

# WITNESS SAW SHOOTING

## DEFENSE HAS STRONG POINT TO MAKE IN TRIAL.

### HER ATTORNEY IS CONFIDENT

#### Prosecution Has Erected Some Strong Barriers But They Hope to Battle Their Way Through to an Acquittal—Adjourn Till Monday.

New York, Nov. 23.—When the trial of Nan Patterson was resumed today, Attorney Levy for the defense declared that although the prosecution has erected several strong barriers through which the defense will have to battle its way to secure the acquittal of the prisoner, he had no fear but that they would succeed.

He asserted that he would bring forward a witness who would tell a convincing story of having actually seen the shooting, no matter how strong the evidence of the people to conflict with the testimony to the effect that no one was within the range of vision of the cab when the fatal shot was fired.

At the close of today's adjournment of the court will be taken until Monday. The greater part of today will be taken up with expert testimony.

## MANY ARRESTS AT CINCINNATI

### Striking Molders Are Charged With Murder and Dynamiting.

Cincinnati, Nov. 23.—Charged with various degrees of lawlessness in connection with the strike of union molders of Cincinnati, Covington and Newport, that has been in progress for months, a half dozen men are under arrest and others are under surveillance. Those now in custody and charged with murder are William Patton, Eugene Trainer and Thomas Bracken. Fred Raubauer and son and John Hook are charged with malicious destruction of property.

The most important warrant issued was for Joseph F. Valentine, president of the Iron Molders' Union of North America, but as he is out of the city the service could not be had on him. Valentine telegraphed from Cleveland that he would be here today. The headquarters of the iron molders' union are in this city and it is claimed that President Valentine has been directing the strike that has been in progress in Cincinnati, Covington and Newport for several months. During that time there have been disturbances at different foundries and on the streets of the three cities. On Oct. 7 Sam Weakley, a nonunion molder, was killed, and Frank Brown, who accompanied Weakley, narrowly escaped from strikers who assaulted them. The past few days the situation became more threatening around the foundries and attempts were made to blow up two of them with dynamite, one in this city and the other in Newport. The arrest of father and son in this city, charged with dynamiting the Eureka foundry, and their alleged confessions implicating others, promises sensational developments.

"Port Arthur army reports buildings near arsenal caught fire about noon November 22, owing to bombardment from our naval guns. At 9:40 p. m. they are still burning."

venture. They state that they are under obligations to the many patrons of the dinner and supper and wish The News to express their hearty appreciation of such patronage.

The next number on the Norfolk lecture course will be the Lyceum Stars on Tuesday night, November 29. The Stars are composed of Miss June Nafe, soprano; Miss Oranne Truitt, reader, and Master Wilhelm Cooper, violinist. They are recommended as perfect in their various arts and those delighting in good, pure, wholesome entertainment cannot afford to miss this number.

## SMALL BOY IS BADLY BURNED

### May Die, While Two Others Are Seriously Hurt in Flames.

Word is brought to Norfolk from Wayne that Thomas Moran, a little 3-year-old boy at that place, together with two other boys, were injured in a fire there. The smallest boy, Thomas, may die from the burns he received. The fire was started by them in a haymow. He had a waist full of matches. They wanted to see the flame. The hay was ablaze before they could escape and the little fellow's face was horribly eaten into by the fire. He was somewhat improved at last reports but not out of danger.

## ON THE FIGHTING CALENDAR

### Tommy Ryan to Meet Jack Root at Philadelphia.

Philadelphia, Pa., Nov. 23.—Quaker city fight followers are looking forward to seeing one of the best fights tonight that has ever been pulled off in this vicinity. The bout will be between Tommy Ryan and Jack Root and will take place under the auspices of the National Sporting club. The articles call for 165 pounds one hour before entering the ring and reports from their respective training quarters are to the effect that both men are down to weight. Root is one of the cleverest short-distance fighters in the business and as tonight's go is to be a six-round affair it is expected that he will give Ryan a hard tussle for the honors and the purse. Jack McQuizian has been selected to referee the contest.

If you have a house to rent, or sell, or anything else, you can tell everybody in north Nebraska about it, through News want ads, for a cent a word.

