

### RUN DOWN ON MAIN STREET

#### Wilbur Barnes Was Tangled Up in the Saturday Traffic.

#### CARL WOLF DROVE THE HORSE

#### Barnes Was About Out From Under When Wolf Backed the Rig Over Him Again—Was Bruised and Cut up During the Accident.

Wilbur Barnes is sore on about every portion of his body as the result of being run down Saturday afternoon by Carl Wolf and wife who were in a buggy. Barnes was crossing the street at the corner of Main and Fourth street when he was caught in the jam of traffic that is usual to Norfolk's business streets on Saturdays and before he knew it he was knocked down by the horse driven by Wolf and stepped on by the animal and driven over by the buggy.

The trouble was about over when Wolf realized the situation, the buggy having almost passed over Barnes, but upon hearing his shouts he pulled up sharply on the bits with the result that the entire rig again passed over the prostrate Barnes, and when he was extricated he was quite badly bruised and cut up by the horse's hoofs and the wheels of the buggy. Dr. Mackay attended Barnes and found no broken bones or serious injuries, but the bruises will undoubtedly lay him up for several days.

"I have not definitely decided," said Mr. Beck to The News today, "upon my future plans. I can not say whether I shall remain in Norfolk or not or what business I may go into."

Mr. Beck has been connected with the milling interests of the city for many years past and has a wide acquaintance throughout northern Nebraska.

### ALVIN LOW IS SERIOUSLY HURT

#### He Has Been Unable to Lie Down Since His Distressing Runaway Accident.

Alvin Low, who was so seriously injured in a runaway accident a few evenings ago, lies in a critical condition at his home northeast of the city as a result of the fall which he sustained. Dr. Bear, his physician, is visiting him twice a day. Mr. Low has not yet been able to lie down and is compelled to sit upright in a chair constantly. He suffers much pain from the broken ribs and torn flesh and is the more in agony when he coughs.

The accident was caused by the frightening of Mr. Low's horse on First street at the Chicago, St. Paul, Minneapolis & Omaha railroad crossing, instead of the railway crossing further out as was announced. He was on his way home at the time and was badly hurt. The horse dragged him for some distance.

### BASKET BALL AT HIGH SCHOOL

#### Three Teams Organized and Two Games Have Been Played—Girls Play on Thursdays.

Basket ball is the game at the high school just now, and gives promise of holding the attention of the students during the balance of the year. In the first series of games the seniors demonstrated a superiority which they consider entitles them to the school championship, but the other classes have not fully conceded the point and expect to give the senior team some hard rubs before the season is ended, and make them at least prove their title to the championship.

Another game was played yesterday, the senior team being matched against that of the freshmen, and the score was a victory for the seniors by 17 to 9. The girls are taking an interest in the game and on Thursdays the room and the paraphernalia is devoted to their use. There are but four boys in the junior class and no team is maintained by them. The three teams line up as follows:

Seniors — Utter, captain, center; O'Connor and Hyde, forwards; Ogden and Huse, guards.

Sophomores — Hageland, captain, center; Perry and Erskine, forwards; Gow and Elsefor, guards.

Freshmen — Thelman, captain, center; Dingman and Wallace, forwards; Sharpless, Hauptley and McNeely, guards.

### Cold Comfort from Doctors.

Doctors say neuralgia is not dangerous. This is poor consolation to a sufferer who feels as if his face were pierced with hot needles and torn with a thousand pairs of pinners. A word of advice to him; stay indoors and use Perry Davis' Painkiller. The blessed freedom from pain which follows this treatment cannot be told. There is but one painkiller, Perry Davis'.

In our advertising columns appears the card of the "New York-Honduras Commercial Co., presenting an investment that at first sight appears to yield extraordinary results, but when the wonderful returns of plantations in tropical countries are taken into consideration, and the known fact that Mexican companies in similar lines are doing even better, it warrants the investigation of the man with idle money, or who can put a few dollars aside for the future.

### THE POLICE MAKE A RAID

#### Clean Out One of the Main Street Buildings.

#### THE COURT FINES FOUR PEOPLE

#### Mrs. Emma Page Who Has Been Conducting a "Lodging" House in the Eiseley Building, is Landed in Jail and Will Leave Town.

The police raided the rooms of Mrs. Emma Page on the second floor of the Eiseley building, corner Norfolk avenue and Second Street, yesterday morning at 4 o'clock and pinched the landlady together with three young men. The entire party were landed in jail for over night and appeared, one by one, before Police Judge Hayes this morning.

All four were found guilty. Two verdicts were given on the charge of vagrancy and two for disorderly conduct. Mrs. Page, the landlady, was found to be a vagrant and given a fine of \$11.50. She left a watch and a bunch of gold rings as security for the payment. In pronouncing the fine, Judge Hayes said:

"The charge upon which this woman is found guilty is vagrancy. That strikes me as very light. It ought to be the conducting of a bawdy house, as the evidence shows that such is the case."

Officers Pilger and Livingstone raided the apartments at 4 o'clock in the morning. They found one long room cut up into three divisions by means of partitions about five feet high. The effect was rather one of three stalls in a stable than of three distinct rooms in a house.

### Disgusting Conditions.

Within the big room were two cots and a bed. Upon these the four people, Mrs. Page and the three men, were spending the night. All of the men testified in court that they were drunk. Mrs. Page said they were, too. The testimony of the police showed that two of the men were sleeping with all their clothing on, upon a cot in the kitchen end of the room. Another was in the bed and Mrs. Page was lighting a lamp when they forced the door and entered. The other cot had not been touched.

The whole quartet were immediately arrested and ordered to get ready to go to jail. There they spent the time from 4 in the morning until noon.

