

THE NORFOLK WEEKLY NEWS-JOURNAL.

NORFOLK, NEBRASKA, FRIDAY, MARCH 18, 1910.

ASK FOR LOWER FREIGHT RATE

INTERSTATE COMMERCE HEARING ON AT KANSAS CITY.

WANT RATE BASED ON THE GULF

Merchants and Jobbers of the Southwest, Representing 200 Cities, Meet in Kansas City and Begin Argument Before Judge Prouty.

Kansas City, March 17.—Merchants and jobbers from Kansas, Oklahoma and Texas representing 200 cities and towns in those states, appeared before Judge Charles A. Prouty of the interstate commerce commission here today to argue in favor of their petition asking for a decrease in freight rates based on the gulf water rates from New York by way of Galveston.

OUR MINISTER IS ASSAULTED.

Horace G. Knowles Attacked in San Domingo by Governor's Brother.

Washington, March 17.—Horace G. Knowles of Delaware, the minister of the United States to the republic of San Domingo, was assaulted while riding in a vehicle in the public highways of Santo Domingo city last Sunday. The incident was reported by the American legation to the state department today.

The assailant was a man named Castillo, a brother of the governor of the province. Castillo, who was arrested, is said to be mentally deranged.

The Dominican government has explained to Minister Knowles its regret at the incident.

Cannon Outvoted Again; Derides 'Em.

Washington, March 17.—The House again refused today to take up the Crumpacker bill to amend the census act. Although regular republicans who were defeated with Speaker Cannon yesterday rallied some democrats to their support, they obtained only 137 votes to 142 negative. Speaker Cannon derided insurgent voters on their attitude.

Avery Quells 'Sneak' Day.

Lincoln, March 17.—Chancellor Avery of the state university today quelled a sneak day conspiracy in the law school. The students had arranged to absent themselves from classes to spend the day at Crete. Chancellor Avery promptly notified all of the students that failure to be present at classes would result in suspension. Few were absent.

Robbers Scared Away.

Kewanee, Ill., March 17.—Burglars broke down the vault doors of the bank at Neponset, eight miles east of here, early today and had partly wrecked an interior safe with nitroglycerine when they were frightened away. Two hundred dollars' worth of stamps kept in the vault by the postmaster were taken.

WHEN A WOMAN TELLS A FIB.

The Twitching of the Lips an Unfailing Sign, a Magistrate Says.

New York, March 17.—"If you want to tell if a man is lying to you, watch his eyes; but if you seek to know if a woman is telling you an untruth, look at her mouth."

This is the conclusion reached by Magistrate J. E. Corrigan of the Essex Market police court.

"Women have better control of their eyes than men," observed the magistrate. "The most innocent blue eyes I have ever seen belonged to a girl who was a little demon. But it often happens that a woman whose eyes look blandly truthful will tell a different story by a slight twitching of the corners of her mouth."

STILL UPHOLD DR. COOK.

Missouri Valley Medical Society Refuses to Rescind.

Omaha, March 17.—At the session of the Missouri Valley Medical association which convened here today, the secretary reported that he had been unable to locate Dr. Frederick A. Cook so as to convey to him the congratulatory resolutions adopted at the last previous meeting of the association six months ago.

After a lively debate, an effort to have the resolutions rescinded was voted down and the secretary was instructed to send the congratulations of the association to Dr. Cook when he is found.

The association is composed of physicians of Nebraska, Iowa, Kansas and Missouri.

BONESTEEL TO VOTE ON PLAN

Will Hold Election for Commission Form of Government March 22.

Bonesteel, S. D., March 17.—Special to The News: Bonesteel will vote upon the proposition of adopting the commission plan of government at a special election called for March 22. The plan will have the active opposition of the anti-saloon league. The council met in special session to consider a petition asking that the question be submitted. They found it sufficient and ordered the election. Mayor Lintecum issued an election notice.

