

CONTEMPLATE A BIG HUNT.

Wolves of the Country Near Here are in Danger.

MUCH SPORT WOULD BE HAD

A Square of Hunters May be Formed, Driving the Wolves and Other Wild Animals to a Common Center Where There Would be Slaughter.

Local sports are talking of organizing for a wolf hunt somewhere in this locality that should take place at an early date. It has been suggested that a field taking in portions of Madison, Pierce and Antelope counties would furnish some interesting sport and it may be organized. A good captain of the hunt will need to be chosen and a number of lieutenants, and the men engaged should be made to obey instructions implicitly. Besides the fun of getting the wolves and countless rabbits, the country would be rid of an undesirable pest of which there are many in the country that would be covered.

The main line of the Elkhorn might form the south side of the hunt, people of Norfolk, Battle Creek, Meadow Grove and Tilden participating. The east line might be formed from towns along the Bonesteel branch, extending from Norfolk to Plainview. The north line could be formed from towns along the Short Line from Plainview west and the west line could be formed of farmers living in the eastern portion of Antelope county, with towns to the north and south to be drawn on for assistance in completing the line.

A hunt of such proportions would require a full day for its completion and the formation of the lines would have to be completed and a start made early in the morning, meeting at a central point. The possibilities of such a hunt are largely problematical, but there would undoubtedly be great sport and assistance from Omaha in organizing and directing the campaign is promised.

The plan of the hunt may be changed from this outline, but it is possible that some such hunt will be pulled off some time during the winter.

RHEUMATISM CURED AT LAST.

Good News for All Who Suffer With Rheumatism Free.

To all who suffer with rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on rheumatism ever published.

No matter what your form of rheumatism is, whether acute, chronic, muscular, inflammatory, deforming, sciatic, neuralgia, gout, lumbago, etc.—no matter how many so-called "sure cures" you have tried—I want you to write to me and let me tell you how mother was cured.

I am neither a doctor nor a professor—simply a plain man of business—but I have a cure for rheumatism, and I want to tell everyone who suffers with rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however, apparently beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are wearied and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have thought about rheumatism may be wrong. Let me tell you our experience. Surely, if you have a suffering friend, it will pay you to investigate my offer, anyway, and prove for yourself these claims I make.

Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with rheumatism no matter where located, send me their address, and I will mail them a copy. My address is Victor Rainbolt, Bloomfield, Ind.

A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by A. H. Kiesen.

While the Short Hand

of the clock travels twice around the dial Perry Davis' Painkiller will cure a cold; will ease the tightness across the chest and hence will banish the fear of pneumonia. "Just a little cold" does not become a misery that clings until roses bloom if you have at hand and use this never failing help. There is but one Painkiller, Perry Davis'.

MEMORIAL DAY OF THE ELKS

Observed Yesterday By Norfolk Lodge, No. 653.

CHAIN OF FRATERNITY BROKEN.

Two Deceased Brothers Remembered. Allen C. Powell of Stuart and Ludwig Rosenthal of West Point. Women's Club Tenders a Reception.

From Monday's Daily: "The faults of our brothers we write upon the sand, their virtues upon the tablets of love and memory." The first Sunday in December is designated Elks' Memorial day by the laws of the order, and as such was observed by Norfolk lodge, No. 653. The service took place in the lodge room at 3 o'clock yesterday afternoon, and was well attended by members of the order. Exalted Ruler Bucholz presided and the officers filled their proper stations. Each pedestal was adorned with a flowering plant, while upon the altar were two handsome bouquets of roses, chrysanthemums and carnations, attached to one being a card with the name of Allen C. Powell, and to the other with the name of Ludwig Rosenthal. Both these brothers have gone to join the silent majority during the past year, and in their memory the services were held.

After opening the lodge as a lodge of sorrow, the exalted ruler called upon Past Exalted Ruler Reynolds, who gave an impressive recitation of that noble poem, "Thanatopsis." William Cullen Bryant's greatest work. Esteemed Leading Knight Robertson followed with eulogistic remarks concerning the deceased brothers, Allen C. Powell of Stuart, and Ludwig Rosenthal of West Point. After prayer by Chaplain Weills, the lodge was closed in due form.

