"When Your Will Is Ready Your Feet Are Light." The business men of this town can attract out-of-town trade as readily as the big establishments of the cities attract it. It is simply a matter of advertising.

This paper goes into the homes not only of those who live in the thickly settled community but it is a welcome guest in almost every farm house for miles around. It reaches the homes in all near-by villages and some that are far removed. It will draw trade from wherever it circulates if its advertising columns are intelligently used.

CANAL TREATY IS FIRST

Republican Leaders Discuss Senate Work.

CUBA GIVEN SECOND PLACE.

Reciprocity Must Be Settled This Month—Senators Will Try to Get Treaties Ratified as Speedily as Possible—To Keep Quorum Present.

Washington, March 6.—The Republican senators will make a united effort to secure action on the Panama canal treaty and the Cuban reciprocity treaty as speedily as possible. A meeting of the Republican steering committee of the senate was held after adjournment yesterday and this course was decided on. The situation was discussed at some length, and the conclusion reached that business might be greatly facilitated by keeping as many senators as possible in the city and in their seats and the individual members of the steering committee agreed to devote their energies to this end. No one in the committee had any definite information as to the time that may be consumed in debating the treaties, but it was stated as a rumor that Senator Morgan had said that as there were a number of new members of the senate he would feel it incumbent on himself to go over the ground quite completely and even to review much that he had already said. The evident purpose of the Republicans is to avoid if possible calls on account of the absence of a quorum and to keep the senate running as steadily as possible. They are agreed as to the desirability of completing the session at an early day. The Cuban treaty, under the extension provided for in the agreement between this country and Cuba, expires at the end of this month. The Panama treaty, however, will be the first of the two to be taken up.

Burdick Murder Still a Mystery.

Buffalo, March 6.—One week ago Edwin L. Burdick, a wealthy member of aristocratic social organizations in Buffalo's exclusive Elmwood district, was murdered in a peculiarly mysterious manner and the authorities have as yet been unable to take their investigations beyond the realm of suspicion. Superintendent Bull of the police stated last evening that, though suspicion might point in a certain direction, it was not strong enough to base an arrest on. "When we have gathered evidence strong enough to make an arrest we will act," he said, "and when we make this arrest we will have the evidence to convict."

President Stays by Crum.

Washington, March 6.—The president will send to the senate the nomination of W. D. Crum, colored, to be collector of the port of Charleston, S. C. This will be the second nomination of Crum, the senate at the session just closed having failed to confirm him.

The Bible and Its Contents.

There are no less than 3,566,480 letters in the Bible, 773,397 words, 31,198 verses and 1,189 chapters. The number of verses in the Bible commencing with A are 12,638; B, 2,207; C, 1,883; D, 17; E, 207; F, 1,797; G, 209; H, 1,164; I, 1,449; J, 158; K, 65; L, 411; M, 437; N, 961; O, 592; P, 149; Q, 4; R, 127; S, 1,088; T, 2,286; U, 83; V, 37; W, 1,398; X, none; Y, 356; Z, 17. To read the Bible through in a year means reading three chapters every weekday and five chapters each Sunday.

All the letters of the alphabet are contained in the twenty-first verse of the seventh chapter of Ezra. The Bible was not divided into chapters, as it is now, until the thirteenth century. Early Hebrew Bibles were marked into sections and verses by means of accents, which served as marks to be observed in the eastern manner of reading. The work of dividing the Bible into chapters has been attributed by some to Stephen Langton. The division into verses was made by a printer of the name of Robert Stephens in 1548 and was adopted throughout all editions.

The American Language.

"It used to be considered a witicism to ask a man whether he spoke United States," said an English university man at the Lawyers' club the other day, "but there is in fact an American language, distinctive from the king's English not only in idioms and in the use of particular words, but in the clipping of words to save time and breath. On this side of the Atlantic one scarcely ever hears 'I have' and 'you are.' You hurrying Americans say 'I've' and 'you're.' You shorten up 'cannot' into 'can't,' and your purest speakers use 'don't' and 'won't,' and it is almost a universal habit among Americans to clip the 'g' off words ending in 'ing.' Even your professors of English fail to sound the 'e' in 'righteous' and 'courtous' and shorten 'knowledge' into 'knolege.' I might recite scores of words that are practically shortened by a syllable in usage, and as usage makes language you Americans are gradually constructing a speech that is quite distinct from that form of English which Oxford and Cambridge are preserving with such care."—New York Times.

