### FORMER PRESIDENT'S DAUGHTER WANTS AIRSHIP RIDE.

### NICHOLAS GIVES HIS CONSENT

Alice Roosevelt-Longworth Will Go Up in a Balloon With A. Holand Forbes, President of the Aero Club of America.

Washington, July 29.—Mrs. Nicholas Longworth, daughter of former President Roosevelt, has become an enthusiast about aerostatics. Her attendance upon the trials of the Wrights' aeroplane is almost constant and now it is said she is determined to make a flight herself, not in the aeroplane, though it is said she even expressed her willingness for that, but in a balloon.

A Holand Forbes of New York, acting president of the Aero Club of America, who is now in the city, has promised Mrs. Longworth to take her up. Mr. Longworth is said to have accorded his permission, Mr. Forbes having made the promise contingent upon the husband's consent that she undergo the risk that the balloon traveling involves.

New York, July 29.—Harry C. Pulliam, president of the National League of Professional Baseball Clubs, died at 8:10 a. m. today, after shooting himself through the head in his room at the New York Athletic club last night.

Although a bullet from his revolver passed entirely through his head, severing both optic nerves and causing instant blindness, Mr. Pulliam lived from 9:30 last night until this morning.

He became unconscious soon after the shooting was discovered, and was unable to make any statement as to his reason for committing suicide, but it is generally attributed to ill health.

## WRIGHT FAILS TO FLY

### Strong Wind and Stoppage in Gasoline Pipe Prevents Test.

Washington, July 29.—A persistent wind and suddenly discovered stoppage in the gasoline feed pipe prevented Orville Wright from making last evening his cross-country two-man test of the aeroplane. After he had waited an hour in readiness for the start from Fort Myer the wind died down at last to little more than a whisper and then it was discovered that the fuel feed was obstructed. By that time it was dusk and the flight was declared off for the day, the army officials granting three days extension for the test. The time limit under the original contract expired yesterday. The failure of the test disappointed a large crowd including President Taft and a number of the most prominent government officials.

### ASTRONOMICAL EVENTS.

advance as soon as the pressure was off. The talk in the pit indicates that wheat is being bought for foreign shipment, and the bears could not force the market down against such strength. New York reported 200,000 bushels taken for export today, and bidding was good for expected arrivals. It was reported that the Armour Grain company bought 3,000,000 bushels of September wheat today and yesterday. Moscow reported that threshing in western Russia is showing a good yield.

Corn was strong on light receipts and a good demand from eastern markets for sample. Kansas reports light offerings and a falling off in receipts, and country offerings smaller than for a long time.

Oats were lower and quiet, with a falling off in demand for sample lots. The far-away option showed strength at times, but the general tone was slightly lower.

## JOHNSON WILL COVER IT

### Says He'll Leave Chicago for New York Monday Night.

Jackson, Mich., July 29.—"I'll leave Chicago Monday night for New York and cover that forfeit," said Jack Johnson, the colored champion pugilist of the world, when shown a dispatch to the effect that Jeffries had posted a forfeit in New York of \$5,000 to fight Johnson.

## NEW RELIGION TO REIGN.

### Dr. Elliot Predicts the Coming of a God of Reason.

Cambridge, Mass., July 29.—Charles W. Elliot, ex-president of Harvard, prophesied the advent of a new religion in an address before the Harvard summer school of theology.

"It will not be bound by dogma or creed," he said. "Its workings will be simple, but its field of action limitless. Its discipline will be the training in the development of co-operative good will. It will attack all forms of evil. There will be no supernatural element and it will place no reliance on anything except the laws of nature. Prevention will be the watchword and a skilled surgeon one of its members."

The coming religion, Doctor Elliot said, will be based on the two great commandments, the love of God and the service of fellow men.

"The new religion," he said, "will not be based upon authority, the future generation is to be led, not driven. In the new religion there will be no personification of natural objects, there will be no deification of remarkable human beings."

"The new religion will not teach that character can be changed quickly. It will not deal chiefly with sorrow and death, but with joy and life."

"God will be so imminent that no intermediary will be needed. Its priests will strive to improve social and industrial conditions. The new religion will not attempt to reconcile men to present ills by the promise of future compensations."

## TRIPP COUNTY VETERAN.

### Oklahoma Man Said to Be Oldest Rosebud Homesteader.

Sioux Falls, S. D., July 29.—So far as can be ascertained, John Whitman, late a resident of Oklahoma, is the oldest settler to take up his residence in the cedar portion of the Rosebud Indian reservation in Tripp county. He is 78 years of age, and a few days ago arrived in Tripp county and located upon a homestead. Himself and daughter-in-law and four small children made the journey from Oklahoma to South Dakota in an automobile. The old man chews tobacco constantly, states that he drinks beer when he so desires, and that he eats anything he desires. He is in remarkably good health for a man of his years, and predicts that he will live long past the century mark.

