marine underwriters are inclined to give the Canadian steamer Bannockburn up for lost on Lake Superior. It was reported to them that the missing steamer was passed last Friday by the steamer Algonquin, about fifty miles southeast of Passage island and northeast of Keweenaw point. That would bring the Bannockburn well into Lake Superior and right in the track of vessels. Since that time nothing has been heard of the steamer.

The captain of the Algonquin says that after the Bannockburn passed it was remarked by some of the officers that she passed out of sight quickly. It is now feared an explosion may have occurred.

The following officers were on the Bannockburn when she left port: Captain George Woods, First Mate Alex Graham, Second Mate William Chocley, Wheelmen E. Rodney and A. Callahan, Watchman George Gillespie, Chief Engineer George Booth, Second Engineer Charles Selby, Jr., Oiler Cecil Linton. The deckhands, firemen and cooks numbered twelve or fourteen.

Devastated by Volcanic Outbreak.

Kingstown, St. Vincent, Nov. 28.—Wednesday's eruption of La Soufriere occurred at the head of the dry river, Rabacca, where a huge quantity of volcanic deposits had blocked the water course since the eruptions last May, in spite of the subsequent heavy rainfall. After the eruption of Wednesday a raging, steaming torrent flowed from the base of La Soufriere and swept down the Rabacca, completing the destruction of the sugar works there. Sand at the same time fell on Georgetown and other places.

Crew Rescued Just in Time.

Liverpool, Nov. 28.—The British steamer Brinkburn has arrived here, bringing the crew of the American three masted schooner Lucy A. Davies, Captain McKeown, which sprang a leak and was abandoned in a water-logged condition off Cape Hatteras Nov. 11. The Brinkburn rescued all the schooner's hands when her bows were beneath the water. The men have lost all their belongings.

Dinner at Hotel Cecil.

London, Nov. 28.—Nearly 500 American citizens and a sprinkling of distinguished Englishmen and women participated in the annual Thanksgiving dinner held at the Hotel Cecil

last night, under the auspices of the American society in London. The speeches were numerous and abundant in good feeling and reciprocal compliments. Toasts in honor of King Edward and President Roosevelt were drunk with equal enthusiasm.

ENTIRE TRIBE IS ARRESTED.

Indians Who Starved Bewitched Countrymen Are Charged With Murder. Tacoma, Wash., Nov. 28.—United States Commissioner Folsom, United States Marshal Hepburn and Prosecuting Attorney Lyons have returned to Juneau from Hoonah, where they held inquests over the remains of the starved Indians. The redskins had been starved to death by their tribesmen because they were thought to be bewitched. One was tied to a tree and compelled to stand eight days and nights without food under heavy rains, the object of this treatment being to exorcise the evil spirit of which he was thought to be possessed. The federal officers placed the entire tribe under arrest during the investigation. Four members found directly responsible for the barbarities were taken to Juneau under charges of murder.

STOPS MUNICIPAL WATER.

Circuit Judge Reverses Iowa Supreme Court Decision.

Ottumwa, Ia., Nov. 28.—For the first time since the Dred-Scott decision, it is said, a United States circuit court has refused to follow a decision of a state supreme court. The case is that of the Water Supply company of Ottumwa. Plaintiffs sought to prevent the building of a municipal water plant and carried the case to the United States circuit court at St. Louis. That tribunal decides that Ottumwa has reached the legal limit of indebtedness, notwithstanding that the state supreme court of Iowa decided a levy for this purpose would not be a part of the constitutional indebtedness of the city.

MAKES PAPER OF SUGAR CANE.

Wisconsin Man Said to Have Device for Using New Variety of Pulp.

Appleton, Wis., Nov. 28.—C. B. Pride, a mill architect, has invented machinery to make paper out of sugar cane and has signed a contract to erect a mill for this purpose at Independence, Kan. The machinery is designed to extract the pith from the cane, leaving the fiber for the manufacture of paper.

It is believed that the manufacture of paper from sugar cane will solve the problem of cheap print paper, and that it can be obtained in a sufficient supply to meet the demands of the newspaper publishers.

Estelle Reel's Report.

Washington, Nov. 28.—Estelle Reel, superintendent of Indian schools, has submitted her annual report to the commissioner of Indian affairs. She notes a marked advance in industrial training and says that the course of study prescribed has materially assisted Indian youths in learning agriculture as a means of self support, while the girls have benefited by the class room curriculum, which fits them for the duties and responsibilities of the home. The enrollment in 1902, she says, was 28,610. Miss Reel refers to the gradual disappearance of the blanket Indian and the general improvement in the condition of the race.

Physics Teachers to Meet.

Chicago, Nov. 28.—To have the public schools of the United States devote less attention to arithmetic and more attention to physics is the object of a campaign marked out by the Central Association of Physics Teachers, which opens its first annual convention here today. Two hundred and fifty teachers of chemistry and physics from the schools and colleges of the middle west are expected to take part in the meeting and to aid in forming a national organization that will arouse the whole country to the value of these two studies.

Sham Bull Fight at Kansas City.

Kansas City, Nov. 28.—The bull fight exhibition, the plans for which have been earnestly opposed by the local clergy and humane society, was given last night in Convention hall, as originally planned, without interference. Chief of Police Hayes and Marshal Maxwell were present, but the entertainment was only an illustration of a real bull fight, as given in Mexico, without a touch of cruelty to the beasts, and the officers were satisfied. An audience of 3,500 people, including many women, were present.

Will Prosecute Krupp's Defamers.

Rome, Nov. 28.—An inquiry instituted in the scandals concerning the late Herr Krupp at Capri island is said to have completely cleared Herr Krupp's character, and that in consequence the government will prosecute the newspapers which made the defamatory statements. It is stated that the accusations against Herr Krupp have been traced to a German painter, resident in Capri, whose arrest was ordered. The painter disappeared.

Falconio Attends Mass.

Washington, Nov. 28.—Mgr. Falconio, the newly appointed papal delegate, attended a solemn military mass at St. Aloysius church yesterday, it being his first official appearance since arriving at his new post of duty.
