

NEW COUNTESS OF SUFFOLK

MISS DAISY LEITER WEDDED TO EARL OF SUFFOLK.

WEDDING CEREMONY IS SIMPLE

Family is in Mourning and There Was No Display—Bridal Couple Will Probably Sail For England by the End of the Week.

Washington, D. C., Dec. 27.—The marriage of Miss Daisy Leiter, youngest daughter of the late Levi Z. Leiter of this city, to the Earl of Suffolk and Berkshire, of England, took place today at the Leiter home on Dupont Circle. Owing to the deep mourning of the bride's family the wedding was celebrated with the greatest simplicity.

The Rev. Roland Cotton Smith, rector of St. John's Episcopal church, officiated, and the bride was given away by her brother, Joseph Leiter. The Earl of Suffolk was attended by the Hon. Lionel Guest.

A small wedding breakfast followed the ceremony. It is expected that the earl and countess will sail for England before the end of the week.

The bride of today is the youngest of the three daughters of the late Levi Z. Leiter and Mrs. Leiter of Chicago and Washington. All three have been noted for their beauty, and have been favorites in society in Washington, London and India.

The eldest daughter, Miss Mary Victoria Leiter, married Lord Curzon of Kedleston (then Mr. Curzon) in 1895. A short time afterward he was appointed viceroy of India, and he and his bride took up their residence in Calcutta and Simla. In the summer of 1899 Mrs. Leiter and her two daughters went to India to visit Lord and Lady Curzon and before long the two daughters became the belles of Simla.

Here they met a number of young Englishmen of high rank attached to the viceroy's staff. Among them were Major Colin Campbell and Lord Suffolk. At one time Miss Daisy Leiter was reported to be engaged to Major Campbell, but it was her sister, Miss Nancy Leiter, who married, the wedding taking place in Washington a few weeks ago.

Lord Suffolk came to this country ostensibly to act as Major Campbell's best man, but it was generally reported among the Leiters' friends that an engagement between him and Miss Daisy Leiter would soon be announced. The announcement, as expected, was made from the Chicago home of the Leiters, early in the present month.

Henry Molyneux Howard, nineteenth Earl of Suffolk and Earl of Berkshire, was born September 13, 1877, and succeeded to the title in 1898. He is a captain of the Fourth Battalion of the Gloucestershire regiment and is an extra aide de camp to the Viceroy of India. He is a liberal unionist in politics. He is an enthusiastic sportsman.

Medicos Leave for Panama. Baltimore, Md., Dec. 27.—Some sixty or seventy-five delegates to the fourth Pan-American Medical congress, which is to meet in Panama next week, sailed from Baltimore today on the steamer Athos.

Bishop of Leavenworth Consecrated. Kansas City, Mo., Dec. 27.—The Rev. Thomas F. Lillis, pastor of St. Patrick's church, this city, was consecrated bishop of Leavenworth today. The service took place in the cathedral in this city, the consecrator being Archbishop Glennon. The sermon was preached by Archbishop Keane. A number of other prelates of the Roman Catholic church were in attendance.

Iowa State Teachers. Des Moines, Ia., Dec. 27.—Teachers of Iowa to a total of several hundred are gathered here for a three days' convention and celebration of the semi-centennial of their state association. The convention will be formally opened this evening with the address of the president, D. S. Wright, to be followed by an address by Governor Cummins who will take as his subject, "Iowa—Past, Present and Future." The business sessions will begin tomorrow.

South Dakota Educators. Deadwood, S. D., Dec. 27.—The school teachers of South Dakota will be much in evidence in Deadwood during the remainder of this week. The South Dakota Educational association inaugurated its annual meeting today with an attendance representative of the entire state. President R. B. McClenon of Huron is the presiding officer. Aside from the department programs, the general program for the three days calls for addresses by President Nicholson of Dakota university, President Chalmers of the state agricultural school, Professor Slagle of Rapid City, State Superintendent George W. Nash, Helen E. Miner of Yankton, and a number of other prominent educators.

