## SIX PINE RIDGE INDIANS KILLED IN WRECK

Sixty-five Magnificent Specimens Going East are Pinned Under Chicago & Northwestern Car.

## WHITE HORSE SMOKES STOICALLY UNDER KNIFE

The Crowd Passed Through Norfolk and Ate Dinner Here at Noon Wednesday--Sitting Bull's Son.

Maywood, Ill., April 7.—Sixty-three Indians enroute to Chicago to see President Roosevelt today. Three were instantly killed, twenty were fatally injured and twenty were more or less seriously hurt. The dead are: Killhead, Phillip Ironkan, Thomas Comelast. Among the injured are: Big Chief White Horse, who will die; Head Chief Highball, seriously; Sitting Bull, son of Chief Sitting Bull, seriously.

The Indians who were not hurt or pinned in, fled in a panic across the prairie.

The trains which collided were the Oregon Express and a fast mail on the Chicago & Northwestern. Both were east bound. The Indians were in the day car, which was completely wrecked. After the collision passengers in the other coaches of the two trains hurried to the rescue and after a hard struggle pulled the Indians from beneath the wreckage.

White Horse Smokes, Dying.

Chief White Horse said he knew death was near and requested that he be placed near his dead companions. The chief was propped up and sat stoically while physicians worked over his injuries. He smoked his pipe quietly and showed no signs of the pain he was suffering.

One by one the injured Indians were slowly taken from the splintered car and placed upon the ground beside their dying chief and dead companions.

From Pine Ridge Reservation. The Indians were from the reservation near Rushville, Neb., and their journey was primarily for show purposes at New York.

### In Norfolk For Dinner.

The Indians mentioned in the above Associated Press telegram passed through Norfolk on the main line of the Northwestern Wednesday noon. They were in charge of Bill McCune and were headed for Buffalo Bill's show. They were the finest types of red men known in Nebraska—selected with special attention as to their physical qualifications in representing the great west. They were to have sailed from New York for England on Saturday night.

In Norfolk they were met by Mrs. John W. Evans, who has done a great amount of missionary work in the northwest. Most of them knew Mrs. Evans and were glad to see her.

At the eating house here they ate their dinners and seemed to be enjoying life. They were all in the "pink" of health for red men and attracted a great deal of attention from the people who saw them at the station. They had come from the Pine Ridge that day.

The news of the accident and the death will come as a blow to the Nebraska brothers on the Pine Ridge. White Horse, the chief, is known all over this section of the state.

## FRED HARVEY GOES TO THE PEN.

He Pleads Guilty to the Statutory Charge.

Fremont, Neb., April 7.—For statutory rape on the person of Miss Edith

Rich of Scribner, Fred Harvey of that place was sentenced by Judge Hollenbeck to three years in the penitentiary. Harvey, who is 25 years of age, pleaded guilty to the charge, and said he was anxious to begin serving his sentence. Harvey was formerly a married man, but says that his wife obtained a divorce in Iowa. He is a cousin of Miss Rich and while at Scribner lived with her parents. His relations with the girl continued over a period of seven months.

Several weeks ago Miss Rich bound and gagged herself at night and then told her relatives that she had been assaulted near her home by three men. An investigation resulted in the unearthing of many suspicious facts, and she finally confessed that she had not been the victim of an outrage. She admitted her intimacy with Harvey and he made a similar admission. Harvey owns up to having had affairs with one or two other young women of Scribner since he went there a year or more ago.

Owing to the young man's plea of guilty and the fact that the girl seems to be equally culpable with him, Judge Hollenbeck gave him the minimum sentence which the law specifies for the crime.

## Election at Albion.

Albion, Neb., April 7.—Special to The News: The city election in Albion was one of the most remarkable that ever happened. The result was simply the very unexpected. The high license people elected their mayor, F. J. Mack, by a majority of thirty-six votes and they also elected two aldermen, Frank Roberts and W. W. Ladd. The vote against the licensing of saloons went forty-three majority against and the anti-saloon people elected only one alderman.

This is the first time in the history of Albion that the saloon question has been put way to the bad and it is evident that the question for some time to come. Last year the town went dry but it was thought generally that it would be a close election this year. The ticket elected is as follows: F. J. Mack, mayor; Frank Roberts, alderman first ward; W. W. Ladd, second ward; George Pettibone, third ward; H. W. Gooch, police judge; Wm. McClain, city engineer; E. H. Mullooney, city clerk; W. S. Price, treasurer.

## NEW YORK DEMS DIVIDED

THEY ARE NOT ALL, AFTER ALL, IN UNITY.

TO BE NO MORE INSTRUCTIONS.

Some of the Prominent Factors of the Party Still Think That Grover Cleveland Ought to Have the Nomination Again—Has Supporters.

Washington, April 7.—News has been received from New York democrats that a practical agreement has been reached by the leaders of Tammany Hall and Judge Parker's friends, the purpose of which is that the democratic state convention of New York will not vote instructions for Judge Parker. The agreement is said to have been reached at a luncheon, which was attended by a large number of party leaders, in New York City.

If it was entered into in good faith, and is observed, it will be received with rejoicing by those democrats who are still of the belief that Grover Cleveland ought to be nominated. Tammany wants Cleveland. Leader Murphy and all his friends are profoundly convinced, after a careful analysis of the democratic situation, that the only man who can defeat President Roosevelt is the ex-president. The great financial interests which are centered in New York are prepared to do anything in reason to accomplish the election of Cleveland, if he should be nominated by his party for a third term.

