

PRESIDENT'S MESSAGE

Roosevelt Urges Approval of Cuban Reciprocity Treaty.

FAITH OF NATION IS PLEDGED.

Chief Executive Says Legislation in Question is Demanded Not Only by Our Interests, but by Our Honor—Plea for Island Republic.

Washington, Nov. 10.—The second day of the special session of congress was devoted to the reading of the president's message, urging the enactment of legislation necessary to make effective the Cuban reciprocity treaty. The following is the text of the message:

To the Senate and House of Representatives:

I have convened the congress that it may consider the legislation necessary to put into operation the commercial treaty with Cuba, which was ratified by the senate at its last session and subsequently by the Cuban government. I deem such legislation demanded, not only by our interest, but by our honor. We cannot with propriety abandon the course upon which we have so wisely embarked. When the acceptance of the Platt amendment was required from Cuba by the action of congress of the United States, this government thereby definitely committed itself to the policy of treating Cuba as occupying a unique position as regards this country. It was provided that when the island became a free and independent republic she should stand in such close relations with us as in certain respects to come within our system of international policy; and it necessarily follows that she must also to a certain degree become included within the lines of our economical policy. Situated as Cuba is, it would not be possible for this country to permit the strategic abuse of the plan by any foreign military power. It is for this reason that certain limitations have been imposed upon her financial policy and that naval stations have been conceded by her to the United States. The negotiations as to the details of these naval stations are on the eve of completion. They are so situated as to prevent any idea that there is the intention ever to use them against Cuba, or otherwise than for the protection of Cuba from the assaults of foreign foes, and for the better safeguarding of American interests in the waters south of us.

These interests have been largely increased by the consequences of the war with Spain, and will be still further increased by the building of the isthmian canal. They are both military and economic. The granting to us by Cuba of the naval stations above alluded to is of the most importance from a military standpoint and is proof of the good faith with which Cuba is treating us. Cuba has made great progress since her independence was established. She has advanced steadily in every way. She already stands high among her sister republics of the new world. She is loyally observing her obligations to us, and she is entitled to like treatment by us.

The treaty submitted to you for approval secures to the United States economic advantages as great as those given to Cuba. Not an American interest is sacrificed by the treaty, a large Cuban market is assured to our producers. It is a large market which lies at our doors, which is large, capable of great expansion, and which is particularly important to the development of our export trade. It would be, indeed, shortsighted for us to refuse to take advantage of such opportunity and to force Cuba into making arrangements with other countries to our disadvantage.

This reciprocity treaty stands by itself. It is demanded on considerations of broad national policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries. It is in the interest of our people as a whole, both because of its importance from the broad standpoint of international policy and because economically it intimately concerns us to develop and secure the rich Cuban market for our farmers, artisans, merchants and manufacturers. Finally, it is desirable as a guaranty of the good faith of our nation towards her younger sister republic to the south, whose welfare must ever be closely bound with our. We gave her liberty. We are knit to her by the memories of the blood and the courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who saved her in peace and who started her so well on the difficult path of self-government. We must help her onward and upward; and in helping her we shall help ourselves.

The foregoing considerations caused the negotiation of a treaty with Cuba and its ratification by the senate. They now, with equal force, support the legislation by the congress which by the terms of the treaty, is necessary to render it operative. A failure to enact such legislation would come perilously near a repudiation of the pledged faith of the nation.

I transmit herewith the treaty as amended by the senate and ratified by the Cuban government.

THEODORE ROOSEVELT,
White House, Nov. 10, 1903.

PROMINENT EWING WEDDING.

Sarnson-Trommershauser Nuptials Feature of Social Season.
Ewing, Neb., Nov. 9.—Special to The News: In a very pretty marriage

ceremony here, Lena, the youngest daughter of Mr. and Mrs. J. A. Trommershauser, was made the bride of Prof. L. B. Sarnson. Mr. Sarnson is principal of the high school in this place and the bride is from one of the most prominent families in this vicinity. Following the ceremony, which was performed by Rev. R. E. Mitchell, an elaborate wedding supper was served to about seventy guests in the Elkhorn hotel and a dance was given for the young people at Hane-man's opera house. Miss Ethyl Burlew was bridesmaid and S. W. Green was best man.

