

NEW GAME BIRD FOR WEST

HUNGARIAN PARTRIDGES BEING IMPORTED TO NEBRASKA.

NORFOLK OUGHT TO GET A FEW

So Says Otto Pfeifer of Gordon—Mr. Pfeifer Says the "Rebb Huchnen" is the Coming Game Bird of This Continent—To be Had Cheap.

Norfolk hunters and farmers, as well as those of other parts of north Nebraska, should club together to stock this region with what Otto Pfeifer of Gordon claims are the coming game bird of America.

Chief Game Warden George L. Carter has ordered 100 pairs of Hungarian partridges—the German name is "Rebb Huchnen"—and will parcel them out over the state wherever money can be raised to pay for them. These birds are quite similar to the ordinary "Bob White" quail only they are about twice the size of the quail. The birds will cost Mr. Carter \$4.50 per pair and he will do the work of shipping them out for nothing. The people of Gordon have raised \$150 for securing part of these birds and at Merriam residents have raised \$100 more. The state will keep four pairs on the state fisheries at South Bend where they will be thoroughly protected.

These birds are non-migratory and when "planted" in a community will make their home in that community for all time. They are very hardy and prolific. Letters from the wardens of Illinois and Kansas indicate that these partridges have been "planted" to great advantage. The state of Illinois liberated 1,060 last year and they have increased wonderfully. Another installment of 500 was secured this year. Kansas tried 200 last year and ordered 1,000 more this year.

Otto Pfeifer of Gordon has raised the \$150 for the birds at Gordon and he it was that asked Mr. Carter to secure the hundred pairs of the birds, assuring him that they would all be placed in Nebraska.

Mr. Carter will receive the birds in December. He has more than half of them placed already and wants the names of people in other communities where the birds would be furnished a home.

Mr. Pfeifer, in writing to The News from Gordon, says:

"We raised about \$150 by subscription among hunters and farmers. They gave from fifty cents to \$5 each, most of them \$1. Norfolk ought to do better than that. I believe these are the coming game bird of America, Germans around Norfolk will know what they are."

Oats will be a somewhat disappointing crop this season, according to the opinion of a prominent Norfolk commercial traveler who has been looking over the situation. He says that while oats look good in the field, they are not threshing out as well as would be expected, and that twenty-five bushels to the acre will be the average. Corn, however, is doing splendidly and wheat will be fairly good. On the whole it is estimated that the crops will be slightly under those of last year.

Halleck F. Rose of Lincoln, attorney for Miss Katherine Hudson of Humbolt has come out in an interview denying the hallucination stories that have been circulated about his client. He declares she has been grossly mistreated by the newspapers. Miss Hudson filed the complaint against Prof. J. W. Searson of Peru, alleging attempted assault. Dr. Shollhorn of Peru, a member of the state board of education for normal schools, stated that the county attorney for Nemaha county intends to prosecute the criminal charge against the educator. Miss Hudson was elected as teacher in the Norfolk schools earlier in the summer but did not accept the place.

The newspapers of Wyoming are now engaged in a bitter controversy over the resolutions passed at the meeting of the Wyoming Press association in Lander. These condemn the public lands and forest reserves policies of President Roosevelt, and were adopted by a vote of 11 to 2. The controversy is whether the press association represents the sentiment of the newspapers of the state and whether the press association acted with proper lines when it passed such resolutions. Party lines seem to have been abandoned, and Republican papers, of which there are a great majority in the state, are lined up on both sides. Democratic papers are solidly supporting the action of the association.

Madison county superintendents held a special meeting in Norfolk yesterday afternoon. The new high school free tuition law engaged the greater part of their time, the superintendents getting together for a better understanding of the law and the details of its application to this county. Norfolk and Madison have the only four year high

schools in the county. Superintendents E. J. Bodwell of Norfolk, J. A. Doremus of Madison, J. Q. Zuck of Battle Creek, S. A. Childster of Newman Grove and F. H. Price of Meadow Grove attended the meeting.

Down the Elkhorn they will paddle to the Platte, down the Platte to the Missouri, up the Missouri to Mosquito creek and up Mosquito creek to Manawa and the club house. About two weeks will be taken on the trip, although so much time will not be needed. "We expect to have a gay old time," said Dooley yesterday.

Solomon's work in music is mentioned as the special feature of the institute.

