TAKE FARLEY BROTHERS

BELIEVED TO BE LEADERS IN THE ROSEBUD GANG.

OF BLOODBOUND HORSETHIEVES

Suspicion Pointed to the Farleys, at Jamison, for Thefts of Recent Date. Despair Was Overcrowding the Prospective Settlers.

Bonesteel, S. D., Jan. 9.—A sensational denouement has been brought to the horse-thieving gossip which has been paramount here for some weeks, in the recent arrest of the Farley brothers, who reside just south of Jamison, Neb.

A few weeks ago horses were missed by a number of the Rosebud settlers who were making residence on their claims along the southern border of the reservation near the Nebraska state line. Some very valuable and highly prized animals were taken and a genuine despair took possession of the owners in the failure of their efforts to locate the stolen property.

Suspicion pointed toward Keya Paha county, Nebraska, which joins the newly opened lands on the southwest, and where numerous bands of bad men have been known to rendezvous in the past.

A number of weeks passed by, however, without bringing sufficient evidence against any suspected party, although the horse stealing continued. The new settlers, hence, became thoroughly disheartened and quite out of patience with their new homes.

The recent result of the vigilance committee's work is met with a wealth of satisfaction. Through their careful maneuvers and investigation, it was learned that certain horses were being disposed of down along the Niobrara river. Back tracking the clue, gullit pointed to Bert and Clarence Farley of just south of Jamison, a small trading station on the Nebraska line, thirty miles southwest of here. The brothers were arrested by the committee and turned over to the sheriff of Keya Paha county. Bert is now in jail, while Clarence is out on bond awaiting the action of the law.

The running down of these horse thieves, if they are the thieves, will alleviate many fears of the present influx of Rosebud settlers. Horses are the mainstay here where there are no railroads and a continuance of such wholesale thieving would thoroughly discourage every prospective settler of the new lands.

No Poison in Chamberlain's Cough Remedy.

From Napier, New Zealand, Herald: Two years ago the pharmacy board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by Leonard the druggist.

PIERCE ITEMS.

Messrs. Joe Witten, Edward Dunn and Lewis Inhelder went to Norfolk on the early morning passenger, driving back in the forenoon.

A new real estate firm has gone into business at this place. Geo. Littell, ex-sheriff of Pierce county, and John Campbell constitute the new firm.

W. H. Parack, the gentleman who, a few months ago, sold out his drug business in this city to Peterson & Patrick, has re-purchased the business and will have charge in future. The transfer was made Friday.

J. A. VanWagenen, the republican county attorney-elect, was installed in office here Thursday, succeeding H. H. Barnhart who has held the office for six years. W. E. Preston also was installed in office, succeeding C. E. Manzer as county commissioner.

An important business transaction has been consummated at this place whereby Dr. F. E. Cressler, who has been practicing medicine here singly for some time, goes into partnership

with Dr. J. T. Pringle. This will be interesting news to a number of Pierce county people.

A farmer named Fields living ten miles northwest of Pierce, is under arrest, charged with plundering groceries, robes, halters and other things from the wagons of other farmers, who had left their teams standing in the streets. The arrest was made Saturday night, at which time the hearing was set for Monday in Judge McDonald's court. The accused is said to be an industrious farmer, and his neighbors and friends will hope that he will be cleared of the charge.

ALDEN IS SUPERINTENDENT

APPOINTED BY GOVERNOR AS HEAD OF NORFOLK HOSPITAL.

ANNOUNCEMENT HAS BEEN MADE

The Pierce Physician and Ex-Senator Receives One of the Best Plums to Fall from the Executive Tree—His History.

Dr. J. M. Alden of Pierce, state senator two years ago from this district, was yesterday appointed superintendent of the Norfolk hospital for the insane by Governor Mieleke, the governor announcing the appointment to interested people. Dr. Alden's commission will be made out in a few days and he will be ready to assume charge of the hospital as soon as the institution is turned over to the state by the contractors. Until that time the new superintendent will be busy selecting his force of assistants and making other preliminary arrangements to take charge of the hospital. Dr. Alden has always had a deep interest in the Norfolk hospital and it was largely through his efforts during the last session that an appropriation of \$100,000 was secured to go toward the rebuilding of the hospital. His friends have been active in asking for him this mark of recognition and all will congratulate him on the success of the endeavors that have been put forth.

The New Superintendent.

Dr. John M. Alden is a native of the great state of New York, having been born in Oswego county September 7, 1847. He was brought up on the farm in the good old fashioned way and comes from a stock of sturdy ancestors reaching back to the time of John Alden and Priscilla. He received an academic education and also attended the state university at Ann Arbor, Michigan. In 1871 he graduated from the Jefferson medical college at Philadelphia and has since practiced his profession continuously. In 1884 he located in Pierce county and has made his home there since. He was a member of the state legislature in 1891 and made a splendid record, being again honored by election as senator from the Eleventh district comprising the counties of Madison, Pierce, Wayne and Stanton in 1902, serving his constituents acceptably during that session. During the past seven years he has resided on his farm adjoining the town of Pierce on the north, where in addition to practicing medicine and attending to his legislative duties he has engaged extensively in the raising of Hereford cattle and Poland-China hogs. He has been identified with the upbuilding of Pierce county and northeast Nebraska during the past twenty years and is known favorably and prominently in the medical profession all over the state. He has had marked success in the practice of his profession and his friends are confident that under his management and direction the new Norfolk hospital will attain a standing among the eleemosynary institutions of the state that will be second to none. He has shown a clear mind and steady hand in directing other affairs with which he has been attached and in addition to his knowledge of medicine this will stand him in good stead in conducting the Norfolk hospital.

