

POPE LEO IS STILL ALIVE

Operation Relieves Lung Congestion and Revives Hope.

PONTIFF GETS FITFUL SLEEP.

Dr. Mazzoni, While Declaring Danger is Imminent, Hopes to Stave Off End for Several Days—His Mind Continues Active.

Rome, July 8.—Pope Leo is sleeping this morning, but his head lies uneasy on the pillow. The alleviation brought about by the operation of removing the fluid from his pleura was followed later in the evening by a restless period and fresh doses of chloral, digitalis and caffeine had to be administered. Under their influence the pontiff fell into a slumber, which, however, was not very peaceful on account of the difficulty the patient has in breathing. Seeing Dr. Laponi always at his bedside, the pope just before falling asleep said kindly to him: "Now, it is your turn. You must sleep."

Throughout the vatican absolute calm prevails, the excitement having to a great extent died out with the revival of the hope after the announcement that the operation was attended with success.

Pope Leo remained sitting up in bed during the whole time of the operation without need of support. When Dr. Mazzoni substituted the pravaz needle with a potain aspirator the pope did not even notice it, going through the whole affair without emitting the slightest comment and without showing any feeling of pain. He was extremely pale, almost diaphanous, and somewhat tremulous. As soon as the operation was closed, his holiness felt much relieved. His eye, from an expression of languid melancholy, assumed its usual vivacity, illuminating the emaciated face. Dr. Mazzoni at once administered a cordial, which the pontiff took willingly, thanking him with a grateful look for the brave struggle to preserve his life.

Dr. Mazzoni has been beseeched by relatives of the pope and by journalists inquiring as to the result of the operation and his prognosis of the disease. To the Associated Press correspondent he said: "When one considers that the pope should be dead by this time, the unexpected may happen and there is still hope. His resting so long and maintaining perfect lucidity of mind means that notwithstanding the pneumonia, the affection of the kidneys and the difficulty of breathing, there is no poisoning of blood. Between being at the point of death and returning to what his holiness is today, there is certainly such a difference as to permit the most optimistic views. To properly understand the change which has taken place it must be considered that yesterday the conviction was so sure that he would die before the night, notwithstanding the contrary opinion of Dr. Laponi, those surrounding the pope insisted on having extreme unction administered. Evil tongues even insinuate that some members of Pope Leo's immediate circle counted on the bad effects that the function was likely to produce on a weakened organism, but the pope resisted splendidly. Indeed, he seems to have acquired fresh strength. I don't dare to say anything positive. It is very easy to be deceived, especially in the presence of such marvelous resistance. I merely venture the impression that there is a probability that the pope will die, but I do not believe this will occur yet."

Much significance is attached to an extended visit made by Cardinal Gotti, prefect of the propaganda, to the sick room, from which other conspicuous members of the sacred college are excluded by the doctor's orders. Cardinal Gotti's interview lasted twenty minutes, even the doctors and attendants withdrawing and leaving him alone with the pope. This has naturally opened a wide field of speculation. It is even asserted, on the authority of one cardinal, that Pope Leo expressed the hope that in the event of succession falling on Cardinal Gotti he might have the strength to take up and carry forward the great work thus confided to him.

McKnight Must Go to Prison.

Louisville, July 8.—The long fight made by J. M. McKnight, the former banker, to keep out of prison ended in defeat. Judge Evans has ordered the prisoner to be taken to Atlanta to serve his sentence of six years. McKnight has been about four years since McKnight began his fight to keep out of the penitentiary. He had five trials and there were four verdicts against him. His trouble with the government grows out of the wrecking of the German National bank.

TEACHERS GET DOWN TO WORK.

Trade and Technical Education Discussed at National Convention. Boston, July 8.—The members of the National Educational association, in convention in this city, got down to hard work. After the sightseeing of pre-convention days, after the rather general and formal meeting of the whole body and the initial session of the somewhat select national council, the great mass of the 25,000 teachers in town had their first real chance to personally participate in the meetings in which they are particularly interested. No less than eight of the city's largest auditoriums were crowded to the doors, as many sections held meetings intended for the specialist in education. Altogether, upward of sixty formal papers were delivered. In the evening the general session of the convention formed the climax of the day and Mechanics' hall was thronged with those interested in trade and technical education, which was the topic discussed by the four leading authorities in the country.

