

PETITION WILL BE SENT

Delay in Forwarding Kishineff Protest is Only Temporary.

COUNT CASSINI KEEPS SILENCE.

Russian Embassy at Washington and State Department Officials Both Believe the Situation to Be Extremely Delicate.

Washington, July 2.—The position of the administration regarding the proposed petition from the Jews of the United States to the Russian government was made very clear and positive by a statement issued by the state department. This statement was inspired by newspaper publications reflecting the attitude of the Russian government in the event of the presentation of such a petition through the medium of the United States embassy at St. Petersburg, which had been brought to the attention of high officers. It has been given consideration here and at Oyster Bay before a decision was reached to make any declaration. The statement is as follows: "At the state department it was stated by a high official, in the absence of Secretary Hay, that the delay in forwarding the petition of the American citizens of the Jewish faith as to the ill-treatment of their co-religionists in Russia was solely due to the delay in furnishing the address to the state department by the petitioners. The state department would, of course, pay no heed to any statement purporting to emanate from the Russian government, unless such statement was made officially to our own government. The government has been particular to act only within the limits of propriety, but within the limits laid down it will not hesitate to give expression to the deep sympathy felt not only by the administration, but by all the American people for the unfortunate Jews who have been the victims in the late appalling massacres. In this connection it is pointed out by another officer, who disclaimed any intent to speak in his official capacity, that it seemed strange that the Russian government should choose this method of making a statement to the American people, when, by methods which are certainly the reverse of friendly to the United States, it has tried to make China break the faith with the plight to the powers to keep open door in China, and has endeavored to bar our people from access to Manchurian trade." The above statement was shown to Count Cassini, the Russian ambassador, but he declined to make any comment on it. A reply to this statement must be made under direct instructions from St. Petersburg. It is believed at the state department and the Russian embassy that the situation is extremely delicate.

Bulgaria Appeals to Powers. Vienna, July 2.—It is announced here that Bulgaria has sent a circular to its representatives abroad and minister at Sofia, calling attention to the attitude of Turkey, which, it declares, has not only failed to co-operate in carrying out the reform scheme, but is concentrating troops and artillery on the frontier, where the Turkish soldiers, under the guise of searching for arms, are perpetrating all sorts of outrages on the Bulgarians in the hope of provoking an international conflict.

This report carried a number of recommendations and a letter to the churches. It was amended to some extent and finally adopted. An address to the governing bodies of the three churches also was adopted and both will be sent out at once for consideration.

WYOMING MINE HORROR

No Hope of Finding Any of Entombed Men Alive.

RESCUERS ENTAIL DEATH LEVEL

Interior of Mine Said to Be a Mass of Flames—Corrected Lists Show That 167 Men Lost Their Lives in the Hanna Disaster.

Hanna, Wyo., July 2.—The startling information was received from an experienced miner and fire fighter, who penetrated the mine to the sixteenth level, that the workings below the seventeenth level was a mass of flames, and where a few hours ago it was believed the rescuers would reach the bodies of the entombed miners soon, it now appears the flames will add horror to the already terrible calamity, and that the victims will be burned. The efforts of those working below the surface are now confined to the work of walling up the entries and slope and putting up fire proof barriers which will prevent the flames from reaching the seventeenth and other levels above. This is taken as an indication that the rescuers realize the fruitlessness of further attempts to reach the entombed miners below the seventeenth level. Added to the horrors of the fire, which will doubtless destroy the underground workings, is the danger of another explosion, which may occur at any time. The situation is decidedly grave and the citizens are becoming alarmed for the safety of those who are working below the surface and also those engaged in hauling away the debris from the mouth of the slope. If the entries in which the fire is burning can be successfully walled and the fire confined to a few entries, there will be little to fear, but there is great danger of the flames breaking through into the entries from which the rescuers are moving rock and debris in an effort to reach the two score or more bodies known to be in No. 17 entry. Here the gas has accumulated in such large quantities that the rescuers can not remain long at a time and this gas, once it is ignited, will cause a second catastrophe. Additional fire fighters and volunteers are arriving on every train.

Man Working in Lumber Camp Accused of Crime in Lone Star State. Seattle, Wash., July 2.—Sheriff Russell of Grayson county, Tex., passed through here with his prisoner, T. R. Stogell, who is claimed to have attempted, in company with another young man named Pennell, to murder a farmer of Sherman, Tex. Will of Millionaire Contested.

Chicago, July 2.—A bill to secure a decree declaring void the will of Jonathan Clark, a millionaire contractor, whose fortune at the time of his death was estimated at \$2,000,000, was filed in the circuit court. The complainants are Eunice M. Smith and Fred Clark of Chicago, Emaretta M. Kauffman of Parkersburg, Ia., and Jonathan Yates Clark of Florida, all of whom are children of Jonathan A. Clark. By the terms of the will the entire fortune was left to Caroline Patterson. The complainants declare that in 1880, while their father was engaged in the construction of a house at Lake Geneva, he became infatuated with Caroline Patterson, at the home of whose mother he boarded while there.

He was arrested because the officers ascertained his stories conflict. Both belong to well-to-do families near West Plains, Mo.

London, July 2.—The Vienna correspondent of the Daily Telegraph says the resignation of the Austrian cabinet is semi-officially confirmed. READY FOR AUTO RACE.

Everything is Favorable for International Speed Contest. Bally Shannon, the Starting Point of Gordon-Bennett Race, July 2.—It is a fine morning for the international automobile race, although rain at one time threatened to fall. L. P. Moers, the American racer, was the first to arrive at the starting point. He expressed his dissatisfaction with the treatment of the roads, where in some places the oil used to lay the dust lies in pools, while elsewhere the motors raise clouds of dust. Large crowds are gathering here. The four competing teams will be as follows: England, S. F. Edge, S. J. Carroll and J. W. Stocks; France, Chevallier R. Be De Kniff, M. Farman and M. Gabriel; America, A. Winton, P. Owen and L. P. Moers; Germany, Baron de Caters, Foxhall Keene and M. Genailty. The complicated system of stopping the cars at entrances of towns of Carlow, Castle Dermot, Athy, Kildare, Monaster Ewan and Stradbally and deducting time taken in passing through the towns, the speed in which must not exceed about fourteen miles an hour, was shown by experiments to result in great confusion. Messrs. Winton, Moers and Owen are regarded as the dark horses in the race, but neither of them is much fancied. Jarrott and Gabriel generally figure as the favorites, although there is little or no betting. Foxhall Keene, on his German car, is expected to take all the chances that the extraordinary roads and the numerous curves afford.
