

## NO FURTHER AGITATION

President of Rabbis' Conference Reviews Kishineff Massacre.

## OFFERS FITTING RESOLUTIONS.

Public Advised That Further Protests Are Unnecessary—Thinks B'nai B'rith's Petition Sufficiently Covers Case—Proposes to Thank Roosevelt.

Detroit, June 30.—The annual meeting of the central conference of American rabbis, which was organized in this city fourteen years ago, opened last night in Temple Beth El, with three score rabbis from all parts of the United States present. Rabbi Joseph Silverman of New York, the president of the conference, in his message, took up the recent Jewish massacres in Russia and reviewed the protest of the B'nai B'rith society to President Roosevelt, and the president's action in forwarding the society's protest to the czar. Rabbi Silverman said that in view of the president's action it was wise to cease further agitation or further meetings for protest and urged the adoption of resolutions thanking President Roosevelt and informing the public that the exigencies of the situation at Kishineff have been met as far as possible. Such resolutions will be presented and considered tomorrow.

## AFRO-AMERICANS ISSUE ADDRESS

Say Country Will Go Down to Anarchistic Ruin if Lynch Law Continues.

Louisville, June 30.—At the annual session of the Afro-American Press association, held here, a strong address, dealing with the race question, was unanimously adopted for issuance to the country at large. The address calls on the people to enforce the principles of good government in the "present crisis in the history of the Afro-American people, when a systematic and thoroughly organized movement, begun in 1868, is working with malicious and malignant energy to utterly destroy the civil and political rights of those for whom we stand with sympathy."

"We resent the reiterated statement that this is a 'white man's country.' It was made in its inception and development by all of its people, irrespective of race, and the federal constitution specifically places all of its citizens on equality before the law."

"The persistent effort which has been made and is being made to nullify the suffrage guarantees of the fourteenth and fifteenth amendments to the federal constitution is fraught with as much danger to the peace and security of the federal union as was the effort to fasten slavery upon the country in 1860. We again direct attention to the effect produced by the actions of the mob spirit; we do this not because we are the victims in most part of the license, but because it has become an evil with which we must deal or ultimately go down to ruin in the mad overflow of anarchistic passion and fury. It is a national problem in which we have only co-ordinate interest."

The meeting was presided over by Cyrus Field Adams, assistant register of the treasury. The following officers were elected: C. F. Adams of Chicago, president; W. A. Pledger, editor of the Atlanta Age, vice president; E. J. Scott, editor of the Student, Tuskegee, Ala., secretary; William H. Steward, editor of the American Baptist, Louisville, Ky., treasurer.

The national Afro-American council will meet in Louisville tomorrow. From 300 to 500 negro leaders will be in attendance. Booker T. Washington is expected to deliver an address.

## Investigates Fencing of Lands.

Washington, June 30.—Special Agent Hendershot of the general land office has made a partial report of his investigation into the fencing of public lands in connection with the Dewey ranch, in northwestern Kansas. The investigation was made immediately after the killing of the Berries by the cowboys, the tragedy serving to direct attention to the extensive domain enclosed. Mr. Hendershot finds that there are some public lands included in these enclosures, but says it is claimed that there are sufficient gaps in the fences to relieve the owners from the charge of encroachment. He has been instructed to place the facts in his possession in the hands of the United States district attorney and to forward a complete report to the general land office in this city.

## Anaconda Smelter Shuts Down.

Butte, Mont., June 30.—The smelter of the Amalgamated Copper company at Anaconda was shut down for an indefinite period, throwing 1,500 men out of employment. The company announces that the shutdown is for the purpose of making repairs, but the men allege that it is done to forestall a probable strike to enforce a demand for higher wages. It is said the strike was to have started July 1. The mines at Butte, from whence the smelter drew its ore supply, will also close, affecting over 2,000 more men.

