

MONEY GETTING SCORED

TEACHERS TALK OF PRESENT DAY CHILD VIEWPOINTS.

FRENZIED GREED OF DOLLARS

Home Influence of Business Men Upon Their Children Was Attacked at the First Session of Northern Nebraska Teachers' Association.

From Thursday's Daily. The idea that money-getting is the chief end of life was roundly scored, as well as the business-man father of today who, engrossed with his own commercial affairs, has little time to devote to his children...

Mr. Teed took the view that the elementary education should be of a more practical and sounder nature, while Superintendent Sorenson of Ne- ligh, who followed with a discussion, designated the "so-called practical education" as "but the frenzied desire of something that will aid the child to earn a few dollars speedily."

Attacks Present Home Influence. One of the most interesting features of the afternoon was the attack of Superintendent Sorenson upon present systems of home influence. He said that the business man gives too little attention to the development of his children.

Superintendent Teed, in his treatment of the subject, showed first that only a small percent of school children ever received more than an elementary education. Education should be first practical and then cultural, he said, if possible. He touched upon the course of study. He said there is too much adding and not enough subtraction. Quality is often sacrificed to quantity.

President Wilson Calls to Order. President E. P. Wilson of Wayne, who is a big man both physically and mentally, called the meeting to order at 2 o'clock. Miss Ruth Shaw gave a piano solo which was rendered with feeling, invocation was pronounced by Rev. W. J. Turner, and then Superintendent Teed took up his subject, which he handled in interesting manner.

Lecture Tonight. Tonight Dr. Thomas E. Green will deliver a lecture to the teachers at the Methodist church. Concerning Dr. Green, Dr. Frank W. Gunsauls, the noted lecturer, says: "The lecture of Dr. Green has a masterful and noble purpose. Such messages to the America of today, prophesy a better and a greater America tomorrow. Dr. Green is creating a loftier faith in the ideals for which republics are created."

RED MEN IN THE DITCH

WRECK CAUSED BY CAVING OF AN EMBANKMENT. EXCURSION TRAIN WENT DOWN. No One Reported Killed but Several Were Injured—Three Hundred Excursionists From Richmond, Indiana.

Richmond, Ind., April 4.—Through the caving of the side of a heavy fill on the Chicago, Cincinnati and Louisville railroad, a special bearing three hundred Richmond members of the Order of Red Men, was wrecked early today. Among the most seriously injured are William B. Yingling, leg broken; Edward Ellenberger, head cut; E. Wolfe, rib broken; John Matrix, hurt about the head; S. W. Cook, leg and back hurt.

YOUNG JUROR'S WORK.

Millionaire's Son Taught One Juror to Read, Others Wrestling. William N. Frew, Jr., son of the millionaire lawyer and protege of Andrew Carnegie, recently sat as a juror in the case of Norman H. Geysler, charged with the murder of Mrs. Martha Kirkpatrick, says a Pittsburg special dispatch to the Cincinnati Enquirer. Young Frew, who is just out of college, served for the first time as a juror. The first case that he was accepted for was the murder case, which proved to be the longest of any ever tried in the Pittsburg court. The jury was out eleven days. The first night young Frew discovered that one of his fellow jurors, a farmer from Snowden township, could neither read nor write. He set about the task of teaching the farmer his letters and when the trial was over was gratified to find that the man could write his own and other people's names and could make a fair stammer at reading.

The night school business went all right for a short time, but then the jurors began to suffer from lack of exercise. Young Frew is a fine athlete and knows more about boxing and Japanese wrestling than many professionalists. So a wrestling mat was made of several mattresses. The jurors all know more about boxing and wrestling today than they did before. Young Frew also introduced foot racing around the room and other physical culture diversions until the men got all the exercise they needed and had appetites which cost the county \$580 for meals. In exchange for all this young Frew was amply repaid by at least one of the jurors, who was a barber. Frew could not shave himself, and the barber juror consented to perform the task each morning before breakfast. During the eleven days' confinement he also gave young Frew, as well as several others, an up to date haircut. The jurymen declare that they never had a finer companion than the millionaire's son. Young Frew, who is a serious sort of chap, says that he was very much interested in the work.

Russian Radicals Win Victory.

St. Petersburg, April 4.—The official canvass of the votes cast at the election, owing to the unexpectedly heavy vote and the inexperience of the officials, has not been completed, but it is conceded that the radical tide has swept to victory every one of the 160 constitutional democratic electors. The constitutional democrats are naturally jubilant, as the sweeping triumph which they have won at the capital, the headquarters of the bureaucracy, is bound to have a strong effect on the country at large, and are now looking forward to a working majority in the national parliament.

Elections in Kansas.

Kansas City, April 4.—Elections for minor offices were held in numerous cities and towns in Kansas. Except in Kansas City, Kan., where the mayor's policy of licensing joints was repudiated and he resigned, the results were of local interest. In Oklahoma and Indian Territory there were city elections. In Guthrie, Okla., where the negro question was an issue, the Democrats made a clean sweep, on a platform opposing negro officeholding. Guthrie has hitherto been Republican. The whole Republican ticket was elected in Oklahoma City.

The Air of London.

There is no fresh air in the heart of London, according to the conclusions of a recent investigator. He says: "No evidence of ozone was anywhere apparent except at Brownswood park, in the northeast. It was from the northeast quarter the wind was blowing, and the air had lost all trace of ozone before it had reached Hyde park. At Bushey park, although practically a country district, no ozone was present in the air. London had not only abstracted the goodness out of the air that swept over it, but had added to it the exhalations from the breath and bodies of millions of human beings and of tens of thousands of animals. Persons living within a one or two mile radius of Charing Cross cannot have fresh air entering their dwellings at any time."

