**FRIDAY FACTS.**

The West Side Whist club will meet with Mr. and Mrs. W. N. Huse next Thursday night.

The permanent force of employes at the sugar factory have been enjoying a

week's lay-off, but will resume their duties next Monday.

The first dance of the series to be given by Prof. Jackson in the Marquardt hall, was given last night and was enjoyed by quite a number of young people.

Old Boreas lost his grip on this section of the country for a short time yesterday, but today he is bearing down with customary severity that has sent the temperature down to zero.

The children of Norfolk are finding abundance of skating and sliding places handy to their homes as a result of the recent thaw and freeze. The ditches along the roadside have been quite generally converted into limited skating ponds, large enough for beginners.

On her return from Sioux City Monday Miss Fannie Davenport brought the little 2-years-old boy, Kenneth, from the children's home and through the kindness of Mr. and Mrs. M. D. Tyler the little fellow is to be given a temporary home at their house, with the understanding that it may become his permanent abode.

E. H. Tracy of this city has been honored by Governor Mickey with the appointment of judge advocate general on his staff, with the rank of colonel. Mr. Tracy's experience as an officer in the national guard and his service as an officer of volunteers during the war with Spain qualify him for any duties coming before him as such officer and his friends can but compliment Governor Mickey on the wise selection he has made.

Hereafter there will be services in the Johannes Lutheran church every Sunday instead of every other Sunday as heretofore. Services will be in the forenoon on one Sunday and on each alternate Sunday they will be held in the afternoon. The coming Sunday there will be Sunday school at 9:30, preaching at 10:30 to be followed by communion and in the afternoon there will be a business meeting at which it is hoped there will be a large attendance as there are important matters to be transacted.

The Auditorium is being favored with a series of entertainments that are above the average in point of merit for places of this size. "Pudd'head Wilson" was an excellent production and those who have seen both assert that "Way Down East" to be given Monday night is its equal or better. This will be followed by "Thelma" on Thursday night that is also said to be of high grade, and there are others coming that are deserving of large patronage. The management of the Auditorium should be encouraged in its efforts to give the people of Norfolk first-class attractions.

A peg-legged stranger came to town yesterday and after punishing a considerable quantity of distilled corn juice, finally acquired a condition of temperament requisite for trouble. He thereupon went to Joe Vlazney's place and found what he was looking for, anyway he smashed one of the large windows in the front of the building to get even or secure a bunk and something to eat. He succeeded in the latter and was locked up over night. This morning he was told to move on, and Chief Kane undertook to see that he accepted the invitation.

**May Not Come.**

The success that Dainty May Sargent and her company is meeting with elsewhere, and the numerous applications for the attraction elsewhere may be the cause of cancelling the date of her appearance here until a later time. Should this occur, it is so regretted, as the play, "Other People's Money" has been widely advertised and a cancellation would disappoint a great many people.

**RUSH.**

Now after the rush season, I will keep the ball rolling by making suits and pants at prices you cannot afford to miss. I defy competition, and venture to say that my \$18.00 to \$25.00 suits are equal and better than the ones my competitors ask \$30.00 for. My line of trousers is complete, at prices from \$3.00 up. I wish to call your special attention to the fact that you don't run any chances and bind yourself by paying in advance. First get satisfaction and then pay on easy payments as you may suggest. I employ competent men, use the best of goods and trimmings, which enables me to guarantee satisfaction.

On New Year's day Rev. J. Hofman of the Lutheran church gave the following accounting for the year 1902: Christened 26 children, confirmed 11 children, married seven couples, 1224 persons received communion and six persons died.

Miss Hannah Carrabine died Tuesday night at 8 o'clock of cancer of the stomach, aged 78 years. She has been suffering for over a year. She was well known at Norfolk, having lived on a farm two miles west for many years. The funeral was held from the Catholic church Sunday morning at 10 o'clock, Rev. Father Walsh of Norfolk having charge of the services.

At the annual meeting of members of the Lutheran church six new voting members were admitted and the following officers were chosen: Deacon, Conrad Werner, sr.; elders, Henry Massman and Bernhard Stolle; school directors, Henry Jost and Fred Schurger; trustees, Fred Hohenstein, August Steffen and Chas. Praenner, the latter being also treasurer; Joseph Zohner, janitor.

"Way Down East," Manager Wm. A. Brady's much talked of production, which will be presented at the Auditorium Monday, Jan. 12, has had unstinted and enthusiastic praise from the clergy, school teachers, women and in fact from people in every walk in life, including thousands who are seldom seen inside the walls of a theatre.

The scenes are laid on a New Hampshire farm, the play written by Lottie Blair Parker, and elaborated by Jos. R. Grismer.

The piece is made up of a series of happenings designed to portray the simplicity, comedy and tragedy, of a community and purity and sweetness of which might run on uninterrupted forever, but for the casting across of the shadow of a wicked city.

The story is worked out by a company engaged with a view to their special fitness to portray the eccentricities, and quaint humor of New England folk, aided by all the accessories of scenery, properties and a complete ensemble.

Tuesday morning we commence a clearing sale in all departments. To ladies interested in the English Bath glove recommended by Mrs. Davenport, we have a sample at our store.

**IT IS GOVERNOR MICKEY.**

Inaugurated at Lincoln Yesterday Afternoon.