They are equally aware that these same interests regard Judge Parker's candidacy with indifference amounting almost to hostility. As between Parker and Roosevelt—the one unknown and the other undesirable—they are willing to select the latter as the former.

The financial interests are not the only supporters of Mr. Cleveland, as Murphy found out. All the big merchants of New York are urging his nomination. Moreover, the rank and file of the democratic party, not alone in New York city, but in the state wants Mr. Cleveland. The sentiment for Parker is almost wholly artificial.

Mr. Murphy claims, and has been fostered by politicians who have been made use of it for their own purposes. On the other hand, the sentiment in favor of Mr. Cleveland is sincere and deeply grounded, notwithstanding that the politicians who are clamoring for Judge Parker have studiously ignored it.

It now appears that the only democratic leaders in New York who are demanding instructions for Parker are former United States Senator David B. Hill, State Senator Patrick H. McCarren, August Belmont, who is interested in the subway enterprise, and others of less prominence.

## LIVE STEERAGE PASSENGER WAR

New Rate From Scandinavian Ports is on in Earnest and Will Induce Immigration.

New York, April 7.—The new steerage rate war from Scandinavian ports is on in earnest and it is now possible for immigrants to come from northern Europe at a lower rate than ever before. The sailing of the Adria from Gottenberg today marks the beginning of preparations of the revived Scandia line, which is a combination of the North German Lloyd, the Hamburg-American, Holland-American and Red Star lines, which have joined in the fight on the independent Cunard line. The latter has retaliated with the announcement that it will inaugurate at once a new service from the principal Scandinavian ports and that it will carry steerage passengers for \$16, which is \$2 below the rate made by the rival interests. The end of the warfare is not in sight and it may yet be possible for persons to cross the Atlantic at a cheaper rate than they could travel by rail between Chicago and St. Louis.

## Extradition Treaty with Cuba.

Washington, D. C., April 7.—Secretary Hay and Senor Quesada, the Cuban minister, today signed a treaty of extradition.

## KANSAS DON'T INSTRUCT

HEARST MEN FAIL TO WIN OUT ON THEIR PROGRAM.

IT ALL RESTS WITH NEW YORK.

Democratic Leaders are Anxious About Results in New York—Kansas Democrats Assemble—Oklahoma Republicans Meet.

Kansas City, April 7.—A special to the Star from Wichita says that before the Kansas state democratic convention, assembled there today to name delegates to the national convention at Chicago, was called to order, the delegates who had brought instructions for Hearst from their respective counties agreed not to ask the convention for an instructed delegation to the national meeting, providing J. G. Johnson, national committeeman for Kansas, and P. P. Farrelly, admitted Hearst men, were named as delegates-at-large to the national convention.

The state meeting at Wichita will name twenty delegates, with alternates to the national convention, and the evidence of this agreement seems to be that the Parker men are asserting themselves and will secure support for their candidate out of the delegation. The Hearst men hoped for an instructed delegation, solid for the New York editor, but the delegation will probably split, a portion of the support going to Hearst and the balance to Parker.

Claude Dunlap of Hutchinson, who headed the element against instructions for Hearst was made temporary chairman of the convention, with but few dissenting votes.

The anti-Hearst men contend that they are fighting against instructions and not against Hearst and contend that in sending an instructed delegation it would be breaking the Kansas precedent of instructing for no one.

It is believed, however, that there was a Parker influence at work and that some of the votes can be safely counted for him.

## Seventh Missouri Elects Delegates.

Sedalia, Mo., April 7.—The seventh district republican congressional convention met in Sedalia today and elected delegates to the national convention at Chicago. Resolutions endorsing President Roosevelt were passed unanimously.

## Littleton for Governor.

Nashville, Tenn., April 7.—The republican state convention is in session here today for the nomination of candidates for state offices and the selection of delegates to the national convention at Chicago. The defeat of E. T. Sanford in the county conventions leaves Jesse M. Littleton of Winchester the only candidate for the gubernatorial nomination and he will be named unanimously. Congressman Brownlow will be chosen to head the delegation to the national convention and strong resolutions endorsing Roosevelt for renomination will be adopted.

## Oklahoma Republicans.

Guthrie, Okla., April 7.—The Oklahoma republican convention in session here today is the largest political convention ever held in the territory, there being 519 delegates in attendance. The convention will renominate Hrd McGuire for delegate in congress and will select six delegates-at-large and six alternates to represent Oklahoma at the Chicago convention. The resolutions will deal largely with territorial affairs, after endorsing President Roosevelt for renomination. Governor Ferguson and other prominent party leaders are working to have the convention declare for single statehood and the indications are that they will carry the day.

## Rests With New York.

Washington, April 7.—There will be anxious days and sleepless nights for the democratic leaders of all factions until after the New York state convention week after next. The result of the recent primaries in that state are not regarded as decisive and only the state convention will show conclusively which way the Democracy of the Empire state is headed. If New York instructs for Parker it will be accepted as a certainty that Parker is New York's choice. The conservative wing of the party, as distinguished between the radical Cleveland wing and the extreme Bryan-Hearst wing, is practically pledged to abide by the choice of New York state. If New York should not instruct its seventy-eight delegates for Parker and bind them by the unit rule, all will be chaos in the conservative ranks as well as in the other two ranks. That would be taken to mean that New York had no choice, and the issue would have to be fought out on the floor of the convention. It is the confident hope and belief that if New York convention instructs for Parker all of the conventions to be held later which the conservatives may be able to control will follow suit and that their delegates may be classed as Parker supporters.
