Lough was much worse yesterday and suffered from convulsions, but his condition showed a remarkable improvement this morning and it is hoped that it may be of a permanent character. Late reports from L. Sessions, who submitted to an operation in a hospital at Omaha recently for the removal of a tumor from his head, are that he stood the operation well and felt very cheerful after the ordeal had been passed. It is considered that the critical time will be during the next day or two, and if he experiences no ill effects then, he is likely to recover rapidly and permanently. His many Norfolk friends will hope that his recovery will exceed the most sanguine expectations in extent and rapidity.

He took his first nourishment Saturday and was feeling very well at that time. Chief of Police Kane quarantined the house of Mr. Braasch, living a mile north of the city on First street, for smallpox. This is the first time he has been compelled to quarantine so far out for that disease. It is understood that the city quarantine officer has jurisdiction in a radius of six miles. Mrs. Belle Garlinger left yesterday for Excelsior Springs, Mo., where she goes to reside in the future. Miss Garlinger will remain in Norfolk for the time being and has taken rooms at the home of Mr. and Mrs. J. O. Stitt in The Heights. Mr. and Mrs. C. W. Wigton of the Presbyterian church and interment being in Prospect Hill cemetery. Mr. and Mrs. Snooks are comparative strangers in Norfolk but in their trouble have found many kind friends and neighbors. The weather last night was the coldest of the season, the government thermometer registered at 18 degrees, the other low records being in December when it registered 17 below. Zero weather ruled all day yesterday with a stiff northerly wind prevailing, and there were few to venture out except those who had urgent business. The weather is moderating to some extent today with prospects that it will be still warmer. Miss Kate Stafford, teacher of the seventh grade, entertained her pupils at a Valentine party Saturday evening. The guests were permitted to try their skill at piercing a heart with a dagger, at which Margaret Anderson proved most adept and Jennie Benning received the consolation favor. Comic Valentines were afterward passed and each guest drew one and read the words it contained. Refreshments were served and the entire evening proved most enjoyable to the girls and boys. Miss Helen Maylard was hostess at a Valentine party for her little friends Saturday evening, about 25 boys and girls participating. Appropriate to the occasion the guests were permitted to try their hand at writing poetry. Carl Austin's production was determined the best and Mary Odiorne was second best at voicing the muse. Afterward the children tried their fortune at shooting a heart, Ruth Mount winning the first favor and Lucile Tracy second. Nice refreshments were served and the evening was one of thorough entertainment. Messdames J. K. Boas, T. E. Odiorne and E. A. Bullock were at home to another company of lady friends Saturday afternoon at the home of Mrs. Bullock, about 40 ladies responding to the invitations. A pretty Valentine feature was a contest at archery with a heart placed on the wall for a target. Mrs. Arthur Pilger proved the most skillful with Cupid's weapons, while Mrs. Elsie Desmond was the next in cleverness. Both were presented with pretty favors. At 6 o'clock the guests were seated at small tables and served a dainty two-course supper. A company of about 20 lads and lassies met with Miss Mildred Beach at the home of her parents, Mr. and Mrs. J. L. Beach of South Norfolk Saturday evening, and participated in a Valentine party that was replete with seasonable pleasures. The little folk exchanged Valentines, took part in various amusements prepared for their pleasure and when it came to refreshments they found two cakes prepared, one for the girls and one for the boys, with a ring concealed in each. George Case was fortunate in getting the ring from the boys' cake while Inez Viele was the lucky recipient of the piece of the maidens' cake containing the ring. Mrs. Martin Young died at her home in South Norfolk Saturday afternoon and her funeral will be held from the house tomorrow afternoon at 2 o'clock, Rev. Mr. Pfeiffer of the Johannes Lutheran church conducting the ser-

