Latest Venezuelan Proposal Believed to Be Acceptable.

RENEWED HOPE OF SETTLEMENT

Blockading Powers Will Get Three Months' Preference Above Others. Berlin is Disappointed With Bowen. Rebels Clamor at Gates of Caracas.

Washington, Feb. 5.—Every effort is making by the representatives of the allies here to secure an early settlement of the Venezuelan dispute without referring it to The Hague. In this effort the Italian and British ambassadors and the German minister are receiving the endorsement of Minister Bowen, as well as the cordial approval of the government of the United States. It is understood that the president, while in no way connected with the negotiations, is in favor of a final agreement being reached in Washington. This fact, it is believed, will have an important bearing on the British and German foreign offices. The British and German representatives have both cabled to their governments that Mr. Bowen is willing to give the allies preferential treatment for three months in order that they may emerge from the controversy without damage to their honor. The allies have not yet answered representations urging this plan.

It may be some days yet before a final answer reaches Washington, but all the negotiators feel hopeful. It is stated that the president and the German emperor are both taking a keen interest in the early adjustment of the dispute, feeling that no good can come of prolonging the blockade.

CASTRO IS HARD PRESSED.

Army of Revolution Is at the Gates of the Capital. New York, Feb. 5.—An army of revolutionists is now almost at the gates of Caracas, says the Herald's Caracas correspondent, and everywhere in the city preparations are being made to repel an attack. Trenches are being dug and citizens are being drafted into the military ranks. Animals are being seized for government service. Despite the dark outlook many persons believe that the government will triumph over the divided revolutionary leadership and the unsoldierly crowds of the insurrection. The Matos revolution has at last reached a point where some decisive action must take place within a few days.

The blockaders have notified the LaGuayra authorities that if they see Venezuelan soldiers in town they will shell the fort. This notification is inexplicable to LaGuayra authorities, as Venezuelan soldiers occasionally pass in the streets on their way to fight the revolutionists. LaGuayra residents look upon the notification as a new tactic of the Germans to assist the Matos revolution and are asking "Where is the peaceful blockade?"

Allies May Try Hague Court. London, Feb. 5.—The allies now feel the absolute necessity of forcing from Venezuela at least some apparent concession. Officially it is pointed out that the powers have now conceded everything they are willing to grant, so far as the time, the amount and the methods of payment are concerned. The ministers of the three governments feel they cannot go before their countrymen admitting that they did not even secure separate consideration for their claims. Rather than do so Germany is in favor of letting the whole question go to The Hague court. Great Britain is inclined to support this determination, feeling that the outcome at The Hague could not be worse than the effect of a complete backdown at this stage of the proceedings.

Think Settlement is in Sight. Washington, Feb. 5.—Important advances on the question of the settlement of the Venezuelan claim reached the German embassy last night from Berlin and were communicated to Mr. Bowen, Venezuela's representative, by Baron von Sternberg, the German minister. Their purport is not known, but the reply is believed to be favorable to a settlement, as Baron von Sternberg, subsequent to their receipt, expressed himself as hopeful of an early settlement.

Berlin is Disappointed. Berlin, Feb. 5.—Some disappointment is felt by the German foreign office officials at Minister Bowen's attitude in his conferences with the ambassadors in Washington. Mr. Bowen, it is said here, impresses the representatives of the allies as allowing his fighting spirit to overbear his desires for a peaceful settlement. His demeanor at the conferences is described as that of an advocate defending an innocent, persecuted client.

Kills Statehood Memorial. Olympia, Wash., Feb. 5.—The house yesterday indefinitely postponed the senate memorial instructing representatives in congress from this state to work for the passage of the omnibus statehood bill. The memorial had passed the senate, but it was killed in the house on the theory that the representatives are better able to judge the advisability of the passage of the act than this legislature.

Empress Dowager Reported Dead. London, Feb. 5.—The correspondent of the Standard at Tien Tsin telegraphs the rumor that the empress dowager is dead, the news being concealed until the New Year observances.

WARSHIPS ORDERED SOUTH.

Rush Work on Vessels Now in Mare Island Navy Yard.

