MEXICAN Mustang Liniment cures Caked Udder in cows.

MEXICAN Mustang Liniment Best for Sheep ailments.

MEXICAN Mustang Liniment always gives satisfaction.

MEXICAN Mustang Liniment drives out all inflammation.

THEY TAKE A NIMBLE ONE

OFFICERS HAVE MERRY CHASE FOR ALLEGED CROOK.

HE WAS QUICK AT DISGUIISING

Fellow Travelers Accused Gilbert of Taking \$80 in Cash and a Time Deposit Certificate for \$250—Charge of Vagrancy Stood.

[From Friday's Daily.] J. H. Gilbert was the name given by the man who was up before Police Judge Hayes yesterday, arrested as a pick-pocket suspect, but the charge was not proven. Vagrancy stuck, however, and a fine and costs were exacted for that offense.

Gilbert was one of the liveliest strangers that the police of Norfolk have encountered for many days, but they got him in spite of his endeavors to evade making their acquaintance. He had a return ticket from Bonesteel and was headed for home, wherever that might be.

Gilbert was arrested at the request of two fellow travelers who said that their pockets had been touched for \$80 in cash and a time certificate of deposit for \$250. When searched Gilbert had money but neither of the other strangers could identify any of it as their's and he could not be held for pocket picking.

That he was a slippery customer the police officials have reason to believe because of the merry chase he gave them when his capture was attempted. Several of the officers took to his trail and there was a merry game of hare and hounds while it lasted, but the hounds won out finally. The way Gilbert dodged in and under and through the cars on the side track was a caution, and almost every time he dodged his appearance was different. A change from a hat to a cap was suddenly made while the fellow was out of sight for a moment; then he wore no coat, and when he was finally cornered his coat and vest were off, his suspenders were hanging from the buttons and he was sweating copiously. He had been thoroughly warmed during the chase.

The officers too, were out of wind and sweating some when they appeared at the city hall, but they had their nimble man and there was some satisfaction in that to make up for the inconvenience of the run.

AUTHORIZED TO BEGIN BUSINESS

President Butterfield of the Nebraska National Receives Official Notification from Washington.

[From Friday's Daily.] President G. D. Butterfield of the new Nebraska National bank of this city received the following notification by wire yesterday from W. M. Bridgely, comptroller of the currency, at Washington:

"The Nebraska National bank of Norfolk, No. 7329, authorized to begin business. Charter mailed."

As far as the government is concerned, therefore, the new bank is ready to begin the transaction of business. There is a delay, however, in the matter of furniture and other necessary equipments for the bank. The vault has been installed, and the banking room is practically completed but the desks and counters have not yet been placed and it will be some days before the new bank will be ready to look after the wants of patrons.

FUNERAL OF MRS. FRIDAY.

Remains of Much Admired Norfolk Woman Laid to Rest.

The funeral of the late Mrs. John Friday was held from the family residence on North Tenth street yesterday afternoon at 3 o'clock, the services being conducted by Rev. W. J. Turner of the First Congregational church and Rev. J. F. Poucher of the First M. E. church.

Many beautiful floral offerings covered the casket and the music was impressive. Interment was in Prospect Hill cemetery.

Among the out of town people present at the funeral was Mrs. Friday's mother, Mrs. John Mackey of Monroe, Wisconsin; Mr. and Mrs. Jacob Reyner of Omaha, Mr. Reyner being a cousin of Mr. Friday and on the World-Herald staff; Mrs. J. H. Faley of Freeport, Ill., a sister of Mrs. Friday, and Lee Cummer of Coon Rapids, Iowa.

Many expressions of sorrow were shown and the sympathy of many friends was extended to the bereaved husband and the motherless children in their hour of suffering.

Missionary Meeting.

The Ladies Missionary society of the Congregational church will meet with Mrs. Erskine Tuesday afternoon at 3 o'clock.

FRIDAY FACTS.

The Davenport cold storage shipped a carload of eggs to the eastern market yesterday.

Conductor John Dorsey welcomed a bouncing girl baby to his home in South Norfolk yesterday.