vice. Mrs. Young gave birth to a child about three weeks ago and has since been very sick, her illness finally resulting in pneumonia, which caused her death. She was about 40 years of age and is the third wife Mr. Young has buried. She leaves, besides her husband and infant child, two step children, one a boy of 15 and the other a girl of 8 years. The bereaved husband is a machinist at the Elkhorn engine house. The Walker Whiteside company, which is to present Richard III at the Auditorium tonight, arrived this morning on the M. & O. train from Mitchell, S. D., in a special sleeping car and with a special baggage car for the scenery and baggage of the company. The Elkhorn had a baggage car on the track and the baggage will be transferred to that after the performance tonight. The next date of the company is at Lincoln. The seat sale opened this morning lively and inside of an hour 300 of the best seats were sold. Norfolk is the first place where the best seats for this attraction have sold for less than \$1.50. The price here was placed at \$1, and it is hoped by the management that the people will appreciate the opportunity thus presented of seeing a first class attraction at a moderate price. RHEUMATISM CURED AT LAST Good News to All who Suffer With Rheumatism Free. To all who suffer with rheumatism I will gladly send free the wonderful story of how my mother was cured after years of suffering, together with the most elaborate treatise on rheumatism ever published. No matter what your form of rheumatism is, whether acute, chronic, muscular, inflammatory, deformed, sciatic, neuralgia, gout, lumbago, etc.—no matter how many so-called "sure cures" you have tried—I want you to write to me and let me tell you how my mother was cured. I am neither a doctor nor a professor—simply a plain man of business—but I have a cure for rheumatism, and I want to tell everyone who suffers with rheumatism all about it. I wish to be clearly understood, and trust that all who are suffering with this terrible disease, however, apparently beyond the reach of cure, will write to me this day and I will send you by return mail this work of mine. I appeal especially to the "chronically ill" who are wearied and discouraged with "doctoring" and to those who have been cast aside as "incurable." All you have thought about rheumatism may be wrong. Let me tell you our experience. Surely, if you have a suffering friend, it will pay you to investigate my offer, anyway, and prove for yourself these claims I make. Send me your address today—a postal card will do—and I will mail you this wonderful story. If you have any friends suffering with rheumatism no matter where located, send me their address, and I will mail them a copy. My address is Victor Rainbolt, Bloomfield, Ind. The best physic. "Once tried and you will always use Chamberlain's Stomach and Liver Tablets," says William A. Girard, Pease, Vt. These tablets are the most prompt, most pleasant and most reliable cathartic in use. For sale by Kiesel Drug Co. Keep Up a Brisk Attack upon that bad cold, and do not wait for it to "wear itself out." Perry Davis' Painkiller is a powerful ally. Use it internally, with warm, sweetened water. Rub it well into the inflamed throat and sore chest, and when the foe has taken flight you will understand why time and spasmodic competition make no difference in the popularity of the one Painkiller—Perry Davis.

CALLED WITHOUT WARNING

David Whitla Died Suddenly This Morning. OLD RESIDENT OF THE COUNTY While at Work in the Yard He Was Stricken With Heart Failure and Expired in a Few Minutes—Funeral Not Yet Announced. [From Tuesday's Daily.] David Whitla, one of the best known men in Madison county, died of heart failure at his home two and a half miles east of Battle Creek, about 10 o'clock this morning. He had been suffering with heart trouble more or less during the fall and winter, but when he arose this morning he seemed to be feeling unusually well. About 9 o'clock he went out to the yard to help load a pig, which it was planned to take to a neighbor's to be butchered. Assisting him were Mr. Lintecum and his son. While they were at work, Mr. Whitla suddenly fell and faintly said, "I am sick!" These were his last words. He was carried into the house and in a very short time afterward breathed his last. Mr. Whitla was about 59 years old, and had lived in this country, 32 or 33 years. He was born in north Ireland, and when five years old his parents immigrated to America, settling in Ohio. Later they moved to Iowa, where David grew to manhood and was married. In the early '70s he came to this county and took as a homestead the place near Battle Creek where he has since lived. He leaves a wife, three sons and two daughters. Two of the sons, Will and Webb, are married, the first living in Anoka and the latter in Battle Creek. A sister lives in Illinois. He was one of the prosperous farmers in the county, having made a neat competency from the soil, and he had one of the most comfortable homes in this section of the state. Besides the farm where he lived he owned several other valuable pieces of land in the vicinity. He had taken an active part in public affairs, however always declining to be a candidate for office of any kind. He served four years as chairman of the republican county central committee, and was always a zealous worker for the party with which he affiliated. Mr. Whitla was both a Mason and an Odd Fellow, holding