## THANKSGIVING AT SCHOOL

### Teachers and Pupils Have Prepared Elaborate Programs.

The teachers and pupils of the city schools are preparing for their first holiday programs which will be given Wednesday afternoon and night and the majority of the grades and rooms will observe Thanksgiving with appropriate exercises on an elaborate scale. Those classes that have not part with the program will witness the exercises of pupils that have parts assigned to them, and the afternoon and evening will be happily passed.

Dialogues, recitations, singing, sketches and other entertainment in costume and with decorations will be given by the little people under the direction of their teachers and the prospects are that the programs will be better and more elaborate than ever before. Neat invitations to parents have been sent out and the various rooms are looking for a large number of visitors from the homes who attend school but once or twice a year and perhaps not that often. Parents and friends of the children owe it to them and their teachers to encourage them by their attendance on these occasions and none of those little invitations should pass without response.

In the evening the Junior class of the high school will give an entertainment that should be largely attended.

With him on the Columbia are Admiral Walker, Senator Obaldia and Dr. Cromwell. The Dolphin took the rest of the party. On account of the slow speed of the Dolphin, it is expected five days will be required to reach Colon.

# WILL BE A QUIET DAY HERE

## AN OLD FASHIONED THANKSGIVING DAY IN NORFOLK.

### EGGS ARE SCARCEST ARTICLE

No Football, No Skating, No Sliding Down Hill—Two Theatrical Performances at the Auditorium—Good, Supper Dinners Everywhere.

[From Wednesday's Daily.] Signs today point to a rather quiet Thanksgiving day in Norfolk. With the sunshine of the good old summer time, no snow, no ice, and no football games, there is every indication that the day will be given over in this city to the quiet, peaceful day for resting and true thanksgiving, for which it was primarily intended.

There will be nothing doing, to speak of, in the commercial world tomorrow. Stores and shops will be locked and the workmen as well as the merchants will enjoy a day of rest. There will be no traffic over the counters of the stores, and little traveling about.

The city schools closed early today for the holiday, and will have a vacation on account of the Thanksgiving day. There will be no school on the day following, Friday.

Church services will be held in the morning, as announced and hundreds of Norfolk people, no doubt, will attend.

There will be the usual number of Thanksgiving dinners, with family reunions as a feature and guests at other tables. A number of people—relatives and friends—from out of town have been arriving during the past few days and are still coming, to observe the day in Norfolk; and, on the other hand, a number have been and still are leaving the city, to be present at gatherings in other cities and towns throughout the state. Dozens of traveling men have arrived home today to spend the day with their families and at their hotels, with friends.

### Eggs are Scarce.

A notable feature of the day is the scarcity of eggs. It is said that eggs are even more uncommon than turkeys and in many a home a pretty nearly eggless dinner will have to go. It is reported that the little spheroids with their thin, white shells are even being imported into the west from eastern points. Turkeys are not so rare as it was at first reported and the markets have them to spare.

For amusement seekers, there will be two plays in Norfolk tomorrow. "A Fatal Play" appears at the Auditorium twice, for matinee and evening performances. This is the troupe carrying Frank James as a feature.

In some cities, but not in Norfolk, there will be gridiron contests. The chief game of interest in this section is the Illinois-Nebraska game at Lincoln, for which a large number of people from this section have gone to Lincoln today.

In some former years skating has been good on the rivers which run around Norfolk, but there's nothing to it this Thanksgiving. Norfolk residents will all recall the notable ice storm which fell over this city several years ago on Thanksgiving day. At 6 o'clock at night the rain began to drizzle and when the city awoke next day there was a vast expanse of whiteness covering every nook and corner of the town; with heavy coatings of the frozen rain, clinging to trees and wires and poles. Hundreds and hundreds of trees were broken bodily down, hundreds of wires were snapped in two and even huge telephone poles, staggering beneath the tremendous weight, swayed and sank to the ground.

But there is no indication of a repetition of that storm tomorrow. There is no indication of anything, in fact, except a good, plain, old fashioned Thanksgiving day, with turkey dinner and cranberry sauce; and with households of happy, healthy children to make a townful of mothers and fathers happy and bubbling over with sincere thanksgiving.