Won't Vote on Liquor Question.

Boston, March 17.—The people of Massachusetts will not have an opportunity this year to ballot upon the

question of amending the constitution of this commonwealth so as to prohibit the sale of intoxicating liquors. By a rising vote of 40, the house refused to substitute a bill providing for such a referendum. An adverse committee report and the roll call vote of 137 to 59 accepted the adverse report. The debate was the majority of the speaker favoring the present local option system.

Tillman Well Enough to Travel.

Washington, March 17.—Senator Tillman, with his wife and two daughters, left Washington for his home in Trenton, S. C., yesterday. The senator, who a few weeks ago was at death's door and rallied by his wonderful vitality, is well enough to walk and his physicians declared there was no danger in his traveling.

Prominent Southerner Dies.

Cocoa, Fla., March 17.—Laurent De Givie, for many years Belgian consul at Atlanta and one of the most prominent theater owners in the south, died here this morning.

ROBBER IS FATALLY SHOT

After Having Shot and Seriously Wounded Three Other Men.

East St. Louis, Ill., March 17.—Willia O'Brien was shot and fatally wounded in a revolver duel with two policemen shortly before midnight today after he had shot and seriously injured three men in robbing two saloons.

O'Brien first walked into the saloon of F. D. Haas where he broke up a card game and rifled the cash register. As he backed out, he threw \$1.20 in change on the bar so the proprietor could continue business.

Ten minutes later he entered a saloon conducted by a woman nearby and held up the patrons and two bartenders during the operation and attempted to knock O'Brien's gun from his hand. Hilde was shot through the neck.

Jacob McIntyre, a bartender, went to his friend's aid and was shot through the right hip.

Albert Bertram, a brakeman, was shot through the wrist during the fusillade of shots fired by O'Brien. Attracted by the shots, a dozen or more men gave chase to O'Brien, who fled down the street, showering bullets after him.

Several windows were broken but none of the pursuers was hurt.

Three blocks from the saloon, O'Brien encountered two policemen, who brought him down with wounds in his head and a bullet in his lungs. All the injured were taken to a hospital and O'Brien was pronounced as fatally hurt. He made a full confession, saying he was a "natural bad man" and that he robbed the saloons "just for excitement."

A MILE IN 27 SECONDS

BARNEY OLDFIELD IN FASTEST MILE EVER MADE BY MAN.

RATE OF 131 MILES AN HOUR

With a Flying Start, Oldfield Made a Mile in 27:33 Seconds and with a Standing Start He Made Same Distance in 40:50 Seconds.

Dayton, Fla., March 17.—Barney Oldfield, driving against time from a flying start, in a 200-horse power Benz automobile of special design, covered the fastest mile yesterday ever traveled by a human being. His time was 27:33 seconds. Nothing projected into space by man save a bullet ever has travelled at equal speed.

The previous record was set here four years ago by Marlott, who drove a special Stanley steamer one mile in 28 1-5 seconds at a speed of 127.5 miles an hour. Oldfield's average yesterday was 131.72.

Oldfield again launched his great car from a standing start for a mile against time and crossed the finish line with another record. His time was 40:53 seconds as against 41:23-100 seconds made with the same car by Hemmery in England.

Renew Anti-American Attacks.

Bogota, Colombia, March 17.—An attempt to renew the street railway service caused serious street rioting which continues as this dispatch is filed in the early evening. Thus far the mob has respected the American legation which is under police guard. All Colombians employed by the American company owning the railway system are in serious danger.

RAISE DISCOUNT RATE.

Drain on Reserves of Bank of England Causes the Increase.

London, March 17.—The directors of the Bank of England, at their weekly meeting today raised the minimum rate of discount from 3 to 4 percent. This action was caused by the continued foreign demands for gold, which seriously depleted the bank's reserves. These are now nearly \$25,000,000 lower than at the same time last year.

American Show Opens in Berlin.

