A week from Monday is labor day, and a holiday, but it is understood that the law creating the holiday does not forbid the politicians from laboring with those who are resting from their labors.

The Webster boom for vice president appears to be covering long distances and much territory. It may be that Nebraska can boast a candidate for vice president who will be elected as well as a presidential nominee who cannot be.

It is said that Henry T. Oxnard, president of the American Beet Sugar company which owns the Norfolk factory, has aspirations to become a United States senator from California to succeed Bard. Mr. Oxnard has proven himself quite a politician and if he is set upon representing California in the senate other candidates for the honor will find a formidable competitor.

If Judge Barnes was to attempt to file away all the good things that have been said of him by the papers of Nebraska since his nomination his office would be filled with scrap books. They have accepted the choice of the convention with a unanimity that speaks well for the campaign, and the anticipation is that of the unity of the party counts for anything, the republican nominee will be elected by a record majority.

It is noted that Mr. Porter was in evidence at the populist convention at Grand Island, but he offered no explanation of why he should not put it back, reserving that argument for the supreme court. He has had his full honor at the hands of his party, and if he can convince the supreme court that those marks and brands fees are his, his cup of happiness will be complete, and it is understood that he contemplates following ex-Governor Savage out of a state that treats the faithful with such scant courtesy.

The World-Herald should concede that if the railroads are powerful enough in Nebraska to dictate who the republican nominee for supreme judge should be, they are certainly powerful enough to have raised a candidate in opposition to Judge Sullivan before the fusion convention, had the judge's term of office and acts therein been unsatisfactory to them; but there was not another name mentioned, conclusive evidence in the minds of many, that the railroads have nothing to fear from Judge Sullivan should he be elected.

A Russian chemist has made a number of experiments to determine just which portion of the sugar beet is the richest, and finds that it lies about midway between the top and tail of the root and midway between the heart and the skin. Now it devolves upon some person of scientific turn to either develop the rich portion of the beet so that it will be larger than any other portion or ascertain just what conditions cause the sweetness to concentrate at certain points and undertake a course of propagation that will cause like conditions throughout the beet.

The Lincoln high school has adopted a system of lockers to prevent the petty stealing that has been going on there. The pupils may appreciate the convenience and the possibility of keeping their wraps out of the reach of other persons, but it involves, also, a system as to style. Girls who wear large picture hats, it is understood, will not find room in the lockers for them and will therefore be compelled to wear smaller hats, and conform to uniformity, in size at least. This is better, however, than having the headgear disappear, between the opening and closing hours of school.

A storm of invective has arisen since Colonel Bryan bought his fine Milwaukee team of carriage horses

and many great editors are accusing him of inconsistency and of an intention to abandon the cause of the common people. But there is nothing in it, nothing whatever. From the beginning of his career the colonel has held that nothing is too good for the common people, of which he is one and perhaps the chief one. So when he vindicates the right of the common people to drive \$1,200 teams and breed \$500 heifers, he is carrying out his original principles.—State Journal.

ATCHISON GLOBE SIGHTS.

A blind horse ought to know enough not to run away.

How the plugs like to act as swells at the summer resorts!

People like a healthy woman better than they like a pretty one.

An Atchison man is so accommodating that he goes by the name of "Willingless."

People are never so careless as when they have a big lot of explosives around.

Somehow it is hard to look up to and admire a man who takes little short steps.

Some people have such a disagreeable memory that they can remind you of things you did a thousand years ago.

What has become of the old fashioned woman who said, when one of her boys was hurt, that he bled like a stuck pig?

In the average family, the skeleton is unpaid bills, and the closet is the bill collector, who knows how old the bills are.

We imagine that running a boarding house is a good deal like running a newspaper, with three editions every day in the year.

This may not be news: A man died, and his nephew said: "My uncle is dead, and he left everything he had in the world to an orphan asylum." Being asked if the old man left much, the nephew replied: "Yes, fourteen children."

A long time ago, Martin Veth was a Globe carrier. When he didn't have, Mrs. DeForest, who then had charge of the boys, would box his ears. He is now a Catholic priest, with an education finished in Rome, and when Mrs. DeForest speaks to him now, she must call him "father."

It is related that a railroad superintendent lately visited Arkansas, and drove through the country, looking at a large tract of land. Stopping at a little hotel one day, a barefooted young woman took him upstairs to a dingy room. The young woman kept looking at him and finally said: "Are you a traveling man? I can't be right certain. But if you are, we have better rooms for traveling men."

The Battle Creek ball team won two games in three hours and five minutes Sunday. The first against Norfolk by a score of 6 to 5, and the second against the Tilden high school by 11 to 3.

