

OPHTHALMOLOGY!

A Science for the Analysis of the Causes of Human Ills and How to Abolish Them.

Are you well? If not, ask yourself these questions. How long have I suffered? How much have I suffered? How have I been treated? How much did it cost? How much benefit did I receive? Why did the doctors fail? Were they treating the cause, or were they treating the symptoms? Have I consulted an ophthalmologist?

TRACKS WASHED OUT.

Damage Done by the Violent Storm of Last Night.

A violent electric and wind storm raged in this vicinity last night between the hours of 8 and 10 and was the most serious of the kind this season. The lightning flashed almost incessantly and the wind developed great velocity at times. The rain precipitated was not much as compared with the violence of the other features of the storm, and will be of benefit to growing crops.

The largest damage done by the wind was the blowing in of one of the large plate glass windows of the Eiseley block in the room occupied as a marble shop. A window was also blown in at Chas. Rice's place of business, one at the Masonic hall and several more throughout the city. One of the arc light lines was blown down at Fifth street.

In the country surrounding Norfolk there was much more damage than here. To the east and the north the rain fell in torrents. The Northwestern line was damaged by a washout between this city and Stanton and on the Bonesteel branch, between Niobrara and Verdel, the water rushed down off the hills and badly damaged about a mile of track, rendering the bed of the road unsafe. The passenger was about a half hour in crossing the damaged portion, being compelled to cross with great caution. One of the passengers described the sensation of crossing the washout as being like crossing a bed of dough. A large number of men have been set to work to repair the damage.

Coal! Coal!

We have now on tracks a full stock of Scranton hard coal, all sizes. Place your order now for your fall supply—May delivery—in order to get advantage of present prices. See us before placing your order. C. W. BRAASCH.

MADE TROUBLE AT THE JUNCTION

Jim Hagen is Dieting on Bread and Water in the City Jail.

Jim Hagen, a fellow who has quit railroading and taken to patronizing the places where intoxicants are sold, was before the police court this morning, and is being held for a while until the judge determines what might be done with him, meanwhile taking bread and water on his bill of fare as a regular thing.

He had been making trouble for the people of South Norfolk, especially the women, but in one house he attempted to enter there was a man and this man's fist flew out and took the unwelcome visitor where he was living and the officers next gathered him up for the consideration of the police judge.

BUSINESS OF THE COUNCIL

Estimate of Expenses for the Current Year.

BUY COATS; HELP ON UNIFORMS

Assist the Fire Department in Dressing up—Citizens on Koenigstein Avenue Will Grade the Street and Council Will Establish Grade.

The city council met in regular session last evening with Mayor Hazen and all the councilmen present except Councilman Tyler.

The minutes of the meeting of May 7 were read and approved.

The clerk reported that he had notified Mr. Bryant of the appointment of Mr. Rish as the appraiser for the city in the matter of Mr. Bryant's condemned property and he had promised to appoint an appraiser according to law. The clerk was instructed to see Mr. Bryant and request him to appoint his appraiser at once if he had not already done so, or the council would have to proceed with the condemnation and removal of the building.

The ways and means committee made a report of the estimate of the expenses for the city for the ensuing year, as follows:

Norfolk, Neb., May 19, 1903—Estimate made by ways and means committee of expenses city of Norfolk for the year ending May 2, 1904.

Table with 2 columns: Item and Amount. Includes GENERAL FUND, Salaries of officers (\$3,000.00), Office supplies (100.00), Printing (300.00), Fire department (100.00), Streets and alleys (1,200.00), Miscellaneous expenses (1,000.00). Total: \$5,700.00.

Less miscellaneous receipts \$ 910.00 Amount on hand 1,500.00 2,419.00

Amount to be raised by tax \$3,290.00

Table with 2 columns: Item and Amount. Includes Interest fund (2,670.00), Street light fund (1,500.00), Sinking fund, bonds due 1907 and 1911 (2,000.00).

Table with 2 columns: Item and Amount. Includes SUMMARY, General fund (\$3,290.00), Interest fund (2,670.00), Street light fund (1,500.00), Sinking fund (2,000.00). Total: \$9,460.00.

The report of the ways and means committee was accepted and ordered published.

Auditing committee reported that one car of coal had arrived and presented the bill for the same amounting to \$156.60, which was ordered paid.

Committee on fire and police reported that they had purchased eight rubber coats for the use of the firemen and that they had ordered them lettered. The cost was \$3.85 each for the coats and 35 cents each for the lettering. The report was approved.

The street and alley committee reported as follows:

The citizens living on Koenigstein avenue have proposed that they will grade that street from Thirteenth street to the railroad tracks at their own expense, provided the city establish the grade and also grant the use of the grader.

Your committee on streets and alleys recognize the generosity of the proposition and would therefore report by offering for adoption the following resolution:

Resolved, That we hereby authorize the city engineer to proceed to establish the grade on Koenigstein avenue from Thirteenth street to the railroad tracks, and also that we grant the use of the city grader to be used in making the grade.

G. W. WILKINSON, J. C. SPELMAN, A. H. KISSAU, H. A. FASEWALK, Street and Alley Committee.

The city engineer was instructed to establish the above grade under the direction of the street and alley committee.

The street and alley committee also reported many complaints regarding the manner in which the plumbers and the Norfolk Fuel and Light company were filling and leaving ditches on the streets; also that Mr. Osborne and Mr. Sheehan had torn up their unsafe sidewalks and wished to rebuild with brick but could not get the brick and asked for further time, which was given.

The clerk was instructed to notify the water commissioner of the requirements of the ordinance concerning ditches dug by the plumbers and others.

Mr. Wilkinson reported that someone has placed quite a dam of manure, straw, etc., across the draw above Thirteenth street and thought it should be removed. The matter was referred to the street and alley committee with power to act.

Committee on public works reported the water pipes in the city building and jail in need of repairs and that it would be a matter of economy to have electric lights placed in the jail and the hose rooms of the city building, also that repairs were needed on the large chimney at the pumping station. The repairs on the waterworks in the city building and to the chimney authorized. The committee was likewise authorized to have the needed lights placed in the city building on the meter rate, the electric light company to furnish the meter.

The water commissioner was authorized to purchase twenty 3/4-inch Crown meters.

The Morrell estate asked permission to erect a corrugated iron addition 9 by 18 feet, 9 feet high in the rear of the store building occupied by Buchholz & Co., for an unpacking room.

The petitions of the Morrell estate and of the Johnson Dry Goods company to erect corrugated iron additions was

granted, provided no boards be used in the construction of the additions.

A communication from the Woman's club regarding a public library and other matters was read and ordered placed on file.

A committee from the fire department requested the council to help defray the expenses of providing the firemen with new uniforms.

After having voted to lay the matter on the table until the next meeting the motion was reconsidered and the sum of \$125 was appropriated to help the firemen buy new uniforms.

The sum of \$25 was appropriated for the use of Mathewson post G. A. R., to help defray the expenses of Memorial Day observance.

On motion \$100 was added to the estimate of expenses made for the fire department.

The clerk was instructed to notify the Norfolk Light and Fuel company to remove a pipe which comes out of the ground at the corner of First street and second avenue, it being a nuisance as it is. The council adjourned.