Falcon Lore.

No one can pretend to any acquaintance with English literature or even with the English language without being aware how deep an impress has been left upon them by the art and practice of falconry. Such words as "haggard," "byrie," "mews," "cadger,"

FOREIGNERS ARE IN PERIL

Dowager Empress Preparing for Carnival of Murder.

OUTBREAK IMMINENT IN CHINA.

Report That the Present Emperor Will Be Slain First and Then Aliens in Peking Made Away With. Viceroy Instructed to Aid Boxers.

Victoria, March 6.—According to advices received from Peking, an outbreak and with it a carnival of murder exceeding the Boxer outbreak is regarded by many as imminent. Correspondents of the Chinese papers at Peking are sending columns telling of the duplicity of the empress dowager and of the threatened outbreak. The North China Daily News, one of the best informed journals of the east, has received advices that the empress dowager and Yung Lu, the grand chancellor, are known to be aiding the movement of Tung Fu Hsiang in Kansu and that while the empress dowager is pretending to initiate reforms, she is secretly sending instructions to viceroys and governors prohibiting the inauguration of foreign methods in their jurisdiction. The empress is also said to be sending notifications to some viceroys that Tung Fu Hsiang is to be aided in marching his army to Peking, to escort Pu Chun. On their arrival, Kwang Hsu, the present emperor, is to be made away with. The representatives of foreign powers and all foreigners in the capital are to meet the same fate without distinction.

A HOG'S MOUTH.

The Way It Enables the Animal to Eat Hickory Nuts.

"People often wonder how it is that a hog can get all the kernel out of a hickory nut, or any other kind of nut for that matter, without swallowing any of the shell," said a man from the country, "but as a matter of fact there is nothing mysterious about the process. Mind you, hogs don't swallow any of these harder substances. They get rid of them, and then it is just as easy for them to get rid of the shell of a nut as it is for a man or a squirrel. You might think because a hog crushes the nut into small fragments that he would necessarily swallow a good portion of the hull. But he doesn't do any such thing.

"It is a conceded fact among men who know anything about the subject that the horse is the most perfectly constructed animal in the world, considering the purposes for which the horse is used and its method and habits in life. But I want to put in a good word for the hog when it comes to the thing of cracking and eating nuts without getting any of the harder substances into the stomach. The horse has very fine teeth. The back teeth particularly are finely constructed with a view of enabling the horse to crush its food well before passing it into the stomach. These heavy grinders, heavily set in the horse's jaw, are looked upon as marvelous. So they are.

"But what's the matter with the teeth of the hog? What's the matter with that marvelous process by which they separate the kernel of the nut from the hull? It has occurred to me that this is no small achievement, and nature is at least entitled to some sort of tribute for her skill in making this result possible. In the first place the hog's tongue is more sensitive than would be supposed, and it can easily detect the harder from the softer substances. By some sort of process the hog is able to work the bits of a hickory nut hull over to the sides of its mouth, the tongue being used for the purpose, and here they are thrown out at the corners. Probably you have noticed that the corners of a hog's mouth are somewhat different from the corners of the mouths of other animals. The lines of the mouth do not end so pointedly, and hence it is a much easier substance which he does not care to swallow out through these little openings."—New Orleans Times-Democrat.

A FEW WHYS.

Why do many employers say their clerks are a stupid lot and unworthy of their consideration? Why do many clerks look with envy on their employers and rage over every correction or sharp word? Why do many persons behave more courteously and kindly to outsiders than they do to the ones they really love the best of all? Why do many men laugh at women's lack of business ability and yet sneer and rather look down on the woman who shows she has some? Why do many children resent anything their parents say and look on them as bores and long to be grown up so as to escape from them? Why do many rich folk look on their poor relatives as being always on the lookout for favors and so prevent the poor relatives from giving them little presents or being natural with them? Why do many husbands work hard for their wives and family, but never think how the wife would appreciate an invitation to the theater, a little dinner at a restaurant, a box of candy or some flowers brought home unasked?—Chicago Record-Herald.