Berlin, March 17.—Crown Prince Frederick William today opened the American exhibition.

DROPS 50 FEET TO HER DEATH

OMAHA SCHOOL TEACHER KILLED IN ELEVATOR SHAFT.

DOOR TO SHAFT IS LEFT OPEN

The Elevator in the Boyd Theater Building Had Been Stopped at the Fourth Floor and Door Left Open; Elevator Rose, Leaving Death Pit.

Omaha, March 17.—Miss Bessie Chambers, a public school teacher, was fatally injured last evening by falling down an elevator shaft at the Boyd theater building. She died at the Clarkson hospital a few hours later.

The pilot had left the elevator at the fourth floor leaving the door open. Owing to some defect in the machinery or its manipulation the elevator slowly ascended without attracting attention, leaving the shaft unguarded.

Miss Chambers stepped through the door without noticing the absence of the car and fell fifty feet or more to the basement. Miss Chambers had been a member of the staff at the Cass street school about eight years. She formerly taught at Salt Lake City, Utah.

PIERCE TO LOSE PROF. BOWEN

Superintendent of Schools There Announces He'll Quit.

Pierce, Neb., March 17.—Special to The News: The board of education of the Pierce public schools will meet on Tuesday evening, March 22, to employ a corps of teachers for the coming year. Great regret is expressed by not only the members of the board but by every patron of the schools over the announcement of Superintendent O. R. Bowen that he would not be an applicant for re-election.

Professor Bowen has been superintendent of the Pierce schools for the past five years and has brought that institution up to a high standard. His work is recognized by the leading educators of the state and it is no surprise to his friends that he has been offered a better position at a higher salary than he receives here. Pierce pays a salary of \$1,200 per year to her superintendent.

For the past three years Professor Bowen has been one of the faculty in the junior normal schools held in the northwest, and his work has in every instance received high commendation at the hands of the state superintendents. He turned out two debating teams from the high school the past two years that won honors at Albion and Creighton. Two other teachers here, it is said, will not apply for their old places, viz: Miss Rena Olmsted, principal, and Miss Crubaugh in the third grade.

No Strike in East.

New York, March 17.—The New York Central and Hudson River railroad and its controlled lines, including the Lake Shore and Michigan Southern, Michigan Central, Boston and Albany and Big Four, reached a tacit understanding after an all day conference with the Brotherhood of Railway Trainmen and the Order of Railway Telegraphers that there would be no strike because of the lack of concessions.

In the negotiations for an increase in wages and changes in the working schedule, both sides made liberal concessions and when the conference was concluded both sides were in the best of humor and joined in a statement that there was not the least likelihood of a strike.

HILL SAYS WE'RE WASTEFUL

Railway King of Northwest Says Americans Must Calm Down.

St. Paul, March 17.—The address of James J. Hill, chairman of the board of directors of the Great Northern railway "conservation of capital" was the feature of the forenoon session of the state conservation congress today. Howard Elliott, president of the North Pacific railway presided.

The general subject of the session was agricultural development in Minnesota. The other speakers were Professor Robinson of the university of Minnesota, who spoke on "The Farm Wealth of Minnesota," and Professor A. E. Chamberlain, superintendent of the Farmers' Institute of South Dakota, whose subject was "Agriculture—A Science and a Competitive Business."

Mr. Hill urged the conservation of capital, condemned extravagance, gave the causes of the increase in prices, and told how the situation described by him might be remedied.

Great interest was taken in the speech of Mr. Hill, who declared that "we are living in an age of world-wide financial delirium;" and "that after the conservation of the land, its arable use and fertility, must come the conservation of national capital in the shape of cash and credit."

