

POND HELD THE TELEPHONE.

Fellow Took Possession of the Toll Station at Stafford.

LORD OF SYSTEM LAST NIGHT.

For Two and One-Half Hours Pond Interested the Night Operators.

Neither Norfolk Nor Omaha Could Jar Him Loose—Operator Absent.

Neligh, Neb., Oct. 9.—Special to The News: There was nothing doing on the telephone toll line from this place west for a good part of last night—or rather there was everything doing. The toll office at Stafford was taken possession of by a fellow named Pond who was "about 17 sheets in the wind" evidently, and he held the line against all comers for about two and a half hours.

The operator here tried to jar him off, Norfolk tried to get a line to O'Neill, and finally the head officers at Omaha were appealed to to get possession of the line but were absolutely powerless. Pond had a cinch and he seemed to be perfectly aware of it and was determined to talk to everyone in Nebraska and Iowa with whom he could get connections.

It seems that the operator at Stafford had gone into the country and left the station in charge of his son, but Pond walked in and took possession. He kept the operators all along the line hopping until they realized his condition after which they refused to serve him, but that did not prevent him from butting in continuously to the demoralization of all other business.

It was an unique condition of affairs in the telephone history of the state, and one that the operators along the line do not care to have repeated.

The visitors were given a cordial reception by the local military organizations and by representatives of the district and federal governments.

Tonight they will be given a reception and tomorrow a trip will be taken to Mt. Vernon and Arlington.

TO BRING RAILROADS TO TIME.

Grain Interests in Omaha and Other Cities Plan on River Traffic.

Omaha, Oct. 9.—A project involving the shipment of grain between Omaha and other Missouri river points by barges was launched by local grain interests. The move is one of wide interest and is calculated to break down the discrimination in rates which the railroads have made possible. The new undertaking has been underway for some time and public announcement of its details are made simultaneously at St. Louis, Kansas City, St. Joseph and Omaha. The initiative in the matter was taken by Kansas City for the avowed purpose of relieving the freight congestion at that point, but in reality to force the railroads to show their hand in the fight to secure lower freight rates. Under the new project it is proposed to run a line of barges between Omaha and St. Louis, where a connection can be had with the river service from New Orleans, Pittsburg and other points. Supporters of the new movement are found in Omaha for the reason that the present alleged discrimination in freight rates in favor of Chicago makes the creation of a grain center at Omaha an impossibility.

Start Up with Nonunion Men.

Colorado Springs, Oct. 9.—The coal mines north of this city were successfully opened with nonunion miners, about 100 men reporting for work, which is about one-third the usual number. The Turkish troops there are commanded by Ibrahim Bey, who has asked the military authorities at Salonica to send him two mountain guns. No such guns are available.

Sofia, Oct. 9.—The feeling is more hopeful than for some months past. It is based on reports which, while unconfirmed, appear to be well founded. These reports are to the effect that the government is preparing to discharge the recruits announced for three weeks' drill, and that the Turkish and Bulgarian governments have reached an understanding on the question of remobilization, whereby Bulgaria will release 20,000 men and Turkey 40,000.

Fever the Chamberlain Plan.

Capetown, Oct. 9.—Interviews with men in the South African colonies show that the general trend of opinion strongly favors Mr. Chamberlain's Glasgow program. Reports from Bloemfontein, Orange River Colony, Pretoria, Natal and Port Elizabeth, show that the proposals are keenly discussed everywhere. It is expected that preferential duties in the case of South African wines and fruits will greatly benefit these industries. The Dutch, who essentially are protectionists, will support the principles of reciprocity.

Rice, a prominent physician who, crazed with liquor, shot and killed policeman Silas Martz, who was trying to arrest him, drove the clerks from a drug store and defied a crowd of 3,000 people for more than two hours. He is slowly recovering his mind in the county jail. All talk of lynching has died out and the coroner has ordered a jury and will investigate the crime. Policeman Slater, who was accidentally wounded in the attempt to capture Rice, is improving and will probably recover.

The new association will embody the views and ideas expressed by Mr. Parry in his annual address before the New Orleans convention of the National Manufacturers' association. It will begin a campaign of education and have a defense fund to fight organized labor. They were found later in a car bound for Chicago. The dead highwayman was apparently forty-five years old. He wore clothing of the best make and his hat was purchased from a firm at Des Moines, Ia.

