

NEBRASKA WINS FAVOR

PORTLAND THINKS STATE EXHIBIT WILL DRAW WELL.

RESOURCES OF STATE DISPLAYED

First Moving Picture Show Given, Which is Pronounced a Novel and Entertaining Device—Nebraska Corn is Given Prominence.

Nebraska yesterday gave the first of the hourly moving-picture entertainments which will be a feature of her exhibit in the agricultural building throughout the entire Lewis and Clark exposition. It is only one of a number of special features which will do much to draw attention of both easterner and westerner at the exposition of that state.

Corn is another. There are some wonders shown from this product that many would scarcely think possible. Most people are aware that starch is a product of this great cereal. Nebraska has 26 jars, each filled with a different product, and including not only starch, but glucose, sugar of several varieties, syrups, oils, gum paste, and even rubber. There are in all 81 distinct varieties of corn shown in the exhibit, some husked and some not. The ears form pillars or hang in graceful clusters around the exhibit. Five hundred bushels of the "peas on a stick" are thus represented. All this in addition to 165 varieties of native and tame grasses, which go to make up the remainder of the decorative scheme.

Prize Steer.

Nebraska's livestock industry is represented by the mounted hide of the steer Challenger, the huge animal raised on the University of Nebraska experimental farm, which weighed 1730 pounds when only 2 years old. It took the grand prize at Chicago in 1903, and sold for \$449.80, or \$26 a hundred pounds. So much for balanced rations and proper feeding, say Nebraskans.

The main portion of Nebraska's space is taken up with the pavilion, which is in reality the state headquarters for the Nebraska commission, visiting Nebraskans and sightseers. Here will be found reception-room, for visitors, reading-room with the latest newspapers from Nebraska, easy chairs and settees and all conveniences for the comfort of visitors.

The center of the building is occupied by a little theater seating more than 100 persons, where, hourly, moving-picture exhibitions are given, illustrating the resources of the state. Ten sets of films are shown, each representing some industry of Nebraska. One depicts the life of the farmer from early sowing-time through harvesting, haying and orcharding to corn picking. Another series represents the cattle industry. Others show cattle scenes on ranches in the western part of the state, the growth of alfalfa, the poultry and dairy life, the raising of sugar beets and manufacture of the product into sugar. One of the most notable pictures is that of the late President McKinley at the Trans-Mississippi exposition at Omaha. This is one of the very few moving pictures of the late President in existence.

Planning to Entertain.

The Nebraska commission is planning to entertain a great number of visitors from the state during the next few weeks. During the present week more than 300 lumbermen will attend the exposition and be entertained in the Nebraska theater. The latter part of the month a large number of the delegates to the national good roads convention will arrive. The delegates appointed by the governor of Nebraska for this convention are as follows: John Grant, George W. Craig, George L. Campen, W. P. Freeman, Hon. William Ernst, H. J. Burkett, Henry T. Clark, Major T. S. Clarkson, R. G. Douglas, Hon. H. M. Dietrich, H. G. Shedd, Hon. George L. Loomis, Hon. William P. Warner, A. J. Webb, John A. Wakefield, W. A. Apperson, L. A. Varner, H. M. Bushnell, L. C. Peters.

Early in July 500 representatives of the various commercial clubs of the state will attend the exposition, and will be properly entertained by the Nebraska commission.

W. P. Warner, president of the Nebraska commission, Mrs. Warner and Secretary H. G. Shedd are now in charge in the agricultural building. Commissioner G. L. Loomis, vice-president, left for his home last week. William James is superintendent of the exhibit, while Executive Officer George C. Shedd is also in Portland, being now convalescent at the Good Samaritan hospital, where he underwent an operation recently.—Portland Evening Telegram, June 13.

DELEGATES GO HOME.

List of Those Who Attended the Epworth League Conference.

Many of the delegates who were in the city attending the conference of the Epworth league, Norfolk district, left for their homes today.

