

COMMITTEE IS FAVORABLE

WILL RECOMMEND APPROPRIATION FOR NORFOLK HOSPITAL.

REDUCED TO AMOUNT OF \$35,000

Original Bill Contemplated an Appropriation of \$60,000, but the Amount Favored by the Committee Will be Used to the Best Advantage.

It is reported from Lincoln that the finance ways and means committee of the house of representatives, has or will report favorably on the bill appropriating money for the reconstruction of the west wing of the burned Norfolk hospital for the insane, the walls of which are still standing, and for the construction of another cottage, but at a reduced amount.

The bill as originally introduced asked an appropriation of \$60,000 for reconstructing the wing, building a cottage and improving the grounds, but the finance committee, it is understood, has cut the appropriation to \$35,000, the amount to be used in reconstructing the wing of the burned hospital and building an additional cottage. While those who have looked over the situation consider that the amount is about \$15,000 short of what would be needed for the purpose for which it is to be devoted, the appropriation, if granted, will be used to the best advantage toward placing the hospital for the insane in condition to accommodate as many patients as possible.

With no appropriation for improving the grounds there will necessarily not be much accomplished in this direction as might be desired. The grounds are really in bad shape. Since the fire nothing has been done except to clean enough brick for the rough work in the new cottages now being completed. The vast basement of the old building is filled with brick and other debris, some of which will need to be cleaned out and the excavation filled, while the parking is strewn with debris and walks and drives are not in condition. Without an appropriation it will be the work of years for the trusty patients, under careful superintendence, to remove from the grounds the effects of the fire. It is possible that, with the new appropriation, one story of the walls of the west wing will have been torn down as it is not considered a sufficient appropriation to reconstruct the three stories and build a new cottage as was contemplated.

There is no assurance that the appropriation will carry, as yet, but with the approval of the house committee there is a prospect for favorable consideration.

The house committee on insane hospitals, of which Dr. A. E. Bartoo of Valley county is chairman, is expected to visit the Norfolk hospital grounds next week to gain the information that will permit them to act intelligently on the legislation for the Norfolk institution.

Representative Richardson of this county has introduced a bill known as house roll No. 167, which provides for the disposition of the funds to the credit of the Norfolk hospital in the purchase of live stock, furniture, bedding, and for the building of fences. This bill has not yet been reported upon by the proper committees.

BREAK UP A POKER GAME

FIVE GAMBLERS CAUGHT IN RAID BY POLICE.

ALL WERE HEAVILY FINED

After Having Repeatedly Warned Members of the Gang to Quit Their Work, the Police Raided Them at the Home of Ed Lamb, Taking Five.

[From Tuesday's Daily.]

The Norfolk police force have made a raid and broken up a bad gang of gamblers who had been secretly operating in this city for a long time. The raid was made late Sunday night and five men caught. They were arrested and jailed for the night and, appearing in police court yesterday, were found guilty and fined in various amounts ranging from \$31.10 to \$45.10.

The gang who spent the night in jail were Hal McCormick, Walt Mart, Paul Retelsdorf, James Griffin and Ed Lamb. The raid was made at the home of Ed Lamb on Norfolk avenue, between First and Second streets, where the game was on. When the police broke in they found a bunch of chips on the table, money in heaps and one bottle of whisky. The entire outfit was confiscated.

In the skirmish that followed the breaking in of the police, McCormick succeeded in getting away, went home and was later roused out by the officers and taken to jail.

The men were fined as follows: McCormick, \$45.10; Walt Mart, \$36.10; Paul Retelsdorf, \$31.10; James Griffin, \$36.10; Ed Lamb, \$31.10. Some of the fines were paid and others were not. Two who were unable to pay their fines are laying out the tax in the city jail.

Chief of Police Larkin and Night-watchman Pilger made the raid. They entered the Lamb place at about midnight and found the game going in good shape. This was not the first game, either, that the gang has had. For more than a year the game is said to have been in progress, first at one place and then another. One private house was used for a short time as the den of the bunch. Later they went to a pool hall and then later to the Lamb house.

