The Tilden team is one of the strongest baseball aggregations in this part of the state, and if Newman Grove stands up before them today it will win a victory worth having. F. L. Putney had charge of the team and although he was not doing any boasting he was quite confident of the result of today's game.

Shortly after noon a sister went out to call him to dinner, and she was followed by the little girl, unbeknown to anyone. She secreted herself in the tall weeds, with the probable intention of giving her brother a surprise when he drove up, little realizing the great danger that the approaching mower meant to her.

The brother did not see her and did not know she was in the vicinity until she screamed when the mower struck her. She fell forward on her face and the sickle slashed her left leg upward, taking out the entire flesh of the calf and cutting off the small bone. The brother succeeded in stopping the mower before the sickle passed over her body.

Dr. Walters was summoned and he found the little tot in a sad state, but the mangled condition of the flesh had caused the severed artery to contract quickly and there was very lit tle loss of blood and not much pain. The doctor did what was necessary for her, and he hopes that she may recover without having a stiff ankle, but the chances are that she will be troubled the remainder of her life.

After the sermon and exercises in the church adjournment was taken to the school house adjoining where, amid floral decorations, tables had been laid and there was an abundance of good things to eat prepared by the women of the congregation, and

all were served. After the supper Rev. Mr. Mueller's surprise and embarrassment suffered another shock when he was presented with a handsome gold watch and chain, the gift of the deacons of the church, and a comfortable study chair, the gift of ministers of the Nebraska district.