Mr. Hill said in part: "The immense increase of wealth all over the world has greatly augmented the supply of capital. The mobility of this capital, the ease by which through international exchange it can be made to satisfy a need now in one country, and now in another, strengthens the impression that it is inexhaustible. The addition of uncounted billions to the aggregate wealth of the world has stimulated the spirit of mankind. Its availability has lulled to sleep natural prudence and quieted the alarm of moments of sanity in the spend-thrift's life. The increase of apparent resources by an easy resort to borrowing, the mortgaging of a patrimony not our own to obtain material for present extravagance, the diversion of wealth from productive to unproductive uses—all these have gone further than most people realize."

VALUABLE MONKEY DIES.

Consul Junior, Insured for \$50,000, Succumbs to Pneumonia.

Dallas, Tex., March 17.—Consul Junior, the so-called educated chimpanzee, who was dressed and taught to act like a man, died of bronchial pneumonia, after an illness of four days. Consul was valued at \$50,000, and was insured with a London insurance company for that amount. During his illness physicians attended the monkey as they would have ministered to a human being. The body will be embalmed and sent to Europe for burial.

Frank Yaezel Resigns.

Madison, Neb., March 17.—John Dorr and Miss Ella Burney, daughter of Mr. and Mrs. Herman Barney, were married at the home of the bride's parents in this city at 5 o'clock Wednesday afternoon. Rev. Houlgate officiating. Both of these young people have grown up in this vicinity being from the most respectable families in the community. Mr. Dorr is the owner of one of the best farms in Madison county located near Madison and they will commence housekeeping on the farm at once.

Train Engine Meets Accident.

The Northwestern passenger train which left Norfolk for Omaha at 7 o'clock Thursday morning, struck a brake beam on the track between here and Stanton and the engine was put out of business. The train was held at Stanton for another engine.

business here. No one as yet has been selected to succeed him.

Laymen's Missionary Meet.

Omaha, March 17.—Some 1,400 men are expected to sit down to the banquet at the Auditorium tonight, which will be the opening gun of the local laymen's missionary movement convention. The big speakers of the convention, which begins tonight and ends Sunday afternoon, will be in the city this morning and afternoon. Most of them were at Lincoln last night and yesterday. The program, which is just out, shows men from many lands. Some of the delegates will occupy local pulpits Sunday morning and all forces will join in the big Sunday afternoon as a grand climax to the convention.

RAIL STRIKE CONFERENCE

GOVERNMENT REPRESENTATIVES ARE NOW IN CHICAGO.

WARRING PARTIES IN MEETING

Chairman Knapp of the Interstate Commerce Commission and Labor Commissioner Neill Lose no Time in Starting Negotiations.

Chicago, March 17.—Chairman Martin A. Knapp of the interstate commerce commission and Commissioner of Labor Charles P. Neill, after their arrival in Chicago today for the purpose of endeavoring to bring about a settlement of the dispute between the Brotherhood of Locomotive Firemen and Enginemen and the western railroads, lost no time in beginning their labors and soon after their arrival they went into conference with the labor officials and representatives of the forty-seven railroads interested in the controversy.

Met at the station by a national guard regiment and a large reception committee, President Taft swung into the line of a St. Patrick's day parade which marched through Michigan avenue to the downtown district and escorted him to the La Salle hotel.

The president came to Chicago as the guest of Irish Fellowship club and the entire day until his departure for Rochester, N. Y., at 11 o'clock tonight was crowded with events. After meeting the local endowment committee of the American Red Cross society, it was arranged to have him attend a reception given by the Chicago Newspaper club and then at noon to visit the Traffic club.

A luncheon by the Irish Fellowship club was scheduled for a half an hour later and a brief rest was allowed the president to prepare his appearance at the Auditorium tonight for his address on "Conservation." The conservation meeting was arranged by eight Chicago clubs.

Two receptions in the afternoon were planned, to be followed at 6 p. m. by the banquet of the Irish Fellowship club. Fifty square feet of sod brought from Ireland were put in the banquet hall.

MORE MIKES HEARD FROM

A Number Have Written, Telling of Losses Reaching \$100,000.