## INDIAN GIRLS ON AN OUTING.

### Rich Philadelphia Women Take Car-lisle Maidens to Georgia.

Atlanta, Ga., July 29.—Twenty-five Indian girls from the Carlisle school in Pennsylvania, yesterday reached Blue Ridge, a picturesque mountain town about two hours' ride from Atlanta, to spend a fortnight in horse-back riding, hill climbing and general outdoor recreation.

Accompanying them as their chaperons are the daughters of John Wanamaker the millionaire, and John B. Stetson, the manufacturer.

The girls are going into camp about two miles from the town, and for two weeks they will live in the manner of their forefathers. It is said that the chaperons will bring the girls, attired in their native costume, on a horse-back hike to Atlanta before they break camp.

## SPAIN HAS HOME WAR

### 3,000 SPANIARDS ARE KILLED OR WOUNDED IN BATTLE.

### MAY OVERTHROW KING ALFONZO

### SPANISH GARRISON THERE, IT IS FEARED, MAY REBEL.

### SITUATION GROWS MORE GRAVE

### Information Received in London Through Diplomatic Channels Shows the Worst Has Not Been Told—A Black Day in Spain's History.

Madrid, July 29.—In view of the grave situation at Barcelona, which is steadily growing more serious, the naval infantry has been ordered to that city.

Senor Lacierva, the minister of the interior, now termed the Spanish Trepoff, today announced that any newspaper printing reports disagreeing with official information would be prosecuted and the editions suppressed. The complete mobilization of the Spanish army has been ordered. All officers on leave have been recalled. The reserves of all classes have been summoned to the colors. The railroad lines in the north of Spain are strictly guarded and no one is allowed to enter Spain without permission of the military authorities. The garrisons at Burgos, Logrono, Victoria and other towns are under arms. The censor forbids telegraphic communication with Bilbao.

### Soldiers Are Revolting.

Cerbere, July 29.—Grave events are anticipated at Figueras. Comparative calm had been restored when orders were issued to recruits to report for duty. The entire populace is preparing to resist. The Port Bou express left Figueras this morning and stopped at Ilnza, where the track had been blown up by dynamite.

At Junquera, a small town east of Gerona, telegraph poles have been chopped down. All places where public funds have been deposited are guarded by the military. Business is at a complete standstill. The merchants are panic stricken and are placing their funds in foreign banks for safe keeping.

Many instances of soldiers refusing to fire on the mobs are reported. A lieutenant of infantry threatened to shoot a policeman who was about to fire his revolver into the crowds.

Reports from the interior say that the situation is constantly growing more alarming. A mob, including many soldiers, is reported to have made a manifestation before the royal palace at Madrid, crying "Down with the war."

Paris, July 29.—Special dispatches received here today say that the fighting yesterday in Barcelona was more sanguinary than previous dispatches indicated.

Machine guns and grape were used against the rioters.

The sidewalks and buildings were spattered with the blood of the victims.

Everywhere women and children are wandering in search of their husbands and fathers. Incendiarism is rampant.

3,000 Killed and Wounded. Madrid, July 29.—Official dispatches received here today say that the battle between Moorish tribesmen and the Spanish forces outside of Melilla July 27 was a disastrous defeat. The Moors cut off the communications with the Spanish outposts and the main force of the Spaniards was driven back under the walls of the city, where fighting continued desperately till the night.

The Spanish killed and wounded numbered almost 3,000, which takes no account of the men at the advance posts, who, evidently, were cut off and abandoned to their fate. Melilla is full of wounded men.

At 9 o'clock in the morning word was received that the Moors had destroyed several hundred yards of railroads connected with the mines which imperiled the extreme Spanish posts. As it was imperative to restore communication a convoy, escorted by two strong columns, was sent out in command of General Pintos. It occupied the outlying spurs of the giant mountain, Gurgu, during the entire day. While the convoy was communicating with and repositioning the station, the Spanish sustained a terrific fusillade from thousands of Moors, who first fired from the fastness of the mountains and then boldly charged in the face of a murderous fire in an assault on the Spanish artillery. The Spanish estimate the Moorish losses as enormous.

Reinforcement was sent to the convoy and its escort and these succeeded

ed in repulsing the Moors and driving them back to the hills.

### A Black Day in Spain's History.

The situation in Catalonia has reached a serious stage. There is much bloodshed and artillery has been employed in the streets of Barcelona to quell the outbreaks. The city is terror stricken. The revolutionists are reported to be fighting desperately behind barricades. The troops include mounted artillery, and the defenses of the rebels have been raked with shot. King Alfonso hastened back to Madrid from San Sebastian and at once issued a decree proclaiming martial law and the suspension of constitutional guarantee throughout Spain. Orders have been given to governors of provinces to crush the revolution at any cost without hesitation and without pity. Today marks a black chapter in Spain's history, for there has been tragedy both at home and abroad.

