It is reported from Vienna that the assassins of King Alexander and Queen Draga of Serbia have been paid off, receiving from \$400 to \$10,000, for their participation in the affair.

Perhaps that threatening attitude between the forces of Russia and Japan will be maintained until war actually results, then there will be something doing that will almost exceed the extraordinary session of the American congress in point of interest.

Magazines of general circulation charge from \$150 to \$500 a page for advertisements in one issue of their publications. If the average country merchant was confronted with such terms for his advertising he wouldn't do a thing but go straight up and never come back, and yet advertisers make it pay, because many of them keep at it year in and year out.

Republicans who have been out in the political field over Madison county continue to report that everything is favorable to a sweeping republican majority in the county on election day, but emphasize the necessity for work calculated in interesting the voters to attend the polls on election day. They are confident that if the republicans can be influenced to cast their ballots there need be no fear over the outcome.

Admirers of the Nebraska national guard will tip their hats to the boys when they return home for their success in holding their own against the attack from the regulars during the maneuvers at Fort Riley. A militia regiment that can hold its own in an attack from United States regulars at play may be depended upon to more than hold its own against the soldiers of any country under the sun in the event of a real war game.

Perhaps if the pure food commissioner keeps on the trail of the men who are making and selling adulterated goods, the people of the state will in time feel assured that when they soak their grub in vinegar it will not be acids and water, and when they use horse radish it will not be made of turnips, and perhaps in time they will be able to eat wieners without the suspicion that they are absorbing some of the neighbor's dog.

The Ladies' Home Journal receives \$1,000 a column from its advertisements, and \$6 per agate line for readers. The advertising published for October under the column rate amounts to \$42,000, and that under the line rate, \$78,408, or a total of \$120,408 for one issue and \$1,444,896 for a year's advertising in twelve issues. These are figures that may well be calculated to make the average advertiser's eyes protrude from their sockets, and would if he had to pay them.

The establishment of a new voting precinct, that of Meadow Grove, in Madison county since the last election is creating a basis for an interesting rivalry between the new precinct and that of Jefferson, of which it was formerly a part. Each claims to have more votes than the other, and each is likewise claiming credit for having the strongest republican majority. The republican majority of the old precinct was unquestionable, but there seems to be a question now as to where the greater part of it was located, whether in the portion that is now in the new precinct or

in that part that now remains under the name of Jefferson. Several bets have been made on the question in regard to the number of votes and the percentage of republican votes that will be cast. Enthusiastic workers in each precinct are out with the determination to make the best showing for their respective precincts.

It is quite the thing, in European countries, evidently, for the national cabinets to hand in their resignations, the latest to fall into line being the Norwegian cabinet, and rumors were out to the effect that the Italian cabinet followed suit but this was later denied. Just what sort of a climax is created by these resignations is not fully realized in this country, where a resignation of a cabinet officer is not considered at all serious, but the fact is apparent that there is something doing in a European country when the government advisors decide to turn in their portfolios.

The report comes down from Jefferson quite persistently that there is at work a movement there among the republicans favorable to knifing any candidate on their ticket hailing from Norfolk. The rumor is emphatically and authoritatively denied by prominent republicans of the precinct, and it is the judgement of some that the real animus of the rumor is to injure Jefferson's one candidate on the republican ticket, for if such a report was credited in Norfolk there would undoubtedly result a counter demonstration that would result in Jefferson precinct never having a hope of electing a candidate on the republican ticket. It can be seen that it would be a ridiculous proposition for the 160 republicans of Jefferson precinct to attempt to even up alleged wrongs with the 500 men voting the republican ticket in Norfolk, for the assumed or probable delinquencies of some of their number. It is alleged that the rumor has been started by a man who probably never voted the republican ticket in his life. Whatever the ground for the rumor, Norfolk republicans are placing no faith in it.

ATCHISON GLOBE SIGHTS.

Honestly now, taking every phase of life into consideration, aren't you lucky?

