M'FADDEN ACTORS MOBBED.

Irate Irishmen Continue Crusade Against "Row of Flats."

Philadelphia, March 31.—A panic was precipitated at the People's theater here when the actors in the farce "McFadden's Row of Flats" were mobbed by a throng of Irish-Americans. Eighteen men were arrested and held without bail, charged with inciting to riot. The disturbance occurred in the first act. While Arthur Whitelaw was singing "Mr. Dooley," he was greeted with a shower of eggs and some person in the audience discharged a pistol. Immediately there was a rush for the exits and in the excitement women and children were trampled upon. None was seriously injured, however. The police were notified and three patrol wagons filled with policemen were dispatched to the scene. The disturbers were inclined to resist arrest and there was a lively encounter, but the riotous element was quickly subdued. The magistrate before whom the prisoners were arraigned refused to accept bail for them.

GALE DRIVES SHIPS ASHORE.

Storm Works Havoc Ashore and Afloat at Newport News.

Newport News, Va., March 31.—Heavy damage ashore and afloat was wrought by wind and water during the storm which has raged in the past twenty-four hours. The storm culminated in a violent gale. The tide reached a danger point within two feet of the level of the floors of the piers. Many seafaring men stayed on shore rather than risk their lives on the waves. The schooner William B. Hall, bound up the James river to Norfolk, with 35,000 bricks, sank at her anchorage. The captain and crew of two men were exposed to the storm in a small open boat for hours and were rescued by the tug Alice, almost frozen. Two other deaths have been reported. The coal schooner Charles L. Davenport went ashore head on at Old Point Comfort. She will be a total loss.

FIRES POWDER FOR A JOKE.

Miner Causes Explosion Which Maimed Four Fellow Workmen.

Batavia, N. Y., March 31.—As a result of what was intended to be a joke, four men were frightfully burned and disfigured by the explosion of a twenty-pound keg of gunpowder in the mines of the United States Gypsum company, near Oakfield. The injured were Driller Fred Haywood and his assistant, Bert Sage, and two miners, who were engaged in shoving the small cars on which product from the mines is placed. The miners reached the point where Haywood and Sage were working. One laborer, it is said, saw a small quantity of powder lying loose near the powder keg and for fun touched his torch to it. A terrific explosion followed.

London Welcomes General Booth.

London, March 31.—London accorded William Booth, commander-in-chief of the Salvation army, a great welcome home at the Albert hall. The immense auditorium was packed from the floor to the roof. There was not a vacant seat in the building, which has a capacity of 9,600 persons, and in spite of the rainy night hundreds were turned away from the door. General Booth's appearance on the platform was the signal for a remarkable demonstration. The audience rose as one man, fluttering handkerchiefs and programs and cheering for several minutes, while the bands and the organ added a harmonious note to the thunderous welcome.

Mrs. Roosevelt Stormbound.

Washington, March 31.—Mrs. Roosevelt and her children, who are aboard the president's yacht Mayflower, en route to the Atlantic ocean, are stormbound at Riverside, about fifty miles down the Potomac river, where the vessel will remain until the weather clears. News to this effect was brought to Washington by steamer. The weather is quite heavy and considerable rain is falling, so the captain of the Mayflower decided that it would be more comfortable for those aboard to remain at Riversides than to venture at present into the wider waters of the river and bay.

Des Moines, March 31.—City and town elections were had throughout Iowa, except in some of the larger cities, which are under special charters. The contests were in nearly all cases nonpartisan, involving purely local questions and the results are no indication of the trend of political opinion.

The following list embraces all save the minor ones indicted: Mayor T. J. FLOOD IS BEYOND CONTROL

Task of Closing Hymelia Crevasse is Almost Hopeless.

LARGE FORCE STILL AT WORK.

Land for Miles Around is a Vast Sheet of Water and Railroad Tracks Submerged—Cut Levees Bring No Relief to Greenville.

New Orleans, March 31.—The carrying away of additional cribbing at the Hymelia crevasse brought the forces that have been at work here to the verge of abandonment of the attempt to close the break. Later in the day, however, it was agreed to continue the undertaking, though all hands are likely to be called off if the terrific current washes out the new lines of cribbing. The levee board let it be known that it was at the end of its resources and that unless the planters and the railroads could assure subscriptions amounting to \$50,000 it would be compelled to throw up its hands. The break is close to 700 feet in width, with the ends still steadily melting away. Two ridges between which the levee caved have prevented the water from spreading rapidly above and below, but the mighty torrent is filling the lakes and bayous to the rear and in the next fortnight the whole basin from the LaFourche to the lower limits of cultivated land in Plaquemine is likely to go under water, causing incalculable damage and much suffering. The Texas and Pacific railroad is now hopelessly involved with water running deep over the tracks, and with little hope of an early resumption of traffic if the crevasse is permitted to run until low water comes.