### Bloody Battle With Moors.

The king reached here in time to learn that part of his army at Melilla had had a bloody battle with the Moors, which, though final victory was won by the Spaniards, cost the lives of twenty-one officers and a total of 200 Spaniards killed or wounded. An exact estimate of the dead and wounded in the clashes between the troops and rebels in Catalonia is impossible, owing to the rigid censorship which prevents the sending of private dispatches, and the government has not fixed a total.

The government admits, however, that rioters have been killed and wounded in several cities and towns, including Barcelona, Alcoy and Cahorra.

### Fiercely Attack Troops.

The troops are acting on the defensive, but are being fiercely attacked by the revolutionists. The correspondent is informed that the whole Third and Fifth army corps will be sent to Barcelona, together with two brigades of cavalry under command of Prince Charles of Bourbon. Prince Ferdinand of Bavaria will also accompany the force with rank of squadron commander.

Special dispatches from Madrid describe the situation as extremely grave. King Alfonso was wildly hooted in the streets on his arrival, and the government is doing its utmost to minimize the effect of the crushing reverse suffered by the Spanish troops at Melilla.

It will be obliged to send large reinforcements to that place.

### Shooting Insubordinate Soldiers.

Breaches of discipline are common at Melilla and Madrid barracks, and the dispatches claim several soldiers have been shot daily for insubordination. It is also asserted that a whole battalion recently refused to fight at Melilla and fled, leaving their colonel to be killed, while several companies ordered to the firing line retorted by compelling their officers to go to the front. This accounts for the heavy mortality among the officers.

### Cry "Down With the King!"

In Catalonia the socialists and other extremists are fanning the flames of revolution. Already the cry is heard: "Down with the king!"

## MAY COST KING HIS CROWN.

### Trouble at Home in Spanish Overseas War in Africa Now.

Paris, July 29.—The international insurrection in Spain now completely overshadows the war in Africa in the eyes of Europe. The decision of Premier Maura's cabinet yesterday to place the country under martial law and employ the army to repress the revolt in Catalonia as an alternative to convoking parliament may provoke an extension of the insurrection which endangers the dynasty.

Preparations now being made in Madrid to quell the disturbances include the dispatch to Catalonia of the Madrid cavalry brigade under command of Prince Charles of Bourbon. Prince Ferdinand of Bavaria is one of the squadron commanders of this brigade.

The scale upon which the military intervention is planned proves that the government entertains no illusion and is ready to take the responsibility of putting down the revolt ruthlessly.

Both of the frontier reports leave little doubt that the workmen's organizations and revolutionary anarchists made common cause in old Catalonia.

## TAFT WON'T SIGN THAT

### PRESIDENT WILL NOT ACCEPT CONFERENCE REPORT.

### LUMBER MUST BE UNDER \$1.25

### THE PRESIDENT SENDS WRITTEN NOTICE TO COMMITTEE.

### FIRMLY SETS FORTH POSITION

### The President Sends a Written Notice to the Tariff Committee Notifying Them He Can't Accept Their Reported Rate on Hosiery or Lumber.

Washington, July 29.—Through a written communication the president today advised the tariff committee that he cannot accept a rate exceeding \$1.25 on rough lumber and that he will insist on the senate rates on gloves and hosiery.

The democratic members of the conference committee who had been called into today's meeting, which was scheduled for 10 o'clock, remained only until 10:52.

The transmission of the president's views had the effect of re-opening all these subjects and much doubt at once arose in the minds of the conferees as to when the end might be reached.

Mr. Aldrich told some of the democrats that probably they would not be summoned again before Saturday or Sunday.

The democrats remained in the conference for less than an hour and during that time were given very slight opportunity to participate in the conference. They discovered only five republican members were still in deep water.

## 2 NELIGH TOTS EAT FLY POISON

### TWO LITTLE 2-YEAR-OLD CHILDREN NARROWLY ESCAPE.

### ONE OF THEM DANGEROUSLY ILL

### The Little Daughter of Charles Kraush and the Little Son of Bert Haynes Were Victims of the Fly Paper—Haynes Laid Nearly Died.

Neligh, Neb., July 29.—Special to The News: Two cases of fly poisoning in the vicinity of this city were reported yesterday afternoon by Drs. Conery and Beattie.

The first case was that of the 2-year-old daughter of Mr. and Mrs. Charles Kraush, who reside about two miles south of Neligh. The little girl drank a small quantity of the water contained in a saucer with poison fly paper. The ordinary remedies were applied in a case of this nature, and at a late hour last evening the patient was resting nicely.