Not all of the "ring" was found in the place Sunday night. There are others who have been leaders in the thing who were not caught. The police declare that they intend to continue a vigilant watch on the entire crowd and that the gang will be arrested every time it gets together. Plain clothes men are to be put on the work and other raids are promised if the gambling does not stop.

All last summer there was a hunch lingering around town of the game. The members of it were repeatedly warned by the police to stop it. They were promised an arrest if they did not quit. But they paid no heed to the warning.

The "ring" has been working systematically and a victim who did not realize that he was being worked, easily lost his money.

Very Low Excursion Rates to Denver, Colorado Springs and Pueblo, via the Northwestern line, will be in effect from all stations January 7, 8 and 9, 1905, with favorable return limits, on account of annual conventions, National Live Stock and Wool Growers' associations. Two fast trains through to Colorado daily, only one night. For full information apply to agents Chicago & Northwestern R'y.

We sell flour, oil meal, mill feed, stock and poultry supplies. Flour and Feed store, Pacific block.

MR. GIRARD IS IN TOWN.

Supreme Chief of Ben Hur Lodge Arrives for Meeting Tonight.

D. W. Girard of Crawfordsville, Ind., and C. H. Way of Lincoln, state manager for the Ben Hur Lodge, are in the city for the big meeting which will be held at the I. O. O. F. at 8 o'clock tonight. The weather has retarded the crowds which had been expected from out of town, but a good attendance is looked for. Mr. Girard is supreme chief of the order in America. Norfolk is the first town on the list of six visits in Nebraska.

SCHOOL PATRON'S MEETING.

Will be Held Friday Night Under the Auspices of the Woman's Club.

Under the auspices of the Woman's club of Norfolk a patron's meeting will be held at the high school room Friday evening of this week. Good speakers, singing and music have been provided for the program. Fathers, mothers, taxpayers and patrons are invited to attend this meeting. Similar meetings under the same auspices have done much to promote educational interest in Norfolk and it is hoped that this meeting will be well attended.

HURT WHILE COASTING.

Emery Kientz Received a Bad Wound From Collision on the Hill.

Emery Kientz got a bad wound in one of his legs while coasting down the steep Dexter hill. He took a lively spurt down the hill and when going at full speed encountered a sled of another boy. A piece of hard wood a half inch square on the boy's sled was run into the leg of the Kientz boy just above his knee, making a bad gash.

As an advertising medium The News-Journal is unexcelled in its territory.

Services Closed.

The revival services at the Baptist church closed Sunday evening. Seven were baptized. Two more stand approved for baptism. Two were received by experience. The church has been much revived. There are several others thinking deeply concerning their salvation. Rev. J. W. Thompson the evangelist goes to assist the church at Plainview in meeting.

Special Bargain in Land.

80-acre tract, improved land; fine location, close in, near town, price and terms right. G. R. Seiler

The Theater.

[From Tuesday's Daily.] Angell's Comedians commenced a week's engagement at the Auditorium last evening, and presented as the initial attraction the comedy-drama, "Our American Cousin." They were greeted with a good house, the audience was enthusiastic and appreciative, and the play a good one, and rendered in excellent style by a superior company. Miss Alice Davis, in the role of Dorothy Cameron, appeared to advantage, and played the part in an exceptionally clever manner. Mr. Alden in the title role, gave a very finished performance and Mr. Grindell as the lover was all that could be desired. Miss Fowler, too, was very good as "May Lovell." She also did a very pleasing specialty, Josiah Laslott (Mr. Ketchum), was a fine piece of dramatic work. The entire organization is a strong one and gave the best of satisfaction. Tonight they present "Woman Against Woman."

JANUARY MAKING A RECORD

MORE SNOW, BETTER SLEIGHING THAN IN TWENTY YEARS.

THE PRECIPITATION IS HEAVY

Only Seven Januaries in Twenty-Eight Years Have Shown Greater Amount of Moisture—Weather Has Been Steadily Cold for a Month.