Dr. Blelek has moved his office from the Robertson block to a suite of rooms in the Bishop block.

Prof. C. H. Brake, principal of the Norfolk Business college, is building a new home on The Heights on Ninth street, south of A. J. Durland's residence.

The prospects are for an immense crop of hay, if only the farmers who own the meadows are given the weather that will be necessary for the work of cutting, curing and stacking.

The rain has interfered with the hauling in of the black dirt for the lawn on the government building site and hundreds of loads will be needed before the job is completed, but with a few days of fair weather this work will early be finished.

There is one piece of property in town along which the sidewalk, that was much dilapidated, has been torn up, and no apparent provision has been made for replacing it with a new and substantial walk, although it is on a street that is much traveled and along which many people walk.

Bloomfield Monitor: Fred Volpp, ex-county treasurer of Wayne county, and brother of Henry and Louis Volpp, has recently purchased the interest of A. J. Lindstrom and a few shares of President Engdahl in the First National bank of this place and will shortly succeed Mr. Lindstrom as cashier. Mr. Volpp goes into the bank on July 1, Mr. Lindstrom remaining until August 1, after which the latter goes out. Mr. Lindstrom does not know positively what he will do when he retires from the bank, but we trust he may eventually conclude to remain here.

C. B. Scott was a city visitor from O'Neill yesterday.

E. J. Koester was an over night visitor from Genoa.

Ed Benson was in the city this morning from Page.

S. J. Main came down on the morning train from Butte.

H. F. Slaughter of Naper was in the city on business this morning.

Rev. A. Rohmeyer was in the city over night from Wayne.

J. F. and S. P. Miles of Winside were in the city on business yesterday.

Dr. P. H. Salter returned this morning from a professional visit to Bonesteel.

Miss Mattie McNish returned yesterday from a visit with friends at Albia, Iowa, where she went to spend the Fourth.

A. J. Paul, George Pine and W. L. Pine jr., of St. Paul, Nebraska, were in the city over night on their way home from Bonesteel.

Mrs. Ferguson of Omaha and Mrs. Andrews of Rockford, Iowa, mother and sister of Mrs. H. E. Owen, who have been visiting her for a few days, returned to their homes yesterday.

Henry Brubaker and John Brubaker of Morrison, Ill., the first a brother and the latter an uncle of Martin Brubaker of this place, are here on a visit and will remain a couple of weeks.

Samuel Hill, head of the leading firm of hardware dealers of Santa Ana, Cal., came up from St. Louis and spent a day with his brother-in-law, William Leavitt, leaving yesterday morning for Denver and home.

Wabash Railroad.

New world's fair trains daily.

Leave Omaha at 7:45 a. m., 6:30 p. m.; leave Council Bluffs at 8:09 a. m., 6:45 p. m.; arrive world's fair station at 7:35 p. m., 7:00 a. m.; arrive St. Louis at 7:50 p. m., 7:15 a. m.; leave St. Louis at 7:30 p. m., 9:00 a. m.; leave world's fair station at 7:45 p. m., 9:15 a. m.; arrive Council Bluffs at 8:05 a. m., 8:45 p. m.; arrive Omaha at 8:20 a. m., 9:00 p. m.

Compare this time with other lines. June 25, new train service will be established between St. Louis and Pittsburg, Pa., and Chicago and Pittsburg over the Wabash R. R.

The Wabash lands all passengers at and checks baggage to its own station at main entrance of world's fair grounds. Think what this means: quick time, extra car fare saved, and a delightful trip and you are not all tired out before entering the exposition grounds. All agents can route you via the Wabash R. R. For beautiful world's fair folder and all information address,

Harry E. Moores, G. A. P. D. Wab. R. R., Omaha.

Fly Nets.

A discount of from 15 to 20 per cent on all flynets the next thirty days. Now is the time to buy them. Paul Nordwig.

INSTALL DRAINAGE SYSTEM

PERMANENT IMPROVEMENT IS UNDER WAY.

LEAD TO PARK AVENUE DITCH

Laterals Being Dug Along Second, Third, Fourth and Fifth Streets to Carry off the Surface Water—City Will Soon be Drained.