Council Bluffs, March 17.—Contrary to expectations, the government was unable to reach a conclusion by noon of its case against John C. Mabray and his associates, who are on trial charged with extensive swindling by illegal use of the United States mail. The mass of evidence produced by the prosecution during the past week was supplemented during the morning session with that of postoffice employees of South Bend Ind., San Francisco, New Orleans and Little Rock, with a view to calling up the various defendants against whom evidence had been adduced, to show a general conspiracy.

The government this morning received a letter from J. J. Fleming of Rexford, Kan., who declared he lost \$17,000 on a prize fight at Denver. Fleming in his letter expressed a desire to testify in this case.

Colonel Temple, the district attorney, stated that nearly fifty similar communications had come to his attention since the present trial opened, due generally to the publicity given the case.

The amounts named in these communications as having been lost, he stated, exceeded \$100,000.

Thomas Gay, who turned state's evidence and testified earlier in the trial was recalled and described several letters which he testified had been exchanged between the defendants and himself, through the mails. Witness was given another vigorous cross-examination by Mr. Tinley and admitted having been a coal miner, a gambler and a bartender. He denied having ever been a penitentiary convict.

A long story by Postoffice Inspector J. S. Swenson covering his connection with the running down and conviction of the defendants in this case was begun.

Yesterday's session of the trial of John C. Mabray and eighty-six other defendants charged with swindling operations by alleged fraudulent use of the mails, produced a kaleidoscope of testimony not yet equalled during the trial. The testimony of the victims placed on the stand, while hearing experiences in many respects not dissimilar from those already related to the jury, was given by persons whose personality completely changed the complications of the system by which they were induced to make contributions to the collection alleged to have been taken up by the defendants.

William H. McGrath, aged 28, a

CHICAGO GREEN FOR TAFT VISIT

PRESIDENT IS GUEST OF IRISH FELLOWSHIP CLUB.

STANDS ON SOD FROM IRELAND

Buried in Green, Chicago Greets the President on the Occasion of His St. Patrick's Day Visit to the West—A Busy Day for Him.

Chicago, March 17.—Fairly buried in green emblems, banners and bunting, Chicago today received President Taft as its guest in one of the biggest St. Patrick's day celebrations the city has ever known.

Woman Wants to Ride With Taft. Soon after President Taft had left the train the procession was halted for about five minutes, owing to repeated attempts of a woman, who gave her name as Jennie Mud, to get into the automobile containing the president and his party.

The woman struggled violently with detectives who essayed to stop her, and the scene occasioned considerable excitement among the throng on both sides of the street. The woman was finally subdued and placed under arrest. No weapon of any kind was found upon her.

From the time he stepped off his special train at the Thirty-third street station of the Pennsylvania railway at 8 o'clock this morning the president saw hardly a building or an individual that was not decorated in green.

Met at the station by a national guard regiment and a large reception committee, President Taft swung into the line of a St. Patrick's day parade which marched through Michigan avenue to the downtown district and escorted him to the La Salle hotel.

The president came to Chicago as the guest of Irish Fellowship club and the entire day until his departure for Rochester, N. Y., at 11 o'clock tonight was crowded with events. After meeting the local endowment committee of the American Red Cross society, it was arranged to have him attend a reception given by the Chicago Newspaper club and then at noon to visit the Traffic club.

A luncheon by the Irish Fellowship club was scheduled for a half an hour later and a brief rest was allowed the president to prepare his appearance at the Auditorium tonight for his address on "Conservation." The conservation meeting was arranged by eight Chicago clubs.

Two receptions in the afternoon were planned, to be followed at 6 p. m. by the banquet of the Irish Fellowship club. Fifty square feet of sod brought from Ireland were put in the banquet hall.

CONDITION OF THE WEATHER

Forecast for Nebraska.

