RACE SUICIDE THEIR TOPIC

Cupid Softened the Tone of the Old Maids and Bachelors' Convention.

Forest City, Ia., July 26,-Bachelors and spinsters of lowa in state convention here, after discussing the race suicide question at length, were forced to concede in the question of government that all rests upon the home, and that this is so generally looked upon as the basis that to place a bachelor in the field for governor would be folly. They accordingly indorsed the candidacy of Governor

Cummins. The convention, which was the most unique in the history of the state, was called to order in the town hall by Clinton Merrick, a confirmed bachelor, who was made permanent chalrman. Mr. Merrick is not an eloquent, but forceful speaker, and without hesitancy denounced in his opening address Roosevelt's race sulcide theories, claiming that the country is injured more by too many births and not good support for the children. The cure for social conditions, he streets, was killed by the slipping of a urged, was fewer births and better education and rearing of the population. But there was a rupture because wily Dan Cupid stole into the convention hall and so closely shaved the hearts of men and women that the gentler side of all hearts was touched, and it was conceded that though there may be too many births, marriage is the necessity of the race for the safety of the country, and homes the only foundation on which to build a government which will stand. It is rumored that the convention resulted in converting several who will leave spinsterdom and bachelordom to unite

RUSSIAN WORKMEN URGED TO DEFER CALL FOR STRIKE.

EMBARGO ON PRESS DISPATCHES

Government Determined Not to Let Be Known What is Happening Throughout Russia-Condifions No Ripe for General Revolt.

St. Petersburg, July 26.-Though 1 is difficult to obtain a true picture of the conditions in the interior, owing to the embargo that has been put upon press dispatches, all indications ment of the threatened general strike until the government shall be less and the country more prepared for such an event, until the harvest is finished and the revolutionary movement do velops spontaneously among the idle peasantry.

What news has been received from the provinces indicates that conditions are scarcely ripe, except in the famine districts, for an upheaval. The strat egists of the revolutionary council are laboring with the hotheads to induce them to defer the call for a general strike until it can come as a supple ment to the movement already under way. A definite decision will be reached within a day or two in the reorganized council of workmen.

The remnant of the constitutional democratic deputies, many of whom after having collected the arrears of salary and mileage due them, have started homeward, are caucusing in dustriously, but their importance has gone, neither the government nor the revolutionists paying much attention to the former dominant party in the lower house of parliament. The gov ernment, indeed, has not abandoned its efforts to enlist moderates in the cabinet. Prof. Mou omtseff, the prestdent of the dissolved house, for whom Premier Stolpyin was vainly search ing with an invitation to go to Peter hof while the former was presiding over the outlaw parliament at Viborg was again approached, but there is no the slightest prospect that he can be swayed, even by imperial command to take office. The most urgent problem before the

government, in case an immediate outbreak is postponed, is the relief of the distress in the interior. The cabinet meeting was devoted to consideration of this subject, and it was voted to extend relief works in the famine districts. A commission was appointed to decide where the budget could best be cut to find the \$7,500,000 voted by parliament for famine relief. It will be necessary also to provide more cash for the settlement of claims for damages to estates during the composed of fifty constabulary, com STREET CAR WAR AT CLEVELAND peasant excesses, the commission for Yekaterinoslav province alone demanding \$150,000 in addition to the \$250,000 already expended, but this is capable of being deferred.

ISSUES OFFICIAL STATEMENT

Premier Stolypin Tells Why Parllament Was Dissolved.

St. Petersburg, July 26.-Premier Stolypin authorized the official St. Petersburg agency to issue the following statement to the foreign press: "From the very first days of its existence the lower house of parliament overstepped all the limits of law. In

its reply to the speech from the throne modification of the fundamental law was demanded in the shape of the suppression of the council of the empire and the creation of a responsible cabinet. By its agrarian program, based on the expropriation of land, the house raised hopes that could not be realized and weakened the respect for property of others, already enfeebled. In the speeches of its members the house consistently discredited the government, which it even accused of organizing pogroms and disorders. By sending a deputation to Bialystok it openly aspired to executive power. Fourteen deputies appealed to the people, inciting disorders, a step which called forth no expression of disapprobation from the house. In the last month of its existence the house declared that the government had acted illegally in explaining to the population the nature of the agrarian project proposed by itself and decided to address a manifesto to the people persuading them not to believe in the government regarding the question, but to await its settlement by parliament. Several members also undertook journeys to the interior of Russia with the object of supporting agitation, their appearance being followed by renewed disorders, pogroms and strikes. All these causes necessitated the decision to dissolve the house.