**WANTS HOSPITAL REBUILT.**

Governor Savage Retires With a Message of Tiresome Length—Governor Mickey's Recommendations are Brief but Thorough.

At Lincoln yesterday afternoon before a joint legislative session the administration of the state of Nebraska underwent a change of some moment, Governor Savage retiring and Governor-Elect Mickey assuming the duties of chief executive. Previous to his resignation of the office Governor Savage gave a message of some length to the legislature that consumed an hour and fifteen minutes in the reading. It was listened to with ill-concealed restlessness on the part of the legislators and the visitors who fairly filled both floor and galleries. Feeble applause was given at the close of his address. The rapid attention that was given Governor Mickey's address of twenty minutes duration was in striking contrast with the manner in which that of his predecessor was received, and there is no question as to which message had the most weight with the lawmakers. Soon after 3 o'clock Governor-Elect Mickey was administered the oath of office by Chief Justice Sullivan, after which the new governor was introduced by Lieutenant Governor Steele and was greeted with general and hearty applause.

The following is a summary of the messages of the two governors:

**RECOMMENDATIONS OF GOVERNOR SAVAGE**

That the state be permitted to sell its securities on the general market instead of having investment limited to state, county and United States bonds.

That a board of pardons and of control of state institutions be established.

That state offices be abolished and consolidated to make a saving of \$50,000.

That all state and county officials be elected at one general biennial election.

That members be elected for terms of four years, half to be elected every two years.

That a constitutional convention be held to draw up needed amendments to the constitution.

That all state buildings be constructed of fire proof material.

That municipal franchises be eliminated, but public service corporations be allowed to operate on a license, contingent on paying a royalty.

That \$75,000 be appropriated for an exhibit at the St. Louis exposition.

That additional normal school facilities be provided.

That all food products be inspected.

That the state co-operate with the national government in the promotion of irrigation.

That the national guard be increased.

That the supreme court commission be abolished.

That one-fourth of the court districts be abolished to save \$25,000 annually.

That means be found to collect state taxes now delinquent, amounting to \$2,329,298.

That the state board of equalization be empowered to convey title to property on which the taxes are unpaid, and that country treasurers be made liable on their bonds for the collection of taxes.

That no appropriations except for necessary repairs be made for state buildings, except for improvements at the Peru normal school and penitentiary, and a barn at the asylum for the insane.

That the clerk of the supreme court be made a salaried officer and his fees be paid into the treasury.

That capital punishment be abolished.

**RECOMMENDATIONS OF GOVERNOR MICKEY**

That all personal and real property, including franchises, shall be assessed for taxation at its fair cash value.

That the laws governing the collection of taxes shall be more stringent and effective.

That the state board of equalization and county boards be given power to raise or lower assessments in harmony with the full assessment plan.

That the legislature make an appropriation for the establishment of an agricultural experimental station in the arid and semi-arid parts of western Nebraska.

That a supreme court commission be continued, but that the number be decreased from nine to six.

That a board of pardons be created.

That the constitution be so changed that amendments to the constitution may be submitted to voters at elections on separate ballots.

That a liberal appropriation be made for a state exhibit at the St. Louis exposition.

That money be appropriated to complete the additions to the penitentiary.

That food inspection be extended to cover all food products.

That the asylum for the insane at Norfolk be rebuilt.

That a state accountant be created to scrutinize and verify the accounts of state officers.

The Norfolk Hospital,

Of particular interest to Norfolk and the entire north half of the state is Governor Mickey's recommendation

that the hospital for the insane at this place be rebuilt, this recommendation, after Governor Savage's stupendous efforts to tear down and blot out this institution, affords a keen insight into the difference between the outgoing and incoming executives, and it is believed it is proof of the fact that Governor Mickey will be as popular as chief executive as Savage was unpopular. The following are Governor Mickey's recommendations regarding the Norfolk hospital:

"In September, 1901, the main building of the asylum for the insane, at Norfolk, was partly destroyed by fire and rendered unfit for further use. At that time the institution was caring for about three hundred inmates. These were afterwards divided between the similar institutions owned by the state at Lincoln and Hastings and were there given the care and attention which their cases demanded, as well as could be done under the crowded conditions thus imposed. Since then an annex has been built to the institution at Hastings, affording additional accommodations which have temporarily relieved the embarrassment. It is possible that for a short time the state could continue to care for its unfortunates at the two institutions named, but it should be borne in mind that the Lincoln hospital is now charged with thirty more than its capacity will justify while the asylum at Hastings has its normal capacity filled. It is evident, therefore, that prompt and decisive action should be taken in order to avoid the necessity of caring for these sufferers in any other way than in a well equipped hospital. The state now has at Norfolk an investment of about \$95,000 in the way of land, uninjured buildings and equipments, exclusive of the partial ruins of the main building which also represents a considerable money value. In view of this investment, of the growing needs of the state proportionate to the growth in population and the corresponding increase of dementia and as a matter of convenience to the north Platte country it seems to me that the institution at Norfolk should be rehabilitated and I recommend a reasonable appropriation for that purpose. I further advise that this, and all other buildings authorized by your body, be made as nearly fire proof as possible, to the end that danger to human life and of the destruction of property on account of fire be reduced to the minimum."