The double-headed convention held here last Saturday wasn't much noticed. An Omaha patent medicine speaker attracted the crowd to the corner of Main and Third streets.

Rev. J. Hofman, Prof. Doering and Albert Manty returned Wednesday from the Lutheran state conference at Hampton. The next state conference will be held at Battle Creek.

The business men and especially those conducting restaurants and refreshment houses are preparing to make it comfortable for those who

come to see the horses on their trials at speed next week.

It has been very silent in town during the dry weather. There were not many horses to be seen on the street except race horses, coming in to get acquainted with the track for the meet on the 2nd, 3rd and 4th of next month.

Grandpa Neuwerk, who displaced his hip two weeks ago by a fall in the house, is improving slowly. On account of his age the doctor was unable to replace the dislocated joint properly and he will probably be a cripple the rest of his days.

Mrs. F. Haesmeyer and Mrs. Hy. Brechtloff of Emma, Mo., visited for a week at the home of their sister, Mrs. John Brechtloff, and left for a visit with relatives in South Dakota. Their sister here is still very weak from the stroke of paralysis of some time ago.

Save the Children.

Ninety-nine of every hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 75 Central St., Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he was a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet.

A Physician Healed.

Dr. George Ewing, a prominent physician of Smith's Grove, Kentucky, for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend it to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success."

LAWYERS DISCUSS TRUSTS

Committee on Law Submits Report of a Radical Nature.

THREE REMEDIES ARE PROPOSED

Combinations Are Driving Out the Small Dealers—Policy is to Monopolize Trade and Commerce and Prevent Free Competition.

Hot Springs, Va., Aug. 28.—At the morning session of the American Bar association the committee on law submitted its report. On the subject of trusts the report says this is the important question now before the American bar. It says combinations are rapidly driving out of business the small dealer and the small producer, and that the modern combination's primary object is to control trade and commerce in plain articles of production and to submit a more or less perfect monopoly in place of more or less free competition. The report proposed the following remedies:

"First—We can tax them to death; or, if that is too radical a remedy, we can tax them until their growth and enlargement is impeded.

"Second—We can compel them to render better and cheaper service.

"Third—If necessary, the state itself can enter the industrial field as a producer and restore the force of competition to its former supremacy by becoming itself a competitor of trusts."

Hon. Charles F. Manderson of Nebraska said the report was calculated to rend the association asunder. There was very animated discussion over a motion to table the report. Finally a resolution offered by F. N. Judson of Missouri, directing that the report be committed, with instructions to the committee to report remedies for illegal combinations which threaten commercial intercourse, was adopted.

Yesterday's Quotations.

Chicago, Aug. 27.—Prices in the grain pits showed considerable improvement today. Weather advice reports of damage to crops in Nebraska, strong outside markets and cables all made for an extremely strong wheat market and but for the great amount of long wheat that came out, a much larger advance would have been recorded. Saved From Terrible Death.

The family of Mrs. M. L. Bobbit of Largerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. It is the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Asa K. Leonard's drug store.

Small as it was it did me more good than calomel, blue mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly a good pill."

Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in stomach and liver troubles. They not only relieve you, but cure. 25c, at Asa K. Leonard's drug store.

ECZEMA SETS THE SKIN ON FIRE

No disease causes so much bodily discomfort, or itches, and burns like Eczema. Beginning often with a slight redness of the skin it gradually spreads, followed by pustules or blisters from which a gummy, sticky fluid oozes which dries and scales off or forms bad looking sores and scabs. It appears on different parts of the body but oftenest upon the back, arms, hands, legs and face, and is a veritable torment at times, especially at night or when overheated.

In 1866 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. As time went by it grew worse, and I was convinced that I was afflicted with Eczema. I consulted several physicians and a number of specialists, and used several external applications, receiving but slight temporary relief. In February I decided to try S. S. S., and in less than a month I experienced a change for the better, and by May all symptoms had disappeared, and I found myself entirely cured, and have had no return of the disease since. W. P. BRUSH, Manager Stockman's Advertising Agency, Station A, Kansas City, Mo.

The cause of Eczema is a too acid and general unhealthy condition of the blood. The terrifying itching and burning is produced by the overflow through the glands and pores of the skin of the fiery poisons with which the blood-current is overloaded. While external applications, such as washes, soaps, salves and powders aresoot hing and cooling they do not enter into the blood itself or touch the real cause of the disease, but S. S. S. does, and purifies, enriches, and strengthens the thin acid blood and cleanses and builds up the general system, when the skin clears off and Eczema with all its terrifying symptoms disappears. Send for our free book on the Skin and its diseases. No charge for medical advice.
