

Volcanic Eruptions Diminish. Santa Cruz, Tenerife, Nov. 27.—The volcanic eruptions are diminishing. One of the craters has ceased activity. The lava has divided into six streams but is advancing slowly and will not reach Santiago and Tamains for several days.

Kent-Bentish. A pretty Thanksgiving wedding took place at the Church of the Sacred Heart Thursday morning, when Father Buckley performed the wedding ceremony of Miss Anna E. Bentish and John N. Kent. Peter Kent, a brother of the groom, acted as best man and the bride was attended by her sister, Miss Pearl M. Bentish. A large number of friends witnessed the ceremony, after which the wedding party celebrated the event at a dinner at the home of the groom's parents, Mr. and Mrs. Nicholas Kent, prominent and well known farmers four miles southwest of Norfolk. Miss Bentish is the daughter of Mr. and Mrs. Joseph Bentish and has lived near the Kent home for some time.

Edna Ingham Bound Over. Edna Ingham was bound over to the district court in Justice Eiseley's court here yesterday afternoon and was given until this evening to furnish bonds for \$1,000. In his decision Judge Eiseley stated he has been given orders by the mayor of Norfolk to punish those brought before him for shooting, to the extreme end of the law. He also asked County Attorney James Nichols, who prosecuted the Ingham woman, to file a complaint against Night Officer O'Brien for contempt of court on the charge that when he once arrested the woman and brought her before him on the first complaint filed by George Fox, O'Brien took the prisoner away from the court and turned her loose. Talking to the prisoner, Justice Eiseley said he believed she was getting too much protection from the police.

The charges against the Ingham woman first were filed by George Fox, who charged her with shooting at him with a revolver intending to shoot and wound him. When the case came up before Justice Eiseley Fox refused to testify. James Nichols, county attorney, immediately filed new charges against her and made a strong plea for prosecution.

Jack Koenigstein, attorney for the defendant, declared the shooting was not in fun but for the purpose of frightening Fox. The prosecution brought in photographs of the Ingham woman. Fox was a strong witness for the state. He admitted that the Ingham woman helped him purchase his car, also that when he came to the house to deliver a letter a row started over the refusal of one of the inmates to give him the delivery fee of 25 cents. He said he was struck over the head with a beer bottle and over the face with a cuspidor.

Edna Ingham, when on the stand, testified that, although she shot to frighten Fox away, she did not intend to wound him. The bullet, however, struck one of the horses. A temporary bond was furnished by her attorney till this evening.

Basketball at Wisner. Wisner, Neb., Nov. 27.—Special to The News: In a double-header game of basketball played in the opera house by the Gaydon Commercial college team of Blair, Neb., and the Wisner team, the Blair boys won the first game by a score of 45 to 38, and in the second game the Wisner boys won the game by 44 to 30. The game as played was of the cleanest kind, and good fellowship prevailed throughout both games.

The Gaydon Commercial college team will be welcomed any old time, and they proved themselves a bunch of good fellows.

The line-up: Gaydon College—Gaydon, I. F.; Mitchell, R. F.; Lund, R. G.; Kilguard, C.; Smith, I. G.; Jensen, sub. Wisner—R. H. Emley, I. F.; Don Schultz, R. F.; J. B. Ryan, R. G.; Frances Lorenson, C.; F. Maloney, I. G.; Ray Kane, sub; Glenn Armstrong, sub. After the first game all of the players were invited to the home of Ray H. Emley, one of the Wisner players, where a wedding dinner was served. Mr. Emley having been married the evening before to Miss Tena Thomsen.

Fatal Shooting at Colome, S. D. Fairfax, S. D., Nov. 27.—Special to The News: As the result of a shooting affray at Colome, one of the new towns in Tripp county, yesterday morning, it is thought today that Charles Hughes will die. He was shot twice by a bartender named Mondoff, who used a shotgun with which to wound Hughes.

Mondoff and Hughes had been in a terrific fist fight and the bartender got the worst of it. Then he went behind the bar, got a shotgun and told Hughes to throw up his arms. Mondoff fired, shooting Hughes in the arm. Hughes started to run and Mondoff let fire again, the charge entering Hughes' back. It is thought the wound is fatal.

States Attorney Bachus will have Mondoff arrested. Mondoff is now in bad shape as a result of the fight.

Ranch House was Burned. Brown County Leader: Saturday evening last a fire occurred at the ranch of Charles Bishop some nine miles southeast of Ainsworth, by which the house and furniture belonging to Mr. Bishop were destroyed, as was also the furniture of Floyd Morgan and wife who were occupying the house at this time. When the fire broke out Mrs. Morgan was at home alone, her husband having gone to the ranch of her father, Squire Jones, a short distance away. The fire was under good headway when discovered, and the lady was unable to do anything in the way of extinguishing the flames.

