## FASHIONABLE PIERCE WEDDING

### Miss Faye Hutton Becomes Bride of Edward Jenal.

Pierce, Neb., Nov. 15.—Special to The News: Society was out yesterday in its finest garb in attendance at the wedding of Miss Faye Hutton to Mr. Edward Jenal. The wedding was a most fashionable one, with natural leaves as part of the decorations brought direct from New York state. The ceremony was beneath a bower of hanging vines interspersed with electric lights. Rev. Thomas Walsh of Norfolk performed the ceremony and Miss Katherine Jenal of Hartington presided at the piano. The entrance of the bridal couple was elegant for its simplicity, there being no attendants except the father of the bride with Dorothy Willman preceding, strewing the flowers which made a literal path. The bride is one of the handsomest and most highly accomplished young ladies of this place, being a musician of rare natural attainments aided by excellent opportunities of the Liebling school. The groom is a popular young man who holds the position of assistant cashier in the Pierce County bank. The usual wedding dinner followed the ceremony. The newly wedded couple left for the Northwestern for a two weeks honeymoon after which they will be at home in this city. There were among those from out of town J. P. Jenal, wife and daughter, parents and sister of the groom; Mrs. Frank Nelson and son, George, and Miss Anna Amundson of Hartington; and Mrs. F. W. Jenal of Bloomfield and Mrs. J. W. Spirk of Neligh.

Among the presents, which were both costly and numerous, was a fifty-dollar draft from Mr. J. W. Talbot of San Francisco.

#### GIVES UP \$1,250,000 A YEAR

### Compelled to Relinquish Headship of Family and Resign From German Nobility, This Nobleman Gives Up Everything for the Peasant Girl.

Berlin, Nov. 15.—Another flutter has been caused by a royal romance in high society, which scarcely has recovered from the revelations of the love affair of Prince Joachim and Marie Sulzer.

This time it is Prince Eberwyn of Bentheim and Steinfurt, who is the cause of the excitement. He became infatuated with Fanny Koch, daughter of a tradesman, who is mayor of a small provincial town, and declared his intention of marrying her.

His father, Prince Alexis, and other members of his family did their utmost to dissuade him, pointing out that the laws of their princely house would compel him to renounce all honors to which he was born. Prince Eberwyn was obdurate.

Thereupon a family council summoned the prince into its presence and he took a solemn oath never to dispute the right of his younger brother, Prince Victor, to succeed him as hereditary prince and head of the family on his father's death.

Simultaneously, Prince Eberwyn was compelled to resign as lieutenant in the Prussian bodyguard.

His sacrifice involves the succession to many thousands of acres of land and an income that is estimated to amount to \$1,250,000 annually. The wedding will take place next week.

## REIGN OF TERROR IN PITTSBURG

### Murders, Assaults and Holdups Hourly Occurrences in Smoky City.

Pittsburg, Nov. 15.—The reign of lawlessness in this vicinity continues and the hundreds of police, city detectives, county detectives and private agencies are apparently unable to stop the depredations, which are almost hourly reported to them. Within the past twelve hours the list shows a greater number than any like period since the "epidemic" began.

James Bowler, a young mechanic, who was beaten and robbed by thugs, died from a fractured skull. This makes the third death as a result of robbery and burglary within two weeks.

Among the crimes reported was the serious stabbing of Chief of Police Peter McDonough of North Braddock by a negro whom McDonough attempted to arrest as a suspicious character. The negro was captured later and placed in jail. Hardware and gun stores all over the city report a heavy sale of revolvers.

## ROAD MUST HIT NORFOLK

### PROPOSED YANKTON-GULF LINE HAS GOOD BACKING.

#### SENATOR GAMBLE DISCUSSES

### Interest Has Been Awakened at Yankton in the Old Projected Yankton & Norfolk Route and Details are Awaited—Bridge Has Been Chartered.

Yankton, S. D., Nov. 15.—Special to The News: United States Senator Gamble, one of the incorporators of the Yankton and Southern railroad, as announced in The News Tuesday, said today the project contemplated the construction of a railroad from here to the Gulf of Mexico, and that as there were good men behind it he believed the enterprise would be successful.

"I do not care to discuss details," said the senator; "in fact, I have not given them a great deal of attention. Most of the incorporators, as you see, are Cincinnati men, W. J. Fante, Isaac Piles and myself being the Yankton representatives. The ultimate purpose of the Yankton and Southern is to run a road from here to the gulf. There is unquestionably a great future for such a road."

"Is there any other railroad company interested in the project?" he was asked.

### Have a Bridge Charter.

"I cannot go into that matter at this time."

"Have you the privilege of crossing the Missouri river at Yankton, and is that your purpose?"