Scientists Meet at Philadelphia. Philadelphia, Dec. 27.—The fifty-fourth annual meeting of the American Association for the Advancement of Science opened today at the Univer-

sity of Pennsylvania. The sessions will continue through the remainder of the week and will include meetings of about forty scientific societies which are affiliated with the association. More than 1500 scientists and college professors are here for the gathering. Carroll D. Wright, the retiring president of the association, will deliver his annual address tomorrow evening. There will also be an address by the incoming president, Dr. W. G. Farlow of Harvard university.

Ensnared by Cupid. Chillicothe, O., Dec. 28.—A wedding of interest here today was that of Prof. Alja R. Cook, of Northwestern university, and Miss Florence Purdum of this city. The bridegroom was forced to run the gauntlet of many jests at his expense, owing to the fact that his pupils and friends failed to forget his declaration some time ago that "never in his life had he drunk, smoked, chewed, or kissed a woman." Since that time he has been known as "the man who never had been kissed."

Southern Educators Assemble. Jacksonville, Fla., Dec. 28.—The city is rapidly filling with teachers, who come to attend the annual meeting of the Southern Educational association, and the indications are that by tomorrow there will be not less than 500 visitors in the city. The convention will be held in conjunction with the annual meeting of the Florida Teachers' association. The names of many leading educators are found on the program, which is one of unusual interest. The association proper will hold morning and evening sessions, beginning tomorrow evening. During the afternoons there will be sectional meetings—college, principals, high school, primary, child study, music, etc.

Modern Language Association. Providence, R. I., Dec. 8.—As the guest of Brown university the Modern Language Association of America began its annual meeting in Providence today and will continue in session until the end of the week. The participants include more than one hundred of the most distinguished modern language teachers in American colleges and universities.

ICY WALKS CAUSE DEATH.

John Anderson of Pilger Met With a Fatal Accident Monday Night.

John Anderson, a Swede who has been working in the vicinity of Pilger the past summer and fall, was found on the street in an unconscious condition. Upon examination it was found he had a hole in the back of his head and slight bruises on his face. It is supposed he slipped on the sidewalk and fell, striking the back of his head on the head of a protruding spike. He was carried to the office of Dr. Guttery, where he died at 3 a. m. Anderson is a native of Sweden, about 50 years old and is single. No one at Pilger knows of any relatives. This man had two sisters, one of whom is in the city. His mother was frozen to death and one brother met a violent death.

ATCHISON GLOBE SIGHTS.

It is easy to fool a girl about Santa Claus, and this gullibility in regard to the men is never entirely outgrown.

Men are getting wise, and in the future you will not see so many of them marrying Maes and Edythes and Alyces.

When mother goes to visit her daughter, she takes no party dresses, but you bet she takes her kitchen aprons.

We never expect to see the day when we will be so hard up for entertainment that we will read one of the Bowser tales.

We don't want to offend the toy dealers, but broken lambs, engines, wagons, etc., make mighty costly fuel the day after Christmas.

It looks badly enough to see a town girl with painted cheeks, but a country girl with artificial roses blooming on her cheeks is the limit.

It is a mistake to think that only of the unmarried can it be said that they have been disappointed in love. It may be said of anyone over twenty.

A certain house in Atchison has become noted, because it has been occupied so many times by worthless people who moved out without paying rent. Nearly every ornery man in town has lived in the house, and "hung around" it in the way common to loafers. The neighbors have a joke about it; they say it is haunted; that all the men who live there, worked themselves to death, and come back at night to sigh and groan.

In Atchison there is a billiard hall capper; a pretty good player who loafs about, and has an arrangement whereby he pays nothing if he loses a game. Three strangers came to Atchison last Monday, and either one of the three can beat the billiard hall capper. As they are all as confirmed loafers as the billiard hall capper, they keep him going pretty steadily, and the proprietor of the hall hasn't had a cent of income for a week.

WOMAN DIES FROM POISON

MRS. AGGIE GARRETSON TAKES A POWDER AND IS DEAD.

MAN IS UNDER ARREST FOR IT

Albert Cullum Who Was With the Woman When She Swallowed a Powder, Declares He Thought It Would Do Her No Harm.

St. Louis, Dec. 27.—Mrs. Aggie Garretson of Detroit, Mich., is dead here from the effects of a powder which she swallowed in the room of a local hotel. Albert Cullum of Knoxville, Tenn., who was with her when she swallowed the poison, is under arrest. Cullum says the woman swallowed something, but he did not think it would do her any harm. It was six hours before he called a physician and the poison had taken effect to such an extent that it was impossible to save the woman's life.

