

POWER OF THE HUMAN MIND

Young Man in Milwaukee Gives an Exhibition.

DOLLARS MOVE AS HE DESIRES

An Astonishing Feat By Which He Picked Out the Ace of Spades. He Says He Has Baffled the Professors of Harvard and Yale.

[From Friday's Daily.]
Milwaukee, March 25.—Gentlemen, I am unable to explain it; I have had the most learned professors at Yale and Harvard witness my demonstrations; some of the most noted doctors of the country have sought in vain for a solution of my powers and I myself am unable to explain further than that my mind has absolute control over matter.

This was all that Frank Von Braulik, a young telegraph operator in the employ of Porterfield & Co., brokers, of this city, had to say after a marvelous exhibition of what he terms psychic power or the control of the mind over matter.

To a few friends, for he says he never made a public exhibition, Von Braulik performed a few of his wonderful feats, and though they paid the closest attention, none was able to advance any theory that would explain his methods.

His first demonstration was begun by taking a silver dollar from one of the audience and laying it on a plain, oak office table. Bending over the table, assuming a tense attitude, his head scarcely two inches above the dollar, Von Braulik tightly grasped the hands of two of the spectators. This lasted but a few seconds, when he released his grip, tightly clenched his hands and his breathing became labored. His face shook convulsively and his face appeared drawn with pain. Suddenly the spectators saw the dollar begin moving. It traveled toward the edge of, and several times in its progress it raised a quarter of an inch clear of the table. From the beginning of the movement it traveled faster and faster until it reached the edge when it dropped into Von Braulik's hands.

His second experiment was even more successful than the first. Taking a stone drinking cup, four inches deep, and filling it with water, Von Braulik dropped a quarter into it. He went through the same motions as in the first demonstration and the spectators were surprised to see the quarter rise slowly to the top of the mug and fall over the side on to the table.

His third feat amazed the audience more than the others. He took a deck of cards, placed them face downwards on the table and scattered them promiscuously over an area about eighteen inches in diameter. Bending over them as he had in the other demonstrations, he told his auditors to think of the ace of spades. Soon the observers saw the scattered cards begin to move. Gradually they began to separate and from near the bottom two cards were seen to leave the others. They slid along the table until near the edge when the top card dropped away from the other and the lower one fell over the edge into Von Braulik's hand. Turning it over the young man exhibited the ace of spades.

SATURDAY SIFTINGS.

D. C. Elliott was down from Bloomfield.

C. H. Sibley was in the city from Tilden.

W. A. Bishop was down from Pierce yesterday.

L. L. McVay was over from Carroll yesterday.

P. E. Chase was a city visitor from Clearwater.

M. K. Pollock was in the city from Hartington.

Geo. J. Jamison of Wayne was in the city on business.

Isach Lightner was in town this morning from Monroe.

Mrs. S. L. Miller made the round trip to Omaha yesterday.

Orpha Driscoll and Chas. Marks were city visitors from Creston.

O. E. Lewis was a Norfolk visitor over night from Meadow Grove.

W. M. Palmer and D. V. Alyea were in the city from Meadow Grove.

H. Fricke, Jr., and Frank Horst were over from Madison yesterday.

Joe Holechek came down from Spencer on the early train this morning.

Mrs. H. G. Correll is in the city from Plainview for a visit with friends.

Mrs. J. M. Covert has gone to Ewing for a visit. Her mother is quite ill at that place.

G. C. Warren, one of the prominent business men of Tilden was in the city over night.

Mrs. M. D. Tyler will come from Omaha where she has been visiting friends the past week.

Norfolk lodge of Elks will elect officers for the ensuing year at the regular meeting of the lodge to be held tonight.

Mr. and Mrs. E. P. Weatherby and Mrs. Warrick returned home last night. Mrs. Weatherby has been in Des Moines for the past three weeks.

The cold wind of the past few days has delayed the work of putting the tin on the roof of the United States court house.

A week from tomorrow is Easter, and if it does not warm before then the rabbit may be expected to leave eggs of ice in the nests.

P. O. Hirsch returned last evening from St. Paul, Minn. He reports that when he left there yesterday morning there was four feet of snow and the temperature was sixteen below zero.

Mrs. Warrick has been visiting in Omaha and Mr. Weatherby went down to meet them.

The weather last night went to seven above zero and if the wind continues to drive the glad springtime south the temperature may yet reach the zero mark again. The barometer, however, registers at a high point, indicating that the worst of it is about passed.

What lars there are in the country! The almanac makers say that the sun has just crossed the equator, when last night it was seen to set directly west on Norfolk avenue and rose this morning almost directly east. In another day or two it will have crossed the equator, and these fellows insist that it has just crossed the equator which is some thousands of miles further south.

