

CLEAN DOOR DISASTROUS

It Doesn't Always Pay To Wash the Windows.

MAN TOOK GLASS FOR THIN AIR

And Mistaken in His Vision, Straightforth Put His Foot in it—The Insurance Company Paid for the Door That Couldn't Stand a Jar.

It doesn't always pay to wash the windows. It pays if the window happens to be insured, but in any other case it wouldn't pay the man who did the job or the fellow who mistook the transparent glass for vacant atmosphere.

At least it was fatal in one case yesterday. The glass in one of the entrance doors at the Fair store was washed up clean and bright. Not long afterward one of the men who had gone in, looked through the glass and saw, across the street, the fellow he was looking for. He started toward the object of his gaze. Nothing was apparently in his way. The glass didn't look like glass at all and straight at the door he lunged. As though it were thin air and nothing more, he jabbed his heavy foot through the plate and the door collapsed with a crash.

For a minute the man who had put his foot in it, was very scared. When they told him that his bill was \$25 and that he had better pay at the cashier's desk, he turned white around the gills in stunning style. Then an insurance agent came around and decided that there wouldn't be any bill to pay because that was his firm's business, anyway. And the fellow, glad to have an insurance company to lay his troubles onto, walked out of the door that had been smashed because it couldn't stand a jar.

Mr. and Mrs. Frank Roach will occupy the residence to be vacated by Mr. and Mrs. W. G. Baker, corner Pasewalk avenue and Eighth street, after May 1.

The active season of the painters and paper hangers has opened early this year, and the fine days of the late winter are seeing a number of store

fronts repainted to get out of the rush later in the season.

H. A. Winder and E. T. Reid have each left for an annual spring round up of business over part of their territory.

A number of flocks of geese have been reported headed for the north, but the probability is that they have inaugurated the season of migration a little early and will again head for the south before the weather will permit them to remain in the north permanently for the season.

During the past week or two sickness has shown a considerable increase in Norfolk and vicinity and the calls on the services of the doctors have been more frequent. A large number are suffering from colds and more serious illness has been prevalent. It is natural to the season of the year, with the rapid weather changes and the gradual softening of the weather with a consequent lowered vitality on the part of the people.

Julius Altschuler had the misfortune to slip on the basement steps at the store of Baum Bros., and hurt his shoulder and one of his limbs quite badly. The steps were dark, and besides slipping on an oil soaked step, there was a broom handle in the way to make Mr. Altschuler's fall the more emphatic.

Fred H. Keller returned last evening from Fremont, where he has been during the past few days assisting in completing plans for a new mill in that city. The mill is to be a 500-barrel institution with the most improved style of machinery known. It is to be built by the J. T. Royston Milling company. The contract was let to the Allis, Chalmers company of Milwaukee.

Rev. and Mrs. J. F. Poucher have welcomed a new son to their home on South Fourth street.

Saturday was an unusually busy day with the merchants. The streets were fairly crowded with teams and at times it was difficult for teamsters and pedestrians to use the streets with any degree of safety on account of the jam. It was estimated by some that there were not less than a thousand visitors to the city on that date.

THURSDAY TIDINGS.

The prospects are for as sudden a return to spring as the drop to winter was yesterday.

Those who have predicted that spring had come to stay are entitled to at least one retray.

The co-operative association of the Omaha Rescue home will meet at 3 o'clock Friday, at the home of Mrs. Inlay, 1195 Cleveland street.

Fortunately it was not far enough along in the season for people to pack their coats and cloaks and shawls in moth balls and move the base burner out into the coal shed.

Those people who believe that the first three days of March rule the weather for the next three months are wondering of April will really be anything like yesterday.

"Now that spring is upon us," said the man who has been interested in Norfolk's park project, "what are we going to do about it? Norfolk needs a park. We all know that. And this is the time to begin action. Neglig will furnish us with a good example. A good many other towns of Norfolk's size have parks, also. We ought."

Rescue Families in Boats.

Fort Wayne, Ind., March 2.—The northern part of this city is entirely under water. A large force of police has been at work all the morning rescuing families from the inundated districts in boats.

The Grip Leaves Thousands in its Path Weak, Nervous, Dyspeptic, Catarrh Wrecks.