The service as a whole was impressive and beautiful, and more than one member present was led to wonder whether a year from yesterday the lodge would be performing the same service for him. The bouquets that had been used on the altar were ordered sent to the families of the deceased brothers.

Reception to Teachers.

The teachers of the Norfolk schools were pleasantly entertained by the members of the Norfolk Woman's club at the home of the club's president, Mrs. M. A. Music was furnished during the reception by Miss Mason of Pierce, Mrs. H. L. Snyder and Mrs. M. C. Hazen. Light refreshments were served in the dining room, the table being prettily decorated with carnations and smiles.

H. A. Vail, father of O. H. Vail of the Oxnard, has removed from Stanton to this city and has taken a position in the office of E. A. Bullock. His family is occupying the Murphy house on the Heights.

C. C. Hughes, general superintendent of the F. E. & M. V., reached the city yesterday noon in his private car, and remained until this morning, when he went to Missouri Valley. Superintendent Reynolds accompanied him to Fremont this morning.

Robert J. Burdett, the humorist, was to have spoken to a Fremont audience Tuesday night, but he missed the train and his wife who had not been so unfortunate, lectured in his stead. The audience was not pleased with the substitution, and it is evident that Mrs. Burdett is not as funny as her "worse" half, as the managers of the lecture course have arranged for an additional entertainment to fill out the season.

When H. A. Vail returned to his home in the Heights last evening, he struck a match on the window casing, igniting a lace curtain, and in an instant he had turned fire fighter. The curtain blazed furiously and Mr. Vail thought he was in for a conflagration, but finally he succeeded in tearing down the curtain and throwing it out of doors before the flames had communicated to the woodwork. It was a very close call but his presence of mind and promptness in handling the situation, probably saved the house from burning down.

The boys, and some who are older than boys, have originated a trick with a long stick and a short stick with a hole through the center of the short stick, or some use a small piece of cardboard, the shorter attached to the longer by a pin or a nail, that is mystifying to a considerable degree, made additionally so by the formula with which the trick is presented, which is as follows: "Stand on the right foot, and the small stick turns to the right; stand on the left foot, and the stick will turn to the left." And the stick does as is foretold. The long stick is notched on two sides and a vibration is made by rubbing across the notches with the finger or thumb nails. Electricity is said to be the native power, but there are some who cannot be made to believe it.

THE TRAIL OF THE EMIGRANT

Dr. Edward A. Sterner Gives An Interesting Lecture.

TELLS OF COUNT TOLSTOI.

Is Now On His Way to Russia to Look Up Data for a Tolstoi Biography. His Experience as an Emigrant. Lived in the Ghetto.

Norfolk people who appreciated the splendid opportunity afforded, were instructed and entertained yesterday afternoon and evening by Dr. Edward A. Steiner, formerly pastor of the First Congregational church of Sandusky, O., who has traveled extensively and has intimate acquaintance with a number of Europe's prominent men. In the afternoon he addressed a number of club women and others in the lecture room of the Congregational church and in the evening lectured on "The Trail of the Emigrant."

In the afternoon Dr. Steiner reviewed his intimate acquaintance with Tolstoi, whom he had met 17 years ago when a student at Heidelberg, Germany. The speaker had been attracted by the religious faith of the Russian count, who attained fame as an author and social reformer, giving up his high social standing to live among and work with the common people of his country. Tolstoi's social version of christianity was what the speaker believed in himself. This faith was that the law of Jesus was the law of the universe. Tolstoi had exemplified this, he said, more than any other man of the century. Tolstoi's sacrifice of culture, wealth, social station and civilization for a position of semi-barbarism among the hated peasants had never been equaled; it was a most painful process.

"Tolstoi is not an Alexander Dowie or a person like the Christian Science leader, who believe they are healers," said Rev. Dr. Steiner. "Tolstoi smits those who fall at his feet to worship him; he tells them to worship Jesus. He is one of the most humble men in all Europe, and his very humility makes him one of the most powerful of men."