Among delegates attending were: A. L. Hisey, Leigh; J. D. Elmore, Dr. Elich Schultz, Gertrude Trent, Dr. Sison, Mrs. Sison, Mrs. M. Scott, Mrs. Baer, Mrs. Antles, all of Stanton; Alma Barber, Thurston; L. A. Garwood, Eva Howarth, Mrs. M. Winebreuer, Randolph; Sada Cass, Harry Crellin, Rev. E. E. Hosman, Lyons; C. H.

Sterner, St. James; Blanche Shannon, Rose Lewis, W. R. Warren, Creston; Maude Grothe, Edith Stinson, Lulu Grace Steele, Minta Lewis, Mr. Wright, Mrs. Wright, of Wayne; J. D. Shiek, Dakota City; Algia Koehler, Grace Ellis, E. F. Antrum, Pilger; W. G. Fowler, Clementine Higley, Estelita Lantis, Decatur; Sadie O. Taylor, Warnerville; I. H. Weaver, Bertha A. Neff, Mrs. Ida Barta, Wakefield; Clyde Rynearson, J. M. Bothwell, Mrs. Bothwell, Mrs. W. E. Taylor, Madison; D. Lakins, C. Gilmer, Ponca; Mrs. O. S. Grant, Allen; Mrs. A. L. Mickel, Mr. Mickel, Pender; C. S. Hughes, Mrs. Hughes, Mrs. J. H. Melick, Carroll; Edna Sharp, Beemer; J. L. Phillips, Laurel; William Gorst, Omaha.

Homes of the following persons in Norfolk were given over to the entertaining of one or more of the guests: J. W. Ransom, George Schwenk, J. Koehnstein, H. L. Snyder, I. M. Macy, Tilden, Donner, C. E. Doughty, Balleweg, C. Michael, W. H. Johnson, C. F. Shaw, Goodrich, Bithel, A. O. Hazen, Rev. J. F. Pouchor, William Burlington, Amerine, C. S. Evans, Sly, Tannehill, Clay, Adams, Oxnam, M. C. Hazen, I. G. Westervelt, Briggs, Mills, G. Kuhl.

Butte 10-Anoka 0.

Anoka, Neb., June 26.—In a game of baseball here yesterday afternoon Butte won by a score of 10 to 0. The game took one hour and twenty minutes. Black and Ford were Butte's battery and Elwanger and Green for Anoka. Wright was umpire.

GRASSES IN SANDY LAND

CONGRESSMAN KINKAID TELLS OF EXPERIMENTING.

100 PERCENT IMPROVEMENT

Brome Grass, Which Mats the Sand Together and Grows Tall Enough For Hay, Will Wonderfully Improve the Sandy Lands of the State.

[From Thursday's Daily.]

Congressman M. P. Kinkaid of O'Neill, who represents the big Sixth district in Washington, was in Norfolk today on his way from Anoka to Holt county. He had been north on the Bonesteel line for the purpose of inspecting the grasses which the government has been starting in the Sixth district by way of experimenting.

"We are very much interested all north of the Platte river in grasses," said the congressman. "The grass is a vital thing in our stock country. I advocate that all flesh is really grass, for the cattle are made of grass and we eat meat. It is therefore a vital thing. We have been looking for a grass which will grow on the sandy lands and make hay. We want it to grow long, and our experiments thus far have been more than satisfactory.

Brome Grass Great Stuff.

"The alfalfa has done very well," continued the congressman, "but brome grass has done much better and this alone is going to make our country 100 percent better than it ever was before. The brome grass mats the sand together and grows long, so that it develops into good hay. We are more than delighted with it."

Judge Kinkaid says, too, that this is a good deal of activity in the Sixth in the establishing of star mail routes and new postoffices along the routes. The landoffices in the district, which had to put on two extra clerks each for the section home rush, are still doing a "land office" business, and each now has one extra clerk.

A United States Mail Map,

well adapted for use in office, library or school, substantially mounted, edges bound in cloth, printed in full colors, showing the United States, Alaska, Cuba and our island possessions. The original thirteen states, the Louisiana purchase, the Oregon territory, etc., are shown in outline, with dates when territory was acquired, and other valuable information.

Sent to any address on receipt of fifteen cents to cover postage, by B. W. Kulsborn, P. T. M., C. & N-W. R'y., Chicago.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's colic, cholera and diarrhoea remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Leonard the druggist.

