## Apple Bating.

A good ripe raw apple is one of the easiest substances for the stomach to manage, and while the apple is worth more as a health giver in its natural state it is also exceedingly wholesome cooked. Apple sauce eaten with pork assists in the digestion of the meat, and many persons who cannot eat pork without discomfort can do so if accompanied with plenty of well cooked apple sauce not too sweet.

There has always been a lower percentage of divorces among men engaged in agricultural pursuits than in any other calling, not excepting the clergy. Soldiers, sailors and marines, in the other extreme, show the highest average of marriage infelicity. Speech Restored by Cold.

A miraculous cure has recently been effected by the cold weather at Paulbaquet. Auvergne, in France, says the Paris correspondent of the London Chronfele. John Rougier, fifty-four years of age, an agricultural laborer, lost his speech in 1887 after a severe attack of typhoid fever. At this time he was a parish schoolteacher and naturally was compelled to resign his position and seek other work. A few days ago, on going to work as usual, he was suddenly seized with faintness owing to the extreme cold and would have been frozen to death had not some passersby come to his assistance and restored him to consciousness. It was then found, to the great surprise of every one, that he had regained his powers of speech. The doctors of the disextraordinary case to the faculty in

There are no definite allusions in the writings of any of the disciples of Christ as to the date of his birth, nor has there ever been produced proof of any character as to the exact period in the year when Christ was born. > The Old Fashioned Wife. A pretty young married woman said

to a friend the other day: "Mary is such an old fashioned wife. She has such queer notions about her duty to ber husband and home. Why, she declines all invitations unless he is included and never under any circumstances is away from home when he returns at night.

"Then she always gets up to brenkfast with him and even goes so far as to prepare certain favorite dishes for him instead of leaving such fussiness to the cook. She does not go away in the summer until he is able to go, too, and, in fact, she fusses over him in the most absurd fashion.

After the pretty creature had vanished to join a party of friends at dinner a redective mood stole over the friend, and she thought how much better it would be if there were more old fashioned wives
