Bullock and Seven Kings. Henry Beach Needham in Collier's Weekly: "Four kings are pretty hard to beat," observed Capt. Seth Bullock in London, "but seven kings!-well,

it took T. R. to do it." Out west Captain Bullock is called the "original monopolist," all because, as sheriff of Helena, he enforcedwith a gun-the first legal hanging! In later years he and young Roosevelt Dakota, and being only 160 miles apart, they were near neighbors. They have been right neighborly ever since. 16.00 Early in Mr. Roosevelt's last term, Captain Bullock expressed the intention of "doing London" with the colonel after he left the white house. 14.00 T. R. wrote from Egypt reminding 9.95 Seth of his promise. Seth cabled back, 1.50 "Coming." And T. R. cabled, "Hur-

rah!" The joy of the London visit was to see Colonel Roosevelt turn to Captain Bullock with a sigh of relief after precious time spent "inscribing on' stupid royalties. As it was his habit at the white house, the colonel would sandwich Seth in between a duke and a conservative M. P. at Whitelaw 7.50Reid's regal luncheon parties. He would slip out of the house with Captain Bullock on one arm and R. J. Cunninghame, his safari manager, on the other, and away they would go to see some skins at Ward's or to have a look at Selous' specimens in the Kensington museum. There was so much suggestion about killing in the peared down the road. colonel's London pastimes, that it rather disturbed the president of the 8.10 Outlook company. And one afternoon he had to say something. It was the day when the donors of the doublebarreled 500-450 Holland rifle had given the colonel a luncheon, at which big game hunters were in the ascendancy and naturalists quite de trop. Then it was that Lawrence F. Abbott

HOW ABOUT RACE SUICIDE?

If Colonel Roosevelt Had Seen This Norfolk Incident, Then What? Had Colonel Roosevelt been standing on Norfolk avenue a few days ago,

some of his ideas on "race suicide" would probably have been amended. A woman carrying a heavy bundle under one arm and a child on the other was slowly making her way up the main street. One little child, just about able to toddle along, was pulling at her skirts, two others, not much

older, were wearily making their way behind her. At short intervals the mother would stop and rest, transfer the bundle to the other arm and change the child's position. Very kindly she patted the cheek of the little child, which seemed tired and wished to be carried. Pa tiently she talked to the other two about making noise and then disap-

"Is the Jeffries-Johnson fight frame-up?" is the question which many an unrivaled collection of the flora of Norfolk people have been discussing ever since the big fight discussion was commenced.

The "Long" Sitzes.

The Sitze family was long in person, long drawn out in speech and eternally long about doing things. Over miles of pine hills they were known as the "long" Sitzes. Miss Lydia, the eldest, went to a crossroads store to buy Christmas presents. In the course of a half hour she became interested in some blue and scarlet petticoats. "I'll take one of these petticoats."

she said, slowly counting out the price. The busy proprietor wrapped up the parcel and handed it over with a polite "Something gise?"

"I'll take another petticoat." He did up a second bundle, took her carefully counted money and was turning to the next impatient custom-

"I'll take another petticoat," came the slow drawl. This went on to the seventh time The man, being up to his ears in work,

ventured a question: "Buying for the neighborhood, Miss Lydia?"

"I'm buying two apiece for my sisters."

"How many sisters have you?" "Nine."-Youth's Companion.

Didn't Cut the Ace. The greatest delight of Pat Sheedy according to a friend of the famous gambler, was to "double cross" the

crooked card sharks. "Sheedy once strolled into a tough gambling resort in the west where he was not known and stood watching the games," the friend relates. "One of the dealers was 'spieling' to several countrymen and had about convinced

them to take a chance at his game. "'I'll bet you 2 to 1 that I can shuffie the deck and cut the ace of hearts the first time.' he announced.

"'I'll take \$50 of that if you'll let me shuffle the cards,' Pat said "The dealer agreed, and the money was staked. The countrymen also

made small bets. "'Are you satisfied?' the dealer asked when the cards were shuffled. 'The proposition is that I am to cut the ace

of hearts the first cut." "Every one agreed. Then the dealer -he was a tough one-whipped out a big hunting knife and slashed the deck in two. But he didn't take the money. Sheedy had palmed the ace of hearts while shuffling the cards."