The Howell crevasse is beyond control and this has suspended all traffic over the Napoleonville branch of the Southern Pacific.

Vicksburg, Miss., March 31.—Mud boils appeared in the levee at Mayersville and almost the entire male population is working at the danger point. Telephone messages state that the danger is great and the citizens are complaining of the levee board's action in withdrawing the guards from the levees in that city.

No Change at Greenville.

Greenville, Miss., March 31.—There is little change in the flood situation. The cutting of the protection levee at the northern border of the town has given no perceptible relief in letting out the water. On the contrary, a rise is still in progress generally throughout the city. The big crevasse three miles south of the city continues to widen. Rescue boats are out in every direction and all the refugees brought to the city are being cared for. In Greenville the water is causing endless inconvenience and much damage, but the city and its inhabitants are not considered to be in danger, even should the water go much higher.

Persons who have returned from the crevasse south of the city report that a second break has occurred about 500 feet north of the first. The new crevasse is about 400 feet wide. This new opening will add to the volume of water that is flowing inland from the swollen Mississippi.

THE POPULAR COUNTY CLERK OF THE CITY OF SAN FRANCISCO.

HON. WILLIAM A. DEANE, OF SAN FRANCISCO.

Hon. Wm. A. Deane, Clerk of the city and county of San Francisco, was Chief Deputy in the office of his predecessor during the latter part of his term. He is a Native Son, having been born and raised in the city of San Francisco, and has for many years been prominently identified with the Order of Native Sons of the Golden West, as well as other fraternal organizations. He is an exceptionally popular young man, socially and politically also, as evidenced by the ballots cast at the late election, he having defeated his opponent for the office of County Clerk by nearly 8,000 votes.

In a letter written January 28, 1899, from San Francisco, to Dr. Hartman, Mr. Deane has the following to say of Peruna:

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen:—"I would not be without Peruna, as I have found it to be the best remedy for catarrhal complaints that I have ever used. I have tried most all of the so-called catarrh remedies advertised, and can conscientiously say that of all the remedies for catarrhal complaints recommended to me none have been so beneficial as Peruna."—WILLIAM A. DEANE.

CATARRH assumes different phases in different seasons of the year. There is, therefore, four quite well-marked varieties of catarrh. Winter catarrh, spring catarrh, summer catarrh, and autumn catarrh. In each of these varieties different organs seem to be the principal seat of the catarrh.

In the winter the catarrh is more frequent in the head, throat and respiratory

organs. In the spring the catarrh seems to chiefly affect the stomach and nervous system. In the summer the bowels suffer the most; while in the autumn the liver and kidneys seem to be particularly subject to the ravages of catarrh.

Of course it is not meant by this that catarrh is absolutely confined to these parts of the body during the season to which we have assigned them. Catarrh may attack any organ in any season of the year, but the liabilities are so much greater for catarrh to attack particular organs in certain seasons that these four distinct varieties have become recognized.

Mr. Robert Douglas, Homeopathic Specialist, cor. 6th and F Sts., N. W., Washington, D. C., in a recent letter to the Peruna Medicine Co., of Columbus, O., has the following to say concerning their noted catarrh remedy, Peruna:

"I have been a practicing physician for some years, during which time I have administered Peruna to a number of my patients for colds, catarrh and general debility with great benefit to them. I have paid particular attention to its effects, and I have absolute confidence in its curative qualities, and have no hesitation in giving it a most emphatic endorsement."

Hon. Clement M. Hammond is one of the best known newspaper men in New York City. He was for years editor of one of the principal papers in Hartford, Conn., later was a prominently connected with the New York Recorder and New York World. He has traveled extensively and is known all over the United States for his talent as a newspaper man. Writing to The Peruna Medicine Co., he says:

"For about six years I have had trouble every fall and winter with my voice. At times it has extended to my bronchial tubes and lungs. I think all this trouble came from whooping cough, which I had when I was about twelve years old, and which left me with catarrh. Since I have taken Peruna, my voice has been clearer than in over two years, all of which I am willing to testify to." Mr. Hammond's address is "The Arlington," 64 Montague street, Brooklyn, N. Y.

Peruna is an internal remedy—a scientific remedy for catarrh. It cures catarrh wherever located. It cures last, Peruna gives strength by stopping waste. By saving the mucus it enriches the blood. By cleansing the mucous membranes it preserves the vital forces.

No remedy can possibly supply the place of Peruna. Insist upon having Peruna. Take no other remedy. There is no substitute for this catarrh medicine. Send for a free book on catarrh. Address the Peruna Medicine Co., Columbus, Ohio.

