Mad Dog Scare at Elgin.

Elgin Review: Saturday morning a well developed mad-dog scare struck town. Two dogs were acting strange: one belonging to Will Roberts and the other to Hina Campbell. The dogs acted as though they had been poisoned, and as there had been some "mad-dog" talk around town, the owners decided as a matter of safety to have them killed. Marshal C. C. Roberts, by the order of the Village trustees, had some bills printed notifying all dog owners to muzzle or chain up their dogs, under the penalty of having them shot. Sunday while Mrs. J. A. Thompson was away from home, her three dogs were poisoned. These dogs were chained on the back porch, and had no chance to get the poison except by some one taking it to them. This strengthened the belief that the Campbell and Roberts dogs were also poisoned. Mrs Thompson immediately put out hand bills offering a reward of \$25 for information leading to the arrest of the parties who did the poisoning. Later, coln they had picked on I. M. Automobile Accident.

Madison Star-Mail: On Monday forenoon, while enroute to Madison with a team of old and very quiet horses, Mrs. Gross, who resides nine miles northwest of Madison, met with a painful accident by being thrown from her buggy onto the hard ground, striking on her left cheek bone and

child were picked up by Wm. Bartman and taken to the office of Dr. Long, who dressed their wounds. The cause of the accident as near as we can learn came from the fact that the eam was between two automobiles, one driven by Alex Nelson of New man Grove going west, and one by Otto Olson of the same place going east. A short time previous H. C Haskins of this place passed the team which was somewhat frightened but finally passed the machine after Mr. Haskins had stopped. The Star-Mail Leavitt, daughter of Wm. J. Bryan, does not feel that it wants to censure the drivers of the Newman Grove autos at this time until a complete hearing of the facts can be had. But it may not be out of place in speak when meeting horses on the road and a woman and children. The case serve as a warning to others. Mrs. Gross was severely hurt and the vebicle is a total wreck.

Paul Chapman, six years for burg. V. E. OLINE DROWNED IN LAKE AT SPOKANE.

From Sad Journey.

S. W. Lightner of Lynch passed through Norfolk yesterday enroute home from Spokane, where he had been to bring back to Nebraska the remains of his brother-in-law, V. E Oline, well known in northern Ne braska, who drowned August 31 in Liberty Lake, near Spokane, Mr. Oline was a brother of Mrs. Lightner of Lynch and of Mrs. H. McClenaghan of Madison.

The young man had planned to go fishing with a number of friends, who were unable to go at the appointed time. Oline then went out on the lake in a boat alone and high winds are supposed to have capsized the boat. Not until September 7 was the body found, when it came to the water's surface. The remains were brought back to Monroe, Neb., the family home, and there the funeral

Oline was thirty-three years of age He was unmarried and had been in Co., limited. Letters in his room in dicated that he had been highly suc

cessful in his work for that concern. Mr. Lightner could not say enough in praise of ten young men in Spokane who had roomed in the same house with his brother-in-law, and who did everything possible to lighten the troublous trip of the Nebraskan. DRY WEATHER IS UNIVERSAL.

Vermont Mills Have Practically Stopped

Northern Nebraska and southerm South Dakota have more to be thankful than many people realize. Reports received from al parts of the country indicate that extremely dry weather has had serious effect im many places, while the crops of this region are smiling serenely and unhurt through it all.

A letter from Vermont, received by a Norfolk man says that the factories lowed at 26.80 and mills of that state, run by water power, have been compelled to altmost shut down, on account of dry weather. The streams contain scarcely any water. In some places one factory will run two hours, then another, and so on, in order to give each mill a chance at the water power.

A man who has just arrived in Norfolk from Illinois declares that the corn crop of northern Nebraska is much fuller than in either Illinois or The dust is said to be much thicker

in Illinois, also, than here, and the pasture grass there is dead. SOUTH DAKOTA THRESHING.

Work is Being Pushed in All Parts of the State.

Sioux Falls, S. D., Sept. 21.-Special to The News: The work of threshing: the small grain crop raised in thestate this season is being pushed in rowed from the 1908 General fund and all parts of the state. The weathertransferred to Drainage Ditch No. 1 has been very favorable for threshing: operations, there having been but few structed to draw warrant against said rainy days thus far this fall. It is: ditch fund for claim of Wm. E. Clea- estimated that fully sixty per cent of the small grain crop of the state hasbeen threshed. Owing to wet weather during the fall last year's crop was not: threshed until well into the winter. If the weather averages as favorables during the next few weks as during: the fall thus far, the work of threshing will be completed in the state in 21.60 general before the month of October is very far advanced.
