

# HANS' REVOLVER IN COURT

## Supreme Court at Lincoln Orders it Sent In.

### ALSO CLOTHING OF DEAD MAN.

Judge Potter of Ainsworth was yesterday instructed by Court Reporter Maher to Forward Several Articles as Evidence to Lincoln.

Ainsworth, Neb., Dec. 3.—Special to The News: The revolver of Fred M. Hans, the Northwestern detective now in jail here for the killing of D. O. Luse in April, 1901, was yesterday ordered sent to the clerk of the supreme court at Lincoln by Judge Potter. The order came through John Maher, clerk of the Fifteenth judicial district of Nebraska.

Besides the fatal weapon, several horse bones, a deer and the clothing which Luse wore at the time of his death, were also ordered sent to Lincoln where the supreme court now has the famous murder case under advisement. All of these articles were offered as evidence at the trial in Ainsworth.

### ILLNESS AT ANOKA.

Merl Bates Slowly Improves—Mrs. Beydler Has Scarlet Fever.

Anoka, Neb., Dec. 3.—Special to The News: Merl Bates, the little fellow here who was so dangerously ill with diphtheria, is slowly improving at present.

Mrs. W. R. Beydler is quite sick just now with scarlet fever.

### POSTPONE WATERWORKS WORK

Spencer Will Begin Early in the Spring—Snow Has Gone.

Spencer, Neb., Dec. 3.—Special to The News: Work on the waterworks system here will probably be postponed until next spring.

The snow has about all melted which will give the unfortunate farmer a chance to finish husking his corn—and there are many of him.

### "Corn King" Smith Dead.

Blair, Neb., Dec. 1.—M. H. Smith of Desoto, known everywhere as "Corn King" Smith, and an old settler of Washington county, died from diabetes.

### LONG PINE LADIES SILVER BAND

Met for Practice Last Evening and Organization is Prosperous—Silver Instruments.

Long Pine, Neb., Dec. 3.—Special to The News: The Long Pine Ladies band resumed practice last evening. They have not met in practice since the Fourth of July. Three new members were added. Two new silver horns have been received lately, which now gives the band a complete outfit of silver instruments.

The band members are as follows: Cornets—H. A. Hall, leader, Lena McKnight and Jessie Whittemore; tenors—Minnie White, Jessie Castle and Irene Figgie; altos—Mrs. Ida Lamb, Marion Mason and Jessie Bruce; trombone—Mrs. Grace Dickson; baritone—Mrs. Florence Hall; bass—Martha White and Pauline Hallidson.

### MEADOW GROVE DOINGS.

Electric Belt Company is Entertaining—Farmers Worried Over Corn.

Meadow Grove, Neb., Dec. 3.—Special to The News: There is a show company in town this week, the principal object of which seems to be that of disposing of electric belts, foot pads and other appliances, and it is quite astonishing to discover the number of people who find that their constitution requires this sort of treatment.

On the side they are giving a show at ten cents per admission and they are attracting fair crowds. Mr. and Mrs. Roland of Guide Rock arrived last night for a visit of a few weeks with Mr. and Mrs. E. E. Cathcart, and expect to assist with the holiday trade.

Quite a number of farmers in the vicinity are beginning to worry over the prospects of getting out their corn crop before winter sets in to a steady finish that will prevent work in the fields. It is snowing here this morning, and the wind is blowing cold from the north, giving them additional cause for anxiety.

### BUSINESS IMPROVES AT SPENCER

All Lines of Trade Show Steady Increase—Coal Dealers Have Sold Nearly All.

Spencer, Neb., Dec. 3.—Special to The News: Business in this section seems to be increasing in all lines of trade—especially coal. The supply of carbon for fuel at Spencer is getting very low and there are slight prospects for getting any very large quantities. There are four dealers here and two of them have exhausted their coal supply.

Wm. Krotter & Co. are erecting a fine large implement and hardware building which will be a credit to the town and country.

Will Rebuild Church.

