NORFOLK, NEBRASKA, FRIDAY, MARCH 4, 1904

Congressman!Babcock Receives a Re-nomination.

END OF HARD FOUGHT BATTLE

Chairman of the National Republican Congressional Committee is Again Honored in His District, in Spite of the Governor's Opposition.

Milwaukee, Wis., March 3 .- Congressman Joseph W. Babcock, chairman of the republican national congressional committee, was renominated for congress today by the republicans of the Third district. His renomination culminates one of the most interesting fights in the political annals of Wisconsin. The contest was begun last winter, since which time the opposition to Babcock's renomination has been waged with unabated vigor by the state administration, headed by Governor La Follette. Up to last winter Congressman Babcock had been either with the governor or had remained neutral in the state fights. This attitude was due to the fact that the Third district has always been counted on as a La Follette district, and the congressman, recognizing this, made no attempt to take part in the Nell State werthrow the governor.

During the last session.

During the last session islature, however, Mr. Babcock wency to Madison and coquetted with the governor's opponents regarding an organized fight against him. The congressman, from all reports, was willing to take part in it as a leader, but this was not to the liking of those in authority on that side and the whole scheme fell through. However, it was not forgotten by the governor and steps were taken as early as last summer to defeat the renomination of Mr. Babcock. Plans were laid to bring out candidates in every county of the district. This was done, and in addition administration leaders from all over the state were sent into the district to make the fight on the congressman. All the efforts of the La Follette forces were without avail, however, as county after county held its caucuses and declared for Mr. Babcock's renomination. It was admitted that, should the governor win in his attempts to defeat the congressman, the opposition to his renomination as governor would go to pieces like a house of cards. Now, however, in face of the complete triumph of Congressman Babcock, the politicians are speculating as to whether or not it will put a kink in Governor La Fol lette's plans as may end in overthrowing him.

In Ninth Missouri District.

St. Charles, Mo., March 3 .- the rethe Ninth district met here today and filling in the excavation made this elected delegates and alternates to attend the national convention to be held at Chicago in June. Resolutions were adopted indorsing the administration of President Roosevelt. The district convention to nominate a candidate for congress will be held later.

Examines Firemen.

Fremont, Neb., March 3.-Traveling Engineer J. A. Willey of the Northwestern is here from Norfolk this week and is giving nineteen firemen written and oral examinations on first and second year mechanical engineering. The examinations are being conducted at Superintendent Mahanna's office. Seven of the firemen were put through the set of questions yesterday. The examination is based on practical engineering and the course of instruction furnished through railroad channels.