Wanted by manufacturing corporation, energetic honest man to manage branch office. Salary \$125.00 monthly and commission, minimum investment of \$500 in stock of company required. Secretary, Box 401, Madison, Wis.

Want ads telephoned to The News up until 2 o'clock will get in that day's paper.

WAS BIG DAY AT VERDIGRE

CELEBRATION OF THE Z. C. B. J. LODGE ANNIVERSARY.

MANY PRESENT FROM LYNCH

Saturday Was a Day Long to be Remembered by Verdigre People. Two Bands Vied With Each Other in Making Music for the Occasion.

Verdigre, Neb., June 26.—The Z. C. B. J. lodge celebrated the twenty-sixth anniversary of the organization of their order Saturday. Large crowds were in town, some coming from quite a distance. Lynch sent by far the largest delegation, accompanied by their band. With our own band and the Lynch band there was no dearth of music, each one seeming to vie with the other to see which could get the sweetest strains out of their instruments.

Prof. B. Sirnek of the Iowa State university delivered the principal address, which was replete with humor, wit and pathos, and was greatly enjoyed by his large audience. The festivities closed with a grand ball in the opera house.

Taken all in all Saturday will be a day long to be remembered by Verdigre and her visitors.

MONDAY MENTION.

C. W. Lemont went to Wakefield today.

John Gray of Naper was in town over night.

Robert Reynolds went to Winside this morning.

Charles Ulrich of Pierce was in the city over night.

C. S. Smith of Madison was in the city this morning.

Miss Jennie Brown is visiting with Miss Alma Garvin in the city.

Mrs. T. H. Gay of Belle Fourche, S. D., was in the city this morning.

Attorney and Mrs. H. F. Barnhart of Pierce were in the city this morning.

Miss Maude Tannehill expects to leave soon for Portland, where she will visit.

R. J. Kelly, H. F. Atkinson and E. M. Coleman of Merna, Neb., were in the city over night.

Henry Thompson, P. Stanton, E. Edens and H. J. Kierstead were Tilden visitors in Norfolk yesterday.

Mrs. Ferdinand Haase and Mrs. Otto Zuelow will go to Hot Springs tonight for a three weeks' visit.

Will Parker of Boston is in the city, a guest at the home of Dr. and Mrs. C. S. Parker on Koenigstein avenue. Other guests at the home today are Rev. J. J. Parker of Plainview, and Mr. and Mrs. Oscar Hauser of Neligh.

Fred Trenepp paid his fine of \$10 and costs Saturday.

Ewing, Stuart and Bassett will celebrate the Fourth of July.

E. J. Schoregge is remodeling his building on Norfolk avenue, fine new ceilings being installed in the Trocadero.

Henry Haase will be able to celebrate the Fourth in his new home on North Seventh street, which is just being finished.

The Storz saloon building, occupied by Emil Moeller, has been remodelled on the interior, with new trimmings and decorations.

C. D. Simms has moved into his new house on South Eighth street. The small pox quarantine has been removed from the home, after a siege of several weeks.

A long strip has been filled on the north side of Norfolk avenue, where new cement walks will be built. A large amount of filling has been done, also, around the Pacific hotel.

J. J. Kriss, brakeman on the Union Pacific at Fremont, is under arrest, charged with manslaughter. It is alleged that he used unnecessary violence in getting Will McMahon from his train a week ago. McMahon was run over and killed, and his father has now taken up the case against Kriss.

A bunch of merry tramps enjoyed a keg of beer in a grove northeast of the city during the night until policemen arrived on the scene and arrested four of them. Before daylight the four were turned loose and ordered out of town. At breakfast time they were seen near the river, cooking juicy steaks for their early morning meal.

A baseball team from Stuart will be in Norfolk on the Fourth to cross bats with a team of this city. The Stuart boys are fast. Not long ago they played a 2-1 game with Valentine which lasted through ten innings. They announced early in the season that they would play any team of their size in the state. A warm contest may be expected.