The snow broke loose again last night and Saturday night and several inches have been added to the already abundant fall of the season, making sleighing of the best quality that has been known here in twenty years. Not since the first heavy fall has there been warm weather sufficient to remove it from the ground and every few days there have been additions that have kept it in prime condition for the sleds and cutters.

January is, in addition, going on record with the largest amount of precipitation in many years. The local record is 80-hundredths of an inch of moisture. The general average of the state for thirty years is about 60-hundredths. Only seven times in that period has the precipitation record for the state exceeded the figure that is now shown locally for this January and it is probable that the state record will show a greater fall of moisture than the local record. In 1891 was the highest record, 1.43; in 1877 it was .98; in 1881, .91; in 1883, 1.04; in 1886, 1.21; in 1889, .91; in 1892, .86. There is another day to hear from in this month and it is possible that the high record may be equalled in that time. January is ordinarily a dry month and there is usually a notable lack of snow, the ground usually being dry and bare during the entire month but this year the surface has been almost constantly covered with snow and the sleighing has been good for weeks whereas ordinarily there have been but a day or a few days of sleighing and this not of a high quality.

The wind that has previously piled the snow in drifts is this year a minus quality and, in fact, for several years past Nebraska has shown an inclination to reform in the matter of wind storms, both in the summer and winter. This sort of weather is what is usual to the states further east and north but is of rare occurrence here, the people here being more accustomed to dusty streets than to sleighing in January.

In the matter of steadily cold temperature, also, this year is making a record. Other Januaries have shown colder days, and warmer, but few have equalled the steady cold of this season.

In Praise of Chamberlain's Cough Remedy.

There is no medicine manufactured that has received more voluntary praise or more expressions of gratitude from people who have been cured by it, than Chamberlain's Cough Remedy. From long experience in the use of this preparation, people have found that it not only gives quick relief but effects a permanent cure, and that it can always be relied upon. The fact that it is pleasant to take, also that it contains no harmful drug is of much importance when a medicine is intended for young children. This remedy is for sale by Leonard the druggist.

THE NEIL-HYLAND FIGHT

KEEN INTEREST AROUSED IN SAN FRANCISCO.

TWO NATIVE SONS ARE TO MEET

Neil Has Ruled a Favorite in Betting Circles, But the Contest May Produce a Big Surprise—Hyland Has Never Lost a Battle.

San Francisco, Jan. 21.—Though San Francisco has been the scene of many pugilistic events of note during the last few years it is doubtful if any of them has excited a keener local interest than is manifested in the fight slated for the arena of the San Francisco Athletic club tonight. This is because the two principals, Frankie Neil and Dick Hyland, are both "native sons." Aside from this fact, however, it is the prevailing impression that the bout will be a lively one from going to gong and well worth seeing.

The opinion is expressed by many close followers of the fighting game that the contest may produce a big surprise for the sporting world—quite as big a one as did "Battling" Nelson when he defeated "Young Corbett." Hyland is an amateur, or has been until the present match. He has a record of something like forty-five fights, has never lost once, has scored most of his victories by clean knockouts in brief periods, and has shown a decided superiority in the finer points of the game to anything Champion Neil ever displayed.

In what betting was done on the result Neil has ruled favorite at odds of 2 to 1. His experience in professional and long battles has, of course, brought this to pass. But there

are many who do not hesitate to declare that the odds are false and that Hyland is the coming star of his weight.

Neil is tough and hardy, but he lacks science. He rushes in aggressively, with his terrific punch ready, head down, taking what comes and waiting for his chance. Hyland, on the other hand, is a shifty lad, with a head that is sound, good skill and a punch that is in no manner second to Neil's. All things considered, the battle should pan out to be one of the best bantamweight affairs ever seen on the coast.

Baptist Meetings.

Splendid services were held at the revival meetings of the Baptist church last evening. Five were happily converted and others were deeply interested. Come out to the meetings. Every evening at 7:30. Tell your neighbors and friends about it and come.