Starlin & Co. is the name of another new real estate firm in Norfolk. H. W. Starlin, formerly of Battle Creek, is manager of the company and Dr. J. H. Mackay is a partner. Their office rooms are in the suite formerly occupied by Dr. Mackay alone. "I came to Norfolk to locate," said Mr. Starlin, "because it strikes me as the best town in Nebraska to day and I am confident as to its future."

W. H. Chesnutwood writes from Menominee, Mich., that he has changed location for the better, now having charge of the agricultural department of the Menominee River Sugar company's business. He states that it is one of the finest plants in Michigan of one thousand tons capacity. The Norfolk friends of Mr. Chesnutwood will be pleased to hear that he is progressing in his chosen work.

Students of agriculture and agricultural conditions are advising the farmers who desire a good stand of corn this coming season to make a thorough test of the seed they have saved before planting time comes. It is said that a very large percentage of the corn grown last season will not properly germinate and if the farmers between now and planting time can find which are the fertile grains and separate them from those that will not grow, much annoyance will be saved them later in the season, when they are given to wonder why they have such an incomplete stand.

Students of agriculture and agricultural conditions are advising the farmers who desire a good stand of corn this coming season to make a thorough test of the seed they have saved before planting time comes. It is said that a very large percentage of the corn grown last season will not properly germinate and if the farmers between now and planting time can find which are the fertile grains and separate them from those that will not grow, much annoyance will be saved them later in the season, when they are given to wonder why they have such an incomplete stand.

THE CONVERSION OF A JAILOR

Evangelist Lyon Tells His Audience How to Become Christians.

Mr. Coulters sang with pleasing effect "Paul and Silas" last night at the revival meeting and after Dr. Sisson led in prayer Mr. Lyon began his sermon on the conversion of the jailor at Phillip. Paul and Silas were jailed because of a revival meeting they were holding in the city which had aroused the enmity of the wicked citizens. People living in sin speak contemptuously of gospel meetings. The devil wants to be left alone. People who are satisfied in their sins are very much disturbed by gospel meetings and treat them with ridicule or anger. Paul and Silas had been thrown into prison after having been beaten with rods because of the fervor of their evangelistic work. Undaunted by the inhuman treatment they had received they spend the hours of the night in song and praise. The earthquake disturbs the jailor and anxious for the future he cries "What must I do to be saved?" and Paul answered "believe on the Lord Jesus." The jailor wanted to be saved. Desire has much to do with the answer to our prayers. We believe about what we want to believe. There is a difference between head and heart belief. If we believe with our heart unto righteousness we shall be saved. Paul and Silas sang praises in the midnight hour. So the christian can sing in the midnight hour of difficulty, business adversity, trial, temptations and the prisoners of doubt, of bad habit, of temptations who believe can be saved. The jailor realized he was lost. "The fear of God is the beginning of wisdom," and until you realize you are a lost soul you will not be very anxious about your salvation. There is difference between belief and credulity, between faith and assent. Faith is the basis of life. The farmer has faith in the soil and sows his seed. Business is carried on by faith. Faith in one another is the basis of happy home life. If you believe in the staunchness of a ship you commit your life into it. You commit your life to the engineer of a train because you trust in him. If you believe in Jesus Christ you trust him with your life. If you do not believe you do not trust.

HOW TO USE NEW 'PHONES

Persons Talking Must Speak into the Mouthpiece.

GIVES BEST KIND OF SERVICE

Norfolk Office Has Never Been as Well Equipped as It is Today—The Central Promptly Answers to Your Call but You Must Get Close.

[From Saturday's Daily.]
While the antiquated populace of Omaha are still turning telephone cranks to ring the central operators, Norfolk is today enjoying the finest service known to science in the way of telephonic communication. It is the very best service that it is possible to have and the patrons of the city are beginning to fully appreciate the change from the old style instruments.

There is one complaint, however, which is withholding a great deal of the advantage which is set forth by means of the new system. Many subscribers are of the opinion that they are unable to hear as distinctly in the new as in the old style telephones. They are laboring under misapprehension due to a slighting of the rules for talking.

Get Close to Mouthpiece.

Subscribers who would be heard distinctly must get close to the mouthpiece. The whole secret of satisfactory communication lies in this. To get a little below or a little above or a little to one side will make the talking indistinct. In the old system, the mouthpiece was so large that it gathered sound pretty well from a distance but this is different. The lips should be pressed very closely into the telephone and then merely the ordinary tone of voice employed. You need not speak especially loud—just talk as you would to a person in the same room.