his membership in both orders in the Norfolk lodge. A message from Battle Creek at 3 o'clock this afternoon stated that arrangements for the funeral had not yet been announced, and will not be until the arrival of the eldest son, Wm. Whitla, from Anoka, this evening. TUESDAY TOPICS. C. S. Bridge went to Lincoln on business today noon. Mrs. J. W. Ashburn of Tilden was a city visitor yesterday. Mrs. Sophie Stolle of Portland, Oregon, visited Norfolk friends yesterday. Sheriff J. J. Clements of Madison was over to see Whiteside in Richard III. Rev. J. C. S. Wells went to Omaha on the noon train, expecting to return Friday. The Wednesday club will meet tomorrow afternoon with Mrs. W. H. H. Hagey. Editor Eugene Austin of the Pierce Leader was down to visit his mother and see Richard III. Miss Ella Mason of Pierce took the morning train for Omaha to hear Gabriłowitch this evening. Mrs. S. G. Dean is rapidly recovering from her recent illness of typhoid fever and her friends hope to soon see her out again. Mr. and Mrs. Arthur Becker and Mr. and Mrs. Fred Bolster of Wisner were guests of Mr. and Mrs. Albert Degner yesterday. Mrs. Cora A. Beels, accompanied by several of her pupils, will listen to the celebrated Russian pianist, Gabriłowitch, at Omaha this evening. There was no school in the Lincoln building yesterday because of the fact that some of the pipes connected with the heating plant had frozen and the building could not be warmed. Al Bigelow, formerly of this city, writes from his home near Los Angeles, Cal., that he is enjoying life and is fairly prosperous in his coast home. He has purchased a small tract of land for a fruit orchard. A one-armed man, whose feet were naturally inclined to tangle, made an exhibition of a jag he had acquired on the streets today. It was probably the results of charity extended by some tender-hearted citizen. H. J. Hudson, one of the pioneer residents of Columbus, and a past grand master of the Nebraska Odd Fellows, died at his home yesterday and the funeral will be held tomorrow. Grand lodge officers and past grand officers from Norfolk expect to attend. Although last night was generally considered much warmer than the night before, the mercury registered at the same point—18 degrees below zero. The maximum was higher during yesterday than the day before, the mercury managing to crawl up to 2 above zero. Gus Uecker was picked up off the sidewalk yesterday afternoon and appeared before Police Judge Hayes, where he was assessed the usual fine and costs for disorderly conduct. He happened to have enough money left with which to liquidate the assessment and was permitted to depart when he had contrived his mite to the school fund. Mrs. John Fetter has received from

her aunt, Mrs. L. Kasnbarden of Campbell, Cal., a box of assorted California dried fruits that made a most agreeable mid-winter gift. From the fact that Mr. and Mrs. Fetter desire to move to that state some time in the not distant future it might well be intimated that the box also contained germs of the California "fever." The following jurors have been drawn by the clerk of the district court and the sheriff to serve at the spring term of court, and will be summoned to appear Tuesday, March 3, at or before 11 o'clock in the morning: W. L. Bickley, Hans Dahlsten, Guy Denel, Al. Dover, A. C. Fuller, Wm. Hasse, Wm. Hoover, John J. Hughes, Herman Kohl, Charles Kolzow, Wm. Leary, Geo. W. Losey, Wm. Lowe, John Malone, Alex. McIntosh, S. S. Nelson, Henry Neuwerk, J. C. Phipps, G. D. Smith, August Steffen, Willis Stirk, Charles Wells, Frank White, George Zimmerman. Sherman Neilson, a pupil of the high school whose home is south of the Junction, experienced discomforts from the zero temperature while coming to school yesterday morning. Probably not realizing the extent of the cold, he neglected to bundle up sufficiently and when the school house was reached his ears were badly frozen. The condition of his ears were noticed when he reached the school house and snow was applied to draw out the frost, but in a short time thereafter his ears were badly swollen and he will probably experience considerable difficulty with them for some time. Mrs. S. R. McFarland received a message today from her husband at Lynch announcing that his father, Elder McFarland, formerly of Stanton, had passed away this morning, at his home in Lynch. The body will be taken to Stanton for interment tomorrow morning, and will be accompanied by his sons, S. R. McFarland of this city, and Albert McFarland of Lynch. Other members of the family will join the funeral party and proceed to Stanton. The deceased was an early resident of Stanton and was well known throughout this part of the country. Those at Bonesteel who are interested in the opening of the Rosebud Indian reservation by this congress have received advices from Washington that the bill is likely to be attached to the