J. H. Clay, Pastor.

Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. It is famous for its cures over a large part of the civilized world. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. For sale by Leonard the druggist.

ASSOCIATION OF TEACHERS

NORTH NEBRASKA GATHERING TO BE HELD IN NORFOLK.

HIGH SCHOOL DECLAMATORY

It is Expected that There Will be a Large and Enthusiastic Gathering Here in March—Other Educational Meetings of the Year.

Arrangements are being made for the annual meeting of the North Nebraska Teachers association which is to be held in Norfolk on March 29, 30 and 31. The meeting has been held at Columbus during the past two years.

The attendance heretofore has been about 400, but it is hoped to largely increase this showing at the next meeting. The Woman's club of Norfolk will give a reception to the visiting teachers during the session but the date of the reception has not yet been fixed.

There has been a considerable contest heretofore between Norfolk, Fremont and Columbus for this meeting, and it is reported that Fremont is preparing to make an extra effort at the coming session to capture the meeting for next year. A large delegation is expected up from Dodge county to endeavor to swing the convention that way. It is hoped that they may come, as such efforts lead life and vigor to the meetings.

In connection with the association meeting there will be held the annual high school declamatory contest, which will take place on Wednesday evening, March 29. The principal schools of North Nebraska, including the high school at South Omaha, will be represented at the contest. Norfolk will likewise have a representative.

Department of Superintendence.

The annual meeting of the national department of superintendence this year will be held at Milwaukee, Wis., on February 28 and March 1 and 2. This is one of the most important educational meetings of the entire country as it practically outlines the educational policy for the nation. Representatives of nearly all the important cities of the United States will attend this meeting.

National Association.

The next meeting of the National Teachers association will be held at Ashbury Park, N. J., early in July. The railroads have already promised a rate of one fare for the round trip for the entire United States and there is great interest in the gathering which will consist of teachers of all grades and from all institutions of learning. Superintendent Maxwell of the New York City schools is president of the national association this year, which is a guaranty of the high order of the meeting. It will afford an excellent opportunity for others not teachers to visit friends and relatives in the east at a reduced rate of fare.

SCHOOL WORK IS SPIRITED.

Second Semester Taken up by Pupils and Teachers.

The second semester of the school work has already been taken up in the Norfolk public schools. Notwithstanding the cold weather the very best of spirit is manifested by pupils and teachers in the second half of the year's work.

Methodist Revival Meetings.

Revival meetings will begin at the Methodist church tonight and the public is cordially invited to attend the services every night during the week.

FIVE HOURS TRAIN DELAY

AN INCONSEQUENTIAL ACCIDENT TIED UP MAIN LINE.

PASSENGERS WENT TO A SHOW

West Point Saloons Were Opened Sunday Night to Accommodate Those Thus Inclined of the Northwestern's Delayed Travelers.

[From Monday's Daily.]

The breaking of a journal under one freight car at West Point was the cause, last night, of so blocking the main line of the Northwestern railroad that the westbound passenger train, due to arrive here at 7:35, was delayed for five hours, and three freight trains were tied up for the same length of time. The experience of the passengers at West Point the while was unique.

An eastbound freight train arrived at West Point at 5:30 in the evening and was stopped by the accident to considerable distance before it was finally stopped. In order to get the car to a side track, a wrecking crew from Fremont was called and the work was not finished for five hours.

At 6 o'clock the westbound main line passenger train arrived. It was stopped by the block in the way. There were, consequently, several hundred passengers without means of going on their journeys and without means, either, of amusement. To satisfy the appetite of some of them the saloons of West Point were opened, and to satisfy the theatrical inclination, a company of players who had just finished a week, dug out their apparatus, put on their costumes, opened up the town hall and the show was on.

When the show was over the trainload of passengers returned to the cars and at 11 o'clock left town.

The accident itself was of no consequence other than the delay. The car was loaded with 1,000 bushels of corn.

OPERATION AT MADISON.

