

MEADOW GROVE REUNION

THIS IS THE LAST DAY OF THE BIG MEETING.

STANTON BALL TEAM PLAYS

In a Brilliant Game the Boys From Stanton Yesterday Defeated the Creston Crowd—Pilger Won by Good Luck From Plainview.

Meadow Grove, Neb., July 14.—Special to The News: The G. A. R. reunion will end here today, after one of the most successful meetings ever held. Today Pilger and Stanton, winners of the baseball games thus far, will meet on the diamond for the big purse of \$150 and interest is at white heat.

Stanton in a brilliant game yesterday defeated Creston by a score of 5 to 1. The Stanton team's work was simply superb.

Pilger beat Plainview the day before, 12 to 7. Plainview lost through hard luck, though the boys made a splendid showing.

Each of those games was for \$75 and today's is the battle royal.

Fine Speeches.

Fine speeches were made yesterday by Rev. C. C. Hunt of Chadron, a very excellent speaker who will speak also today. A Neleigh lady delivered a fine address as did also Mr. Gessler of Iowa. There are a number of good shows here. Between 3,000 and 4,000 persons were on the ground yesterday.

While Mr. and Mrs. August Raasch were visiting in Wisconsin, they presented their daughters with a handsome piano, which is now installed in the family home a mile west of the city.

Riley Chrisman of Decatur, Ind., is visiting at the home of his uncle, Rev. W. R. Peters, pastor of the Norfolk

circuit M. E. church. Mr. Chrisman is on his way home from an extended visit at Ladysmith, Wisconsin. "I like Nebraska very well," said Mr. Chrisman. "It is in agreeable contrast to the portion of Wisconsin I visited. I was way back in the woods where it is not only very lonely, but the gnats and mosquitos make life miserable for the inhabitants. And the roads are impassable much of the time. It takes four horses to haul a very light load over the trails and the day before I left I saw a team stick with an empty wagon. I walked twelve miles to town to avoid disagreeable features of a drive and was to my knees in mud much of the way. It took many hours to make the trip."

The spirit of improvement has struck Philip Fuesler and he is replastering, repapering and repainting his shop.

A special meeting of the fire department was held last evening for the purpose of making arrangements for the department to attend the funeral of H. L. Spaulding tomorrow afternoon. The West Side Hose company also had a special meeting for the same purpose.

Work was commenced this morning on the renovation of the city building. It needed it. The city hall and the office rooms on the second floor are to have the floors scrubbed, the paper renewed and paint freshened up. H. C. Truman is doing the work, and he has a contract on his hands.

The room back of the Citizens National bank, recently occupied by Commercial Agent Clover of the Union Pacific has been dismantled and the windows and doors removed for the purpose of carrying out the scheme of the new addition. Mr. Clover is temporarily occupying rooms in the rear of the Norfolk National bank for his office.

J. J. Barnes of Columbus, a Duroc Jersey breeder, was up during the week to look at M. Mihills' herd, and while here bought a male hog to head his pens. This hog was just past twelve months of age and weighed over 400 pounds in only moderate flesh. Mr. Mihills has pigs of the same breed and also some stock of the Old Arlon strain.

The people of O'Neill have raised a \$4,000 bonus for R. L. Hall, formerly in the hotel business at Valentine, who proposes to erect on the Horisky corner a three story modern brick hotel, to cost \$12,000, and the total investment of Mr. Hall in the metropolitan of Holt county will be \$19,000.

The people of O'Neill were enthusiastic over the proposition and were not long in raising the required bonus. They have long been in need of a commodious modern hotel and the proposed structure of Mr. Hall will answer requirements for a number of years to come.

The Odd Fellows held a special meeting last night to make arrangements for the funeral of the late H. L. Spaulding, which takes place tomorrow afternoon from the Methodist church. Committees were appointed and all details of the funeral were given attention. All members of the lodge, and visiting and ancient Odd Fellows are invited to meet at the lodge hall tomorrow afternoon at 1:30 sharp and accompany the lodge to the home and to the church. At the request of the family it will be an Odd Fellows funeral, with Rev. J. F. Poucher as the officiating minister.