SLUMP IN HOG PRICES

Almost a Dollar Knocked Off Since Monday.

IMMENSE LOSS TO SHIPPERS.

Said to Be the Intention of Packers to Force Hogs Down to \$4.50 and Hold Them at That Figure—Farmers Hard Hit.

Chicago, Oct. 9.—With a crash that recalled the days of 1893, the hog market broke and the wildest excitement prevailed. A break of from 50 to 60 cents on light grades and from 40 to 50 cents on other grades was registered during the day. It is the first step to put hogs on a 4 1/2 cent basis, according to advisers. It means a loss of hundreds of thousands of dollars to the shippers and farmers.

Since Monday morning the whole market has broken from 70 to 90 cents on heavy hogs and an even \$1 on lightweights. Furthermore, there were 11,000 hogs unsold when the market closed. The condition of the hog market has not been so bad since the Cudaly failure in 1893. It is the direct result of the closing of the lard and ribs corner operated by Swift & Co. in cleaning up that deal it was necessary to hold up the high prices which have prevailed in the past year. During that time hogs sold as high as \$8 and ranged between that price and \$6. Now it is the intention, it is declared, to put the market on a firm \$4.50 basis.

In the market Swift bought heavy packing hogs for \$4.75 to \$4.80, while Cudaly bought them for \$4.75. At that rate it means a loss of \$100 to \$150 a car to shippers who bought at the old rates. This will entail a heavy loss on the farmers if the plan succeeds. They have reaped a harvest from the high prices in the last year or two and the whole country has gone crazy over the hog market. The country, it is said, is filled with hogs being fattened to take advantage of the high prices.

Investigating Charge of "Graft."

Chicago, Oct. 9.—The committee appointed by the city council to investigate charges of "graft" in the city hall has begun work. In calling together the committee, which is composed of aldermen, Chairman Herrmann promised a "full, fair and impartial" investigation. The committee had so soon retired for a brief executive session than James Quinn, city sealer, appeared on the scene and indignantly announced that he wanted to be investigated. He referred to newspaper charges that his brother drew a salary from his department, although doing no work, and that he protected handbooks, and alleged that the charges constituted a political move, pure and simple. Building Commissioner Williams was the first official sent for by the committee.

Takes Same View as Jury.

Des Moines, Oct. 9.—The supreme court of Iowa decided that the conviction of S. E. Carter of Boone county for grand larceny was just and that the conviction should stand. Carter had stolen twenty-three head of cattle from Ira Luther, in Boone county, and had driven them to Kelley, Story county, where they were shipped for Chicago. Carter claimed that he had met a man on the road who sold him the whole bunch of cattle, but the jury would not believe him. The supreme court also affirmed the case of the state against the Bradford from Des Moines, in which he was given a sentence of seventeen years for holding up a man on the streets of Des Moines last year.

New York Politics.

New York, Oct. 9.—Although professing his determination to contest the right of the Republican and Citizens' Union city conventions to displace him as their nominee for comptroller, Edward M. Grout has made no appeal to the courts thus far. The filing of the amended ticket of the Republican organization with the board of elections was made without protest from either Mr. Grout or Mr. Farnes, and thus one step in the process of substitution has been accomplished.

ment, on account of the great number of deaths that occurred during the rebellion, was held here. There were forty-six members present out of a total enlistment of 1,380.

Fugitive Consul Arrested.

San Francisco, Oct. 9.—When the Japanese steamer Nippon Maru came out of quarantine an important arrest was made by Secret Service Agent Hazen. The person taken into custody was J. P. Arondez, a fugitive consular representative of the Netherlands, for whose apprehension the diplomatic and criminal machinery of two nations was put into motion. Arondez was stationed at Batavia, Java, in the governmental position named. Some time ago he disappeared and it is alleged his accounts were found to be short \$15,000. It was believed that he was coming to the United States, and Secretary Hay was requested by the minister of the Netherlands to assist in securing the ex-consular agent. Secret service officers everywhere were notified. When Arondez was arrested \$11,500 was found in his possession and the money will be given to the Netherlands.