Instruction blanks have been sent out with each telephone, but little heed was paid to them because patrons considered them of no more importance than old system instructions.

The Norfolk office has never been so well equipped as at present. The telephone girl answers instantly when you lift the receiver and the service is about the best in the land.

WILL EXTEND MAINS FOR MILES

Gas & Fuel Company Plans to Improve and Extend Soon.

[From Saturday's Daily.]
The Norfolk Gas and Fuel company has elected J. W. Ransom as president to succeed the late G. A. Luikart in that position. Dr. H. T. Holden has been elected director to fill the vacancy. The company contemplates a large number of improvements during the coming year, and will build extensions in mains amounting to many miles.

J. H. SEXTON GETS NO BETTER

Naper Man is Very Low at the Norfolk Sanitarium.

[From Saturday's Daily.]
J. H. Sexton, of Naper, who lies at the Norfolk sanitarium with a paralytic stroke, is very low. His pulse at noon today was 59 and his physicians are fearful as to the outcome of his illness.

MONDAY MENTION.

G. J. Bostrom was over from Madison yesterday.

Geo. E. Merritt of Chadron was a Norfolk visitor Saturday.

Paul Karo is in the city from Carroll, Neb., visiting relatives and friends.

Miss E. Jackson came down from Meadow Grove on the early train this morning.

Bessie M. Duell of Meadow Grove was doing some shopping in Norfolk Saturday.

J. O. Royer, manager of the office of Edwards, Wood & Co. at Stanton, was a Sunday visitor in Norfolk.

Duward Stafford, manager of the Davenport stock store at Stanton, spent Sunday with Norfolk relatives and friends.

The winds that have gone over the city have swept the streets clean, but as much cannot be said for the drainage ditches.

John B. Barnes, jr., superintendent of schools at Tekamah, is in the city for a week, visiting at the home of his parents on West Norfolk avenue.

The grip is still gripping a few who have heretofore evaded its ravages and it is hoped that its course will soon have been run for lack of material on which to work.

There are a few crossings in town where the people in wet weather are compelled to take to the streets to keep out of the mud. The crossings are below grade and should be raised.

Jake Wolfe, one of the proprietors of the Hub clothing store, who was arrested last December for opening his establishment without a license and who carried the case to the district court, is in Norfolk to appear at Madison and to fight the matter.

The boys this week will have plenty of time to play marbles—or to inaugurate that work of cleaning up about the premises that demands attention at this season of the year. A

week's vacation from school duties is before them.

At the regular meeting of the Norfolk lodge of Elks Saturday night, the following officers were elected for the ensuing year: Dr. P. H. Salter, exalted ruler; Burt Mapes, esteemed leading knight; S. D. Robertson, esteemed lecturing knight; J. C. Stitt, esteemed loyal knight; C. E. Burnham, treasurer; B. C. Gentle, secretary; J. N. Bundeck, trustee for three years; George D. Butterfield, trustee for two years.

Two runaway accidents which might have proven more serious than they fortunately resulted, occurred in Norfolk during Saturday and Sunday. On Saturday afternoon a team belonging to the Sells livery stable took a dash down Norfolk avenue, which was crowded with Saturday afternoon shoppers and with teams. On the track were several hacks which were severely jolted but not damaged. The buggy belonging to M. Wheeler, which stood at one side of the avenue between Third and Fourth streets, was battered into kindling but nobody was hurt. Yesterday afternoon a horse being driven by Mr. and Mrs. Charles Knapp on The Heights was frightened and dragged the buggy for some distance. The occupants jumped out and were not injured.

DOINGS AT THE AUDITORIUM

"Camille."

It was a lack of good fortune upon the part of Norfolk theatergoers that the Auditorium was not filled last night when Miss Georgia Harper, supported by an excellent company, appeared in the moral play, "Camille." It is a much more capable troupe than ordinarily visits the small town. The beginning is not so well taken as the latter end of the piece, in which the actors warmed well up to their roles and did things that were decidedly artistic. Miss Harper is a strong player and puts her whole soul into every line that she speaks. The part is a difficult one to fill and she does that admirably. The death scene at the close was especially well rendered and brought a hearty hand from the house, as did the ending of each act. The play is one of those strong, dramatic pieces similar to the type that has been featured by Mrs. Campbell and a number of others during the past two seasons. They are heavy in dramatic work and lasting in the impression which they create.

The Auditorium was not particularly warm. The audience got out its overcoats to keep comfortable. The doors in the entrance, too, still creaked.

WARNERVILLE.

The farmers in this vicinity have been sowing wheat and oats.

The Omaha Elevator company shipped a load of hogs to South Omaha Friday.