Reports from the government prison at Leavenworth, Kansas, say that Captain George W. Kirkman, recently found guilty of desertion and other crimes at Fort Niobrara, dismissed from the army and sentenced to three years at hard labor at Fort Leavenworth, will turn preacher when he regains his liberty. He is said to have confided to one of his army friends that within the last few months he has had ample time to reflect seriously upon the life he has led since entering the army and that he is deeply and genuinely sorry for what he has done. He now intends to reform his ways and through the ministry attempt to guide the footsteps of others from the path he has been treading that has led to punishment and disgrace without any compensating features.

Neligh Leader: The present financial condition of Gates academy is a source of gratification to its numerous friends and should be one of pride to every enterprising citizen of our town. The year was started with some misgivings but with careful management and the unselfish gifts from friends the year ending June 30 showed a balance of resources above liabilities to the general fund amounting to \$50.

The endowment fund has also made some growth during the year and now approximates \$1,000, almost the whole of which has been invested in school warrants drawing seven per cent interest. This source of investment, however, is about cut off until next fall as the districts are now paying off their indebtedness in cash. The attendance at the school has also proved satisfactory as a whole, in number and achievement equalling or exceeding that of any previous year. Added to this is another encouraging feature in the great number of students who have entered upon a full course of study. Gates academy is doing a good work along all lines and should have the sympathy and active support of the entire community.

Duroc Jersey Pigs. I have a few Duroc Jersey pigs, all of April farrow, for sale. These pigs are of the best strains known to the breed.

Attorney M. D. Tyler took in the reunion at Meadow Grove yesterday. He reports a good crowd and a good time. When he was there the gamblers were too much in evidence, but it is reported that after he left they were driven from the grounds.

Rev. F. Nannacher and family from Ashippun, Wis., arrived in the city yesterday evening, to visit Mrs. Nannacher's parents, Mr. and Mrs. Julius Degner. The visit was a surprise to the Degner family, as they had not expected them at this time. They will probably remain about two weeks.

Sheriff B. M. Jones of Pierce arrived in the city this morning with an insane patient, who was placed in the Norfolk hospital for treatment.

Spencer is soon to have a fine new school house which will be built at a cost of \$12,000. It will be one of the finest in the northwest and modern in every respect.

A number of gamblers who had been attending the G. A. R. reunion at Meadow Grove, and who were driven out of the town yesterday, arrived in Norfolk on a late freight train last night and are here today. Among the bunch is Ed Oakley, formerly of this place and well known here, who ran a wheel in Bonesteel last summer.

Mrs. Henry Haase was operated on last Tuesday at the German Lutheran hospital in Sioux City by Dr. Sturds, for gall stones. One stone as large as the end of a person's thumb was removed, together with a number of small ones. She passed through the operation nicely and is getting along fine. Mr. Haase and daughter went to Sioux City this morning to see her.

The pest of mosquitos on the Rosebud reservation, which has been terrific during the damp weather of the summer, is now diminishing. For a time it was punishment continually in driving over the reservation as the mosquitos flocked upon horse and man by the millions. They are extremely large and vicious and all travelers were mosquito netting as a protection to the face. The hot weather of the past few days has killed many of them.

A. J. Durland returned last evening from a week's trip through Boyd county, Nebraska, and Gregory county, S. D. He says both those counties show remarkable progress this year and the crop prospects were never more favorable. He is one of the original believers in the future of that section of the country and every year he be-

comes more convinced that his early judgment is being verified. Based on that judgment, he made heavy investments in the lands of those counties, and he has had no cause to regret it. Yesterday was one of the hottest days of the season, the sun and south winds combining to elevate the mercury up to a height it has seldom known in recent years in this section. This morning opened with every prospect that another high record would be made this afternoon. It is ideal for the development of the corn crop and the people have not suffered extensively, so that it is a good thing on the whole for the country. The ice cream and cold drink men are among those most benefited by the change of conditions.