NEAR TWO MILLIONS INSURANCE

Sioux City Will Draw Generously From Eastern Companies.

Sioux City, Dec. 28.—Statements from a majority, but not all, of the local insurance agents, revealed a total of \$1,395,000 insurance upon property burned in last Friday's fire. Inasmuch as several agents could not be found for statements, it is certain that the insurance companies will have from \$1,500,000 to \$1,750,000 to pay Sioux City as a result of the fire.

Insurance men say today insurance on the buildings and stocks destroyed Friday night will be greater than at first expected. Many short time policies were carried by merchants who took them out for three months to protect their Christmas goods. These would have expired the 1st day of January.

As the fire burned many records, the only means Sioux City insurance men have of telling how much insurance their companies carried, it will be almost impossible to make a detailed statement of the losses of the various companies until the safes are all opened and the special agents of the companies arrive.

Almost every dollar of the insurance of Sioux City business men who lost their property was carried in old line companies. Many of the heaviest losers do not know as yet in what companies their buildings were insured, as in the case of Postmaster Badgerow. Mr. Badgerow knows simply that he had \$10,000 insurance on his block, which stood by the ill-fated Massachusetts block. What companies the policies were in Mr. Badgerow does not know.

Digging Into Debris. With streets, buildings and ruins covered with a glare of ice, and the weather bitter cold, the work of digging in the wreckage for safes and other valuables began this morning. Dray and wrecking companies were all busy. Immense cables, crowbars and windlasses were brought into play.

Safes containing valuable records were dug out from under smoking piles of brick. In most cases they were found intact. In was hard work in most cases. The heavy safes had to be lifted up over a sheer incline, and there was little foothold to work from. Horses fell on the slippery pavements, and men could scarcely stand up.

North Nebraska Notes. People at Verdell celebrated Christmas in the town hall with two Christmas trees.

The Wayne normal school has closed for vacation.

The Niobrara Presbytery met at Wayne and ordained the Rev. Mr. Corsdorne. They arranged for his installation as pastor of the First Presbyterian church at Wayne, January 1.

David Cunningham, living in Wayne county, is building a fine new home.

Archaeologists in Session. Boston, Dec. Dec. 28.—The Archaeological Institute of America began its annual meeting here today and will remain in session until Saturday. The sessions of the meeting will be divided between Boston and Harvard university. The opening session was devoted to the commemoration of the twenty-fifth anniversary of the founding of the society, addresses being delivered by a number of scientists who have been connected with the society since its organization. Many colleges of the New England and Western states are represented at the meeting.

Historical Society Convenes. Chicago, Dec. 28.—The American Historical association began its twentieth annual meeting in Chicago today in conjunction with the annual meetings of the American Economic association and the American Political Science association. The presiding officer is Professor Goldwin Smith. The meeting this year is notable for the number of distinguished men from abroad who are in attendance. Included among them are Professor Frederick Kentgen of the University of Jena, Cahrlus W. Colby of McGill university, Paul Miloyoukov of Russia, and Eltore Pais of the University of Naples. The meetings will continue until the end of the week.

Beet Sugar Industry.

The beet sugar industry in the United States is not likely to be able to care for the home demand for sugar for many years, if ever. There are now fifty-four beet sugar factories in the country, and last year they manufactured 168,135 tons of granulated sugar. To supply our home market, 400 additional factories, with a daily capacity of 500 tons each, would be required. We now send nearly \$125,000,000 abroad yearly for sugar.

The territory upon which the sugar beet can be grown profitably is somewhat limited, but only a small part of it has been engaged in this industry so far. The arid and semi-arid regions where irrigation is practiced are the most profitable fields for beet growing as there is usually an abundance of sunshine and moisture, two requisites in producing beets yielding a high per cent of sugar, combined with a large tonnage per acre.

Albion. The city was in darkness Tuesday night owing to the cold weather. The ice in the creek caused the power at the electric light plant to be diminished until it was insufficient to run the dynamo.