The masquerade ball given by the Modern Woodmen Thursday evening of last week was well attended and netted a neat sum to the lodge treasury.

At the republican caucus held Tuesday evening the following named delegates were elected to attend the convention at Battle Creek: Arthur Pettitt, Fred Terry, W. P. Rowlett, Everett Pettitt, Zell McGinnis. B. B. McGinnis was recommended for committeeman.

HAPPY HARRY AGAIN IN TOWN

Man Who Spent \$1,500 in a Month Last Winter is Here Again.

[From Monday's Daily.]
"Happy Harry" drifted into town yesterday on the cold wave. "Happy" will be remembered by readers of The News as the fellow who spent \$1,500 of some person's money in Norfolk last winter in a month. The feat has been accomplished before in Norfolk and reduplicated on several occasions. Men have spent \$1,500 of their own or some one's money but not in the dizzy manner "Happy" did. It is said that in the breezy days of the long ago in Norfolk \$1,000 had been wagered on the turn of a single card, but it remained for "Happy" to pay a girl \$100 for a kiss, and "Happy" is good looking withal. In Omaha and Lincoln he duplicated the performance, only he spent more money in each of those towns than he did in Norfolk.

EXPLORER ANDREE LEGALLY DEAD

[From Monday's Daily.]
Stockholm Court Pronounces Balloonist Dead According to Law.

Stockholm, March 28.—The Stockholm court has just pronounced the Arctic explorer Andree to be dead in law, the legal term of disappearance having expired. Andree left Spitzbergen July 11, 1897, with two companions, in a balloon with the object of reaching the North Pole. No authentic trace has ever been discovered of the ill fated expedition.

FIRE AT LONG PINE.

Started by Locomotive and Burns Three Miles.

Long Pine, Neb., March 26.—Special to The News: A railroad engine started a fire just south of the depot here yesterday. It spread in the fierce gale, ran up over the hill upon which the new water tank is lying and did a little damage to the tank. Then the fire ran three miles to the southeast where it was got into a corner and put out.

ACQUITTAL IN LIBEL CASE

T. J. Sheibley of Ponca Again Suffers Defeat.

COURT DISMISSES THE CASE

Although the Ponca Man Attempted to Force the Hartington Herald to Contribute \$6,000, He Lost Out Very Promptly—Norfolk Next.

Sioux City, Ia., March 25.—Another verdict has been rendered against Thomas J. Sheibley, one very aggressive citizen of Ponca, Neb., who is attempting to derive a small fortune from several newspapers in Nebraska for saying something which he thought ought not to have been said about him. In Hartington Sheibley had George L. Nelson, of the Hartington Herald, arrested and tried. He asked for \$6,000 in cold cash. After the evidence had been taken Judge Graves took the case away from the jury without much ado, and rendered a verdict for the defendant. Sheibley is kept pretty busy with his libel cases. Next week he will have a case on the same charge against W. N. Huse, publisher of The Norfolk News. This case will be tried in Madison before district court. Another of the cases is against the Ponca Journal, in which also a verdict has been rendered for the defendant. The case arises over the political campaign in which McCarthy was elected two years ago. Sheibley would like to have the Norfolk publisher contribute \$6,000 to his peace of mind.

NEW OFFICERS OF COMPANY L

Men Elevated to the Position at the Meeting—Inspection on the 30th.

The vacancy in the office of lieutenant in Company L of the Nebraska guards has been filled by the promotion of Carl Pilger to be first lieutenant, and the election of Chris Anderson of Uncle Sam's efficient postal service to be second lieutenant. General A. A. Daggett, U. S. A., will inspect the company at this place on Wednesday evening, March 30 at 8 o'clock p. m.

Meister Gets Appointment.

In the civil service examinations held here recently, Miss Clara Brueggeman and George P. Meister passed. Mr. Meister will probably be appointed as sub-carrier.

DOOR BLOWN OUT.

Storm Demolishes Glass for Western Union People.

During the windstorm of yesterday, a plate glass door in the office of the Western Union Telegraph office was blown out. For a time the wind whistled into the office and cooled off the keys, but the door was boxed up in short order and now a new glass holds the boards.

ANOTHER NEW STORE IN TOWN

Wilson Brothers Will Locate in Norfolk Immediately.

[From Monday's Daily.]
Wilson Bros., a dry goods firm well known through northern Nebraska and located among other places at Plainview, Allen, Butte and Fairfax, S. D., have purchased the stock of fixtures formerly belonging to R. A. Hopkins, of the Superior Candy kitchen, and will locate in the city with a complete line of their goods. Mr. Hopkins has closed his store and will leave the city for Santa Cruz, Cal., within a couple of weeks.