"Yes. We have a charter for such a bridge."

"One of those you secured in congress?"

"Yes."

"Which one?"

"Probably the one running to the Winnipeg and Gulf Railroad company."

The senator said he could not say when definite work would begin. Many of the details would be worked out this winter.

Some years ago a company believed to be the Great Northern secured a charter for a bridge at Yankton and went so far as to construct piers for the structure.

### Old Norfolk and Yankton.

Many Yankton people believe that the road will be built and that the grade which was built for the old Norfolk & Yankton, some years ago, will be used. This would make the straightest and shortest course to the south from here.

Senator Gamble would not say whether or not the old Norfolk & Yankton grade will be utilized, but he would not deny that it might.

## FARMERS IN LABOR FEDERATION

### Delegates From American Society of Equity Seated in Convention.

Minneapolis, Nov. 15.—A warm welcome to the representatives of the newly formed Farmers' union, known as the American Society of Equity, an invitation from San Juan, P. R., to meet there next year, a resolution by the Porto Rican delegate, Santiago Iglesias, calling for aid in securing more political freedom for his country, and strong denunciation of all branches of the American judiciary, constituted the most important events of the American Federation of Labor convention.

There were nine representatives of the American Society of Equity present. W. West Tubbs, national secretary of the society, spoke, briefly outlining the policy of the Farmer's union and expressing great hopes that it might become affiliated with the American Federation of Labor. N. C. Crowley, state organizer of the American Society of Equity for Wisconsin, aroused great enthusiasm by his plea for the support of organized labor in the fight of the organized farmers against the "middle men," the commission man and the board of trade speculator.

"We may control the wheat market, as we are doing," said Mr. Crowley. "Today the mills of Minneapolis are on the point of shutting down because we are holding back our wheat. But the man between will fix that for you, just the same as he always does. The only way in which the producer and consumer can get the justice they deserve is to do their own business. The commission man and the board of trade speculator are robbing both of us."

## FLOODS IN WASHINGTON

### STREAMS IN NORTHWEST OUT OF THEIR BANKS.

#### SCORES OF TOWNS ISOLATED

### At Least Half a Dozen Lives Lost and Damage Will Run into Hundreds of Thousands—Bridges Swept Away and Railroad Tracks Washed Out.

Tacoma, Wash., Nov. 15.—With a flood area embracing approximately 300 square miles, northwestern Washington is now face to face with a state of affairs which, unless the waters subside soon, will prove far more disastrous than the floods of four years ago. Fed by a constant succession of heavy rains and by melted snow from the slopes of the Cascades, nearly all the streams in the northwest have within a night and a day risen with the rapidity characteristic of the waters of this section of the country, overflowing their banks and are spreading across the valleys and lowlands, bringing a monetary loss which will reach hundreds of thousands of dollars. Scores of towns, including Seattle, have been for the last twenty-four hours cut off from all outside communication, bridges have been swept aside, railroad tracks washed out, wires knocked down and at least half a dozen lives have been lost.

Watchers from the highlands, looking across the rain swept lands, saw nothing but an expanse of water with here and there the tops of submerged houses, in some of which the forms of water-bound persons could be seen signaling for help. Some attempted rescues were made, but the mad rush of swollen waters, carrying trees, lumber and even houses, forced the rescuers back again and again.

## MONEY PLAN NEAR COMPLETION

### Secrecy Is Maintained Until Final Draft Is Agreed Upon.

Washington, Nov. 15.—Currency expansion legislation in some form will be recommended for the action of congress at its coming session as the result of the sessions of the currency committees of the American Banking association and the New York Chamber of Commerce, which have been held here for the past three days. What that legislation will be, none of the members are willing to say at this time, as all of them have been pledged to absolute secrecy until the final draft of the plan proposed is passed on by them.

It is understood that the committees agreed substantially on the following propositions: The establishment of a 5 per cent guarantee fund for the redemption of the notes of the failed banks and for other purposes; the amount of general credit notes to be kept on reserve to be the same percentage as that of deposits, and a limitation of all issues of currency by any bank.

### BATTLESHIP LOUISIANA REACHES COLON AHEAD OF TIME.

#### WILL "DO" CANAL THOROUGHLY

### Fleet of Warships Anchors Mile Off Port During a Heavy Downpour of Rain—Roosevelt Welcomed by President Amador and Chairman Shonta.

Colon, Nov. 15.—The first trip of an American president outside of the boundaries of the United States was successfully concluded when the battleship Louisiana, having on board President Roosevelt and his party, dropped anchor in the harbor of Colon. The Louisiana, which arrived ahead of schedule time, was conveyed by the Tennessee and the Washington. The three vessels anchored about a mile from the dock during a heavy rainfall.