Mrs. Page, who is one of the most hideous looking specimens of femininity ever turned loose upon the streets of Norfolk, declared that she had been conducting a lodging house in the Eiseley block since October 23. She said that one of the men was a regular roomer and occupied the kitchen cot; that the other two came up together that night for lodging. One of them, she says, paid her a quarter for the lodging. She says he paid her no more. The man, on the stand, swore that he paid the landlady \$1 and admitted that she was conducting a house and that was why he went there.

Two of the men, John Doe and John Smith, pleaded guilty to the charge of disorderly conduct and were fined \$7.10 apiece, which they paid. The third, Parry Law, pleaded not guilty to the charge of vagrancy, was found guilty by the court and fined \$10 and costs. The fine was not paid and the prisoner is now in jail, eating bread and water, until his fine shall be paid. He claimed, as did the woman, that he had been boarding and rooming in the house for the past ten days and that he had paid his board in advance until today. He said he had paid \$3.50 and Mrs. Page said he had paid \$4.

### Says There are Others.

In listening to his fine, Law said: "I expected the worst of it when I came up here. Instead of going after all of the houses on Norfolk avenue, you have hunted me down. There are any number of just such places in the business portion of the city and if every one of them was made to serve ten days for such offense, there would be a whole prisonful of convicts for life."

The Eiseley building is on the main business street of the city. It is a three-story structure at the corner of Norfolk avenue and Second street. Mrs. Page says that she is going to leave the city and that she will go from here to Niobrara.

The police are on the watch for other places of a similar type and purpose to deal in the same way with them.

### FIREMEN ARE OFF TO FREMONT

#### In a Private Chariot of Their Own, Bedecked With Flags and Bunting, They Went.

With their own special car gaily bedecked and adorned in flags and banners and streamers of many and much varied colors the Norfolk delegation to the annual convention of the Nebraska State Firemen's association left the city over the Northwestern railway at promptly 6 o'clock.

A blazing streamer upon which were lettered the words, "Norfolk Delegation to the N. S. V. F. A." extended along each side of the big yellow car and told the people who happened to be up between here and Fremont, who occupied the carriage, where they were all going and what they were going for.

The association will be in session

for three days. A number of the fire boys from outside towns joined the Norfolk delegation for their merry ride and will accompany them home, again, too.

### Our Friends, the Druggists.

It is a pleasure to testify to the generally high character of druggists. But because of a few exceptions to the rule, it is necessary to caution the public to be on guard against imitations of Perry Davis' Painkiller. See that you get the right article, the soothing, helpful painkiller that was used in your family before you were born. Don't be talked into buying a substitute. There is but one painkiller, Perry Davis'.

### SPECIALIST OF REPUTATION.

#### Years of Special Practice Affording Excellent Opportunities.

#### FACTS WORTH MENTIONING

#### By Dr. Caldwell.

Several years ago, while in private practice, I thought it wrong to advertise, simply because I had been told so and had not had experience enough to know better. After a while I discovered a valuable plan of treatment in certain cases, and fortunately obtained a large number of patients, enough to fully test my plan and prove its success. I thereupon prepared a lengthy paper upon the subject and read it before the state medical society. What was the result? A half a dozen members took the floor to say what the treatment had been for a hundred years back, and to claim that the old treatment, though unsuccessful, should be continued, notwithstanding that the new treatment had been successful. I thought differently and continued to use the new method, and made remarkable cures of cases that had been pronounced incurable. My business increased rapidly as each person that I cured told some friend, who came in turn and was cured. Each patient advertised me a little. What then? In that large city there were not more than 400 cases of the kind. I cured every case that came to me and then had nothing to do except the ordinary business of a local physician. I knew there were hundreds and thousands of others elsewhere, who might be cured if they only knew; and I advertised. Cured hundreds of others and I have advertised ever since. I have relieved more suffering, cured more patients, made more people happy, and done more good generally because I have told the people what I can do, and I shall go on with the good work as long as my strength will permit.

I advertise because I have something worth advertising. I have made myself competent by years of special study and experience, and by the expenditure of large sums of money. By advertising I place before the people the facts which enable them to know what I can do. I thereby reach thousands, who, given up by local physicians or unsuccessfully treated, give themselves up as incurable. I cure them and thereby enlarge my field of usefulness. By no other way than advertising could these people have known that they could be cured. Every thrifty and prosperous business in life, save those of law and medicine, advertise freely. Lawyers do not, for they only use in business what others have made for them years before. They only do what has been written. "Regular" doctors do not advertise for the same reason. They have nothing new, nothing which someone else has not written or told them of, they get their knowledge from the books. A man may read medicine until he is blind and then know nothing of it. To be successful he must apply his own mind. Make his own researches, and to do that he must have room and opportunity. He must have cases, hundreds of them, and compare results. If he does not do this he is a machine without novelty, skill or ingenuity, still plowing with a wooden plow, and ignoring the advantages of steam, living but not learning. The same is true of a lady doctor.

Below you will find published the names and addresses of some of the recent cures that I have made. These people's afflictions were, under the ordinary physician's care, considered hopeless, and no prospects for a cure:

Mrs. Kate Schall of Albion, Neb., cured of catarrh of head and stomach.  
Mrs. William Zuerg of Blue Vale, Neb., cured of nervous heart and female disease.  
Mrs. J. E. Connelley of Akron, Neb., cured of cancer of long standing.  
Mrs. Augusta Seydon of Pender, Neb., cured of nervous liver and stomach disease.  
Mrs. Ella Scochman of Wayne, Neb., cured of rheumatism, female disease and skin disease.  
John Harper of Columbus, Neb., cured of heart disease, stomach and liver disease.  
Emma Staake of Clarks, Neb., cured of skin disease, heart trouble and dropsy.