For the week before the Fourth, the weather on tap over Sunday was not of the kind that is calculated to make men and girls hunt the ice cream and lemonade stands on the shady sides of the streets. The weather, however, is quite capable of making a change that will come with all the excess of heat and dust and swelter that the most enjoyable fourth would require.

Three Norfolk men had a peculiar experience on the excursion to Chicago. They started on the same train for the windy city, but were in different sleepers. They planned to be together in Chicago. When they woke up in the morning they found that their sleepers had been separated and sent into town on different

trains. It was four days before they met, by mere accident, on the street.

After nearly two months of uninterrupted labor on an artesian well at Fairfax, S. D., a flow of the best quality of water has been struck at a depth of 1,371 feet. Not only is the quality good, but the flow is inexhaustible. The well was tested for twenty-four hours by a pump which drew out a barrel of water every minute, and the supply was not lowered in the least. The water problem had confronted Fairfax for some time and the citizens are naturally very happy over the result.

With the flood gates in place and the mill running nights and Sundays the conditions for boating on the mill pond have been restored to the ideal and a number of boating enthusiasts are putting in hours of their spare time on the stream. Their numbers will undoubtedly increase as the season advances. When the hot days of summer come the cooling shade and refreshing breezes will tempt more to the Northfork. It is noticeable that the people who are now enjoying the offers of the stream as a resort are of a careful class, and there have been no accidents in recent years to dampen their enthusiasm for a quiet row in canoe or skiff. It is reported that there is to be an added inducement to the Northfork's attraction this summer. It is stated that a launch from Fremont is to be brought here for the Fourth of July and will remain during the balance of the season if the business continues good.

F. F. Ware.

The following clipping from the David City Banner concerns F. F. Ware, one of Norfolk's new citizens:

F. F. Ware came in last Wednesday evening from Norfolk, and packed up his household goods for shipment to that place, where he has recently located and engaged in the drug business. He has also purchased a fine residence property there. Mr. Ware returned to Norfolk on Friday evening but Mrs. Ware visited with relatives at Surprise and Miss Ada and Joy visited here until Tuesday, when they all departed for their new home.

Mr. Ware was engaged in the drug business here for over ten years and built up a large, prosperous business, and his numerous friends and customers very much regretted his retirement from business in our city. Mr. Ware concluded to retire from business and take a rest for the benefit of his health, but like all other energetic business men he could not stay "retired." He was like a fish out of water until he was again located in business. The many friends here of Mr. Ware and his estimable family wish them success in their new home.

Mr. Ware is now settled in his new home, recently purchased on North Ninth street. He says that he hopes to treat the people fairly and to be given a fair amount of patronage in the drug business. He will have a first class drug store in Norfolk as soon as he gets settled in the new store, Koehnstein's old stand, and will have for sale everything to be found in an up-to-date store.

ARMATURE BURNED OUT

Small Machine at Electric Light Station Cause of Fire Alarm.

An alarm of fire was turned in from the power house of the Norfolk Electric Light and Power company Sunday morning, between 8 and 9 o'clock, two hose companies responding to the call, but their services were not required and they were ordered back to the engine house before they had a chance to throw a stream of water.

The excitement was caused by the burning out of the armature of the small auxiliary dynamo. The dynamo had been left in connection with the day circuit and when the big dynamo at the mill was started there was trouble. The little dynamo was built to stand ten amperes of electricity, but when the forty amperes from the mill power were connected the lightning sizzled around the machine and took off everything burnable that it could reach. A few dippers of water stopped the burning process, but not before the machine had been badly damaged. The cement floor and other fire proof arrangements at the lighting station prevented a spread of the trouble.

President Bullock of the company estimates the damage at \$500, the dynamo as it now stands having a value of not more than \$10. It will require a new machine to repair the loss.

PONCA CREEK RAISES THREE FEET

Lowlands Around Bristow are Under Water in Many Places.

Bristow, Neb., June 29.—Special to The News: Accompanied by a brisk southwest wind, a heavy rain fell here today. The Ponca creek has raised about three feet, and the lowlands in many places are covered with water. J. K. Moore today puts into operation his Frost concrete building block machine, recently installed. Mr. Moore will use the first several hundred blocks in the construction of a new residence, which will be begun as soon as the blocks can be turned out.