The national council committees reported on several items of business. A resolution was adopted requiring the board of directors of the national association to make the following appropriations: Fifteen hundred dollars for a committee of seven to inquire and report upon the salaries, tenure of officers and pension provisions of public school teachers of the United States; \$500 for a committee of five to investigate and report to the council on the subject of the industrial education in schools in rural communities; \$1,000 for a committee of seven to report on congress and the erection of a bureau of education into a separate administrative department and its adequate equipment and financial support.

NEW RECORD FOR AFRICANDER.

Wins Realization Stakes at Sheepshead Bay in Fast Time.

New York, July 8.—Capping a climax of victories unprecedented in the history of the American turf, Africander proved himself the greatest three-year-old thoroughbred of his generation. He has surpassed the triumphs of Hanover and Hermis, beaten the best handicap horses and stamped his superiority among his contemporaries in decisive style. He won the Lawrence Realization stakes, at one and five-eighths miles, at Sheepshead Bay, after a battle with probably the best collection of three-year-olds that has ever struggled for that classic prize. He overcame speed, courage, and endurance in his adversaries, and in spite of misfortune after misfortune in his own battle for the front, sprang to the lead in the very last strides, after racing at a speed that broke two records before the winning post was reached and set a new mark for future Realization winners. Africander won by a head from Golden Maxim, which was two lengths in front of Savable. The time was 2:45 1-5, faster by two and two-fifths seconds than the record made by Major Dangerfield last year.

Hay Confers With President.

Oyster Bay, N. Y., July 8.—Secretary of State John Hay is a guest of President Roosevelt at Sagamore Hill. Matters of grave importance to this country in its international relations were considered. The conclusions reached were not disclosed, both the president and Secretary Hay regarding it as inexpedient at this time to discuss in detail their work. To two subjects of serious concern most of their attention was turned. They considered in all its phases, the Russia question, particularly with the B'nai B'rith petition, which it has been determined will be forwarded to the Russian government, and the Alaskan boundary question, which next month is to be taken up for what is hoped to be final adjustment between the American and British commission in London.

This leaves the San Pedro company only 300 miles to build in order to complete a through line from Salt Lake city to Los Angeles.

TROOPS RULE EVANSVILLE

Quiet Restored After Riot in Which Nine Lives Are Lost.

COMMITTEE OF PUBLIC SAFETY.

Precautions Taken to Prevent Recurrence of Rioting—People Obey Orders of Mayor and Keep Off Streets. Troops Are Reinforced.

Evansville, Ind., July 8.—The city of Evansville is now under control of Brigadier General W. C. McKee and Mayor Charles Covert, assisted by a committee of public safety. The military forces will assist the police and patrol the city. All persons found on the streets who can not furnish a satisfactory explanation of where they are going will be sent to their homes under guard. The plans of the committee on public safety also provided for the relief of all the deputy sheriffs appointed by Sheriff Kratz. These men were relieved during the night and their places taken by special policemen. The policemen are armed with shotguns and revolvers and their instructions are to command the people to respect their authority.

Evansville is obeying the orders of the mayor and the people are keeping off the streets. There are nine dead, one dying, three others fatally hurt and twenty-one more or less injured.

Frank Lambie, the eighth victim of the battle in front of the county jail, died at Gilbert's hospital. Lambie was shot through the back and suffered intense pain until his death. He was twenty-three years of age and a stove molder by occupation.

Fred Kappler died from his wounds. The unidentified dead man has been recognized as Robert W. Hoch, who was shot in the head by a volley from the court house defenders.

Jacob E. Beck, a barber, living on Illinois street, died from his injuries. The bullet penetrated his brain.

The ninth death resulting from the riot occurred at 11:30, the victim being Charles Taylor, who was shot in the back. He was an onlooker and did not engage in the attack on the troops.

John Barrett is dying from his shot wounds received from the volley fired into the mob.