Not Acquainted With Him.

"Do you know Mr. Fresco, Mr. Albert Fresco?" inquired Mrs. Nuritch. "No," said her husband. "Why?" "I've got an invite to Mrs. Blugore's garden party, and she says they're going to dine at Fresco's."—Philadelphia Press.

A Weak Stomach.

causes a weak body and invites disease. Kodol Dyspepsia Cure cures and strengthens the stomach, and wards off and overcomes disease. J. B. Taylor, a prominent merchant of Christman, Tex., says: "I could not eat because of a weak stomach, I lost all strength and run down in weight. All that money can do was done, but all hope of recovery vanished. Hearing of some wonderful cures effected by use of Kodol, I concluded to try it. The first bottle benefited me, and after taking four bottles I am fully restored to my usual strength, weight and health." Kiesau Drug Co.

Cancerous Ulcers

At first have nothing about them to indicate their true nature. They look like ordinary sores and are usually treated as such, some simple salve, wash or powder being used in the hope of drying them up and stopping the discharge; but while the place may temporarily scab over, it again inflames and festers, becoming as bad or worse than ever. After awhile the deadly poison begins to eat into the surrounding flesh and the sore spreads with frightful rapidity. Then the sharp shooting pains, which distinguish the cancerous from the common ulcer, are felt, and the unfortunate patient is brought face to face with the most dreaded of all maladies, a cancerous ulcer.

Worse than an alarm of fire at night is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier of Mannington, Ky., writes: "My three-year-old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar; the first dose gave quick relief and saved her life." Refuse substitutes. Sold by A. H. Kiesau.

Foley's Honey and Tar is best for croup and whooping cough, contains no opiates, and cures quickly. Careful mothers keep it in the house. Sold by A. H. Kiesau.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which ticks the mucous membrane, causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of coughs, colds and croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. A. H. Kiesau.

The Easy Pill.

DeWitt's Little Early Risers do not grip nor weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectively, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed entirely. These famous little pills exert a decided tonic effect upon the organs involved, and if their use is continued for a few days there will be no return of the trouble. The Kiesau Drug Co.

A Thousand Dollars Thrown Away.

Mr. W. W. Baker, of Plainville, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks to this great remedy it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it. Sold by A. H. Kiesau.

Whenever an ulcer of any kind is slow in healing it should be closely watched, particularly if there is an inherited predisposition to cancer. Often times a malignant, stubborn ulcer starts from a boil, wart, mole, bruise, blister or pimple, for when the blood is tainted and the germs and seeds of cancer are implanted in the system, you cannot tell when nor where the deadly poison is going to break out.

S. S. S. cures these cancerous ulcers and chronic sores, by driving out of the system all the morbid and unhealthy matter that keeps the ulcer irritated and discharging. It purifies and strengthens the blood, enabling it to throw off the germs and poisons, thus checking the further formation of cancer cells, and when all impurities have been removed from the blood and system the ulcer heals naturally and permanently.

All ulcers, even the smallest, should be looked upon with suspicion and treated promptly before they become cancerous. S. S. S. is a purely vegetable remedy, a perfect blood purifier, and an invigorating tonic. Write for our free book on Cancer. The Swift Specific Co., Atlanta, Ga.

NOW READY! The Many Adventures of FOXY GRANDPA

Including all the merry pictures contained in the two volumes, entitled "Adventures of Foxy Grandpa" and "Further Adventures of Foxy Grandpa."

Mr. Schulz paid to me one day at lunch: "What do you think of a series of comic drawings dealing with a grandfather and his two grandsons? Let the grandfather be the clever one of the trio. In most of the other cases the young folk have been smarter than the old people upon whom they played their jokes. Let's reverse it!"

The next morning he came to my office with sketches for half a dozen series, and with the name "Foxy Grandpa" in his hand.

The success of the series in the New York Herald was instantaneous, for who has not heard of "Foxy Grandpa" and "Bunny"?

The jolly old gentleman, dear to grown people as well as children, might almost be called the Mr. Pickwick of comic pictures.