It has not yet been made known where the annual encampment of the Nebraska national guard will be held, but it has been decided that the picked men from the various companies will meet at Kearney July 21 to August 3, to engage in a rifle target contest. At this contest a team will be chosen to compete in the national contest to be held in New Jersey. Kearney is a strong candidate for the encampment and has offered sufficient ground for its accommodation, but the question of railroad rates and transportation is bothering some, and the place has not been selected. A central location for the assembling of the companies of the two regiments is desired with plenty of open ground for the maneuvers.

County Treasurer Schavland yesterday issued a call for all the outstanding 1904 general fund warrants, all the 1904 bridge fund warrants, all the 1903 road fund warrants, commissioner district No. 2, all the 1904 road fund warrants, commissioner district No. 3. This makes an entire clean up of outstanding county warrants and road district certificates except those of districts No. 2, 4 and 14. No warrants have been issued against the funds of 1905, so that the county is now practically out of debt. This makes a remarkably good showing for a county that has been laboring since its organization under the burden of debt, and speaks well for the economical administration of affairs by the present and past county officers.

The plan for the building of a new Methodist church at Warnerville is meeting with favor there and the chances are that bids for the construction of the building will soon be received. Warnerville is a new charge of Rev. W. R. Peters of the Norfolk circuit. A year ago there was no society in Warnerville; now there are sixteen members and the society is in a flourishing condition and a church building is desired in which to hold services. Many of the members are financially able to lend a strong aid to the building of the church. For many years services and meetings of all kinds from public dances to prayer meetings have been held in the hall, and the church people of the precinct will be glad to have a house of worship.

No dipsomanias have yet been received at the state asylums as the result of the new Epperson law. At Lincoln there is hardly room to take care of them should they be received, but Dr. Greene hopes for more room and better facilities after the Norfolk hospital is opened up and ready for business. It is thought that the provision attached to the new law will make the cases few that are sent up. The county will have to pay \$15 per month for the care of such patients, and it is possible that some of the hardest drinkers may not be considered worth that much to the county. A deposit of \$45 for three months will be required. The treatment will be about the same as for the drug habit. Less whiskey will be given each day, until in ten days the supply is shut off. Medicine and enforced sanitary habits are expected to complete the cure.

J. W. Humphrey of Norfolk was at Herrick, S. D., the Rosebud reservation town, yesterday morning when the storm came which twisted many of the buildings of the place about and injured a number of persons. Mr. Humphrey fortunately escaped injury. People at Fairfax, whose relatives and friends were on the reservation, were fearful for a time lest some of their people had been hurt, and they were walking the floor for a time yesterday morning, as telephone connections were out of business for some time. The first news of the storm was brought to Bonesteel by a man on horseback who had been wired for and was starting to Butte on account of the death of a brother. He started out of Herrick ahead of the storm but at the advice of his friends he remained until its fury had been spent, and he was glad of it. The Krotter telephone office at Bonesteel did good service in getting details of the storm, securing a list of the injured by 9 o'clock.

Miss Olive Munson went to Omaha Sunday.

Charles Karroll shipped a car load of cattle to South Omaha Tuesday.

Mr. and Mrs. Henry Rasmussen of Newman Grove were the guests of A. H. Cropper Sunday and Monday.

Peter Bovee lost one of his best horses this week. The animal laid down to roll and fatally injured himself by striking a cultivator.

Geo. Chandler and Charlie Clark drove over to Meadow Grove Tuesday to attend the reunion, turned their horses loose in the evening to graze and have been unable to find them since, although they have searched the county over from Oakdale to Stanton.

RAILROAD STEAM GRADER

UNION PACIFIC RUNS A MACHINE FROM COLUMBUS.

LEVELS THE EDGES OF ROADBED

Force of Men Follow and Finish Dressing Down the Grade and Remove the Weeds—Hauled by a Monster Engine—Miles a Day Covered.

The Union Pacific company yesterday completed into Norfolk the dressing down of the upper edges of the roadbed which was commenced at Columbus and completed the full length of the branch. Other branch lines will now receive attention.

