Since the postoffice department is to establish the free delivery mail service in Norfolk this spring patrons of the office should understand some of the privileges and requirements of the service in order that they may be promptly and conviently served. If they cannot cover their routes in that time they are required to report back to the postoffice and the patrons who are not served will be compelled to call for their mail. It will thus be seen that the patrons should facilitate the delivery of mail in every way possible so that the routes of the carriers may not be neglected in part. The patron should provide a convenient place for the deposit of mail or if the carrier is compelled to knock at the door or ring the bell it should be answered promptly that he may proceed on his route.