ARE MAKING BRICK IN NIOBRARA

The Plant Has Started to Operate and is Turning Out First Class Material.

Niobrara, Neb., Nov. 9.—The brick plant has begun regular work and work is progressing on their own brick for the building of coverings for their kilns, says the Pioneer. The capacity of each kiln will be 200,000 brick and sufficient brick will now be burned to erect two such kilns. Until these are built no regular brick for the market will be made. It is the purpose of the company to sort the brick into three classes as they come from the kilns, thus giving a superior third class pressed brick at about the same price as the very poor common brick used in this market, while the first and second qualities will make the best of finished brick.

The large brick press works similar to a rotary printing press, requiring one man to feed the dry dirt into a grinder, from which it is elevated after the manner of a flouring mill, and another man at the end of the press to take the pressed bricks as they are automatically delivered.

It is a big institution and should certainly win new laurels for Niobrara industry. The men who have dared to venture their money in this enterprise are to be congratulated for their venture, for the success must surely come when brick of this quality that has been made from our soil can be turned out for competition against anything this side of Omaha. E. L. Perkins is superintendent and an expert brick manufacturer. Niobrara workmen have a new business to learn and new methods of regularity to understand or importation of labor may result.

SCHOOL MA'AM WENT WILLINGLY.

Edith Reynolds of Petersburg Got Tired of School and of Staying at Home.

Petersburg, Neb., Nov. 9.—Special to The News: Edith Reynolds, the 18-year-old schoolma'am, who suddenly and mysteriously disappeared from her school ten miles east of this place about ten days ago, is with her aunt and uncle in Colorado. It was thought at the time that she had been kidnapped, but her father, B. F. Reynolds, who is clerk in a store here, has been out to investigate, and finds that his daughter left of her own free will. She stated that she had become tired of teaching school and of remaining at home, and when her aunt and uncle came she accompanied them willingly to their home in Colorado. She promised her father that she would soon return to her home in Petersburg. The idea of a forcible removal of the girl originated with her father who, realizing that the aunt had bitter feelings against his family, considered that his daughter would not accompany the aunt willingly.

JILTS SWEETHEART AT ALTAR.

Nebraska City Man Declines to Be Married at Last Moment—Girl May Lose Her Mind.

Nebraska City, Nov. 10.—Clyde Miller, a young man who was to have been married to Miss Anna Spangler of this city, backed out at the last minute after the guests were all present and the minister waiting. Miller refused to assign any reason for his act, and it is supposed he simply became nervous when the hour approached. The young woman whom he was to have taken to the altar is prostrate over the affair and it is feared that she may lose her mind.

SHOOTING SCRAPE AT FREMONT.

Jealousy Over Her Husband Causes One Woman to Shoot Another Three Times.

Fremont, Neb., Nov. 7.—Mrs. Charles Dewey fired three shots at a neighbor, Mrs. Elmer Berry, each penetrating the fleshy part of the thigh, and she is now in the county jail awaiting a hearing. Jealousy was the cause.

TYPHOID AT MEADOW GROVE.

Three Members of One Family Sick With the Disease.

Meadow Grove, Neb., Nov. 9.—Special to The News: Three members of the Dickerson family, living three miles south of town, are sick with typhoid fever, and the disease has reached a quite serious turn. Mr. Ralph Buckley of Neligh visited over Sunday with Druggist E. E. Cathcart of this place.

PIERCE MAN UNPOPULAR.

C. E. Staley Hung in Effigy Saturday Night.

COUNTY CLERK AND BANKER.

People Were Indignant Because He Turned Against the Party that has Twice Honored Him—Charged With Writing Letters Against Deputy.