From New York Journal. "During the recent Grip epidemic, claiming a million victims or more, the efficiency of Peruna in quickly relieving this malady and its after effects has been the talk of the continent."

LIKE A DEMON grip has crossed our country, leaving behind scores of physical wrecks.

Victims of catarrh of the head, catarrh of the throat, catarrh of the lungs, catarrh of the stomach, catarrh of the kidneys, catarrh of the pelvic organs, are to be counted by hundreds of thousands. Grip is epidemic catarrh, and sows the seed of chronic catarrh within the system.

This is so true that few grip sufferers are able to make a complete recovery until they have used Peruna.

Never in the history of medicine has a remedy received such unqualified and universal eulogies as Peruna.

A New York Alderman's Experience.

"I had a slight attack of la grippe and once took Peruna, which drove the

disease out of my system in a few days and did not hinder me from pursuing my daily work.

"I should like to see our Board of Health give it official recognition and have it used generally among our poor sick people in Greater New York."

Joseph A. Flinn.

D. L. Wallace, a charter member of the International Barber's Union, writes from 15 Western avenue, Minneapolis, Minn.:

"Following a severe attack of la grippe I seemed to be affected badly all over. I suffered with a severe headache, indigestion and numerous ills, so I could neither eat nor sleep, and I thought I would give up my work, which I could not afford to do.

"One of my customers who was greatly helped by Peruna advised me to try it, and I procured a bottle the same day. I used it faithfully and felt a marked improvement. During the next two months I took five bottles, and then felt splendid. Now my head is clear, my nerves steady, I enjoy food, and rest well. Peruna has been worth a dollar a dose to me."—D. L. Wallace.

Mr. O. H. Perry, Atchison, Kansas, writes:

"Again, after repeated trials of your medicines, Peruna and Manalin, I give this as my expression of the wonderful results of your very valuable medicine

in its effects in my case after repeated trials.

"First, it cured me of chronic bronchitis of fifteen years' standing by using two bottles of Peruna in January, 1894, and no return of it.

"After I was cured of bronchitis I had a grippe every winter for several winters. But, through the use of Peruna, it got gradually weaker in its severity, until it dwindled down to a mere stupor for two or three days. Now the stupor does not trouble me any more."—O. H. Perry.

A Congressman's Experience.

House of Representatives, Washington, D. C.

Peruna Medicine Co., Columbus, Ohio, Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,

George H. White.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

TO MAKE BUILDING BLOCK

New Industry Has been Started in Norfolk Today.

M. ENDRES WILL RUN PLANT

Material Manufactured From Portland Cement—Norfolk Will be the Distributing Point for the New Northwest—Ten to Fifty Men Employed.

[From Wednesday's Daily.]

M. Endres will establish within the next two or three weeks a new industry in Norfolk. This will be the manufacturing of building block. As soon as machinery arrives for the beginning of the process, Mr. Endres will begin operation in the new plant.

A deal was closed this morning between him and the Building Block Manufacturing company of Minneapolis, by which this territory is to be covered through his Norfolk plant. From this city as a distributing point, he will branch out through all tributary area in the sale of the building material.

The building block stuff is made from Portland cement. It is white in color. The agents claim that they compete in Minnesota with it against lumber and brick and that this year the firm will have more than it can attend to, although the industry is still in an infant state.

The building block material will be manufactured as the buildings go up. From ten to fifty men will be employed in the process. This is somewhat the same line of industry that was being planned by an Iowa firm for Norfolk a few weeks ago.

HELD EXAMINATIONS.

Civil Service Board Examines Three Applicants for Position.

The local civil service board held an examination in the city hall Saturday afternoon, the session being presided over by B. C. Gentle as chairman and Miss Garlinger as secretary of the local board.

Three applicants for clerk-carrier positions were examined and the papers have been sent to Washington for action. Nothing, of course, will be known of the outcome of the examination until after returns have been received from Washington.

The applicants were H. B. Grow, George Meister and Miss Clara Brueggemann.

If a girl can get over love for a man who drinks occasionally, and promises to become a drunkard, it is greatly to her credit.

When a baby is cross, no one but the mother is really allowed to say so, and when it is good, the whole neighborhood is permitted to be proud.