W. Harry Hutchinson and J. Forrest Rodabaugh of Peru were in the city during the holidays. Mr. Hutchinson was offered a position in the St. Edward schools while here, but owing to the fact that he was unable to leave the work he is now following he was compelled to decline.

Julius Wolf of the Rapids was here over Christmas. Miss Marie Galbraith returned to Cedar with him and she expects to visit friends there until after the "leap year" ball which is to be one of the events of the season in that city.

T. Spencer Ladd of St. Joseph, Mo., visited his father, W. W. Ladd, in this place during the Christmas time.

Geo. Williams, for one week, was a resident of Cedar Rapids. He went over to assist in the store in which he has a half interest and he informs us that Wolf & Williams did the biggest business in Cedar during the holiday rush.

On December 21 County Judge Riley granted marriage licenses to four couples. This is the busiest time the judge has had in the matrimonial line for months. Following is the list of the happy ones: Levi L. Floch, Mary E. Emerson; Earl J. Bonnet, Kate Justus; Walter E. Callen, Susie Hoff; Fred H. Siedenbarg, Bertha Cash.

Again we report that there is nothing doing at the court house. Treasurer Brian is busy handing out tax notices, but he seems to be the only man that is keeping busy.

Peter Arps guessed the number of beans in the jar at the Lewis Thompson drug store for which he received the photograph. Emery McKillip was next in line for which he got a large doll.

The Albion National bank has now settled down for business in the new building. That they have a metropolitan institution is evident to all observing people. The president, M. B. Thompson, sets in his new apartment like a prince of finances, which he is, and the bank is certainly a credit to the town.

TWO ARMIES AFTER A PIG.

The War Forgotten When Chance For Fresh Meat Appeared.

Owing to the scarcity of fresh meat in Manchuria an amusing contest between the soldiers of the Russian and Japanese armies which recently took place near Mukden is thus described by a Manchurian war correspondent: "There was a row toward the forward line of trenches that night have suggested a Japanese attack, and we rushed to a knoll that commanded a view. There, from a seemingly deserted Chinese hut, rushed a half grown pig, a shot of the Manchurian razorback variety.

After it went a Cossack in hot pursuit. Other Cossacks joined the chase, but the pig, threading the trenches, gained the open ground and headed for the Japanese lines, less than 400 yards away.

Reckless of death or anything else, six Cossacks dashed in pursuit, with their long brown coats tucked about their waists. But the pig had the legs of them and with ear piercing shrieks headed across the imaginary dividing line and charged the Japanese position. The opposite hill slope had been to all appearances vacant and silent as the grave, but a hidden trench suddenly gave up a party of Japanese, and away they went after the pig.

The Cossacks stopped, and the Japanese headed the pig diagonally back toward the Russian lines. They did not catch it, but a fresh relay of Russians took up the chase and the pig veered over again to the Japanese.

Not a shot was fired all this time, and the Japanese and Cossacks stood within a hundred paces of each other in the open, laughing at each other's non-success and hurling mutual maledictions after the pig.

The last we saw of it the pig was keeping strictly to the neutral strip between the two forces and heading westward in the direction of the Liao river.

Victims. First Girl—Did you hear that Mr. Williams got a dreadful fright on his wedding day? Second Girl—Yes. I was in the church and saw her.

Opponents think that they refute us when they repeat their own opinions and take no notice of ours.—Goethe.

A VENERABLE PASTOR CURED BY PE-RU-NA.

Pe-ru-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, loss of taste, as well as digestive disturbances.

Pe-ru-na corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone, once used and Pe-ru-na becomes a life-long standby with old and young.

Rev. J. N. Parker.

Strong and Vigorous at the Age of Eighty-eight.

Rev. J. N. Parker, Union, N. Y., writes: "In June, 1901, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much as to prevent me from conversing with my friends, but in June, 1901, my sense of hearing left me so that I could hear no sound whatever. I was in a state of prostration with rheumatic pains in my limbs. I commenced taking Pe-ru-na and my hearing is restored as good as it was prior to June, 1901. My rheumatic pains are all gone. I cannot speak too highly of Pe-ru-na, and now

when 88 years old can say it has invigorated my whole system. I cannot but think, dear Doctor, that you must feel very thankful to the all-loving Father that you have been permitted to live, and by your skill be such a blessing as you have been to suffering humanity."—Rev. J. N. Parker.