Temperature for Twenty-four Hours. Maximum 63 Minimum 27 Average 45 Barometer 29.99

Chicago, March 17.—The bulletin issued by the Chicago station of the United States weather bureau gives the forecast for Nebraska as follows: Generally fair tonight and Friday; not much change in temperature.

graduate of the university of Minnesota and the St. Paul law school, was as easily duped out of his \$10,000 as was James G. Kile of Cisco, Ill., aged 74 years, who testified to the loss of a similar amount.

T. E. George of San Antonio, Tex., lost \$18,000, James Webber of Shamoekin, Pa., \$3,000, and J. B. Schurman, a German farmer and stockman of Leota, Kan., \$5,000, totalling \$48,000 as the amount which witnesses told of losing.

Preacher's Son Ropes Him In. In perfect English and in a convincing manner, McGrath recited a remarkable story of his loss. Louis W. Stowe, son of an Episcopal rector of Minneapolis, solicited McGrath in the matter, assuring him that it was former college friendship that prompted him to ask the witness to assist him to carry out the scheme. According to the witness' testimony it was this declaration alone that induced him to bring \$10,000 to Council Bluffs.

"When I got here and looked over the situation," said McGrath, "I took Stowe out to the park and pleaded with him not to go into the deal."

Concerning the events which followed, Assistant District Attorney Stewart elicited from McGrath that he finally went so far as to get a draft in favor of his brother and put in an envelope preparatory to mailing it to Stillwater, Minn. Witness then declared he met Mabray who induced him to try to get his money at the bank. He said:

"I went to the First National bank which issued the draft and the teller told me to indorse with my brother's name and when I did so he readily gave me the money."

McGrath now has a civil suit against the bank for the recovery of the money. Ernest E. Hart, former national republican committeeman for Iowa, is an officer of the bank.

McGrath then followed up his story and told of the tragic ending how he lost his money.

James G. Kile of Cisco, Ill., was taken to Little Rock to purchase timber land. He ended his visit with an investment of \$10,000 in a horse race which went against him.

NEW ORLEANS WANTS BABIES

THERE SEEMS TO BE A SERIOUS SHORTAGE IN SUPPLY.

ONE CARLOAD WASN'T ENOUGH

So Another Carload of Them Will Be Sent Down to the Childless Women of the Crescent City—They're Clamoring for 'Em Down There.

New Orleans, March 17.—The demand for babies here has reached such proportions that it is feared there will be a serious shortage in the supply. A carload of babies from the New York Foundling and Orphan institution was given away here last week. Many women clamored for babies in vain and so numerous are the applications that the institution has decided to send another carload of infants to New Orleans.

INSURGENT RANKS MAKE GAIN

A Dozen Heretofore Regular Republicans Join the Rebels.

Washington, March 17.—Although the republican organization took radical measures to insure against a repetition of Tuesday's defeat at the hands of democratic-insurgent republican combination over the question of maintenance of an automobile for the speaker, the allies scored another victory over the regulars, even more decisively.

On an appeal from a decision by Speaker Cannon in the matter of precedence for a joint resolution, the house voted against the speaker by a vote of 163 to 111. In addition to the full democratic vote and the thirty insurgents who have always stood out against the speaker, a dozen other republicans, heretofore regulars, voted to turn down the ruling of the chair. Just before taking of the vote, Speaker Cannon addressed the house at length, asserting his reasons for the ruling and showing something of indifference as to what action the house might take in the premises.

A few minutes after the house convened Representative Dwight, the republican whip, made a point of no quorum and caused a call of the house, resulting in a scurrying of members who were absent in committee rooms or in their offices. More than eighty arrived too late to answer to their names. It was privately announced by a prominent member of the house organization that hereafter a quorum must be present and that the attendance of absent members is going to be compelled.

With the Failure to Agree in Ohio, Indiana and Western Pennsylvania, the Situation in Other Coal Fields Has Become Tense.