The loss will be a heavy one to both Bishop and Morgan, as neither had insurance. Mr. Bishop left some time ago for Custer county, where he formerly resided, for the purpose of visiting relatives and to bring his machinery home. His goods were stored in a portion of the house and Mr. Morgan occupied the other portion. Mr. and Mrs. Morgan did not save a thing, even losing their personal effects, extra clothing, etc. Mrs. Morgan when she found it impossible to put out the fire, ran to the neighbors for help, but when the help arrived the house was in ashes. The fire is believed to have been caused from ashes dumped too near the frame structure.

Spencer Hitch Strap Case Ends. Spencer Advocate: The famous 60-cent hitch strap case was settled in district court last Friday. The jury returned a verdict in favor of the plaintiff, F. F. Dohse. As will be remembered, the case grew out of the settlement for a pair of hitch straps which were purchased by an employee of Andrew Lorenson. Lorenson refused to pay for the straps and was sued by Dohse. A verdict was rendered in favor of the plaintiff in justice court and an appeal was taken to the district court. As near as can be learned the winner of the suit was loved about \$50, and the strap cost Lorenson in the neighborhood of \$100. Leo S. Legro was attorney for the plaintiff and Al Tingle represented the defendant.

New Card On Northwestern. A new Northwestern time card, making important changes in the train schedule west of Norfolk to Chadron, goes into effect Sunday. The passenger train which has been running west from Norfolk to Chadron in the morning, No. 7, leaving here at 7:20, is discontinued. The westbound train leaving Norfolk at 1:15 in the afternoon, No. 1, which formerly stopped at Long Pine, will go on through to Chadron. The first westbound train at night, No. 5, arriving in Norfolk from Omaha at 7 o'clock, and which formerly stopped here, will go on through to Long Pine, doing the local passenger work between Norfolk and Long Pine. Train No. 3, the through train which follows No. 5, and which leaves Norfolk at 8 o'clock p. m. for Deadwood, will stop only at Oakdale, O'Neill and Atkinson between Norfolk and Long Pine. Local freight train No. 63, leaving Norfolk for the west at 6:50 daily, will carry passengers as formerly as far as Atkinson.

There will be no change in trains coming east. Mrs. Buckles Comes Back. Mrs. Mary Buckles of Cherry, Ill., who lost one son in the St. Paul mine disaster at that place, has written Norfolk friends that she will return to Norfolk to live.

CORELESS APPLES.

Product of a Single Tree Near Spokane, Wash., is Also Seedless. Coreless as well as seedless are the apples produced on a single tree of unknown variety in an eight acre orchard at Moran Prairie, five miles north of Spokane, owned by B. K. Short, a rancher. The largest of the fruit is three inches in diameter, the coloring being of a yellowish green streaked with red. The apples have deep pink cheeks, and the flesh is firm and of excellent flavor. The tree is between twelve and fifteen years old and is growing in subirrigated soil at an altitude of 2,225 feet. Short does not claim credit for developing the coreless-seedless apple, declaring it is a freak of nature. Seven of the new apples were brought to the offices of the national apple show, incorporated, in Spokane and quartered in the presence of Ren H. Rice, secretary-manager; Professor August van Holderbeke, formerly state commissioner of horticulture of Washington, and several growers from various parts of the northwest, but none was able to classify the fruit. Professor W. S. Thornber, horticulturist at the State College of Washington, has been delegated by J. J. Browne, regent of Spokane, to make a thorough examination of the tree to determine its origin. Short has engaged three watchmen each to work eight hours a day as guards in his orchard, to prevent injury to the tree. He intends to graft the scions on other trees the coming spring.

White Star Steamships to Have Glass Screens on Their Decks. A new device for the comfort of passengers is to be installed on two monster White Star steamships now nearing completion. W. S. Laycock is the man who will do it. Mr. Laycock is very well known in England and on the continent through his business of equipping railways and steamships. "This innovation," said Mr. Laycock, "does away with the canvas screens put up in rough weather to keep the spray from breaking on deck and wetting the passengers. We all know how unpleasant these screens are. You can see neither sea nor sky, only yards of wet canvas. They turn the deck into a cell almost. Instead of this canvas we are equipping the new White Star boats with glass screens. They will keep the water out even better than the canvas screens, and you can look through them. No human eye can look through canvas. The glass screens are divided into small sections and work automatically, so that a passenger in his deck chair can touch a button and raise or lower one of the sections as he pleases. It will not be an experiment, as we have already tested them and found that they work satisfactorily."