## Croatian Prisons Are Full.

Vienna, June 30.—One thousand peasants at Kopeyentz, Croatia, attacked the troops quartered there. The soldiers fired on the mob, killing five persons and wounding several others. Many persons were arrested and a battalion of infantry has been sent thither. So many arrests have been made at Warasdin, where disturbances also occurred, that the prisons are full and the authorities are using private houses and stables as prisons.

## DEWEY HEARING AT TOPEKA.

Sheriff McCulloch of Cheyenne County the First Witness.

Topeka, Kan., June 30.—The evidence to be submitted to the supreme court by Chauncey Dewey, W. J. McBride and Clyde Wilson, charged with the murder of the Berry family, is being heard here. Captain Claude Hamilton, special commissioner of the supreme court, is conducting the hearing. Witnesses for the Deweys are here from western Kansas. They say they were afraid to testify out there, and the case was transferred here. Sheriff McCulloch of Cheyenne county was the first witness. He told of seeing the Berry water tank to one of the Dewey cowboys, Beech Berry, McCulloch said, told him (McCulloch) that Dewey might send for the tank. This was to show that the Dewey party had a right on the Berry place. McCulloch swore that the feeling was strong against the Deweys and he deemed the presence of the soldiers necessary for the protection of the prisoner from the mob.

On cross-examination, McCulloch said that he saw no mob, and that the prisoners were allowed to retain their arms on the trip to Colby, where they met the soldiers.

Asked if he could name a single man who had any desire to hurt the prisoners, he said he could not "by actual observation."

## BOOKS AND PAPERS SEIZED.

Authorities Close Up a Mining Concern in New York.

New York, June 30.—Henry Altom, president of the Columbia Mining company, was arrested, charged with violation of section 363 of the penal code, which makes it a misdemeanor to neglect to file with the county clerk the names of the persons composing a company or a partnership.

Police Inspector McCluskey said that the arrest on a technical charge is said to have been due to a fear that the notoriety given the case might cause the men concerned to leave the city. All the books of the company were seized. These records will be gone over carefully and the company's customers communicated with.

The company has been advertising very largely in Italian and Yiddish newspapers. Among the names used in the advertisement were those of Samuel W. Thompson and Walter R. Elton, employees of the customs house.

## KNAPP DENIES CONFESSIONS.

Witnesses Are Examined With Little New Evidence.

Hamilton, O., June 30.—Eight witnesses were examined in the trial of Alfred A. Knapp for alleged wife murder. It is evident that the defense will try to upset the confessions made to Mayor Bosch and the sheriff and police, as Attorney Darby asserted in his opening speech that Knapp absolutely denied all knowledge of his wife's death and would continue to do so regardless of any possible testimony by the state. No new facts were brought out. The identification of the body was established by two witnesses and it was proven that soon after his wife's disappearance Knapp began to dispose of her goods and to tell people that she would never return.

## Redwine Not to Vacate Bench.

Jackson, Ky., June 30.—Considerable surprise was created by an announcement of Circuit Judge Redwine that he will not vacate the bench during the special term of court called for next week. The special term was called in order that a special grand jury might investigate the assassinations of James Cockrill and Dr. Cox, members of the Cockrill faction, who were assassinated prior to the killing of J. B. Marcum. The burning of B. J. Ewen's hotel and other cases of arson and the attempt to bribe Ewen to perjure himself during the trial of Jett and White also will be probbed at the special term.

More than 100 sailing launches covered the lower bay, for besides the boats against which the American crews raced, eighty German boats took part in seven other events.

## CROWDED ELEVATOR FALLS

Cage Drops From Fifth Story to the Cellar.

## SCORE OF PERSONS INJURED.

It is Believed at Least Two of the Victims of the Accident Will Die. Drunken Men Jump on Car and Cause Breaking of Shaft.

