

FREIGHT CAR COLLAPSED

ACCIDENT ON TRAIN RESULTS MIGHTY FORTUNATELY.

TRUSS BARS RIDE THE RAILS

Smoke From the Friction Made it Look Like a Hot Box, and True Condition Was Only Discovered After Car Had Jolted Down Hill.

Verdigre, Neb., Aug. 4.—Special to The News: Yesterday as freight No. 438 was pulling into Verdigre a car loaded with coal collapsed and the contents of the car were scattered all over the track. The trainmen saw smoke rising from the car as the train ran down hill but thought that it was a hot box and paid no attention to it, expecting to repair it when they got into town.

Instead of a hotbox, however, it was the truss rods of the car which were sliding on the rails. If the car had left the track when running down hill, it would have been a miracle indeed if some one had not been killed.

Take it all in all, it was one of the luckiest accidents that has happened on the Northwestern line in this section for many a day.

Omaha Bee: In the Third district, Congressman McCarthy is encountering opposition in the form of the candidacy of Judge J. F. Boyd of Neligh and former State Senator W. W. Young of Stanton. Young for the congressional nomination in this, the third congressional district of Nebraska, and he is hereby authorized and empowered to name the delegates to the congressional convention to be held at Fremont, August 16, 1906. That during the twenty-four years that he has resided in Stanton county he at all times has been a consistent and ardent supporter of republican policies and principles and is now a consistent and active supporter of the progressive republican principles as exemplified in the administration of our illustrious president, Theodore Roosevelt. RENT PAYS FOR LAND.

Fertile Sections of the Southwest, Where Land Sells for \$15 and Rents for \$5 Per Acre.

One of the remarkable things about eastern Arkansas and northern Louisiana is the fact that cleared land rents for \$5 per acre cash, and can be bought for \$7.50 to \$15 per acre. It costs from \$6 to \$10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth \$45 to \$60. This accounts for its high rental value. Other crops, such as corn, small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton to a cutting, and brings \$10 to \$16 per ton.

In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit farming. Land is very cheap, \$5 to \$10 per acre; improved farms \$10 to \$25 per acre.

The new White river country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$3 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

The Missouri Pacific-Iron Mountain System lines sell reduced rate round trip tickets on first and third Tuesdays of each month to points in the west and southwest, good returning 21 days, with stop-overs.