Greeley, Neb., Dec. 3.—At their morning service, held in Murphy's

hall, the Catholics subscribed \$3,100 to rebuild their church, burned on Friday night.

### Charged With Larceny.

Lincoln, Dec. 3.—Theodore Johnson, the young man who eloped with Edith Whitmarsh, the 16-year-old girl who pleaded guilty to stealing goods from the Famous millinery store, will be tried for larceny. When arrested a few days ago, and held as a witness in the Whitmarsh case, he was inclined to talk somewhat freely and told the officers he had robbed a farmer in a lively barn a short time ago. Detective Mitchell tried to make a statutory case against him, but in the face of Miss Whitmarsh's statements was unable to do so and it was decided to prefer a charge of larceny against him. He said that he would plead guilty.

### CHANGED COURSE OF THE FLOYD

Neat Engineering in Sioux City by Which the Channel of a River is Shifted.

Sioux City, Dec. 3.—With practically no ceremony City Engineer Lewis and his assistant, George Y. Skeels, and Contractor E. O. Wesley changed the map of the stock yards district. They took the Floyd river by the neck, yanked it out of the bed where it has reclined for perhaps several centuries, and shoved it into a brand new couch, fashioned with loving care by an army of workmen, who have in sixty days accomplished the feat.

The Floyd made no objection to the change. It did not groan or kick or howl over the transfer; it took to its new bed like a duck to water and purred contentedly as it stretched out full length in its narrow confines. True, it got its back up temporarily because of the damming it got near the old Chambers street bridge, but it soon forgot this brief display of profanity, gave a sigh of relief as it rippled merrily into the ditch to the southward and entered the old bayou, which it abandoned years ago.

Just two months ago Eric O. Wesley stood up in the council chamber and asked the aldermen to hurry up and clear away the details giving him the contract.

"I've got a gang of men all ready," said he, "and most of my material on the ground ready to start. Say the word and we'll begin tomorrow morning."

The council said the word and since the morning of September 1 Mr. Wesley has been hustling. He has directed the operation of about sixty men, looked carefully into details and arranged things so that as fast as one piece of the work was done another part was ready for the men to commence. He has dove tailed the work and made great progress and scarce as labor has been or at least as it is reported to have been, Mr. Wesley has had practically no trouble on that score.

For some time the contractor has had to work in frozen ground, but so determined was he that the river should begin its pilgrimage through the new channel that he put eight horses to a plow and kept on excavating. He widened the channel its full width down about two thirds of the depth required in the specification and then dug a ditch six feet wide and four feet deep, with a fall sufficient to carry off the water from the Floyd after it had been dammed. The bottom of this four foot ditch, however, it is about three feet above the depth the channel will be when completed. With the water flowing the contractor figures it will carry away a good deal of the sides of the ditch, although it is not likely to deepen it much.

While the men were busy trimming up the bank where the dump cars have been in operation for the past sixty days, a man with a tamping stick was busy with the big clay bank or bluff opposite. He pounded home big sticks of dynamite and about every half hour a muffled explosion and a spurt of yellow dust told how the blasting expert was making headway with the frozen earth. Tons of earth were blown loose and today workmen will begin hauling it into the bayou east of the dyke, where the new road will be established.

### Loses Her Breach of Promise Suit.

Freemont, Neb., Dec. 3.—Judge Hollenbeck made a ruling in the breach of promise suit of Marie Barge against Dr. George Haslam for \$10,000 which practically decides the case in favor of the defendant. The suit as originally brought was based on an alleged promise passed by the defendant to the plaintiff in July, 1901. Miss Barge obtained a partial judgment, but the supreme court reversed the case. On its coming up at this term of district court, the plaintiff's counsel sought to have the petition amended so as to specify a promise given in April, 1903. It was held that to make this change would be equivalent to bringing a different cause of action, and the motion to amend the petition was overruled. The only recourse left for the plaintiff is another proceeding in error before the supreme court, with only small hope of success.