Pittsburg, June 30.—The breaking of a shaft on the first floor of the H. J. Heinz company's plant, in Allegheny, released the ropes supporting a large freight elevator, on which twenty-three persons were crowded. The cage fell from the fifth floor into the cellar, a distance of forty-five feet and every one on the elevator was injured. It is thought that at least two, John Churney and Mrs. Edward Holman, will die. When the accident occurred the elevator evidently was overcrowded. According to Dr. J. S. Phillips, physician at the plant, the antics of two men on the elevator, who were intoxicated, caused the disaster. Dr. Phillips says the two men crowded into the car after being told by the operator to stay off. Once on they commenced jumping, with the result that the shaft snapped and left the elevator without control. All but two of the injured were visitors to the Heinz plant.

An examination of the shaft and machinery showed that those injured narrowly escaped instant death, as the 750 pound weight at the side of the elevator shot to the roof of the building, ripped through the timbers at the top and fell half its length through the ceiling over the sixth floor. Had the timbers been a little less stout the weight would have fallen nearly sixty feet upon the mass of injured people huddled in a heap on the demolished elevator floor. The screams of the injured and the crash of the huge cage as it struck the bottom of the shaft brought hundreds of workmen and women to the rescue.

## NEW YORK IS FLOODED.

Water is Four or Five Feet Deep in Some of the Streets.

New York, June 30.—New York and vicinity as well as this part of the country was flooded by a downpour of rain, during which, in the course of a few hours, about half as much water fell as in the prolonged period of wet weather this month. The storm was accompanied by thunder and lightning. Streets in various sections of New York were inundated and it is expected the damage by water will be very great. The flood was most serious along the shore front, on South and West streets in the borough of Manhattan and in the Williamsburg section of Brooklyn, where much damage was done by floods twelve years ago. For a good portion of the day here the water in some of the streets was four and five feet deep, and many families were held prisoners in their homes.

## Reyes Prepared to Fight.

London, June 30.—The Morning Advertiser publishes an authority this morning a statement by the consul general of Colombia, concerning the situation between the United States and Colombia with regard to the Panama canal. The state is as follows: "The signing of the Hay-Herran treaty by the Colombian minister in Washington had been the object of American pressure and intrigue for many months. Every effort has been made to prevent the opposition party, headed by General Reyes, gaining sufficient power to defeat the passage of the bill, but General Reyes is in possession of sufficient armaments to proclaim a revolution and unseat President Marroquin. He does not desire that the United States should not construct the canal, but he does desire fair treatment. General Reyes considers that the terms of payment are insufficient and as a protest he is prepared to fight to the end."

## Says War is Imminent.

London, June 30.—The Belgrade correspondent of the Times says M. Petroff, the Bulgarian minister, has given an interview in which he declared that the sultan of Turkey and the Bulgarian government were opposed to war, but the situation was worse than at any time since last spring. Though most of the prisoners at Salonica have been released, 400 fresh arrests have been made and 3,000 refugees have arrived at Adrianople. The object, the minister is reported as saying, is to get rid of the Bulgarians in Macedonia in a way little short of massacre. The Turkish army can not mobilize in short of two months, whereas Bulgaria can mobilize 250,000 well armed men very quickly. It is possible, he thinks, that the sultan in order to prevent war may make concessions, but unless he does so a catastrophe is imminent.

## Strike at St. Joseph.

St. Joseph, Mo., June 30.—Promises of steady employment at good wages was not sufficient inducement for the railway to secure any great number of freight handlers. The demand of 25 per cent increase made by the strikers when they went out was refused by the roads. Kaiser's Inspection of Kearsarge Not Contrary to Rules.

Washington, June 30.—Secretary Moody received telegrams from newspaper editors and others inquiring as to published reports that Emperor William's inspection of the Kearsarge was sharply criticized in the navy department and was considered a breach of naval etiquette. In reply the secretary sent the following telegram: "No criticism of the emperor's inspection of the Kearsarge has been uttered by any responsible person in this department so far as I can ascertain. I am informed further by Rear Admiral Taylor, chief of the bureau of navigation, that the emperor's inspection is in no way open to criticism and can be considered in no light other than courteous attention on the emperor's part to us. It is a long established custom for foreign officials to inspect battleships of friendly nations and is regarded as an honor."