Pierce, Neb., Nov. 9.—Special to The News: This city was thrown into a furor of excitement yesterday morning by the discovery of the hanging in effigy the night before of a figure representing State Bank President and County Clerk C. E. Staley. The figure was found yesterday morning suspended from a telephone pole on Main street liberally covered with inscriptions and bearing the name of the individual whom it was intended to represent. The perpetrators are unknown but the deed was evidently done by a few people to show their displeasure of Mr. Staley's action in the recent election. Mr. Staley has had the office of county clerk for four years, being elected four years ago on the populist and two years ago on the fusion ticket. The fusion candidate this year, L. H. Lederer, has been Staley's deputy during the entire time, and Mr. Staley's action in sending letters to the different precincts on election day and charging Mr. Lederer with being incompetent and resulting in the election of W. G. Hiron, the republican candidate, by 47 votes, has caused a storm of disapproval and was the cause of Saturday night's doings.

In view of the fact that Mr. Staley has been given office for four years and now that he is out and turned at the last moment on his party's candidate, and the man who was his deputy during his entire official career, has made the aforesaid Staley exceedingly unpopular in this city and the end is not yet.

FOUND DEAD IN HIS GRANARY.

Halleck Garder, Well-to-do Petersburg Farmer, Meets a Mysterious End.

Petersburg, Neb., Nov. 9.—Special to The News: Halleck Garder, a well-to-do farmer thirty-five years of age, was found dead in his granary at his farm home seven miles east of Petersburg yesterday morning. He leaves a wife and one child. Dr. Clark of Albion, the Boone county coroner, has been summoned to investigate the case and may hold an inquest.

Garder was known to be a hard drinker, and some attribute his sudden death to the excessive use of liquor during a prolonged debauch.

WOMAN MISER STARVES, DIES

With \$50,000 in Room, Body is Found Lifeless in Her Squalid Tenement.

Ceicgo, Nov. 10.—Special to The News: In her squalid tenement house, actually starved to death, the lifeless body of Mrs. Oliver, a woman miser worth at least a half million dollars, was found this morning. In the room was \$50,000 in cash.

Stockmen at Bonesteel.

Bonesteel, S. D., Nov. 7.—The semi-annual meeting of the Keya Paha River Stock Growers' association met in Bonesteel last Thursday, says the Pilot. The town was in the hands of the stockmen during their entire stay. In the absence of President Charles Tienken of Grand Rapids, Neb., Vice President W. N. Hudson of Brookings, Neb., presided with J. M. Flannigan of Stuart, Neb., at his desk. The financial condition is certainly good. The association owes no man a dollar and has money left. Thirteen new members were taken in. The benefits of the association are great. No member can lose an animal without being reimbursed. Inspectors are retained at all the principal stock markets and also at many shipping points and it is impossible for a person to dispose of a 7-US animal without having in his possession a bill of sale showing his right to do so. The stockmen were welcomed by W. B. Backus. In the evening an elaborate banquet was served by S. M. Anderson of the Ak-Sar-Ben hotel. After the banquet a grand ball was given.

Bonesteel Brevities.

Frank Mace was out on the reservation the first of the week looking after his horses and cattle. While there he encountered a prairie fire and spent about three hours fighting it.

John Millsbaugh lost about five acres of timber and forty acres of grass, on his place, four miles north of here, last Sunday by fire. He also came near losing his house, which was saved. The fire was set purposely by some boys who seem to have a grudge against Mr. Millsbaugh. Mr. Millsbaugh has not been living on the place and the same youngsters have repeatedly shot out the window lights of his house. The boys will no doubt receive a lesson that they will remember.

A petition has been circulated among the stockmen and other citi-

SISTERS OF CHARITY
RELY ON PE-RU-NA TO FIGHT
CATARRH WHEREVER LOCATED IN THE SYSTEM.

MISS BEATRIX CALLAM.

Interesting Letters from Catholic Institutions.

In every country of the civilized world the Sisters of Charity are known. Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs. With so many children to take care of and to protect from climate and disease, these wise and prudent sisters have found Peruna a never-failing safeguard.

THE SISTERS GOOD WORK.