Colonial Products Exhibition.

Liverpool, Jan. 10.—The Colonial Products exhibition, which, as its name indicates, is intended to illustrate the resources and industries of the British colonies, opened in Liverpool today and will continue for one week. A similar exhibition was held here last year, but the present affair is much larger and more comprehensive in its scope. Canada is well represented, as are also Australia, South Africa and other parts of the British empire.

STATE SECRETARY BAILEY ADDRESSES TWO BIG MEETINGS.

MANY NAMES ADDED TO THE LIST

Prospects are Favorable for the Organization of the Association in Norfolk With Gymnasium, Bath Rooms and Other Features.

Yesterday was Y. M. C. A. Sunday in Norfolk with State Secretary J. P. Bailey as the directing mind of the movement, and the prospects are flattering that an organization will be perfected here.

In the afternoon at 3 o'clock Mr. Bailey addressed a large men's meeting at the Methodist church on the work and aroused much interest in the movement among his hearers. Good instrumental music was furnished under the direction of Mr. Julius Hulff while the singing was directed by Mr. Solomon, instructor of music in the public schools.

In the evening there was a crowded house at the M. E. church, the different churches of the city uniting in a mass meeting. Mr. Bailey again addressed the gathering, explaining the objects, plans and work of the organization, what has been accomplished in other places and what is hoped to

HEALTH AND EDUCATION GOVERN THE WORLD

THE WEAK, SICKLY AND EMACIATED CAN HOPE FOR BUT LITTLE SUCCESS.

BY DR. ORA CALDWELL, CHICAGO.

In compiling the statistics of the world, it is of interest to note the article of diet, the manner in which it is taken and the extent of medical attendance as practiced in the civilized world. It has been demonstrated conclusively that the meat eaters are the strongest, healthiest and the best educated people in the world; therefore it is reasonable to believe that they are the people who govern the world. As demonstrated by Dr. Caldwell, the American people consume on an average of six pounds of meat per week; the English four; the German, three; the French, two; and the Italian, one-half. Statistics prove that epidemics of contagious diseases more largely prevail among those people, whose diet partakes of less meat and more farinaceous foods. Good meat is the most wholesome of all foods to be taken. True, it is not as fattening as the cereals or farinaceous foods, but it is more strengthening and contains more blood and nerve producing elements, so necessary to strength and good health. What is required specially for perfect health is good digestion, plenty of outdoor exercise and special care as to hygiene and all the laws of nature. Dr. Caldwell is a specialist in many years' experience, and has devoted much of her time to the study of diseases of the stomach, diseases of the brain and diseases of the nervous system. From conclusive proof it has been demonstrated that a little food properly served and well digested is far better than a great quantity of an unwholesome character improperly digested.

Dr. Caldwell has been afforded special advantages in studying the characteristics of the people, their diet, their hobbies and the special conditions governing medicine as a specialty.

She has been awarded, in contests with the greatest schools in the world, the highest prize and a number of medals. She has been making a specialty of chronic, nervous and surgical diseases, diseases of the eye, ear, nose, throat, lungs, diseases of women and diseases of long standing character. No matter how long such patients have suffered or who has treated them, she never failed to cure these ailments. In over a quarter of a century in the experiment, study and practice of her profession in the diseases of men and women, she has cured thousands who have been pronounced helpless by other physicians. People come to her from far and near to receive her treatment and her offices are crowded at the places of her appointments and all speak in the highest praise of her treatment.

By permission we are pleased to publish a few of some of the cures she made throughout the state of Nebraska. These are only a few, as time and space will not permit us to publish more:

Mrs. Sloan, Akron, Neb., cured of consumption and nervous trouble. The treatment she took improved her at

be accomplished here. He succeeded in arousing a deep interest in the movement and it is confidently believed that the efforts of himself and the local workers will be crowned with success. Previous to calling Mr. Bailey a local committee had succeeded in securing pledges from thirty-five prospective members. As a result of the work of yesterday twenty-five additional names were placed on the roll, bringing the membership up to sixty. With this as a starter it is thought that it will not be difficult to get the required hundred names within a day or two, but forty being needed to bring the required number. Each man signing the roll promises a payment of \$1 a month for five years, provision being made for the possible removal of the subscriber. With 100 names on the roll the new association will have \$1,200 a year for the payment of a permanent secretary's salary and for other expenses. It is proposed to rent rooms, establish a gymnasium and baths in connection and have a place that will be attractive to the boys and young men of the city as well as those who pass through Norfolk.

In other towns the Y. M. C. A. is one of the important christian organizations, especially in railroad centers such as Norfolk and it will be highly desirable for an organization to be effected here. A committee has been appointed to assist Mr. Bailey and today they are actively engaged in soliciting the balance of the names needed.

Each man signing the roll promises a payment of \$1 a month for five years, provision being made for the possible removal of the subscriber. With 100 names on the roll the new association will have \$1,200 a year for the payment of a permanent secretary's salary and for other expenses. It is proposed to rent rooms, establish a gymnasium and baths in connection and have a place that will be attractive to the boys and young men of the city as well as those who pass through Norfolk.

In other towns the Y. M. C. A. is one of the important christian organizations, especially in railroad centers such as Norfolk and it will be highly desirable for an organization to be effected here. A committee has been appointed to assist Mr. Bailey and today they are actively engaged in soliciting the balance of the names needed.

be accomplished here. He succeeded in arousing a deep interest in the movement and it is confidently believed that the efforts of himself and the local workers will be crowned with success. Previous to calling Mr. Bailey a local committee had succeeded in securing pledges from thirty-five prospective members. As a result of the work of yesterday twenty-five additional names were placed on the roll, bringing the membership up to sixty.