Media, Pa., June 30.—Six persons have been shot and severely wounded in a trolley car between Media and Chester. A negro believed to have been seeking revenge because the conductor of the car recently ejected him, discharged both barrels of a shotgun at the car as it passed a lonely spot in the country.

The car was crowded, and the shots, coming from the dark roadside, caused a wild flight among the passengers, most of whom were women. Four of the latter were among the wounded. They received shots about the arms and chest. The negro fired from a clump of bushes and in the excitement which followed made his escape.

The identification was made by Warden McLaughrey and the prison record clerk. Warden McLaughrey will ask Governor Lanham for Hewitt's pardon, so he may be tried for murder at the next term of federal court.

He still has two years to serve for horse stealing. Six of the twenty-six mutineers are still at large.

Hering officiated as first reader and Mrs. Ella Williams was second reader. Before each service was brought to an end Prof. Hering read a letter from Mrs. Eddy in which she expressed her love for her church and invited communicants to visit her at her home in Concord, N. H. No Present Prospect of a Settlement of the Tieup in New York.

New York, June 29.—Employer and employee in New York's labor war seem to still be far apart. The plan of the Civic Federation to bring the warring forces together has made no progress. The employers say they will not permit work to resume until the employees have accepted their plan, while the union men say they will not accept the plan until work is resumed. Seventy men, representing sixteen strong unions in the building trades, met and after a long discussion issued a statement to the effect that they would not even discuss arbitration until the lockout was lifted.

SUMMER COLDS  
Produce Chronic Catarrh.

Madame Isabella Ellen Bayens.

Madame Isabella Ellen Bayens, Life Governor Grand Lodge of Free Masons of England, in a letter from Hotel Saratoga, Chicago, Ill., says:

"This summer while traveling I contracted a most persistent and annoying cold. My head ached, my eyes and nose seemed constantly running, my lungs were sore and I lost my appetite, health and good spirits. Doctors prescribed for me all manner of pills and powders, but all to no purpose."

"I advised with a druggist and he spoke so highly of a medicine called Peruna, that he induced me to try my first bottle of patent medicine. However, it proved such a help to me that I soon purchased another bottle and kept on until I was entirely well."

Madame Isabella Ellen Bayens.

Summer colds require prompt treatment. They are always grave, and sometimes dangerous. The promptness and surety with which Peruna acts in these cases has saved many lives. A large dose of Peruna should be taken at the first appearance of a cold in summer, followed by small and repeated doses. There is no other remedy that medical science can furnish, so reliable and quick in its action as Peruna.

Address The Peruna Medicine Company, Columbus, Ohio, for a free book entitled "Summer Catarrh," which treats of the catarrhal diseases peculiar to summer.

## BARRINGTON UNDER ARREST.

Mrs. McCann Charges Him With the Murder of Her Husband.

St. Louis, June 29.—A warrant was sworn out by Mrs. James J. McCann, charging F. Seymour Barrington with the murder of her husband, James P. McCann. As the alleged crime was committed in St. Louis county, the city authorities gave Barrington over into the custody of Sheriff Hankon, and the prisoner was taken to Clayton and placed in jail.

The body of the man supposed to be McCann, which was buried soon after being discovered several days ago at Bonifis, was exhumed and an inquest was held by Coroner Koch of St. Louis county. The body was in a state of decomposition and the features were gone, owing to the ravages of vermin. Notwithstanding, Mrs. McCann positively identified the body as that of her husband, and partially by gold teeth.

Coroner Koch made a field inquest and returned a verdict that two bullet holes were found in the dead man's head and bullets were extracted corresponding in caliber to the caliber of the revolver found in Barrington's trunk at the Union station here last night. He also found a deep gash in the throat and a cut in the palm of the right hand, leading to the assumption that the man had been attacked first with a knife and in defending himself had seized the blade, which cut deeply into his hand, and that finally his throat had been cut and he was ultimately shot twice in the head. Barrington maintains his innocence.