SEARS WINS AT SIOUX CITY

Elected Mayor by a Plurality of 1,240 Over Republican Opponent.

Sioux City, March 29.—A landslide for the democratic ticket in the spring municipal contest gives that party a large majority over the republicans.

Sears, the successful candidate for mayor, was elected by a plurality of 1,240. The liquor question was the principal issue in the contest.

YOUNG MEN IN THE PHILIPPINES

Scores of Openings According to Officers of Insular Bureau.

Washington, D. C., March 29.—There are scores of openings for young men in the Philippines, according to officers of the insular bureau of the war department, and a series of civil service examinations begun today is expected to fill a large number of them. The largest number of places are for male teachers, but there are places as telegraphers, as officers of constabulary and as live stock experts.

In appointing officers to the constabulary preference is to be given in every case to men who have served in the United States army, who had military training in a military school or some experience in the national guard. The telegraphers are to be used along the lines of newly constructed telegraph which are rapidly spreading to all parts of the islands, and which are owned by the government. The live stock experts are wanted to have charge of the fine stock to be sent to the islands for breeding purposes.

Artistic job printing at The News office.

Good Bread

How good good bread tastes—so good one could almost make a meal of it. You know the flavor—the wheat flavor, sweet as a nut. Do you know the secret? It's in the yeast. Good yeast—good bread. Poor yeast—poor bread—and indigestion.

The home-made bread of the American housewife leads the world. The secret of it is found in

YEAST FOAM

a purely vegetable yeast, made of the finest malt, hops, corn, and other healthful ingredients, in the cleanest and best-equipped yeast factory in existence. Yeast Foam is the only yeast that preserves in the bread all the delicious flavor and nutritive qualities of the wheat. Try it.

The secret is in the yeast.

Sold by all grocers at 5c a package—enough for 40 loaves. If your grocer does not keep it, send us his name and yours on a postal and we will mail you our book, "How to Make Bread," free.

NORTHWESTERN YEAST CO. Chicago.

KIDNEY DISEASES

are the most fatal of all diseases.

FOLEY'S KIDNEY CURE is a Guaranteed Remedy

or money refunded. Contains remedies recognized by eminent physicians as the best for Kidney and Bladder troubles. PRICE 50c and \$1.00.

She Has Cured Thousands

DR. CALDWELL

OF CHICAGO

Practicing Aleopathy, Homeopathy, Electric and General Medicine.

Will, by request, visit professionally NORFOLK, NEBRASKA, PACIFIC HOTEL, THURSDAY, APRIL 21. ONE DAY ONLY.

returning every four weeks. Consult her while the opportunity is at hand.

DR. CALDWELL limits her practice to the special treatment of diseases of the eye, ear, nose, throat, lungs, female diseases, diseases of children and all chronic, nervous and surgical diseases of a curable nature. Early consumption, bronchitis, bronchial catarrh, chronic catarrh, constipation, indigestion, open sores, rheumatism, neuralgia, sciatica, kidney diseases, Bright's disease, diseases of the liver and bladder, dizziness, nervousness, indigestion, obesity, interrupted nutrition, slow growth in children, and all wasting diseases in adults, deformities, club feet, curvature of the spine, diseases of the brain, paralysis, heart disease, dropsy, swelling of the limbs, stricture, open sores, pain in the bones, granular enlargements and all long standing enlargements properly treated.

Blood and Skin Diseases.
Pimples, blotches, eruptions, liver spots, falling of the hair, bad complexion, eczema, throat ulcers, bone pains, bladder troubles, weak back, burning urine, passing urine too often. The effects of constitutional sickness or the taking of too much injurious medicine receives searching treatment, prompt relief and a cure for life.

Diseases of women: Irregular menstruation, falling of the womb, bearing down pains, female displacements, lack of sexual tone. Leucorrhoea, sterility or barrenness, consult Dr. Caldwell and she will show them the cause of their trouble and the way to become cured.

Cancers, Gout, Fistula, Piles and enlarged glands treated with the subcutaneous injection method, absolutely without pain and without the loss of a drop of blood, is one of her own discoveries and is really the most scientific method of this advanced age. Dr. Caldwell has practiced her profession in some of the largest hospitals throughout the country. She has no superior in the treating and diagnosing of diseases, deformities, etc. She has lately opened an office in Omaha, Nebraska, where she will spend a portion of each week treating her many patients. No incurable cases accepted for treatment. Consultation, examination and advice, one dollar to those interested.

DR. ORA CALDWELL & CO. Chicago, Ill.
Address all mail to Bee Building, Omaha, Neb.