Owing to the fact that the Louisiana arrived ahead of time, neither President Amador of Panama nor Chairman Shonta of the canal commission were on hand to welcome President Roosevelt. When they arrived later on a special train from Panama they boarded the Louisiana and extended a cordial greeting to America's chief executive.

President Roosevelt received the local newspaper correspondents on board the Louisiana. He said that his voyage had been pleasant and uneventful and expressed himself as gratified at the welcome which the citizens of the isthmus are preparing for him when he lands today. He stated that he proposed to look into the Jamaican labor question and also intended to see everything possible concerning the canal.

Extensive precautions have been taken to protect President Roosevelt during his three days' visit on the isthmus and it is reported that a number of known anarchists have been arrested here or at Panama.

All steamers arriving at the isthmus are inspected and suspicious characters have been imprisoned and will be held in custody until President Roosevelt departs.

## COUNTESS GIVEN DIVORCE

### Boni de Castellane Loses All but One Contention Before the Court.

Paris, Nov. 15.—The tribunal of first instance of the Seine, Judge Dille presiding, at noon granted a divorce to the Countess de Castellane, formerly Anna Gould of New York, and gave her the custody of her children, who, however, will not be allowed to be taken from France without the consent of their father, Count Boni de Castellane.

The end of the famous case came suddenly. The court brushed aside the demand of the count's lawyers for an examination of witnesses, and anticipated the public prosecutor did not even ask to be heard.

As soon as the court assembled Judge Dille handed down the decision which is a sweeping victory for the countess. In granting her petition for divorce the court gave the countess the custody of her children, the count being allowed only the usual rights to see them and share in the control of their education.

The count's demand for an "alimentary allowance of \$50,000 annually" was pronounced by the court to be without foundation in law and was rejected.

### Fortieth Annual Convention of Grange, Claiming a Million Members, Will Demand Federal Aid in Building of Better Roads for Farmers.

Denver, Col., Nov. 15.—The fortieth annual convention of the National Grange, Patrons of Husbandry, met here today and will continue for ten days. E. B. Morris, chairman of the executive committee, speaking of the society and the matters to be considered at this convention, said:

"The agitation for a parcels post will be one of the important matters taken up by the convention and the obtaining of federal aid for good roads will be another. The good results which have attended our efforts so far are due to the fact that our organization is entirely non-partisan, as far as politics is concerned, and our aim is to obtain the reforms needed in this country to give the farmer all that is coming to him. We have nearly a million members in the grange now and there will be between 1,000 and 1,500 here to attend this convention. Only 100 of these are delegates who will have votes, but there will be other delegates who will have a voice in all discussions."

Denver, Nov. 15.—Every state in the union was represented at the annual convention of the National Grange, which was called to order in the chamber of commerce here by President M. H. Bachelder of New Hampshire. The first session was occupied with the appointment of committees and other routine work. The sessions will continue ten days. An attendance of 1,500 delegates is expected.

National Master Bachelder delivered his annual address. He recommended that the Grange, in addition to reaffirming its position in support of national highways, conduct a special campaign to secure the prompt passage of a satisfactory bill; further, that a new Grange bill be prepared and submitted to congress, appropriating \$50,000,000, to be devoted into five annual appropriations of \$10,000,000 each, to be expended in co-operation with the states for the improvement of main highways, and Mr. Bachelder continued:

"In order to insure the early establishment of a parcels post I believe it will be necessary to include other measures of postal reform in our demands, and I recommend as measures that should be advocated by the Grange in connection with the parcels post: First, correct the abuses of the franking privilege; second, withdraw free postage from all departments of the government and provide in lieu thereof that the postal service of each department be met by specified appropriations, to be included in the general congressional appropriation; third, provide for readjustment of referring mail contracts."

Referring to the propaganda carried in favor of a ship subsidy measure, Mr. Bachelder said: "This will make it necessary for members of the Grange to again co-operate on behalf of the taxpayers of the country against this attempt to devote public funds to private ends, and it is only necessary that we should make it plain to the representatives in congress from our respective districts that we are unalterably opposed to this subsidy scheme in order to insure its permanent defeat."

## FOUR DIE IN THE FLAMES.

### Woman and Three Children Perish in Fire in Michigan Farm House.

Coldwater, Mich., Nov. 15.—Mrs. Charles Mowry and her three children, Homer, aged six years; Louise, aged three years, and a baby of six months, were burned to death in their home on a farm at Batavia station, near here.

He rushed back, but the flames had made such headway that he could not enter the house, and his calls through the windows to his family brought no response. It is thought that the mother and three children were suffocated to death while asleep.