### The Following Letter From a Thankful Woman Tells Its Own Story.

Mrs. Mary E. Hobbit, 201 Clinton Avenue, Minneapolis, Minn., writes:

"My son suffered for three months with catarrh of the bronchial tubes which threatened to become very serious. The doctors advised that he seek a more favorable climate, but as he had heard of Peruna as a specific for lung trouble he decided to give it a trial before he left his family for an expensive journey among strangers. For six months he used it faithfully and found that the trouble gradually disappeared and blessed health took its place. In two months he was perfectly well and able to perform his duties. You have indeed a grateful mother's thanks."—Mrs. Mary Hobbit.

### A Beautiful Girl Saved From Dread Consumption—Other Wonderful Cures.

Miss Amelia Weymer, Appleton, Wis., writes: "Early last summer I contracted a cold which seemed to hang on to me and could not be shaken off. From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Peruna in the family before, she advised me to try it. I was somehow very opposed but was persuaded to try Peruna. Using it one day convinced me that it was no ordinary medicine, within a week I was much better and in two weeks I was well, and I felt much stronger and in much better health generally. I was perfectly satisfied with the results from the use of Peruna."—Miss Amelia Weymer.

## CATARRH CAUSES CONSUMPTION

### Peruna Never Fails to Cure Catarrh Wherever Located.

THE medical profession has so thoroughly prejudiced the minds of the people against patent medicines that it is with great reluctance that anyone can be persuaded to try such a remedy at first.

In nearly every one of the thousands of remarkable cures that Peruna has made the patients had to be persuaded by friends very strongly before they could lay aside their prejudice against it.

A large multitude, of course, hold out against the persuasions of friends and die simply because they have allowed their minds to be poisoned against this very excellent remedy.

But fortunately there is another large multitude of people who are able to shake off their prejudice and try Peruna before it is too late. These people are rarely disappointed. They generally try other remedies at the beginning of their troubles. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A bottle of Peruna is sent for.

The first week it produces a decided change for the better. A few weeks' continued treatment cures the patient. Then another happy man or woman is added to the long list of people who are praising Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

## TRY TO ROB TAILOR SHOP

### INEFFECTUAL ATTEMPT MADE ON FUESLER'S BUILDING.

### BUT IRON BARS SAVED THE DAY

### After Breaking Several Windows, the Would-be Burglars Gave it up as a Bad Job—Box That They Used, Remained in Place This Morning.

[From Wednesday's Daily.]

An ineffectual attempt was made to burglarize the tailor shop of P. J. Fuesler last night by unknown parties, to whom there is no trace as yet. Owing to bars which grate the rear windows of the building, the would-be robbers were unable to effect an entrance and had to give up the job after breaking several window lights.

When Mr. Fuesler arrived at 7 o'clock this morning, to begin the work of the day, he found that the glass had been shattered and that beneath the window, at the rear end of the structure, stood a box upon which the strangers had stood. There was no other clue as to the violence. The iron bars prevented going further and as the rods were so firmly stuck that they could not be pried off, the unknown man or men had to give it up as a bad piece of business.

### Shipping an Elephant.

An elephant is without doubt the most difficult passenger to load of any in the world. It is rarely that the best of them can be induced to walk aboard a ship as did the traditional pair of elephants who boarded the ark. To overcome their objection they are usually first coaxed or forced to enter great wooden boxes, when they are securely fastened and the entire outfit is hoisted with a derrick to the level of the deck and swung aboard.

### Cattle Butchers Ready to Strike.

Chicago, Nov. 23.—Cattle butchers employed in the large plants at the stock yards held a mass meeting and decided to go on strike when called on to do so by the officials of their union. The cattle butchers employed by the Hammond Packing company struck Monday because of alleged discrimination against union men. According to the officials of the union, the same conditions prevail at other plants, and the meeting was called for the purpose of ascertaining the sentiment of the men should it be found necessary to resort to a general walkout. Although the butchers in the recent strike at the stock yards surrendered unconditionally, the vote to strike was unanimous.

### Farmer Burns Defeats Parr.

Davenport, Ia., Nov. 23.—"Farmer" Burns of Big Rock, Ia., and Jim Jarr of London, Eng., wrestled here. Burns won the first fall in twenty-one minutes and the second in nineteen minutes. The match was for \$500 a side and all receipts. Parr put up a hard struggle.