[From Friday's Daily.] The drainage system in the part of town south of Norfolk avenue and to Pasewalk avenue, between the tracks and the Northfork river is being adjusted in a systematic manner and it is expected that when the work at present under way is completed that section of the city will be thoroughly drained and that high water and excessive precipitation will not hereafter damage lawns and gardens and flood cellars as in the past.

With the big Park avenue ditch as a basis for operations the other avenues and streets are being ditched to carry the excess of moisture to this drainage canal. Second, Third, Fourth and Fifth streets between Norfolk and Pasewalk avenues are having generous gutters dug along them. From Norfolk avenue to Park the ditches will carry the water south, and the ditches lead north from Pasewalk avenue to Park. At some points the lay of land is so level that there is very little fall either way but the ditches are so arranged that they will carry off the excess water after they have filled up with what they will hold.

When this work is completed it is believed that the drainage question in that part of town will be permanently provided for or at least until the time arrives for the paving of the streets. All that will be necessary hereafter to afford good drainage will be to keep the ditches open and this compared with the present work, will be an easy job.

With this section of work finished the attention of the commissioner, the street and alley committee and the mayor will be directed toward relieving conditions in other parts of the city and in time it is expected that the entire town will be effectually drained and that the pools and ponds and roads knee deep with mud will become a thing of the past.

The council has had City Engineer Lowe run the levels and set stakes indicating the depth of the ditches and the fall and the commissioner and his assistants are working to this schedule. It is a work that has long been needed. The haphazard digging of ditches and work of the man with the shovel when there is high water has long been the usual process, to be gone over and over again, but under the present administration the attempt has not been to cover so much territory but to care for that which is attempted, thoroughly and permanently. If the work is continued for several years, there will be certain relief from the high water situation in all parts of the city.

During the heavy rain of yesterday the merits of the work were shown, and along the Park avenue waterway the flood was carried along in a torrent, running into the Northfork at most bank full or nearly waist deep. Formerly most of this water stood in the yards or in the streets until it soaked through into the cellars or found an outlet through the subterranean watercourses.

Fly Net Sale.

I will sell flynets for the next thirty days at a discount of from 15 to 20 per cent. I am overstocked with them and they must go.

Paul Nordwig.

EVERYTHING ORDERLY AT FAIRFAX

Visitors to Gregory County Seat are Given Cordial Treatment and are Much Pleased With Country.

Fairfax, S. D., July 9.—Special to The News: The registration for the Rosebud drawing at Fairfax continues very light for the past two days and perfect order prevails. Everyone seems to have a good word for the treatment they have received at Fairfax and will no doubt recommend their friends to come here to register.

Crop conditions in this vicinity are very promising and the visitors to this section are pleasantly surprised with the outlook for a harvest.

Parties of eight to ten drive out onto the reservation every day and come back enthused with the idea of having selected their favorite 160 acres of land to be filed on when the drawings have been made.

Visitors come from every state in the union and many strangers have been here since the opening of the registration offices.

ENTHUSIASTIC OVER THE ROSEBUD

[From Tuesday's Daily.] J. W. Edwards Returns from Bone Steel Enthusiastic Over the Country and the Magnificent Crops.

J. W. Edwards, who returned to Norfolk yesterday from Bonesteel, is an enthusiast and wouldn't mind having two or three chances at the reservation land if that were possible. He filed his application and hopes it will be among the lucky ones. Mr. Edwards states that the corn up there is as far advanced as it is in this section of the country and that the small grain crops look much better and more promising in his estimation. He talked with a fellow blacksmith who had been in that country for the past eleven or twelve years and stated that during that time there had not been a crop failure.

In the opinion of Mr. Edwards it is good enough farm and range land for anyone and those who get a homestead may consider themselves very fortunate. There are many Norfolk people yet who expect to go up and register for a chance at the land, and some of them will certainly be among the fortunate.

TUESDAY TOPICS.

V. and J. Nelson of Lyons were visitors in Norfolk.

C. S. Smith of Madison was a Sunday visitor in Norfolk.

Misses Lulu and Belle Blackstone of Pilger were in the city on their way home from Bonesteel.