Indian appropriation bill and passed. This has occasioned much satisfaction on the part of those who had become discouraged over the prospect and the new terms of the Elkhorn is already counting on a boom and a rush for the Indian lands that will thus be thrown open for settlement. This section of Nebraska is almost equally interested with Bonesteel in the opening of this reservation, because it will mean that attention of land seekers will be attracted to this country as it has not been before in many years. The committee of the fire department appointed to solicit subscriptions toward the entertainment of the state tournament finds that there is considerable uncertainty among the people of the city as to just what the tournament contemplates in the way of attractions and as to what the money subscribed will be used for. The committee has asked The News to make a statement of these facts and it will endeavor to do so in tomorrow's issue, meanwhile those who may be asked to contribute may rest assured that the members of the department contemplate a careful expenditure of the money coming into their hands and expect to provide an entertainment that will draw people from the limits of the state and thoroughly entertain them. Albert Wilde has rented the building next door to his place of business and will resume the manufacturing and selling of cigars just as soon as he can receive the necessary stock from the east, it having been ordered immediately after the fire. He will not disturb anything in the burned shop until after the loss has been adjusted by the insurance company, but is convinced that he cannot afford to remain idle during the time that may be necessary to affect such adjustment. Mr. Wilde reports that some goods not having the government stamp affixed were taken from his shop on the night of the fire, and intimates that there is a possibility of trouble in store for those who took them, as, until the proper stamps were affixed they are in the charge of the government, and a charge more serious than mere petit larceny might be brought against the person or persons who took the goods. Heavy team harness, built to last and at reasonable prices, at Paul Nordwig's harness shop. Northern Wisconsin Railway Farm Land For Sale. The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack from influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cough is contracted. It always cures. For sale by the Kiesel Drug Co. Do Not Be Afraid to look the facts squarely in the face. That cough, racking and persistent, accompanied by tightness in the chest and spitting of sticky mucus, is a sign of consumption. Common sense dictates the use of Allen's Lung Balm, an honest remedy, since it contains no opium; an efficient remedy, since it heals the irritated, inflamed throat and lungs, and so prevents a deep-seated cold from running into incurable forms of consumption. The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and quick healing liniment for cuts, bruises and burns. For sale by Kiesel Drug Co. The value of Expert Treatment. Everyone who is afflicted with a chronic disease experiences great difficulty in having their case intelligently treated by the average physician. These diseases can only be cured by a specialist who understands them thoroughly. Dr. J. Newton Hathaway of Sioux City, Iowa, is acknowledged the most skillful and successful specialist in the United States. Write him for his expert opinion of your case, for which he makes no charge. Worse Than a Blow from a hard fist is the buffet of cold wind upon a pair of improperly protected lungs. A few minutes exposure to cold may be the beginning of consumption. Lose neither time nor courage. Fortify yourself against pulmonary troubles, including consumption, with Allen's Lung Balm. A few doses will loosen the cough and enable you to get rid of the phlegm that produces it. Cure soon follows. A Mother's Recommendation. I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by the Kiesel Drug Co. THE FAST TRAINS. One Whole Day Saved Between Chicago and San Francisco. The average reader does not stop to think what the saving of a whole day between Chicago and San Francisco means to the busy, bustling people of America; but it means both time and money, and it is proper to ask who is there who would not do his best to win out on both propositions. The following, however, needs no comment: Via Omaha, the Union Pacific is 204 miles shorter to Salt Lake City; 278 miles shorter to San Francisco; 278 miles shorter to Los Angeles; 358 miles shorter to Portland; 12 hours quicker to Salt Lake City; 16 hours quicker to San Francisco; 16 hours quicker to Los Angeles; 16 hours quicker to Portland than any other line. Pamphlets and maps giving full information about the most comfortable and direct route to the Pacific coast can be obtained by calling on or addressing: J. B. ELSEFFER, Agent.