Milt Webb's Little Boy Has Appendicitis Relieved by Knife.

Madison, Neb., Jan. 31.—Dr. A. P. Conden of Omaha, together with Dr. Smart of this city, yesterday performed an operation upon the 9-year old son of Milt Webb, for appendicitis. The little fellow is getting along nicely.

The "Hidden Fortune."

Ainsworth, Neb., Jan. 31.—Special to The News: About one dozen of the Hidden Fortune stock holders of Ainsworth held a meeting in their office here to discuss the future plans to develop the resources of the gold mine. They all said they felt good so long as the fortune was hidden but trouble began when it came to earth. A change in management is in prospect.

Beats Other Papers.

C. B. Hanger of Clearwater, R. F. D. No. 1, writes to The News today: "We find that The News is the paper for the western part of Nebraska, beating the Lincoln papers by a day."

Special Bargains in Land.

SNOW BLINDING THE EYES

HUNDREDS OF NORFOLK PEOPLE SUFFER FROM THE GLARE.

THE PAIN BECOMES INTENSE

The Sun, Reflected From the Crystalline Surface, Starts the Thing and the Illness Ends in the Stomach Before so Very Long.

The vag who sold smoked glasses at the Chicago world's Columbian exposition, where the glare of the white buildings was almost blinding, and who, in crying his wares, called out in a lusty voice, "Smoked glasses! Smoked glasses! Rest and protect your eyes—a little McKingley—a little protection!" could make a hit in Norfolk today if he should drop into town with a carload of stock. The glare of the densely white snow that has fallen in thick layers over everything in the country, has been enough to set on edge all persons whose eyes are in any way sensitive, and some whose eyes are not.

Hundreds of Norfolk people have been suffering today from sick headaches caused by the glare. Many a man and woman has been put out of the game by the illness resulting from exposure to the snow.

The pain begins in the eyes, where the ache deepens and intensifies as the glare continues. The sun, shining on the snow as upon a mirror, darts into the optics of the best of men and soon those same best of men are wishing it might get dark.

Later the suffering sinks into the back of the head, the whole brain seems to throb uncommonly much and before long the stomach gets its share. Many are even unable to eat during the attack.

LEAVENED BREAD

Has Been Man's Constant Mainstay From Time Immemorial.

Some writer has said that "The first miller emerging from his savage state, with no thought save hunger, plucked the wheat from the stock, and, using his teeth for millstones, ground the first grist for a customer who would not be denied—his stomach." Thus gaining experience by "eat in the food line, it would be only natural for this miller to lay up a quantity of grain against an hour of need. Just when he commenced grinding his wheat in the rude stone mortar and moistening the flour preparatory to baking it in the ashes of his camp fire, and just when it was found that an old piece of dough in a fresh batch made it better or "leavened" it, is beyond the reach of historians. Certain it is that though the principle was the same thousands of years ago as it is to-day, it has remained for the makers of Yeast Foam to supply a yeast with all the true leavening powers minus the properties that produce sour, "runny" or soggy bread. This is the yeast that took the first grand prize at the St. Louis Exposition, and revolutionized the bread making in every home where it is used because much better bread can be made with it from any flour.

Yeast Foam is purely vegetable, being made of the best malt, corn, hops and other healthful ingredients. The factory is also the cleanest and best equipped in the world. This yeast is the only kind that preserves in the bread all the delicious flavor and nutritive value of the wheat. The bread made with it is always sweet and wholesome and stays moist until used. Forty loaves of bread can be made from one 5c package. The makers of Yeast Foam are giving out a new book called "Good Bread; How to Make It." This little book, invaluable in its way, has twenty-six illustrations in color, and tells how to make all kinds of bread, biscuits, buns and rolls, as well as containing other recipes which will be found invaluable in the home. The way of preparing the different recipes is very clear and comprehensive. The book will be sent free to any one sending their name and address, with a request for same, to the Northwestern Yeast Company, Chicago, Ill. Every woman who bakes should secure a copy.

FARM LOANS