Miss Mabel Whitney of Battle Creek has been a guest at the home of Mr. and Mrs. L. M. Gaylord for a few days.

J. E. White of Omaha, visited his nephew, H. Hollyfield yesterday. He was enroute to Yankton, S. D., to register in for a homestead. Mr. White is a draughtsman and assistant foreman in the Union Pacific car shops at Omaha.

The regular meeting of the West Side hose company is called at 8 o'clock this evening in the city hall, by President Jonas.

Mother Nature is getting the Norfolk main thoroughfares back into a pavement-like condition, and a few more days of warm sunshine will have the desired result.

During the storm Saturday night the lightning struck the chimney on the house of Fred Langenburg, corner of Madison avenue and Ninth street. Members of the family were startled by the flash and the report, but no damage was done either to the house or the people in it.

Cards have been issued announcing the forthcoming marriage of Ira L. Hungerford to Miss Helene Selma Kleeman which takes place today at Custer, S. D. Mr. Hungerford was formerly engaged in the newspaper business in Norfolk, being one of the editors of the Daily Tribune.

Dr. F. M. Sisson, presiding elder of the Norfolk district, assisted at the dedication of the new Methodist church at Beemer Sunday. The church was erected at a cost of \$5,000 and the debt of \$1,445 against the building was raised. Dr. Jennings of Norfolk preached the dedicatory sermon.

A blind man and woman have been on the street corners for several days past collecting in the nickles and pennies that came their way. The man played a violin, and both made some pretense at singing. The infirmity of the man did not extend to his voice as it could be heard over a great portion of the city when the performance was on.

Yesterday was an extra good day for business in Norfolk, being better than Saturday, which is ordinarily believed to be the best business day in the week. There were not so many people in town as is customary to Saturday, but they were apparently all in for business, which was attended to without loss of time on the part of either the traders or the merchants.

On the previous visit of "The Telephone Girl" to Norfolk a round dollar was the maximum charge for reserved seats. On this visit, owing to the fact that it is out of season for theatrical performances and the further fact that the nights are warm, the management has consented to put on the attraction with the price cut in half and the best seat in the house will be placed on sale at fifty cents.

Birds-Eye View of the Columbia River

An attractive topographical map, in colors, giving a comprehensive idea of the country on and tributary to the Columbia river. This map is in folder form, and on the reverse side contains an interesting description of the Columbia River route. Copies sent free by E. L. Lomax, G. P. & T. A. U. P. R. Co., Omaha, Neb., on receipt of four cents postage.

STANTON INTENDS TO WIN

RUNNING TEAM, THE CHAMPIONS, ARE AT WORK.

FASTER THAN EVER THIS YEAR

Al Marks, Leader of the Team Which Made North Nebraska Proud Last Year, Has Just Broken a World's Record in the Iowa Tournament.

Stanton is going to win the championship belt again at the Nebraska state freemen's tournament to be held in Norfolk on August 2, 3 and 4 last night for the first time the boys down here under Captain Al Marks, got out for practice and from now on they will draw their cart around the track at a rapid enough rate, for fair. Al Marks has just won a victory for his life. He led the Neola, Iowa, team that won the world's championship belt at Des Moines last month. The team drew a cart weighing 500 pounds over a distance of 250 yards in 26.25 seconds. The best that any single man ever did, let alone the cart, is 25, so that the bunch just took a second and a fraction to carry the cart. Al was in the lead and the town went wild. It was a good ad for Stanton and Nebraska.

Stanton runners are turning out in good shape to get ready for the racing here next month. Their supporters feel confident that the boys must win that belt again. They are speedy.

The Practice of Medicine Becoming Specialized

The Physicians of the Large Cities the First to Adopt it and There are Now Many Throughout the Country.

Specialism is the idea of the day. Not that every physician can be a specialist, nor would it be justifiable in every doctor becoming one, but there are advantages that can be derived only by a special practice which is applicable to certain communities even though the physician himself is not a bona fide resident of that immediate vicinity. Small towns and the country are the principal communities in which a specialist could scarcely prosper, but as practiced by some specialists, that of going from one city to another, making his visits and seeing his patients at regular appointed intervals, one can derive advantages far superior to those received in many instances by a visit to the cities.