A Bishop's Letter.

T. H. Lomax, D. D., Bishop 2nd Dist. A. M. E. of Charlotte, N. C., writes: "I recommend your Pe-ru-na to all who want a strengthening tonic and a very effective remedy for all catarrhal complaints."—T. H. Lomax.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

CAPTURE "BLACK GEORGE"

BELIEVED TO BE RINGLEADER OF GANG OF HORSETHIEVES.

HE MADE A FURIOUS FIGHT

Fellow Who is Thought to be at the Head of a Gang Working Through the Dakotas and Into Canada, is Taken at Aberdeen, S. D.

A dispatch from Aberdeen, S. D., says that in the capture of George Turner, alias George Koch, alias "Black George," the authorities there believe that they have the ringleader of the gang of horse-thieves who have been working through the northwest, from Nebraska to Canada. He made a desperate fight for his life when caught. In the melee the thief got out a revolver, covered the heart of the sheriff with the barrel and put his finger on the trigger. The sheriff so fastened the prisoner's finger that firing was impossible.

Three men were required to capture the fellow. They all rolled down on a floor in the struggle. He is in jail at Aberdeen. He is considered the most desperate man captured in that section for a long time.

Caught Again in the Toils. Philadelphia, Dec. 28.—Charges of conspiracy, false pretense and forgery, involving \$150,000, are made against John Bough, a banker, who was committed in the City Hall police court to await a requisition from the New York authorities. New York detectives arrested Bough as he was leaving the county prison, where he had served six months for swindling operations in the name of the Boyer Sign Manufacturing company of Philadelphia. According to information in the possession of the police department, Bough and other persons who have since disappeared established an insurance company under the name of Lloyd's Insurance company of America. The concern, it is alleged, wrote \$4,000,000 worth of fire insurance and collected \$150,000 in premiums. The insured having been led, it is charged, to believe that Bough was the American agent of Lloyd's of London. Six months ago a collapse followed an alleged non-payment of a policy.

Easy Money For Prima Donnas. Singing for phonographs seems to be as high paid a musical exercise as there is, says the Chicago Journal. A phonograph company has offered a prima donna who sings at the Metropolitan Opera House, in New York, this winter \$14,000 for four songs—that is, \$6,000 as soon as the songs are sung and \$2,000 a year for four years as a reward for not singing into any other machine. Great and many are the means of income of a goddess of grand opera. She could live splendidly on what she can get for using a pill, a perfume, a piano or a phonograph.

DEATH CLAIMS MR. CONLEY

Stricken Man Succumbs at Fremont. Burial Friday at Tilden.

J. H. Conley telegraphs The News that his father, who had been ill in Fremont from paralysis for some time, is dead. The remains will be taken through Norfolk Friday noon, enroute to Tilden, for burial.

The deceased man had been in a helpless condition for some time. His son, J. H. Conley, has been at his bedside constantly. A week ago it was known that the stricken parent could not recover, though he might, the physicians said, live for several days longer. During the closing hours of his life he slept almost all of the time and suffered no pain.

Interment will be at Tilden Friday afternoon. Rev. Father Walsh of this city will accompany the remains to Tilden and have charge of the funeral.

C. E. Harrison. The world's greatest bicyclist and unicycle rider will be seen as a special feature with Eiler's Rip Van Winkle company at the Auditorium on January 6.

Miss Anna Elsing, Chicago's favorite opera singer, will appear with Eiler's Rip Van Winkle company at the Auditorium on January 6.

DeWITT'S WITCH HAZEL SALVE

A Well Known Cure for Piles.

Cures obstinate sores, chapped hands, eczema, skin diseases. Makes burns and scalds painless. We do not improve the quality if paid double the price. The best salve that experience can produce or that money can buy.

Cures Piles Permanently

DeWitt's is the original and only pure and genuine Witch Hazel Salve made. Look for the name DeWitt on every box. All others are counterfeit. PREPARED BY E. C. DeWITT & CO., CHICAGO.

CASH FOR POULTRY

Highest Market Prices Paid at All Times.

SCHENZEL & APPEL

NORFOLK. Long Distance Telephone, 183.