When you wake up with a bad taste in your mouth, go at once to Kiesau's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

# THE BEET SUGAR SUIT

## Brought by Norfolk and Oxnard Companies.

### BEGAN IN LANCASTER COUNTY.

Ask for Judgments Against State Aggregating More than \$40,000; Claimed to be Due Under the Act Providing for a Bounty on Sugar.

Lincoln, Dec. 3.—The Star of last evening gave further particulars of the case brought by the Norfolk Beet Sugar company and the Oxnard Beet Sugar company against the state as follows:

Under authority of a resolution passed by the last legislature permitting the Norfolk Beet Sugar company and the Oxnard Beet Sugar company to sue the state, the two companies have filed their petitions in the district court of Lancaster county, asking for judgments aggregating more than \$40,000, claimed to be due under the act of the legislature providing for a bounty on sugar produced in the state. The petitions set forth the claims in detail, the Norfolk company asking for \$24,750 and interest as one claim and \$5,640 as another; and the Oxnard company asking for \$15,871.85 and interest.

The suit is brought through the failure of the state to pay warrants issued on account of the bounties claimed under the law of 1895, providing that a bounty of five-eighths of one cent should be paid on every pound of sugar produced from beets in the state of Nebraska, the sugar to be 90 per cent crystallized sugar and the beets to be raised in the state of Nebraska and purchased at a cost of \$5 per ton. The fund out of which the bounties were to be paid was depleted and the companies had no way to recover.

At the last session of the legislature a bill was introduced providing for the payment of the bounties but the beet growers "sidetracked" the measure and a resolution was passed authorizing the companies to sue the state in the district court of Lancaster county. Authorized by this resolution, the suits have been instituted.

### Describe the Industry.

The petitions relate the introduction of the beet sugar industry into the state and states that the companies erected their factories at great expense relying upon the act of the legislature passed in March, 1899, which provided for a bounty of 1 cent every pound of sugar produced from sugar beets in the state. The Norfolk company declares that it expended \$500,000 for an outfit to begin the creation of a beet sugar industry but that the law under which they expected to secure their bounties was repealed in March, 1901. The new law was passed in 1895 and it is under the provisions of this act that they make their claims.

The petition of the Norfolk company shows that in the year 1895 that company produced 4,991,000 pounds of sugar of the variety specified in the act of the legislature and that the product withstood all the tests of the inspectors. It claims to have purchased 27,283 tons of beets from the farmers of the state and to have paid \$5 a ton, making a total of \$135,415 paid out for the raw product.

### Paid Too Much.

It is also claimed that the market value of the beets at that time was only \$4 a ton, but the higher price was paid in order that the beet might be bought of Nebraska raisers, and as a result of this fact the company lost \$27,283.

The contention of the Oxnard company is the same as that of the Norfolk institution, the matter of figures being the only difference. Both petitions are signed by Chas. F. Mander, son as attorney.

### Dead in Creek.

Lincoln, Dec. 3.—The body of Jas. McCleave was found frozen in the ice of Salt Creek north of Lincoln. Wm. Critchfield, while out hunting, saw the form with the head protruding through the ice. Officers identified the body as that of McCleave. He had served a sentence in jail for drunkenness and was released November 27. He has not been seen since that time, and it is supposed that he wandered into the country, fell in to the creek and was frozen to death. Coroner Graham was out of the city. Sheriff Branson will hold an inquest and try to ascertain whether his death was due to cold or whether McCleave committed suicide.

Parish pays 25 cents cash for eggs.

Dr. Weaver's Treatment. Syrup purifies the blood, Cerate heals skin eruptions.

Vagaries of a Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. Do not be alarmed nor torment yourself with fears of appendicitis. At the first sign of a cramp take Perry Davis' Painkiller in warm, sweetened water and relief comes at once. There is but one painkiller, Perry Davis'. 25 and 50 cents.

Berg's Sweet Laxative Chips have no equal for biliousness or constipation. They do not gripe but move the bowels gently and easily, cleans-

ing the liver and the effect gives strength to the glands, preventing a return of the disorder. Price 10 and 25 cents. Kiesau Drug Co.