Cincinnati, March 17.—The crisis in the negotiations between the miners and operators of the central competitive field (Ohio, Indiana and western Pennsylvania) over a wage scale was expected to be received today. With almost the last hope of an agreement in this field gone, the situation in all other bituminous mining sections was also made tense.

The sub-scale committee which had the miners' demands before it for three days, made its report to the full committee this morning. The full committee in turn reported to the central field conference of miners and operators. After this the matter was submitted to the special convention of the United Mine Workers of North America.

Before the sub-committee reported it was known that it had failed to reach an agreement.

A ROOT LETTER TO KHARTUM.

Roosevelt Has Been Given the Taft Side of Recent Events.

Washington, March 17.—There was delivered to Theodore Roosevelt when he reached Khartum today a letter which if it shall ever be made public will become an important document in the history of American politics. It was written by Senator Elihu Root, who served four years as secretary of state in the Roosevelt administration, served with Taft in the cabinet and has been for years and is now the personal friend of both men.

The letter is important in that it treats of the events in national affairs since the time Roosevelt sailed from the United States for his long hunting trip, and deals with the questions that have confronted the administration and congress since that time. It is in short, a political history of the Taft administration, written by a friendly senator with the knowledge and approval of the president. It states the case as the president sees it and is intended to prevent Roosevelt from hearing first the protests of those who do not agree with the president and not hearing the other side.

That President Taft feels that he is not understood and that attacks are unfairly made on him is known to all who come in contact with him even occasionally.

MONTANA MINERS HARD HIT. Must Change Their Method of Operating, to Save Forests.

Washington, March 17.—Satisfied that the present methods of operating its smelters by the Anaconda Copper Mining company are not only destructive in a widespread degree of the surrounding natural forests, but unnecessary, Attorney General Wickersham caused a bill in equity to be filed at Helena, Mont., against the company. The bill asks for a permanent injunction to compel the company to operate its plant at Anaconda in such a manner as to end the destruction complained of.

The company has resisted the demand of the government that the methods of the smelting be changed and among other contentions has represented that it would cost millions of dollars to do so, besides the loss accruing from the temporary shutting down of the plants. The attorney general, however, announces that the suit will be pressed vigorously unless, as he hopes, the company will co-operate voluntarily with the government to bring about a termination of the existing condition.

VESSEY OPENS CAMPAIGN.

Arraigns Cannon and Aldrich and Upholds Expenditures.

Centerville, S. D., March 17.—Governor Vessey opened his campaign here before an audience which comfortably filled the opera house, after spending the day here with political friends.

He was introduced by Andrew S. Bogue, an attorney of this place, and made his address for the insurgent principles, which he declared are to go on until there are no more abuses through the machinations of public service corporations. He spoke emphatically against Cannonism and Aldrichism and lauded Roosevelt.

The governor was emphatic in the statement that the institutions of the state have been managed economically and that the expense of government is now below that of many other northwestern states.

Senator Daniel Near Death.

Dayton, Fla., March 17.—Physicians attending United States Senator John W. Daniel issued a bulletin at 9:30 this morning stating that the senator still is lying in a state of coma from which he has not aroused since early yesterday evening. His death is momentarily expected.

COAL STRIKE IS IMMINENT

CRISIS IN NEGOTIATIONS OVER WAGE COMES TODAY.

HAVE FAILED TO REACH TERMS

With the Failure to Agree in Ohio, Indiana and Western Pennsylvania, the Situation in Other Coal Fields Has Become Tense.

Cincinnati, March 17.—The crisis in the negotiations between the miners and operators of the central competitive field (Ohio, Indiana and western Pennsylvania) over a wage scale was expected to be received today. With almost the last hope of an agreement in this field gone, the situation in all other bituminous mining sections was also made tense.

The sub-scale committee which had the miners' demands before it for three days, made its report to the full committee this morning. The full committee in turn reported to the central field conference of miners and operators. After this the matter was submitted to the special convention of the United Mine Workers of North America.

Before the sub-committee reported it