Tuning a Bell. No matter how great may be the care taken in making the mold, a bell has to be tuned before it will ring a clear, true note. As a matter of fact, every bell sounds five notes, all of which must blend together harmoniously. If one is the least bit out the tone will be spoiled. The first of these notes is produced by the vibrations at the mouth of the bell, the second by the vibrations a little higher up, the third still higher up, and so on to the fifth, which is produced quite near the top. As the character of the sound which rings depends upon the thickness of the metal, it is possible, by taking thin shavings from various places in the inside of the bell, to alter the five notes until they are all in harmony.

Clerks Win the First.

The first game was easily won by the clerks who handed the railroaders a goose egg, defeating them by afternoon. Troops from Fort Meade score of 16 to 0. It was a one-sided game but many of the railroaders showed good material and a little more practice will put them into fine condition, and the clerks are promised a more entertaining game of ball at their hands later in the season. John son for the clerks pitched a beauti ful game, striking out eleven men and allowing but one short hit. He also featured for the cierks with only three times up, getting three hits, two of them three-baggers, and allowing but one man a base on balls. He also brought in three runs for the clerks. Brueggeman was also handy with the bat and lammed out a three-bagger. Glissman, Clark and Schelly tied each a two-bagger to their record. Bitney although allowing but one man bases on balls, was easily found in the third, fourth and sixth innings. His sup port was poor and the many errors are accountable for the shut out. The efforts on the part of the railroaders to smoke in at least one score kent the fans in a constant uproar.

Firemen Beat Travelers. Luck was against the men of the grip in their first game of the city league series. While endeavoring to catch a high foul, McMasters, the star catcher for the traveling men, sprained his ankle and thus crippled his team, who, also handicapped by a tired pitcher, were easy money for the

iremen, 11 to 2. It looked like a big league game and for a time threatened to be of more interest than the previous game In the fifth inning the score stood 2 and 1 in favor of the firemen and the traveling men fighting hard to tie the score. With a man on third and one on second Hauptli's sacrifice to short to putting him out on first brought in Monroe on McMaster's error, the back stop being gone the ball flew back to the grandstand. Then Pollard's error helped the firemen bring in Lucas.

McMasters Sprained Ankle. McMasters was then injured and the ravelers were gone, the firemen batting all around. Kelleher pitched a fine game and his support was good. Dahm, whose crippled leg handicapped him, was the cause of the travelers'

defeat. The score: Traveling Men- AB. R. H. PO. A. E. **Old Dutch** Cleanser Will Be Welcome In Every Home Because it keeps the house, from cellar to attic, in spick and span condition, and saves the housewife labor, time, trouble and expense. Just you try it! Washing Dishes WithoutDrudgery Place dishes in pan of warm water, sprinkle a little Old Dutch Cleanser on dish-cloth (don't put the cleanser in water) and wash, each piece, put in second pan to drain, rinse in clean water and wipe dry. Easier, quicker and hygienic; no caustic or acids (not a soap powder). Old Dutch Cleanser will remove the hardest "burnt in" crust from pots and pans, without the old time scalding and scraping. have the plant in operation by the Fourth of July so that the carnival crowds which will swarm the streets of the city at that time will be able to prolong the confetti festival far into the night with the aid of thousands of festooned electric bulbs being swung along the streets. The work, however, is progressing slowly for all that, owing to the ponderous nature of the new machinery being installed, and at this time it seems doubtful whether the company will be able to get the machinery install-

ed by that time. However, the carnival company which is to be in Gregory the entire week of the Fourth, carries an electric light outfit of its own and will not be handicapped in putting on their shows in the evening, even should the Gregory electric plant not be completely installed by that time.

New Garage at Gregory. Gregory, S. D., June 27.-Special to The News: The new large garage of the Gregory Auto company was completed sufficiently to allow the company to begin operations, though the greater part of the machinery to be installed in the new garage has not yet arrived. The company now has been doing business for about two weeks, and have never had time to install what machinery they have received. There have been from seven to twenty machines in the garage for repairs, of one sort or another, at any one time since they opened for business. The great volume of the business they are receiving was, and is, a surprise to everyone. Mr. Webber, a thoroughly experienced machinist, mechanic and automobile constructionist, is in charge. He has pitched ball: Hulac, Monroe. Time, been in the business from its very beginning in Germany some thirteen years ago. He has been in America only four years, but has worked in many of the different factories in this country in that time, in order to familiarize himself with American cars.

The new garage is perhaps the largest in the state west of the Missouri river and when equipped with the machinery to be installed will be the best equipped garage in the northwest. There are a large number of cars

of all different makes in Gregory, so that a certain proportion of them are always in need of repairing. Good Rain in Lyman County. Presho, S. D., June 27 .- Special to