### How to Prevent Croup.

It will be good news to mothers of small children to learn that croup can be prevented. The first sign of croup is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the rough cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. This remedy is used by many thousands of mothers and has never been known to fail. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. For sale by the Kiesau Drug Co.

Do you feel broken down and does your system need nourishment? Just take Man Er-Vine tablets, the world's greatest remedy for the nerves, brain and blood, and watch results. Kiesau Drug Co.

### SPECIALIST OF REPUTATION.

Years of Special Practice Affording Excellent Opportunities.

### FACTS WORTH MENTIONING

By Dr. Caldwell.

Several years ago, while in private practice, I thought it wrong to advertise, simply because I had been told so and had not had experience enough to know better. After a while I discovered a valuable plan of treatment in certain cases, and fortunately obtained a large number of patients, enough to fully test my plan and prove its success. I thereupon prepared a lengthy paper upon the subject and read it before the state medical society. What was the result? A half a dozen members took the floor to say what the treatment had been for a hundred years back, and to claim that the old treatment, though unsuccessful, should be continued, notwithstanding that the new treatment had been successful. I thought differently and continued to use the new method, and made remarkable cures of cases that had been pronounced incurable. My business increased rapidly as each person that I cured told some friend, who came in turn and was cured. Each patient advertised me a little. What then? In that large city there were not more than 400 cases of the kind. I cured every case that came to me and then had nothing to do except the ordinary business of a local physician. I knew there were hundreds and thousands of others elsewhere, who might be cured if they only knew; and I advertised. Cured hundreds of others and I have advertised ever since. I have relieved more suffering, cured more patients, made more people happy, and done more good generally because I have told the people what I can do, and I shall go on with the good work as long as my strength will permit.

I advertise because I have something worth advertising. I have made myself competent by years of special study and experience, and by the expenditure of large sums of money. By advertising I place before the people the facts which enable them to know what I can do. I thereby reach thousands, who, given up by local physicians or unsuccessfully treated, give themselves up as incurable. I cure them and thereby enlarge my field of usefulness. By no other way than advertising could these people have known that they could be cured. Every thrifty and prosperous business in life, save those of law and medicine, advertise freely. Lawyers do not, for they only use in business what others have made for them years before. They only do what has been written. "Regular" doctors do not advertise for the same reason. They have nothing new, nothing which someone else has not written or told them of, they get their knowledge from the books. A man may read medicine until he is blind and then know nothing of it. To be successful he must apply his own mind. Make his own researches, and to do that he must have room and opportunity. He must have cases, hundreds of them, and compare results. If he does not do this he is a machine without novelty, skill or ingenuity, still plowing with a wooden plow, still traveling on foot or horseback, and ignoring the advantages of steam, living but not learning. The same is true of a lady doctor.

Below you will find published the names and addresses of some of the recent cures that I have made. These people's afflictions were, under the ordinary physician's care, considered hopeless, and no prospects for a cure:

- Mrs. Kate Schall of Albion, Neb., cured of catarrh of head and stomach.
- Mrs. William Zuerg of Blue Vale, Neb., cured of nervous heart and female disease.
- Mrs. J. E. Connelley of Akron, Neb., cured of cancer of long standing.
- Mrs. Augusta Seydon of Pender, Neb., cured of nervous liver and stomach disease.
- Mrs. Ella Scochman of Wayne, Neb., cured of rheumatism, female disease and skin disease.
- John Harper of Columbus, Neb., cured of heart disease, stomach and liver disease.
- Emma Stalke of Clarks, Neb., cured of skin disease, heart trouble and dropsy.

### Write This Down

In the book of memory: there is no such thing as a harmless cough. Every cough is a warning of a confidence that goes from bad to worse unless it is remedied right away. Opium-laden medicine is a delusion. Allen's Lung Balm cures the worst of coughs. It clears the bronchial passages, so that the lungs get plenty of air. Why not get a bottle today?

# CHRONIC SORES

## Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health. If you have a chronic sore write us. No charge for medical advice.