San Francisco, Feb. 5.—The warships in commission in this harbor will be on their way to Amapala, a port on the Pacific coast of Honduras, early next week. The New York, the Boston and the Ranger are now in the bay ready to start on short notice. In view of the orders, Admiral Glass to-day relieved Admiral Casey in the command of the Pacific fleet. It had been arranged that the flags of the admirals should be changed on Feb. 10, but the hurry orders to the fleet to get into southern waters prompted the change being made in commanding officer in advance of that time. Rush orders have been received from Washington, ordering that all work on vessels now in the navy yard be completed with the greatest possible dispatch. In view of this order an extra force of men will be employed at once and a night force was inaugurated last night to complete the repairs on the Bennington, which is practically ready for service. Several other vessels can be made ready for sea within a short time. It is understood here that the trouble brewing in Honduras is the only reason for the animation now being shown at the navy yard.

MRS. TABOR ASKS DAMAGES.

Wife of Former Senator and Millionaire Makes a Charge of Fraud.

Denver, Feb. 5.—A suit for \$3,200,000 damages has been filed in the district court by Elizabeth B. Tabor against James W. Newell, Warren F. Page and the Ransom Leasing company. The damage which Mrs. Tabor claims to have incurred resulted from a sale on an execution of the Matchless mine, near Leadville, which belonged to the Tabor Mines and Milling company. This mine was sold in 1899 for a little more than \$13,000 to satisfy a judgment which the defendants and William H. Harp are said to have held against the Tabor company. Fraud is alleged against the defendants for the manner in which they secured possession of the mine.

Swallowed Up by the Sea.

San Francisco, Feb. 5.—The steamer Alameda, which arrived here from Honolulu, reports having seen during a storm on the night of Jan. 30, the distress signal of a square-rigger. In less than ten minutes the square-rigger had disappeared and it is believed it must have been swallowed up by the sea. It is thought here that the disabled vessel may have been the Florence, an American vessel now out 66 days from Tacoma for Honolulu.

Arizona Opposes Consolidation.

Phoenix, Ariz., Feb. 5.—The legislative assembly received a dispatch from Marcus Smith, delegate to congress, saying that Senator Quay advises the acceptance of the plan proposed by the opposition to admit Arizona and New Mexico as a single state. ACID FUMES KILL FIREMEN

Four Are Already Dead and Ten Others Seriously Ill.

THREE NOT EXPECTED TO LIVE.

Victims Inhale Air Polluted by Chemical at Small Blaze in Milwaukee and Suffer Nothing Until Many Hours After.

Milwaukee, Feb. 5.—Four firemen are dead and ten others are seriously injured from the effects of inhaling the fumes of nitric acid while fighting a fire at the plant of the Schwab Stamp and Seal company, Tuesday night. The victims of the disaster were not overcome for many hours after the fire, when, one by one, they succumbed.

The dead: James Foley, chief; Andrew White, captain; Edward Hogan, pipeman; Thomas Droney, pipeman. Assistant Chief Thomas Clancey's condition is critical and the physicians who are watching over him cannot determine his chances of living. Captain Peter Lancaster is dying and Truckmen William M. Eller and William Kennedy are seriously ill. The men became ill yesterday and rapidly grew worse. Doctors worked hard over them, but Captain Lancaster appeared to be dying and a priest was sent for and the last rites of the church were administered. It was hoped that Eller and Kennedy could be pulled through.

JAPAN HAS MANY DISASTERS.

Sailors Perish in Squall and Miners Meet Death in Colliery. Victoria, B. C., Feb. 5.—News was brought by the steamship Empress of China of a disaster in Kobe harbor on Jan. 19, as a result of which between forty and fifty lives were lost. The steamers Yokohama Maru and Genkal Maru were being repaired and the steam launch Hayabusu was sent to take eighty-five workmen from one steamer to the launch. When the launch was near the stern of the Genkal Maru the strong northwest squall swept over the harbor and capsized the launch, which foundered in a few minutes. Some of the workmen swam to the Genkal Maru, others were rescued and between forty and fifty were drowned. Fire occurred on Jan. 17 in Urushubu colliery, Fukuoka Ken, Japan, and sixty-four miners were burned to death. The plague is increasing at Tokio. It seems that the germs were imported in cotton from Bombay. Correspondents at Nanking tell of a disastrous landslide at that port as a result of which over 200 lives were lost.

CRISIS IN NORTHERN CHINA.