At the regular school board election, held here yesterday, Mr. J. F. Larson, was elected treasurer, of this district by a majority of 11 votes.

Entertain Kaffee Klatsch. Mrs. Weatherly and Mrs. Warrick entertained the Kaffee Klatsch Saturday with a 1 o'clock luncheon.

THE CASPER LINE CONTRACT

NORTHWESTERN GIVES WORK OF BUILDING NEW ROAD.

TO BEATRICE GRADING FIRM

Work on the Casper Extension, to Poison Creek on the Border of the Shoshone Reservation, Will Begin Immediately—Materials Enroute.

The contract for extending the Northwestern railroad from Casper, Wyo., to Poison Creek, a distance of 100 miles, has been let to Killpatrick Bros. & Collins of Beatrice and work on the new line will begin immediately. The fact of the contract was announced yesterday, and under the rumor that the building operations would be given up on account of the Burlington's departure from their plans to build.

The building of the extension will mean busy tracks on the Northwest west of Norfolk. Already a considerable amount of material has been hauled through here for the west.

The object of the extension is to reach the Shoshone reservation, which will be opened next year, and to later on enter the reserve and cross it.

THURSDAY TIDINGS.

M. Nichols of Foster is in the city on business.

Sheriff Frisbie of Neligh was in the city over night.

Dr. J. H. Mackay made a professional visit to Madison today.

M. M. Stannard and Ernest Korth went to Madison today on business.

J. S. Peterson and Peter McKnow of Verdell were in the city over night.

Anton Buchholz and C. F. Haase went to Madison yesterday on business.

Miss Emma Schoregge left this morning for St. Paul, Minn., where she will attend school.

Geo. W. Hitchens of Plainview was in the city this morning on his way to Sioux City to attend a big horse sale.

Mrs. W. N. Huse left yesterday for Orange City, Iowa, to attend the wedding of her brother, Will Leggett, today.

W. H. Bucholz, who was here to attend the Rainbolt-Wellis wedding, returned today to his home in Oakland, Cal.

Mrs. L. Austin of Tekamah, on her way home from the Methodist missionary meeting at Plainview, stopped off to visit her old friend and school mate Mrs. C. E. Farley.

S. H. McClary, who had been visiting his parents, Mr. and Mrs. J. S. McClary, left this morning for his home in California, where he has charge of the night force in the biggest sugar factory in the world. Mr. McClary is extensively interested in a copper mine which will, it is believed, pay out within a year, in which case he will be made independently wealthy.

Herman Miller, formerly of Norfolk but recently of Colorado, is in the city visiting at the home of his father and mother, Mr. and Mrs. H. H. Miller. He has been in the sugar business in Colorado but was compelled to leave that section of the country on account of a severe attack of rheumatism. He expects to leave about August 1 for Wisconsin to work in a factory there. He liked Colorado.

Mr. and Mrs. J. R. Lodge, living on rural route No. 4, welcomed a bouncing baby boy to their home yesterday.

Lee Tipton has severed his service as rural carrier on route No. 1 and John Cronk has assumed the duties of the position.

Miss Annie McBride was a bridesmaid at the Rainbolt-Wellis wedding yesterday, her name having been omitted from the published list.

The front of E. M. Zeisler's cigar store has been removed and is being replaced with a plate glass front that will add to the attractiveness of the store and permit a better display of wares.

The weather man has four days to prepare things properly for the Fourth of July celebrations scheduled to take place throughout north Nebraska. As none of the towns have planned to celebrate with a carnival of Venice, warm and drying breezes and brilliant sunshine would be the things most in demand for putting the weather management to the good.

The wet weather has induced the growth of large areas of wild barley in Norfolk and vicinity, and it makes a pretty sight, even though the grass is comparatively valueless for feed or pasturage. With the sun glinting from each of the millions of fine blades and the wind gently waving the grass, it does not require a wide stretch of the imagination to regard it as ponds or lakes of water with the waves chasing each other across the surface.