VERDICT OF NOT GUILTY

CRIMINAL ASSAULT CASE IS DISPOSED OF AT O'NEILL.

THIS WAS THE THIRD TRIAL

The First Jury Disagreed, the Second Convicted and the Third Acquitted. The Case Cost Holt County About \$6,000.

O'Neill, Neb., April 4.—Special to The News: The jury in the Nichol-Zack criminal assault case returned a verdict of not guilty at 1:30 Tuesday, after being out from 6 o'clock Monday evening.

This disposes of a case that has cost the county about \$5,000. It has gone through court three times. The first jury disagreed, the second convicted and the case went to the supreme court where it was sent back for retrial.

CATTLEMEN'S LATEST MOVE

Prominent Rangers Under Charge Want Million Acres for Grazing. Omaha, April 4.—A new move has just been inaugurated on the part of the cattlemen, with a view to nullifying the proceedings against them in the United States courts for this district, for alleged illegal fencing of public lands. A petition is being circulated which asks that the Dismal River forest reserve be extended to the North Platte forest reserve through the counties of Hooker, Thomas, Blaine and McPherson, whereby over 1,000,000 acres of public land will be segregated from the privileges of homestead entry and thus turned over for general grazing purposes.

Among the petitioners are the Dawson Bros., Rev. G. G. Ware and the U. B. I. Land and Cattle company, Black Bros., T. B. Hord and others, all of whom now have suits pending against them in the United States circuit court for maintaining illegal fences around vast tracts of public lands, obstructing public highways, intercepting the United States mails.

Should the petition be granted extending the forest reserves, the civil cases now pending against these parties will, of necessity, have to be abandoned. However, the extension of the forest reserves as petitioned for will not cause the abandonment of the prosecution of such of the petitioners as are under investigation for procuring fraudulent land entries within their enclosures.

These investigations will be continued by the secret service department and submitted to the federal grand jury for its determination in May.

Southwest Operators to Sign.

Kansas City, April 4.—Negotiations are in progress in the various mining districts of the southwest that are expected to result in the resumption of work by a large number of men within a few days. The officers of the mine workers of the district, including western Arkansas and Indian Territory, have received overtures from operators with a view to signing the scale. In the Kansas field a number of operators are ready to sign the scale as soon as it is ready. A district convention, to be held in Pittsburg, Kan., next Monday, will arrange the details of the contract. By the middle of next week it is expected the contract will be signed by many operators in the Kansas field. All the mines in the southwest remain closed.

TELEGRAMS TERSELY TOLD

William E. Spratt (Dem.) was re-elected mayor of St. Joseph, Mo. An imperial council, presided over by Emperor Francis Joseph, decided to hold the Hungarian elections in the autumn. Colonel Gilberto Escobar, governor of Jinotega, Nicaragua, was assassinated in the streets of that place. The assassin was captured. Executive officials of the western railroads decided to run homeseechers' excursions to the northwest every Tuesday during the coming summer.

Letter to Nan Patterson Defeats Him.

Keokuk, April 2.—A. C. Decker (Rep.) was defeated for alderman in a strongly Republican ward because he wrote a letter of sympathy to Nan Patterson when he was on trial in New York for the murder of Caesar Young. This letter, in which Decker expressed his hope for the actress' acquittal, was the cause of the landslide in favor of his Democratic opponent. The wives of the voters induced their husbands to pledge themselves to vote against Decker.

Howard Begins Life Term.

Louisville, April 4.—James R. Howard, who has been in jail here pending the disposition of his case by the United States supreme court, was taken to Frankfort to begin his term of life imprisonment, to which he was sentenced for the murder of William Goebel.

Sioux Falls Denied Writ.

Pierre, S. D., April 4.—The state supreme court denied the temporary writ of prohibition asked for by citizens of Sioux Falls to prevent the opening of bids for the construction of the new state capitol. The court, however, allowed an order to show cause why a writ of prohibition against the commission should not issue, and hearing was set for the 18th of April.

South Dakota The Land of Plenty Rich soil, a mild climate, and abundance of water have made South Dakota one of the best agricultural states in the Union. The soil of Lyman County is unusually rich. It is a black loam with a yellow clay subsoil. The extension through Lyman County recently built by the Chicago, Milwaukee & St. Paul Railway has opened up a part of that state hitherto sparsely settled. Land is now selling at the rate of from \$8 to \$15 an acre, and it is altogether probable that valuations will increase 100 to 200 per cent within a year. South Dakota offers great opportunities for the small investor. A book on South Dakota for two cents postage. RESULTS The word results means a whole lot to the farmer of to-day and it is especially attractive to the homeseeker or those seeking new locations. If we tell you of a country where you are sure of success, will you believe us? It is only necessary for you to farm the land and the best results will follow—a State which the government reports will show leads in the production of wheat. It also ranks among the first in the raising of corn, alfalfa, timothy and other products, together with stock raising. We speak of KANSAS The great State of the West, where lands can be purchased from \$5 to \$30 per acre which equals the returns of the \$30 to \$150 per acre lands of other States. EASTERN COLORADO is identical in most respects and the same opportunities are offered there. Buy quick while the lands are cheap and secure the benefit of an excellent investment. THE MISSOURI PACIFIC RAILWAY touches the heart of this rich agricultural region and extremely low rates are offered, allowing stop-over at pleasure in certain territory for inspection of lands, etc. Write us and we will send you free descriptive literature and full information.
