Republican Judicial District Convention.

To the republican electors of the Ninth Judicial district of Nebraska:

Notice is hereby given that a republican judicial convention will be held at Norfolk, Nebraska, on the 17th day of August, 1903, at 11 o'clock a. m., for the purpose of nominating a candidate for judge of the Ninth judicial district, and the transaction of such other business as may require attention before it. The several counties of said district are entitled to the following representation, based on the vote of J. H. Mcker (governor) in November, 1902:

Antelope.....10

Knock.....10

Pierce.....10

Madison.....10

It is recommended by the committee that no proxies be allowed in said convention, but that the delegates present be allowed to cast the full vote of the county represented by them.

By order of the committee.

GEO. F. BOYD, Secretary.

J. B. HARNES, Chairman.

This is an unlucky Friday and it has been an especially unfortunate day for Wm. Rhea, condemned to hang today at the penitentiary.

Cooler weather may be appreciated by the people, but it is not of the sort that produces that corn-growing noise that keeps persons from sleep at night.

It appears that the dust is to be given absolutely no chance in this section this summer. It no sooner feels that rising feeling coming on than nature's sprinkling can is turned loose and it is converted into mud.

The building of that Yankton and Gulf railroad through Norfolk will add materially to the importance of this city, and it is to be hoped that it is not one of the kind constructed of those fragile and uncertain substances—wind and paper.

Those who have criticised the Iowa republicans for a straddle should now turn their attention to the national editorial association which neither approves of the "yellow" journals nor of Governor Pennington's attempt to muzzle them in his state.

The latest report from Kansas is that 5,000 men are needed by the farmers to help harvest the wheat crop. Up to date it has not been shown that this section of Nebraska has any men, whom they would want, to spare to help out their neighbors on the south.

So far as recorded the Fourth of July casualties are fifty-two killed, 3,865 injured and a fire loss of \$400,625. This looks like a big showing, but this is a big country and has lots of people in it, and if statistics were made for any ordinary day in the year, these Fourth of July figures might be approximated.

The Nebraska City News says it does not believe in a partisan court, which may be taken to mean that it will join with the rest of the people in wiping out that fusion majority in the supreme court this fall. Certainly if it does not believe in a partisan court it may be depended on to see that a court's partisanship shall not be one way all the time.

Mr. Bryan and his daughter, Miss

Ruth, are arranging for a tour of Europe which is to be continued until about holiday time the coming winter—another evidence of republican prosperity. The representative of the common people could certainly not afford to take the trip unless he had money, and everyone has more money since democracy was emphatically sat down on by the people.

Governor Mickey takes the strong stand in the Rhea matter that, inasmuch as twelve impartial men have said that the man must hang and the court of last resort has approved the decision of the lower court, he has no business to interfere and commute Rhea's sentence to imprisonment for life, no matter how much he might wish to do so as far as he is personally concerned. Such a position does not leave much room for criticism.

The lord mayor of London, in welcoming the American fleet, toasted King Edward and President Roosevelt, paying the following neat tribute to this country's executive: "He is held here in the highest esteem and regard. The president labors most assiduously to promote the welfare of the United States and further, is actuated by a sincere desire to strengthen the bonds of friendship and concord uniting the two countries. We, on this side of the Atlantic, sharing with you, representatives of the great nation across the seas, in a common heritage and speaking the same language, honor your president for the grand work in which he is engaged, and which we are persuaded, is not only conducive to the best interests of the United States and Great Britain, but must advance the cause of civilization, freedom and justice the world over."

### ENDEAVORERS AT DENVER

Opening Session of Twenty-first Annual Convention.

CLARK PLEADS FOR EXPANSION.

Asks Each State to Multiply by Ten Per Cent and Offers Reward—Secretary Says that 64,020 Societies Now Exist.

Denver, July 9.—The twenty-first annual meeting of the United Society of Christian Endeavor opened here. The attendance at the opening session, though taxing the capacity of the immense tent which had been provided for the occasion, did not include as many delegates as had been expected, on account of delayed trains. It is impossible to even give a reasonable estimate of the number now in the city, but it will run into the thousands. The opening of the convention was preceded by the annual business meeting of the Christian Endeavor corporation, at which the officers for the ensuing year were elected and reports of officers submitted.

William Shaw, treasurer of the society, and acting secretary since the resignation of General Secretary John Willis Baser, read the general secretary's report.

Describing the growth of the movement he said: "From one society, in 1811, to 64,020 in 1903, from one denomination to more than eighty, from one city to every country, and from fifty members to 3,822,300, and 1,500,000 more in societies bearing strictly sectarian names, but patterned after Christian Endeavor and gaining inspiration from it. A net gain in number of societies in one year of over 2,000."

Rev. Francis E. Clark, president of the society, then delivered his annual address. Dr. Clark proposed that every state strive to gain at least 10 per cent annually for the next ten years, thus entering into a ten years' extension campaign. As each state secures its 10 per cent increase, a beautiful foreign banner from some distant land, representing the fellowship of the movement, will be presented to the state.

Cyclone in Wisconsin.

Darlington, Wis., July 10.—Heavy storms did considerable damage in this vicinity to the trees and standing grain. The storm at Argyle was almost a cyclone and one building was wrecked. Marshfield, Gratiot and other points report a terrific wind and rain storm, causing thousands of dollars of damage to crops, trees and buildings.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