Foliage on the trees is unusually dense and vigorous this year and the country with its increasing accumulation of groves, shade trees and orchards looks particularly lovely this summer. The color of the leaves is a deep green where so often in years past they have been yellowish or blighted. With the crops showing well over the hills and valleys there is every inducement for country rides and outing parties when the rains will cease and the roads will get in condition to be traveled.

Gow Bros. will occupy a suite of rooms in the new addition which the

Citizens National bank is to build at the south end of the bank building. The two rooms now occupied by the Union Pacific Commercial agency will be made into one large room and another room, yet to be built in the new addition, will also be used by Gow Bros. Mr. Clover, the commercial agent, will soon move out of this building into another, and Gow Bros. will change their location just as soon after the first of the month as possible.

C. Lerum of Plainview, who used to carry mail between Norfolk and Niobrara thirty-four years ago, was in the city yesterday enroute home from Genoa, Neb., where he had been attending a stock sale. Mr. Lerum is now in the fine stock business and his just bought a fine Galloway bull, "Buford," from W. O. Pugsley & Sons at Genoa. When Mr. Lerum carried mail between Norfolk and Niobrara there was not a tree on the road excepting just at Niobrara where the river ran. "It was a desolate looking country then," said Mr. Lerum, "but the trees have remodelled it completely. You wouldn't know it was the same spot of the earth."

Mr. and Mrs. W. E. Ross, who have just returned from their visit at Topeka, Kan., and whose home was entered by burglars during their absence, found that nothing of great value had been stolen by the robbers. They are of the opinion that boys of the neighborhood broke into the house as pins belonging to the engineers' society were taken, and these would never be taken by professional burglars. It will be remembered that this house was entered about two weeks ago, and was discovered to have been robbed when the neighbors saw the doors standing open. Mr. and Mrs. Ross are not sure that the burglary was not committed on circus day, as the crowds might have brought thieves with them, but they are more strongly of the opinion it was boys.

START A BANK AT FOSTER

NORFOLK MEN ARE INTERESTED IN THE INSTITUTION.

L. B. NICOLA WILL BE CASHIER

F. C. Holbert of Plainview is President and Thomas Harrison of Foster Vice President of the Bank of Foster—Opens July 10.

The Bank of Foster is the name of a new institution which will begin doing business at Foster, Pierce county, July 10. The bank has a capital stock of \$6,000. Officers are: F. C. Holbert, Plainview, president; L. B. Nicola, Norfolk, cashier; Thomas Harrison, Foster, vice president. Frank Lambert, John Havila, Thomas Harrison and James M. Burke of Foster; F. C. Holbert of Plainview and L. B. Nicola of Norfolk are directors.

Teething Babies.

Children when teething, especially during the summer months, are more or less subject to diarrhoea. This can be controlled by giving Chamberlain's colic, cholera and diarrhoea remedy in sweetened water as directed. For sale by Leonard the druggist.

REPAIR FIRST STREET BRIDGE.

Commissioner Hopes to Have it Ready by July Fourth.

Commissioner Smith has a force of men working on the First street bridge below the Junction and states that he hopes to have it ready for use by the Fourth of July. The bridge was damaged by the high waters of the past two months and the destruction has made necessary a large amount of repair work. Other bridges are being placed in condition as rapidly as possible.

WEDDINGS AT NELIGH.

Prof. Scott is Married to Miss DeWitt, Rapp-Duncan.

Neligh, Neb., June 29.—Special to The News: The crowning event of the season came here in the marriage of G. Larkham Scott, director of music in Gates academy, and Miss Flossie DeWitt, youngest daughter of E. W. DeWitt. The wedding occurred in the Congregational church in the presence of nearly 300 invited guests. The orchestra created and instructed by Prof. Scott played the wedding march. Rev. Scott of Wisner, father of the groom, officiated. A reception was held at the home of the bride's parents after the ceremony. The young couple will be at home here after July 18.

Miss Josie Rapp and Mr. Earle Duncan were married at 8 o'clock yesterday morning in the home of the bride. They will make their home in Kansas City.

50 YEARS' EXPERIENCE

PATENTS