We cite, for instance, that of Dr. Caldwell, a specialist of Chicago, who is and has been making regular visits to our community for the last two years. Dr. Caldwell came well recommended and has succeeded in establishing a practice far beyond her expectations. She has made many cures and has succeeded in building up a reputation and practice among those whom she has cured that would be hard to get away from her. Dr. Caldwell is a lady from the new school. Her experience and training have been gained by many years of practice and the treatment of a vast number of cases. She confines herself to the treatment of chronic, lingering and deep seated ailments. She pretends to cure only such diseases as she has had sufficient experience in handling, and does not go into that class of incurable diseases which in many cases are useless to bother with.

As a result of long experience, Dr. Caldwell is thoroughly familiar with her specialties. In the treatment of cancer, consumption, heart disease, nervousness and female diseases, there are very few specialists better qualified than Dr. Caldwell. Some of her cures seem almost like miracles. People from far and near consult her as she makes these regular visits and she is always busy from the time she arrives until the time of her departure. It is claimed by Dr. Caldwell's friends that she can diagnose a disease without a question. This being the case, she is not likely to doctor her patient for the wrong ailment, which is many times done by physicians of inexperience. Dr. Caldwell does not treat typhoid fever, whooping cough, measles, and those acute diseases which the local home physician is called upon to treat. It is not her desire to antagonize nor to take from the home physician that part of the business which really belongs to him. Many times Dr. Caldwell is in consultation with the home physician and the kindest of feelings should exist between them.

Dr. Caldwell is charitable. In many instances where people are devoid of funds to pay for their services she charges in such cases for the medicine only and no person, no matter how humble, has she ever turned away without seeking to give them relief. By permission we are pleased to publish a few of the cures she has made throughout the state of Nebraska: Mrs. Oscar Lange, Tekamah, Neb., cured of stomach trouble and female trouble of long standing. Mrs. Maloney, West Humphrey, Neb., cured of nervous trouble, kidney and liver trouble, and female weakness. Mrs. John Connelly, Akron, Neb., cured of cancer, had been healed by a number of doctors, without any benefit, cured with five injections. Mrs. Pete Hible, Columbus, Neb., cured of kidney and bowel trouble. Mrs. John Swain, Clarks, Neb., cured of female trouble, catarrh and nervous trouble. Mrs. Henry Hart, Kearney, Neb., cured of tumor. Mrs. Henry Caskell, Cozad, Neb., cured of nervous and stomach trouble. Mrs. H. Sloan, Akron, Neb., cured of consumption. Mrs. Jacob Puff, Cozad, Neb., cured of nervous disease, female weakness and tumor. Miss Eva Cole, Sutherland, Neb., cured of catarrh. Richard Underwood, Bancroft, Neb., cured of stomach trouble and nervous trouble of long standing. I will be in Pender at the Palace hotel, on Tuesday, May 17.

This season—as speedily as ghoul, from now on, they will run every day and will train hard.

Stanton is the best town you ever saw to get out and hustle for a good thing. The whole town is back of this running team. The whole town is planning on coming to Norfolk for those three days, and there will be something doing if they don't get that belt back.

Stanton has but York, they figure, to fear in the racing. Al Marks would like to see any number of teams get into the game, for he thinks that Stanton has them all beaten anyway. If he can beat York, they are disappointed that Fremont will not be in the game.

NORFOLK MAN WAKES UP RICH

Heavy Floods of Kansas Wash His Land Away Until Coal in Big Bunches is Unearthed.

Joseph Lampe, a former Norfolk man, has perhaps made a fortune during the last week. At Alpha, Kansas, he owns 120 acres of land. The heavy rains of the week washed the land badly and the earth was giving way in serious shape. When the water had flowed away coal in paying quantities was discovered. L. L. Low, of this city, was informed of the find.

Six loads of the coal were hauled out of the accidental mine during the week by enthusiastic neighbors.

Wedding invitations and announcements, engraved or printed, at The News office.