Large Army Is Being Organized to Drive Out Foreigners. Victoria, B. C., Feb. 5.—Chinese papers received by the Empress of China have further news regarding the crisis in northern China. The writers say that the situation is most serious and that in Kansu a large army is being organized to proceed against the foreigners, and only the exposure of this movement and the aid it is receiving at Peking will open the eyes of the statesmen of Great Britain, America and Germany to the danger which threatens foreigners in China. C. J. Anderson, Chinese inland missionary in Honan, says in a letter that Kansu is full of rebel troops, all of whom want to fight and say there will not be one foreign devil left. All travelers are being searched and letters opened. Caravans of camels are bringing arms and ammunition and stores of food and grain to the rebel headquarters and from all sources it is learned that trouble is expected.

Sultan Wins Another Victory.

Paris, Feb. 5.—A dispatch from Tangier says that while pursuing the pretender's forces, the sultan's cavalry was attacked by the Kiata tribesmen, but the other troops of El Menehbi, the war minister, came up in time to participate in the fighting and the result was another victory for the imperial army, with heavy losses on both sides. The remainder of Bu Hamara's followers are believed to have been captured. London, Feb. 5.—According to a dispatch published in the Morning Leader, from Tangier, the Spanish embassy has received news of a still more bloody battle than that which took place Jan. 29. The sultan's troops, numbering 12,000, attacked the pretender's new encampment and captured Bu Hamara, treachery and bribery again giving the Sherifian army the advantage. A terrible fight took place and according to the latest accounts, continued right up to the gates of Fez, where, after losing 2,500 slain, the rebels succeeded eventually in rescuing Bu Hamara.

CARS RUN AT WATERBURY.

Company Continues Service, but Gets No Passengers. Waterbury, Conn., Feb. 5.—Stormy weather and extra precaution on the part of the authorities carried Waterbury through the danger of the hours of the night without serious trouble. The day brought no violence; the night but little. Almost as the cars were on their last trips there occurred a little riot and soldiers are authority for the statement that guns were fired by lawless ones. The record of actual damage, however, was better than that of the previous nights of this week. There were instances of missile throwing and car windows suffered as usual. The feature of the day was the arrival of a sheriff's posse of thirty deputies, most of whom were employed in riding in pairs on passengerless trolley cars. Not the least important factor, perhaps, in the interest of order, was the efforts put forth by the strikers to keep their men from the streets.

Big Steel Plant for Denver.

Denver, Feb. 5.—The Frontier Coal and Steel company, with a capital stock of \$1,000,000, was incorporated yesterday by David H. Moffatt, William G. Evans and Charles J. Hughes, Jr. It was semi-officially given out in the afternoon that the corporation is a preparatory step to the establishment of a big steel plant in Denver. It is said that the capital stock of the company will shortly be increased and that \$15,000,000 will be invested in the plant. The same capitalists are said to be behind the concern that are promoting the Moffatt railroad, now building between Denver and Salt Lake city, and the object of the company is to develop the coal and iron fields of northwestern Colorado.

The complaint is made by Viola Howard. She says the money was in a box and that Hayes induced her, while telling her fortune, to permit him to hold the box. Hayes has disappeared.

The Royal "We."

There has been a tendency of late years on the part of royal personages to discontinue the use of we and substitute I. Before the reign of Richard I. "I" (Ego) was always used, Richard being the first sovereign in Europe to use the royal "we" (Nos). What gave rise to the change is a moot point. Richard I. was the first king to seal with a seal of arms which bore two lions, and it has been suggested that the lions were typical of the royal "we" and occasioned its use.—London Chronicle.

Fatal Enough.

"Do you think my new novel covers the ground?" "Well, I caught a brief glimpse yesterday of a man who had just read it, and he was certainly covering the ground!"—Atlanta Constitution.

The specialist is now indispensable. In all walks of life there is a demand for the man who can do one particular thing better than any one else, and such a man is one who has confined his endeavor to, and centered all of his energy and ability on the specialty he has chosen for his life's work.

Early in my professional career I realized that Chronic Diseases were not being given the attention which their importance warranted. I saw that these diseases required a special fitness which the busy practitioner could never acquire. For more than twenty years I have devoted myself exclusively to the study and treatment of these diseases, and the fact that physicians recommend me to their patients is an evidence of my skill and ability in my special line. I give special counsel to physicians with obstinate and obscure cases.

I have devoted particular attention to chronic diseases of men and women, and no other class of disease requires more intelligent and expert treatment. It is a fact that a majority of men owe the seriousness of their condition to improper treatment, and a failure to realize the importance of placing their case in the hands of a skilled and expert specialist.