The work is done by a monster engine equipped with plows or grading blades extending out on each side of the track. The road bed, just outside the ties is neatly trimmed to a park-like condition, and a leveling process is done, the surplus dirt being thrown along the embankment. It trims off all high and uneven places and does work better and faster than could be done by the men.

The machine is followed by a large force of men who complete the work with their picks and shovels. The weeds are thus killed, the grades leveled and the center of the right of way is left to look like a nicely parked town lot.

An equipment on the machine makes it possible to raise or lower the plows to engage any unevenness and with a monster engine to haul it a vast quantity of dirt is displaced and miles of roadbed are covered each day. An extra force of men is engaged to assist the local force in completing the work commenced by the machine, and when the track has been covered it will be in better and more attractive condition than for years.

Interesting Meeting.

The men of the M. E. church held a social meeting at the church parlors last evening, which was well attended. The prime object of the meeting was to discuss methods of improving the social life of the church and how to keep up the financial interest. While it was expected that the meeting would be largely of a business nature, it became decidedly social, and two hours of real enjoyment were spent. There were a number of witty speeches and a good time, and at the close it was decided that the meeting had been a success.

W DDING RECEPTION

Tendered by Mr. and Mrs. Rainbolt to Their Son and Bride.

One of the prettiest parties that has been given in this city for years was the reception last evening at Marquardt's hall tendered by Mr. and Mrs. N. A. Rainbolt to their son and bride, Mr. and Mrs. W. M. Rainbolt, who had just returned from their wedding trip. The hall was beautifully decorated in pink and green, cut flowers at the musician's stand, and white wedding bells hung from the gas jets.

In the receiving line, formed at one side of the hall, were Mr. and Mrs. N. A. Rainbolt, Mr. and Mrs. W. M. Rainbolt, Rev. and Mrs. J. C. S. Wells, Mrs. W. H. Bucholz and Miss Louise Wells. Music was discoursed by Rouse's orchestra, and after the informal feature of the evening had been disposed of, dancing was indulged over a smooth floor until 1 o'clock this morning.

Punch was served all the evening by a bevy of pretty young girls, Misses Mary Odiorne, Mellie Bridge, Nola Walker, Robinette Bear, Marie Johnson and Carrie Harding. The same young ladies assisted in serving dainty refreshments. About 150 guests were present to help Mr. and Mrs. Rainbolt welcome their new daughter, and every one vowed that it was the prettiest party of the season.

DEMURRER WAS OVERRULED

Bond Company Given Ten Days in Which to Answer Petition.

The O'Neill Frontier says a demurrer that was filed by Fred Whittemore in the case of Bridget Corrigan against the bank examiners alleging negligence in checking up the defunct Elk-horn Valley bank was overruled in district court and ten days was given in which to file an answer. Whittemore and his attorney, T. J. Doyle of Lincoln, were in O'Neill Tuesday, it being expected the arguments in the demurrer would be made. The attorney for Mrs. Corrigan was out of town and other obstacles seemed to stand in the way of proceeding with the case and it was agreed to submit briefs in place of oral argument.

The defendant demurs for the following reasons:

- 1. The petition of Bridget Corrigan does not state a cause of action in favor of the plaintiff and against the defendant.
2. The plaintiff has no legal capacity to sue or maintain this action.
3. There is a defect of parties plaintiff herein.
4. There is a misjoinder of cause of action herein.
5. The court of law has no jurisdiction to try the action, it being a subject of equity jurisdiction only.
6. The Fidelity and Deposit company of Maryland is also a party to the suit. Through their attorneys, Kennedy & Learned of Omaha, they moved the court to require the plaintiff, Mrs. Cor-

gan, to make her petition more definite and certain by setting forth the dates, maturity, amounts and names of the makers of the notes which it is alleged in paragraph five of her petition were forged and fictitious. The motion was sustained by the court and the plaintiff allowed to amend her petition immediately, ten days being allowed the bond company in which to file their answer to the corrected petition.