A letter recently received by Dr. Hartman from Sister Beatrix B. Callam, 410 W. Thirtieth street, New York, reads as follows:

"I cannot say too much in praise of Peruna. Eight bottles of it cured me of catarrh of the lungs of four years' standing, and I would not have been without it for anything. It helped several Sisters of coughs and colds and I have yet to find one case of catarrh that it does not cure."—Sister Beatrix.

From a Catholic Institution in Central Ohio comes the following recommendation from the Sister Superior.

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which treated to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

Another recommendation from a Catholic Institution of one of the Central States written by the Sister Superior reads as follows:

"A number of years ago our attention was called to Dr. Hartman's Peruna, and

since then we have used it with wonderful results for grip, coughs, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution."

SISTERS OF CHARITY

All Over the United States Use Pe-ru-na for Catarrh.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommendation recently received from a Catholic Institution in the Southwest reads as follows:

A Prominent Mother Superior Says: "I can testify from experience to the efficiency of Peruna as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remnants of my old disease being now so slight, I consider myself cured, yet for a while I intend to continue the use of Peruna. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhoea. I have not a doubt that a cure will be speedily effected."

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished upon request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

SCARLET FEVER EPIDEMIC.

Plainview Children are Threatened by the Disease.

PRIMARY SCHOOL IS CLOSED.

Twenty Cases are Now Reported and Other Children Have Been Exposed. Board of Health Enforcing Strict Quarantining Regulations to Control.

Plainview, Neb., Nov. 10.—Special to The News: Plainview has a threatened epidemic of scarlet fever well developed, but the village board of health composed of Dr. Barnes, Village Marshal Chas. Bortlef and P. D. Corell, chairman of the village board of trustees, are making strenuous efforts to bring it under control.

Twenty cases of the disease have been uncovered by the investigation instituted since it was first known that it had gained a foothold in the town. One child, a son of Grace Sumner, is seriously ill and the doctors fear he cannot get well or if he does that his hearing will be entirely destroyed. This was the first case and was not reported to the board of health until many children had been exposed. The board of health went out Sunday and found twenty cases that have been rigidly quarantined to prevent further spread of the malady.

One case came down in the primary room of the public school and it is thought that a number of children were exposed to the disease at the time. The room has been closed and there is some talk of closing the lodges and dispensing with all other public gatherings until the disease has abated.

NELIGH WOMAN SUES HUSBAND

Trouble in Family near Brunswick Causes it.

Neligh, Neb., Nov. 7.—Charles E. Allen of Brunswick was arrested on a complaint charging that his wife, Kate Allen, has just cause to fear that he will murder her. The prisoner was arraigned and was given a continuance for thirty days and bail was fixed at \$800. The parties have a suit pending in the district court and recently a written agreement was made for a division of the property. Mrs. Allen, accompanied by J. C. Johnson and B. C. Moody, went to Brunswick for Mrs. Allen's portion. It is said Allen drew a revolver upon his wife, threatening to kill her and then himself. Johnson stepped between them and was struck on

the back of the hand with the revolver, causing a severe injury.

NEBRASKA SURURBAN LINE.

Right of Way Through Dakota City Is Asked For.

Dakota City, Nov. 10.—The South Sioux City, Homer & Southern Railway company, which includes in its incorporators Senator J. H. Millard, Postmaster Joseph Crow and H. Jennings of Omaha, has presented an ordinance asking for right-of-way through the city.

So far the business of the new company has been conducted rather secretly. It has secured a franchise from the county commissioners to build an electric line from South Sioux City to Homer, a distance of fifteen miles. Already about four miles of the right-of-way has been graded and ties laid.

The fares to be charged by the new company vary from 5 to 15 cents, according to the distance, including the bridge tolls to South Sioux City.

FOUND AT LAST.

20,000,000 Farmers Wanted.

The secret to keep your hogs and chickens free from diseases. For particulars send in one dollar in money

People Believe in it.

It has been cynically said that anything can be sold by advertising nowadays. This is not so. Many liniments have been advertised but only one—Perry Davis' Painkiller—has stood the test of sixty years' use. Today its popularity is greater than ever and is based not upon what anybody says but upon what the remedy does. There is but one painkiller, Perry Davis'.
