

NEW FREMONT OFFICES

OLD STATION CONVERTED INTO HEADQUARTERS.

RAILROAD MEN OFFICE THERE

Seven Apartments With Dispatchers Office in the Middle—Changes are Now in Progress Under Direction of Bridge Superintendent Burrell.

Plans for the interior arrangement of the old passenger station, which is being converted into an office building for the Northwestern headquarters, have been drawn and are in possession of Bridge Superintendent Burrell who is supervising the changes now in progress, says the Fremont Tribune. There are to be seven offices and a set of toilet rooms. The office of Assistant General Superintendent F. C. Walters will be in the southeast corner, with the one of Trainmaster Roach adjoining it on the west. North of these apartments, taking up the northeast corner of the building, will be rooms for Mr. Walters' chief clerk, J. Leppla, and Mr. Roach's clerk, Waldo Dodge. The central section, including the portion of the building formerly used as a ticket office, will be the train dispatchers' room, twelve by thirty feet in size, so situated that the bay window will be about the middle of the south wall. The roadmaster's office will be west of that of the dispatchers, taking up the southwest corner, while the apartments of Mr. Burrell will be north of the latter, taking the northwest corner. The toilet rooms will be between Mr. Burrell's office and that of trainmaster's clerk, and will have entrance from the dispatchers' office. The inside work on the building has just been commenced, material for the offices having been received yesterday. It is expected by the officials to move from their present quarters in the second floor of the Nye-Schneider-Powder building soon after the first of the year. The fixtures now in use, with a few additional pieces, will be put in the new headquarters building.

The family and household effects of Assistant General Superintendent Walters arrived yesterday afternoon from Sioux City and they are occupying the residence at I street and Military avenue, which was formerly the home of Frank Fowler.

A wag reading the story about poorly paid teachers in The News, said: "Hod carriers are paid far better than school teachers, yet there are none of the teachers willing to exchange places with the hod carrier for the difference in pay." The hod carrier may get more wages, but he doesn't get to go to Lincoln once a year and mingle for a whole week with a whole multitude of bright and handsome women. It is probably one of the many reasons why the teacher sticks to his job.

MAN WHO STOLE A TEAM AND WAGON IN BROAD DAYLIGHT.

BELONGED TO REV. MR. ELLERT

He had stolen a team, harness and wagon at Ainsworth, Neb., and was making a straight road to where all horses that are stolen in this part of the country head for. Quick action is needed to put a stop to this thieving and if the law does not stop it there are more violent means that work to perfection.

This is the team, harness and wagon belonging to Rev. Pearl Ellert, which were stolen in broad daylight off the streets of Ainsworth on Christmas morning. The first report was that the thief had been captured at Long Pine.

It is a pleasure to note that Superintendent T. J. Bodwell of the Norfolk schools was one of the interested teachers present at the state association held in Lincoln this week. He was on the committee of nominations and also took part in the discussion of the subject, "Certification of Teachers," a subject that is of vital interest to every teacher and every county superintendent. The session of the association closed last evening and has been the most successful and largest attended meeting in the history of the association.
Monday, the 1st of January, will be recognized as a legal holiday by the banks and postoffice. Most of the business houses will be open awhile in the morning, but as a rule it will be a holiday. The local freight trains will be annulled that day and the railroad boys on those runs will have a lay-off. New Year's day is yearly becoming more of a holiday. It is probably well that this is so, as the American people have few holidays compared with other countries. In the lands where church and state are closely allied there are a great many holidays which are observed by classes and not the masses.

Four years ago he removed to Houston, which is twenty-three miles south of Winona, where he purchased 480 acres of land at \$40 an acre. Now the same land is worth \$75 to \$100 an acre, a small portion having been recently sold at the latter price, so he feels as though he made no mistake when he invested in land. While here he purchased a set of harness from H. W. Winter, and had it shipped home, remembering the high grade quality of goods he used to purchase of his friend Winter when he lived in this county.

CROP AND SOIL SPECIAL

SPECIAL SEED TRAIN ARRIVES HERE ON SCHEDULE.

STORM HAS HURT THE CROWDS

Stanton Greeted the Professors With a Good Delegation, But There Was a Slim Audience at Norfolk—Prof. Keyser Talks.

(From Tuesday's Daily.)
The special crop and soil train arrived here on time, at 3:25, and consisted of a baggage car, two coaches and two private cars.
Morning Lincoln at 7 o'clock Tuesday morning left and stopped at Cedar Bluffs, Fremont and came here from Stanton where they had a crowd of about 200 farmers to greet them.
The attendance here was small and Prof. Lyon of the State University said that Norfolk farmers did not seem to take as much interest in scientific farming as they do in other towns.
Prof. Alvin Keyser of the State university made the address here which will be dwelt upon later.
The cars are arranged with large charts at one end where the speaker can stand and exhibit large ears of corn and dissect them that all may be able to understand all he explains. He is virtually a school master teaching the farmer how to raise corn and grain in the most scientific manner.
The occupants of the train were the following well known educators in the east and west:
Prof. C. C. Hartley of the United States department of agriculture; Prof. T. F. Hunt of Cornell university, New York; Prof. T. L. Lyon of the University of Nebraska; Prof. E. G. Montgomery of the University of Nebraska; Prof. Alvin Keyser of the University of Nebraska; Prof. C. W. Pugsley of the University of Nebraska; Prof. Condra of the University of Nebraska.
They left here for Bonesteel to spend the night. All the men seemed enthusiastic over the work, and a great good is sure to result from the special soil trains to all farmers who attend these lectures.

PROSPECTS FOR UNION STATION
It is Learned From Authentic Source That Matter is Under Discussion.
It is known from an authentic source that the proposition of a union depot for Norfolk is now being seriously discussed in railroad circles and it is thought, on the strength of information gathered from reliable parties, that Norfolk will, in the spring, get a union station up town. It is said that the matter of securing a station into which the through main line Northwestern trains will run, is doubtful. The reason given for this is said to be the extra cost of running the trains from the Junction to the city.
Preparing for State Association.
The Norfolk firemen will attend the state association at Beatrice on January 16, 17 and 18. They will have a special car which will be trimmed and decorated so that the boys will show up well. They will have a lot of special badges and expect a good time.