Norfolk people who are up at 4 a. m. may see the big comet which is just now exciting star gazers. All over the land people are pushing forward their rising hours to take a peep at the new comet recently called a "terrestrial hobo" by a Chicago newspaper astronomer. High up in the heavens on these clear August nights it can be seen with the naked eye whirling through the stars at the rate of thirty miles each second. This terrestrial hobo is called "Daniel's comet." Just at the present time it is wandering somewhere between the eastern horizon and Hyades. Hack drivers, policemen and other early morning denizens of the street see it as a hazy patch of light growing brighter night after night. On September 3 it will be 47,000,000 miles from the sun, and will then be brightest to the earth. Through a giant telescope at Yerke observatory Professor E. E. Barnard has made a collection of remarkable photographs of the heavenly wanderer. These pictures are said to be the best ever made of a comet. The comet has a long tail of flying "specks" of burning lava, each speck of course, as big as a Kansas barn.

Great possibilities in the cattle shipping industry at Rapid City have been opened up through the leasing by Nelson Morris, the well known Chicago packer, of over 750,000 acres of grazing land northeast of there on the Standing Rock Indian reservation. For nearly ten years this land has been controlled on a lease by the L7 cattle outfit, whose bid for renewal was a fraction of a cent per acre less than that of Morris. Five years ago the L7 people fenced the land, and for years have had several large droves of cattle on this range, but with the coming of Morris, this number is to be largely increased. Morris owns much land in Texas, and has always grazed his cattle there. Since securing this lease in South Dakota he has moved 5,000 head of his cattle and intends to bring in many other herds as soon as possible. This is the first instance where Morris has ever fed any of his big cattle holdings in the north, and the result will be of considerable interest to cattlemen. This tract that Morris has secured is one of the finest in the northwest. It is well watered and close to the Everts trail, and is not accessible to outsiders for grazing purposes, owing to its fencing. The lease is to run for five years, and in case it is not renewed, the fencing, which is over 200 miles in length, will revert to the Indians. Mr. Morris has put C. H. Hardey of Hulett, Wyo., one of the prominent stockmen of the northwest, in charge of his land. Mr. Hardey has been brand inspector for both the Northwestern Stock Growers' association and the Western South Dakota association.

SOCIAL EVENTS OF WEEK

THINGS WERE QUIET ALL WEEK IN NORFOLK TOWN.

DANCE "FANS" MAKE PLANS

There Will Probably be an Unusual Number of Dancing Parties in Norfolk During the Coming Season, According to Present Plans.

It was a quiet week in Norfolk, socially speaking, people generally apparently being willing to spend their spare time in trying to keep cool rather than stirring about with party ambition. Dance fans, however, are beginning to discuss plans for the coming winter and it is already evident that there will be more than the ordinary number of waltzes waltzed in Norfolk. The Elks social committee is beginning to discuss a series of five dancing parties which will probably be given.

SPAT ON WALK; JAILED

R. W. BUTLER ARRESTED FOR VIOLATING ORDINANCE.

THEN RELEASED BY THE CHIEF

In Chief Flynn's Opinion Butler Was a Gentleman, So the Chief Disregarded Legal Forms and Handled the Dismissal, Himself.

[From Saturday's Daily.] R. W. Butler, a telephone lineman in the employment of the Norfolk Long Distance Telephone company, was thrown into the city jail last evening for spitting on the sidewalk. A little later in the evening Butler was released on the orders of the chief of police because, as the chief said, Butler was a gentleman.

Butler with companions was sitting in front of the Citizens National bank, Officer Braasch passed, repressed and saw Butler expectorate on the sidewalk. Then he gathered his man in and went over to the city jail. The arrest was made about curfew time.

The telephone man's friends got busy and Chief Flynn was called in. The chief found that Butler had not resisted arrest and that he had acted "gentlemanly." Then the jail doors were thrown open.

Butler was not brought into police court and no record was made of the arrest. Chief Flynn says that the "ban" is now "on" against sidewalk spitting and that some days ago he instructed the night officer to watch the corner of Fourth street and Norfolk avenue.

Young Man Hurt.

The only accident that marred the sixth annual carnival, race meet and baseball tournament in this city was when Clinton Taylor, the second son of E. C. Taylor, was accidentally thrown from his horse yesterday morning while coming to Neligh to take in the races. The many hundreds of people that were in the city at that time did not know that this young man was at death's door and unconscious for over five hours at the office of Dr. Conwell.

His father and mother were immediately notified by telephone and responded as soon as possible.

All the care possible was given him during the afternoon, and toward evening he was removed from the doctor's office to the residence of A. H. Phillips, where rest and quiet was assured.

Dr. Conwell reports nothing but a severe shock and anticipates the recovery of the young man in a short time.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him and believe that saved his life—William H. Strouling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain.