Jealous Husband Is Slain.

New York, March 31.—Filled with jealous anger at finding another man being entertained by his wife, William J. Peppeler of East One Hundred and Nineteenth street, threw the visitor out into the hall, fought him from the third floor to the front door of the apartment house in which he lived, with the wife screaming and weeping at their heels, and was shot dead by the man who he thought had wronged him. This man was William Earl Dodson, a cashier in a stock broker's office. He fled and the police have sent out a general alarm for him.

She returned the fire, one shot passing through the fleshy part of one leg, below the knee, and lodging in the other. Argo was arrested.

Indiana Syndicate to Build Canal.

Indianapolis, March 31.—It is announced that a contract has been signed between the Indiana syndicate and the trunk lines running through Hammond, Ind., for Chicago, by which a canal will be built at once from Indianapolis three and one-half miles south to the Calumet river. Glass Workers on Strike.

Dubois, Pa., March 31.—All of the employes of the Mayler Glass factory at this place and the Fitzpatrick plant at Falls Creek are on strike. The men refused to accept a cut of 12 1/2 per cent in wages. It is probable that the factories at Reynoldsville, Brookville and New Bethlehem and perhaps others among the independent concerns in this field will be compelled to close for the same reason as the ones here and at Falls Creek.

LOWELL IS NOW A QUIET TOWN.

Great Bells on Cotton Mills Are Silent For First Time in Years.

Lowell, Mass., March 31.—Organized textile labor showed its strength in the shutdown of the seven largest cotton mills here and, not content with this, the textile council, the delegate body of the local unions, considered the advisability of compelling an even wider application of the shutdown order by bringing about a strike in the Lawrence hosiery mill. The council did not find the proposition well received and the outlook is not favorable for a strike of the knitters. This incident was the chief one of the first day of the unprecedented shutdown of the big cotton mills in Lowell. The operatives wore their best clothes and promenaded the sidewalks, no smoke came from the tall mill chimneys and there was an absence of the hum of industry which marks a rushing, bustling New England mill city. No trouble of any kind occurred at the mill gates through which some operatives passed at different times, and nothing occurred on the streets or at the meeting places of the strikers to bring forth criticism.

The persons at work in the mills were chiefly those in the finishing rooms and the offices, and President Conroy said that the council did not object to this. The council claims that the strike order is intended to stop manufacturing in all its stages, and all reports show that nothing was done except at the hosiery mill.

RETURNS FROM OTHER SHORE.

Montana Man Pronounced Dead by Three Physicians, Yet Lives.

Missoula, Mont., March 31.—After being dead for half an hour, as supposed by three reputable physicians, Vail Wood came to life again. The case is considered by Missoula physicians to be a remarkable one. Wood was undergoing a surgical operation in the hospital and was under the influence of anaesthetics. The operation had been concluded, when suddenly respiration ceased and his heart stopped beating. For half an hour the three physicians worked over him without a sign of returning animation, and then pronounced him dead. Suddenly he opened his eyes, and, in response to continued exertion on the part of the physicians, began to breathe. He is said to be on the road to recovery.

FOREVER A TEMPERANCE TOWN.

Court Decides That Property in Lyon, Neb., Cannot Be Used for Saloon.

Omaha, March 31.—Lyon, Neb., must forever remain a temperance town, according to a decision made by Judge Baxter, who held that Waldo Lyon, the founder of the town, had fixed it so that no property within the corporation limits can be used for saloon purposes by stipulating in every deed that if intoxicating liquors were ever sold upon the premises the property should revert to the original owners. The suit just decided was brought by Waldo H. Lyon, heir of Waldo Lyon, to eject Balthas Jetter from a certain lot in the town which he purchased and used for saloon purposes soon after the town went "wet" at a recent election. The defense held that the prohibitory clause in the deed is binding only on those negotiating with the original grantor.

Judge Baxter decided that the plaintiff is entitled to a writ of ejectment; that the property reverts back to him and that the prohibitory clause is just as good as it ever was and will be for all time to come.

Pennell Inquest Postponed.

Buffalo, N. Y., March 31.—Justice Murphy is to announce his findings in the Burdick inquest in police court today. No arrests will be made, no warrants will be issued. The court's findings will be interesting as a closing commentary on the famous case. The inquest was closed formally by Judge Murphy after hearing the testimony of Quinn and King, the former bartender and cashier of the Hotel Roland in New York, about Pennell's alleged statement to them of his willingness to kill one man, even if he went to the gallows for it. No other witnesses were called. The Pennell inquest was postponed indefinitely. The reason announced was the absence of witnesses from the city.
