

**The Election in Nebraska.**

Lincoln, April 7.—The question of saloon license was the dominating issue in the municipal elections held in Nebraska towns and villages, and returns, while showing a few surprising changes, do not indicate a landslide to either side. The gains especially in the smaller towns, are on the side of the "drys." One of the important victories of the no-license forces was at Kearney, which city voted out the saloons by a majority of 58, where a substantial license victory was expected. As an offset to this, Alliance, which for a year has been without saloons, decided in favor of their re-establishment by nearly 100 votes after the most strenuous campaign in history of the town. Beatrice, which a year ago voted no license by a slender majority, yesterday increased its "dry" vote by over a 100. Hastings, which for a year has been the scene of strife between the opposing elements because of contention over whether the town a year ago declared for or against saloons, rendered a victory in favor of the "wet" side by a majority not large, but sufficient to be decisive. Minden, however, a license town practically ever since its foundation, declared against saloons by a heavy vote. Party lines were drawn in very few of the contests, mixed tickets being the rule.

**The "Wet" Towns.**

While it was generally considered that the town would go dry, no one expected such an overwhelming vote. It was a clear issue, as the four men were good, clean men, so that nothing personal entered into the fight.

**Clearwater Wet by One Vote.**

Clearwater, Neb., April 7.—Special to The News: In yesterday's election Clearwater went wet by one vote in the most closely contested election ever held here. In spite of the snow storm a full vote was out as the question of saloon or no saloon had been submitted by the town board for settlement one way or another by the majority of the voters.

Two new board members were to be elected, and in this contest S. W. Kimes was elected and the vote resulted in a tie between Ralph Chace and O. D. Lewis for second place. One ballot, which might have settled the election either way had to be thrown out by the judges as the candidates names were scratched instead of having a cross placed opposite and it was done in such a manner that it was impossible to tell which way the voter intended to vote. It has not been learned how the tie for second place on the board will be settled.

**Staple Mayor at Neligh.**

Neligh, Neb., April 7.—Special to The News: This city may be "wet" for at least one more year. Such was the verdict given by the voters of Neligh in yesterday's election. It was a remarkably close race between W. L. Staple and J. C. Jenkins for mayor, the former retaining his office by a majority of 12 votes. Last year the present mayor defeated William Campbell by 51. Those elected were: Mayor, W. L. Staple; city clerk, T. S. Pexton; treasurer, J. J. Melick; police judge, Joe McCall; engineer, N. B. Sweltzer. Councilmen, First ward, E. E. Beckwith; Second ward, W. L. McAllister.

The city clerk, treasurer and the two councilmen-elect are men who favor a change of the present system of city affairs.

Despite the condition of the weather, a total of 338 votes were polled. Each of the reform candidates received a majority ranging from seven to thirty-one votes.

Some declare Neligh will be dry after May 1 as the council is tied and it is a question whether the mayor can vote on the question.

**How the News Was Received.**

A few minutes after Governor Shallenberger had signed the daylight saloon bill his action was clicked into Norfolk over the leased wire of The News and a few minutes later was being read over the city. In different quarters the news was received differently.

"Omaha and South Omaha will, of course, be the hardest hit," said C. H. Groesbeck, general manager for the Gund Brewing company in this territory, "but such cities as Grand Island, Fremont and Norfolk must also suffer. I believe that some of our saloons will have to close. With this burden added to the saloon business the saloonkeeper can hardly make a living on an increased license. I cannot understand why it is when we have a saloon law, admitted to be one of the best laws Nebraska ever had, giving local self government, this new bill should have been rushed through, as I understand it, by fraud and with the intention of putting Shallenberger 'in a hole.' I think Shallenberger should, however, have stood up like a man for home rule and vetoed it. The daylight law gives the loafer all the time he wants to drink, but restricts the personal liberty of the business man, the laborer, the worker. It is a blow to the saloons, of course, but is also a blow to the school fund of the state."