The speaker told how Tolstoi was hated by the Russian people and how he was yet respected. Dr. Steiner said that the ministry would be more powerful if it were more humble and lived the spirit of Jesus Christ.

"Count Tolstoi was a peculiar looking man. His face was strange and looked as if God was in a hurry when he made it. The cheek bones protrude and he had small eyes. But the eyes were penetrating and it was impossible for a person to tell him a lie while looking at him. He seemed to pierce your very soul. He was an humble man and had given away everything that he ever possessed and had nothing."

The lecture of Dr. Steiner "On the Trail of the Emigrant," was a powerful address and intensely interesting because of the speaker's personal experiences regarding the subject discussed. The doctor's English is not strictly perfect. There is just enough foreign accent to attract the attention of his hearers but when he became warmed up to his subject the accent is forgotten and the interest in the words and thoughts of the speaker deepens.

Dr. Steiner begins his lecture by describing accurately and picturesquely the scenes of the old world. Then he accompanies the pilgrims across the sea to America. He tells of the abuses of the privileges given to those who are in charge of Ellis island and described in a particularly touching manner the thoughts of the wanderer when he first beholds the new land where are to end his troubles. He enters the Ghetto in New York if he is a Jew. If he is a pole he goes to the Pennsylvania mines. If a Norwegian he goes west to Minnesota. The dangers of immigration he states have begun since 1885 when the offshootings from the for corners of

Don't Overdraw Your Account in the Bank of Nature.

You have a deposit of nervous energy placed to your account in the bank of your body. It may be large, in which happy case you are a millionaire in strength and accomplishing power, or it may be so microscopic as to need careful husbanding and little expenditure to keep it from dwindling out altogether.

But many millionaires become paupers, and some "dime savings" swell into millions. It depends upon the way the capital is managed. You may think you have so much that there is no need to be economical. You get up in the morning and feel the blood bounding through your veins like mountain cataracts, and you think you can turn the mill wheels of the world.

You work day and night or you play day and night, which is sometimes more exhausting, and go at the limit of your speed all the time. You are over-drawing your bank account of energy, and that needlessly, for you probably have enough to last a long and useful lifetime. It pays to sit down and sharpen your tools, and it adds cent per cent to your body bank deposit.

Another with not half your brains or bustle will get ahead of you in the end, for he makes every act, every thought, go straight to the mark. He wastes no effort. Everything he does means something. It helps toward some given end. You spend a great deal of ammunition on your quarry because you are over-anxious. He keeps cool, takes steady aim and wings his bird.

You get wrinkles and frost tipped temples and become a bankrupt in vitality when you should be in your prime. You have overdrawn the best and most valuable bank account the Lord ever placed on the books of life—the ability "to love and to work and to play and to look up at the stars."

A Reply From TENNYSON.

On one occasion it was publicly stated that Tennyson had drawn his inspiration from Horace and Keats, and a correspondent wrote to ask him if this were so. "No," he replied; "Horace and Keats were great masters, but not my masters."

Europe began to swarm to the shores of America.

"I myself was the cause of several of the officials at Ellis island losing their heads last summer," said the doctor. "They were in the habit of kicking and beating the immigrants about. I was along with the latter. I took my rough treatment meekly until I had secured proper evidence and then I went to the authorities. An investigation was the result and the investigation led to the discharging of many of the officials. When they found out who I was, they were anxious to make peace with me, but I was not there for that purpose.

The immigrants had a hard time religiously before they came to this country, and as soon as they get away from the shadow of the cathedrals, they begin to drift from the church. They become materialistic and declare their enmity to ecclesiasticism in boasting terms. Out of 600,000 Jews in the Ghetto, there are not more than 75,000 that do not drift away from their religion. Out of 100,000 Bohemians in Chicago, 75,000 vaunt their infidelity and skepticism in words of the vilest. In Chicago there are over 300 Sunday schools which are engaged to crushing out thoughts of God in the children."

Dr. Steiner sails for Russia December 20, expects to be gone a year and expects to make a careful study not only of Tolstoi himself, but of Russia, her life and times.