There are eight companies of militia and one battery. The 400 soldiers are armed with rifles and the light battery has a Gatling gun. The Terre Haute company relieved the Vincennes and Evansville companies in guarding the jail. A special train arrived bearing the three companies and the battery of artillery from Indianapolis, also a company from Martinsville.

Ball Player Delehanty Drowned.

Washington, July 8.—Word received in Washington leaves little doubt that E. Delehanty, the famous ball player, committed suicide or was accidentally drowned at Fort Erie, Ont., on the night of July 2. He left Detroit that day in a very despondent frame of mind, after several days of disputation. A letter received by Mrs. Delehanty says that an unknown man on the night in question had a difficulty with a bridge tender at Fort Erie and a moment or two later fell or jumped into the river. A dress suit case was recovered and in this was found baseball ticket No. 25, issued by the Washington club to Delehanty. Manager Loftus and the players here regard the proof received as conclusive of Delehanty's death.

May Be Missing Teacher.

Kansas City, July 8.—A young woman was found in a room on Fifteenth street whom the police believe to be Miss Jennie McQuade, the young school teacher who has been missing from Beatrice, Neb., for some time. Miss McQuade was seen yesterday prior to the request of relatives to find her, wandering about in the neighborhood in a dazed condition. If this be Miss McQuade, physicians assert that she has been drugged. She does not appear to realize who she is or where she came from. Miss McQuade came here to meet a young man with whom she was acquainted. The man in question has not been seen.

LONDON KEEPS LOUBET BUSY.

French President Begins Early on Round of Social Functions. London, July 8.—President Loubet was early astir and began an extensive round of functions. Long before the time fixed for M. Loubet's drive to the Guildhall, the gaily decorated route was crowded with people and lined with troops the whole way, and, in spite of the cloudy sky, the uniforms, flowers, flags and bunting combined to form as bright a scene as London had produced in many years. The bells of the city churches paid a welcome to the visitor and the cortege, as it passed on, was greeted with unmistakable cordiality.

Carriages containing the Prince of Wales and the Duke and Duchess of Connaught, preceded by Life Guards, drove up to the Guildhall, where the royal party joined the lord mayor and others awaiting the president.

Another detachment of Life Guards and outriders then rode up and amidst a good volley of cheers, President Loubet drove in. He sat in an open carriage beside Ambassador Cambon and wore a high hat, which he constantly removed, bowing right and left. The president jumped from the carriage, shook hands all around, and after an address from the corporation had been presented to him, M. Loubet proceeded to luncheon.

King Edward drove to the French embassy at 7:30 to dine with President Loubet. A great crowd of people outside gave him an ovation. The king was met at the door of the embassy by M. Loubet, Ambassador Cambon and the staff of the French embassy.

TO BE GUESTS OF NATION.

England Extends Warm Welcome to American Naval Officers.

Portsmouth, England, July 8.—With a boom of cannon the British fleet, on behalf of King Edward, welcomed the United States European squadron to Great Britain's naval headquarters. The gunboat Machias joined the flagship Kearsarge, Chicago, and San Francisco early in the morning and shortly after 8 o'clock signals began to flutter from the mastsheads of the American and British ships.

The latter, in obedience to a signal from Lord Charles Beresford, the commander of the channel squadron, formed two lines and down this lane of huge gray warships moved the Americans, their white sides gleaming in the sunlight.

National salutes were fired by each squadron, after which was fired an exchange of salutes to Rear Admiral Cotton and Vice Admiral Beresford. Subsequently the two admirals exchanged calls on the flagships, according to the usual custom, as each came over the side.

J., upon charges of robbery, forgery and obtaining money under false pretenses.

Ram Cannon With Crowbar.

Harlan, Ia., July 6.—One man killed, one man blinded and a boy maimed and likely to die, as the result of ramming a charge into a cannon with a crowbar, turned Harlan's Fourth of July into a day of gloom. Charles Kinsey tried to load the gun, using a crowbar as a rammer. The crowbar struck sparks in the cannon, causing an explosion. Kinsey is dead, Peter Jensen had his right eye burned out and George Anderson, a boy of eleven years, loses a leg and it is very doubtful if he will live.