Promise a child anything, and it will expect the promise kept today. If you never expect to keep a promise, make it to the old people.

When a woman spends a particularly long time on her knees, saying her prayers at night, her husband may know he has behaved worse than usual that day.

We suppose there are women in heaven who have been there five hundred years, who are still wondering why their husbands don't come, half suspecting that some woman is detaining them.

An announcement like the following is due in Atchison: "Mary Jane Smith announces the engagement of her father, Levittus James Smith, to Mrs. Mark Blank. No objections to the match."

We are so old fashioned that the grief of the woman who sits down in the kitchen and cries, impresses us more than that of the woman who first puts on a pretty tea gown, arranges the cushions on the parlor lounge, and turns the lights down low.

Church White, relates that in the early days of Whiting, preparations were being made for a wedding. "A man went into the store to buy a present. "It will be quite an affair, I suppose," the store keeper said. "Not much," the customer replied, with a sneer, "only two kegs."

The women should complain less about their lot in life. After they have eaten a big Sunday dinner, they have to hustle around, and do the dishes, and this activity is good for their health. A man having no dishes to do, gets sluggish sitting around and becomes miserable. We fear that the women do not appreciate all their advantages over the men.

OUR NEIGHBORS.

Poor old Beatrice, dead as a last year's hollyhock, the dry rot of decay has spread even to the remotest limits of the retail business and no merchant in the town advertises—which is the best evidence in the world that cold, clammy death has settled on the business men of that once thriving locality. A resident of Beatrice writes to the editor of the "Sun" to make inquiry as to where he can purchase a few quarts of molasses without sending to Louisiana for it. The editor of the Sun had to give it up. No doubt hundreds of Beatrice people are sending to Omaha, Lincoln, St. Joe, Chicago or Kansas City for merchandise that could be bought cheaper at home, but they do not know that it can be had at home at any price, because the merchants do not advertise. Ninety per cent of the going away from home to buy is the fault of the local merchant who does not meet the advertising competition of the big city dealer by investing in printer's ink himself.—Nebraska City Tribune.

MEN OF MONEY MEET

Bankers' Association Convened for Business at Frisco.

PRESIDENT HARDY'S ADDRESS.

Head of the Society Says Bankers Should Not Make Speculative Ventures Nor Offer Too High Rates of Interest for Time Loans.

San Francisco, Oct. 22.—Standing in the midst of stage settings lavishly adorned with the choicest of California flowers and greenery and drapings of the national emblem, President Campbell Hardy called to order in the California theater the twenty-ninth annual convention of the American Bankers' association. The attendance was highly pleasing to the officials of the association. The lower floor was well filled and many delegates were in the upper galleries.

President Hardy in his address spoke of the condition of banking generally throughout the United States and said bankers should not make speculative ventures nor offer too high rates of interest for time loans.

The opening session was enlivened by a very spirited controversy on the question of the association branching out into the fidelity insurance business for the purpose of bonding employees and the issue was made more interesting by the presentation of diverse reports on the subject.

The nominating committee will make the following nominations to the convention: President, J. F. Biscopley of Milwaukee; first vice president, E. F. Swinney of Kansas City.

RECORD FOR BATTLESHIPS.

Missouri Proves to Be Fastest Boat in Its Class in the Navy.

Boston, Oct. 22.—The new battleship Missouri, steered by Captain F. M. Howse, proved herself the queen of the seas in her class in a speed trial trip over the Cape Ann course with weather conditions of a considerably handicapping nature. Steaming over a course of thirty-three knots and return, the battleship made the trip in 3 hours 39 minutes 24 1/2 seconds, an average speed of 18.95 knots per hour, which, with tidal corrections greatly in her favor, it is believed will advance the speed to 18.22, a new world's record for battleships of her class. The big battleship at one time attained a speed of 18.75 knots per hour. The contract requirements call for 18 knots, and a margin was very gratifying to the government officials on board. The best previous record made by a battleship in the Missouri's class is that of the Maine, a sister ship, which was 17.98 per hour.
