The meeting is called by the base ball committee of last year. The gathering of baseball supporters will take up the question of a Norfolk nine cial condition of the city: coming year will be effected.

Norfolk can put a good team in the field this season. Most of the members of last year's nine, who made a very creditable showing, are available. With a little money this city can be assured one of the best teams in north Nebraska.

Our Deposits \$1,560,000.

Norfolk bank deposits have reached the highest point in the history of the city. The total deposits in the three national banks of the city now amount to \$1,559,647.47. The government call for statements as to the condition of banks on April 28, 1909, has brought forth three remarkably substantial statements, each Norfolk bank in fact issuing the best statement in its history in point of the size of deposits and total footings. There is more money deposited in every bank in Norfolk than ever before in the history of the city.

Gain \$200,000 in Three Months. The total deposits of Norfolk banks show a gain of \$152,880.18 since the last statement, February 5, 1909. This represents, however, a gain of over \$200,000 in north Nebraska deposits, as the national government has withdrawn \$30,000 each from the Nebraska National and the Norfolk National since that statement. The government since it has been running short of founds has been calling in its cash. At present there is only \$10,000 of Uncle Sam's own money in each of the two