German Experiments With Kapok Tree Said to Be Successful. Owing to the high price of cotton the German textile experts have been turning their attention to other fibers that might be used as substitutes for it. Recently a spinning company at Chemnitz, Germany, has succeeded in spinning the fiber contained in the seeds of the kapok or silk cotton tree of the tropics. In its natural state this fiber cannot be spun, owing to its extreme brittleness, but Professor Goldberg of Chemnitz has found a method of treating it to make it spinable, and the yarn is described as having a peculiarly soft, silky feeling. The fiber has hitherto been in use as a padding material for furniture and in making pillows and similar articles, and it has answered this purpose so well that the cultivation of the tree has already been introduced into the German colonies of New Guinea and East Africa. The fiber has the advantage of being considerably cheaper than cotton, but no information is at hand showing the wearing qualities of fabrics made from kapok yarn.

One Is Enough. "Before she married him, you know, she used to say there wasn't another man like him in the world." "Yes; and now she says she'd hate to think that there was."

The Henpecked Husband—Is my wife going out, Eisle? "Yes, sir." "Do you know if I am going with her?"—Exchange.

The Day of Rest. "And now," said Mr. Fishback of Billville, "let us be thankful for one day of rest and get ready for church." "Yes," said his wife; "run out and chop some wood and milk the cows and light the fire and make the coffee and wash the children while I bang my hair!"—Atlanta Constitution.

The Coming Craze. [Mrs. H. A. Arnold, a society woman of Florida, has purchased an aeroplane and will try to make flying a fashionable pursuit.] When all society shall fly in aeroplanes athwart the sky, How arrogant and how proud They'll look down on us common crowd! And I've no doubt that there will be Ere long an aristocracy.

Steel Mail Cars. The United States postal Department is having all of the mail cars on the railroads throughout the country built of steel. The reason for this new method of car building is to protect them in other accidents where cars are liable to come together and eventually take fire. The cars are built entirely of steel, no woodwork being used at all. From the steps on the ends of the cars to the framework holding the large mail bags inside everything is of the best quality of steel.

Palace of Drama. Splendors of the New Theater Dedicated in New York.

Long before the New Theater, the splendid \$2,000,000 stone palace which public spirited citizens of New York have erected on the block in Central Park West, between Sixty-second and Sixty-third streets, "for the propagation of good drama," was dedicated by J. P. Morgan and thrown open to the inspection of invited guests the other afternoon, there were lines of electric cars waiting to discharge their passengers. Society women even alighted before their carriages reached the entrance and stood off to examine critically the architecture. Its style reminded many of the Sansovino library in the Piazza di San Marco, in Venice. It is somewhat in the spirit of the Italian renaissance of the sixteenth century. The observers seemed pleased with the dignified lines of the structure. Within they saw an auditorium that exceeded their expectations. They found the theater as a whole was planned simply, yet giving a majestic and artistic effect. The auditorium is in the shape of the long half of an egg. To the guests seated on the stage the orchestra chairs, finished in red, stretched upward gently. Behind them are arranged the founders' boxes and above them is the first gallery. There is a second balcony and then a gallery. Ranging above the second balcony on either side of the theater are colonnades of marble with lunettes of gold and curtains of red. The decorations follow a scheme of driftwood gray and gold. Into this auditorium the guests were ushered by girls neatly garbed in gray with dainty white aprons. There were men ushers as well, dressed in light brown. At the north and south ends elevators and wide stairways gave access to the grand tier promenade, the stalls and the balcony floor. Two spiral stairways of white marble at the southeast and northeast corners also lead to these levels, and at the southeast corner another spiral stairway of white marble leads to the smoking room and buffet. The smoking room is finished in terra cotta, with a tiled floor and paneled woodwork in brown. Short stairways lead from the grand tier promenade down to the boxes and up to the stalls, so that the occupants of each box will have a separate way for entrance. Back of this promenade is a long, narrow room floored with maple and smooth enough for dancing. On a raised platform at one end an orchestra was stationed. On this floor and reached from the main corridor are the ladies' parlor and the tea room at opposite ends of the building. The auditorium was brilliantly illuminated by the massed lights from the great central chandelier and the twelve smaller chandeliers on the sides. The seats were found wide and comfortable, and on each seat is its number, with its section and row designed in tan embroidery. Deep red curtains close the opening of the reserved arched, which is framed in greenish tinted Connemara marble. Connemara tablets along the walls and under the dome are inscribed with the names of fourteen dramatists. Over the arch is the theater's crest, bearing the motto, "To Hail as 'Twere the Mirror Up to Nature.'" The visitors wandered through the boxes inspecting the decorations and the main foyer, which is interesting not only because of its artistic decorations, but because it promises to be an art room of value.
