Legislature Cuts Down Salaries for Made for The Next Year-Norfolk's the village corporation.

State Honse, Lincoln, April 3, 2:30 township, to Al Ommerman. p. m .-- W. N. Huse: House Roll No. 23 has just been signed.

A. B. ALLEN. The above telegram came this afternoon from the executive chamber. It is signed by the private secretrry of the governor, and explains itself. There is now a sum of \$100,000 in the state treasury to the credit of Norfolk.

The senate sifting committee has made a material reduction in the amount of salaries to be appropriated for the officers of the Norfolk hospital for the insane. The house provided for two years' salaries for the superintendent, physician, assistant physician, pathologist, steward and bookkeeper. The senate committee reduced this by cutting off one year's salary for the superintendent, physician and steward. The salaries of the assistant physician, the pathologist and the bookkeeper were eliminated entirely.

The committee also made reductions in other quarters.

Inasmuch as it will require about a rear to get the hospital in readiness for occupancy the reduction made by the committee will have no material bearing on the future of the Norfolk institution, and by the time the money now appropriated for salaries is used up another legislature will be in session and further appropriation will be available.

The change of taste in theatrical wide-awake and up-to-date management to force refined minstrelsy to the front inspired the Richards & Pringle firm of managers to organize the biggest minstrel combination in America, and embody in it the best forms of vaudeville and fragmentary acts that would find ready favor with all classes of theatre-goers; that they have succeeded in doing this is evidenced by the success of their big minstrel enterprise which is booked for a performance at the Auditorium Thursday April 9th.

The venture has met with phenominal success, and from a modest beginning some few years ago, the company been able to show before. Call and see now ranks foremost and is the largest them before placing your order. and the best minstrel organization in America. Forty performers furnish an evening's entertainment in which fun is up-to-date with the latest faces of type plenty and of the good wholesome kind. and does its work in approved style.

August Roewert and Herman Wohlfeil were here from Emerick Tuesday. They were much surprised at the condi-

tion of the roads along the bottoms. On account of the bad roads and sickness in his family, P. F. Zimmerman has deferred his trip to Alcester, S. D., where he expects to engage in the well business. He expected to leave this week.

August Wendt died Sunday morning at his home five miles northwest of town, of dropsy. He was 62 years of

age and leaves two sons and four daughters to mourn his loss, his wife amusements and the opportunity for having died some time ago. The funeral was held from the Lutheran church Tuesday afternoon, Rev. J. Hofman officiating, and interment was in the Lutheran cemetery. Mr. Wendt was an old settler and well known throughout the country.

Cape Haytien, April 3 .- The situation in Santo Domingo City is very critical. The commander of the United States cruiser Atlanta, which has arrived at Santo Domingo from this port, landed a detachment of fifty bluejackets to guard the United States consul general in that city. A shell fired by the Dominican cruiser Presi-

dente, which is on the side of President Vasquez, fell on the German consulate. The damage done, however, was slight, as the projectile did not burst.

A battle lasting three hours took place between the government troops and the revolutionists on the banks of the River Ozama. A hundred men were killed or wounded.

President Vasquez demands the surrender of Santo Domingo City, but the revolutionists are disposed to resist up to the last moment.

## The Persian Army.

The Persian army, according to Henry Savage Landor, the traveler, is a "painful sight," although there are some good Cossack cavalry which has been drilled by Russian officers. The infantry, however, is a ragged, lazy, shiftless lot. He asked permission to see the army drill. "We do not drill in summer; it's too hot," said the general. "Do you drill in winter?" "No; it's too cold." "Are the troops, then, only drilled in the autumn and spring?" Sometimes. They are principally drilled a few days before the shah's birthday, so that they may look well on the parade day before his majesty."
