

Files From Rome.

Rome, June 3.—Frey, the German entrant in the Paris-Rome-Turin aviation race who has been jailed at Pisa owing to the wrecking of his machine, left that city at 8:15 o'clock this morning for Rome but was forced to descend at Macerata, eight miles from here, owing to the dense fog. It is expected he will resume his flight at 3 o'clock this afternoon. Vidart this morning succeeded in repairing the wing of his aeroplane, broken by a landing at Celina, about thirty-five miles from Pisa and he again ascended flying in the direction of Rome, where he expects to arrive early this afternoon.

DICK FERRIS IS PRESIDENT.

Former Omaha Theatrical Promoter Heads Republic of Lower California. Tijuana, Lower California, June 3.—The insurgents at Tijuana severed connection with the Mexican liberal party junta, elected Dick Ferris president of the new republic of Lower California and decided to wait upon Gen. Pryce before choosing a new general, Pryce to have the preference if he returns. He is expected Sunday. Ferris is a promoter of Los Angeles. This action followed an address to the insurgents, who now number about 150 men by Louis Bates, a liberal chief. A new flag and a constitution are being prepared.

Gen. Pryce went to Los Angeles to learn what became of the men he sent to buy ammunition and supplies. It was not denied that the situation in Tijuana was gloomy. The men were out of ammunition and supplies were said to be on the point of selling their guns and quitting Lower California.

Omaha, June 3.—Omaha theatergoers of a few years ago will readily recall Dick Ferris. He was the head of the Ferris company and a popular leading man. Coupled with his theatrical ability was a pleasing personality and a business activity that brought him to the top in theatrical circles. He directed the rehearsals during the two years that he starred in the stock company and the management of the troupe was practically left to Ferris. Two years ago he had charge of the ritual put on at the Den by the Ak-Sar-Ben. This ritual was worked out by Mr. Ferris with the aid of T. W. McCullough.

During that year Ferris was prominently identified with the theatrical productions put on at the carnival. He organized a stock company and went to Minneapolis. The company did well but not well enough for Ferris. He conceived the idea of using automobiles to take his company from town to town and then he went to Los Angeles, where he engaged in the theatrical business. He took the company to Phoenix, where he played last season. When the Mexican war broke out he drifted back to the coast and into Lower California.

GARY TELLS OF DEAL.

How Steel Trust Stood Behind Morgan in the Panic of 1907.

Washington, June 3.—Elliott H. Gary, chairman of the United Steel trust company directorate, told the Stanley steel trust investigating committee that his corporation stood behind J. Pierpont Morgan in averting disastrous financial upheaval in 1907. He insisted, challenging the statements of John W. Gates before the committee, that the purchase by the steel corporation of the Tennessee Coal and Iron company at that time was made at the price more than it was worth, for the express purpose of preventing the crash of the New York banking firm of Moore & Schley.

Mr. Gary related a dramatic story of the momentous events with which he presided at the absorption of the Tennessee concern. He described in detail how he and Henry C. Frick at the instance of Mr. Morgan had revealed the plan of buying the company at a price greater than its value to President Roosevelt and Mr. Root, then secretary of state. He told how he had concluded after their interview with Mr. Roosevelt that any government prosecution of their act would have been an "outrage."

EXPECT NEW POLE VAULT MARK

World Champions to Compete in Athletic Meet in New York Today.

New York, June 3.—World's champions will compete in every event of the New York Athletic club's annual games here this afternoon. All the track and field contests are handicap affairs and several records are expected to fall under the stress to which the scratch men will be put to win their events. H. S. Babcock of Columbia university will try to set a world's mark over the intercollegiate record he established at Cambridge in the pole vault. Those who have watched his work say they would not be surprised if he cleared thirteen feet.

Was Revolutionary Move.

Managua, Nicaragua, June 3.—The explosion in the fortress of LaLoma Wednesday afternoon, which resulted in the killing or wounding of a large number of soldiers, was part of a contemplated revolutionary invasion of Nicaragua, according to the statements of officials here. The officials say the steamer Eureka, which cleared from San Francisco May 13, was filled with munitions of war destined for the revolutionists. It is reported the Eureka anchored Thursday at the island of Manguera in the gulf of Fonseca. The government is fully prepared for any move the revolutionists may make.

EX-CONVICT IS SHOT.

Former Nebraska Prisoner Mortally Wounded at Denver. Denver, June 3.—Trilled to their room, two highwaymen made a stand against three detectives last night and in the battle which followed, one of the bandits, James Lynch, was perhaps mortally wounded. Frank Ince,

companion of Lynch, was taken into custody. Both admit holding up street car conductors and pedestrians recently. Ince declares he came here with Lynch about three weeks ago from Omaha and that Lynch is an ex-convict, having served a sentence in the Nebraska penitentiary. Ince is 29 years old and says he is a stationary fireman.

A Joke That Went Astray.

To illustrate the fact that some persons are devoid of the sense of humor this story was told at a downtown luncheon club: "I forgot to pay my newsboy last night and when I saw him this morning gave him the 5 cents due him and said, 'I thought every minute last night you'd send a collector for this.' 'Now, not on your life; not if you owed me twice as much.' An hour later the boy came to my office where he had never been before, waited for me and when I came said: 'Say I'm awfully sorry you thought I was sore about the nickel. You needn't pay me never till ye want to, and about sendin' for it—nix.' I thanked him, and now for trying to crack a joke I have secured a long line of credit.'"—New York Tribune.

Contract for Depot is Let.

The contract for the new Northwestern passenger station and eating house, at South Norfolk, has been let and work will begin in the near future. The name of the contractor and the price agreed upon for the work, have not yet reached the headquarters in Norfolk.

Big Banquet is Planned.

A big "Get Together" banquet for the railroad men of Norfolk, the traveling men and all citizens who are not already members of the Norfolk Ad club, will be given at Norfolk Junction in the near future by the Ad club. Everything served at the banquet will be made in Norfolk. This was one of the things determined upon at the meeting of the Ad club held last night. Other important matters were taken up and action decided upon.

June 7 "Clean-up" Day.

Wednesday, June 7, was designated "Clean-up" day in Norfolk and a special committee was appointed to make arrangements for it. A cash prize will probably be offered for the cleanest lot in town. Upon this day all Norfolk will be asked to clean up its premises, getting rid of such unsightly objects as tin cans, brick bats and the like, either in the yards or in the streets. Details of the plan will be announced later.

Behind Paving Movement.

The Ad club got behind the paving movement now on foot, and the civic improvements committee was instructed to confer with all parties now circulating petitions, and to help them in every possible way to secure the necessary signatures and get petitions before the city council as quickly as possible.

To Park Right-of-Way.

The Ad club also started a movement toward parking the right-of-way of the Northwestern railroad from the city to the Junction. The matter was referred to the committee on civic improvements with instructions to take up the matter with the railroad and city officials to see what could be done.

Norfolk will not celebrate on July 4. The celebrating of the Fourth does not meet favor among local business men, who look more favorably upon a fall festival. From reports received by Secretary Hulac of the baseball team, very few towns in this vicinity will celebrate. At a meeting of the Ad club Thursday night, it was declared that Norfolk people should attend Fourth of July celebrations given by other towns.

Directors of the Commercial club were busy today in conference with G. L. Carlson on the proposed new Carlson building in which the Commercial club will have rooms. A change in the plans of the Commercial club business office is being made and a hot water heating system is to substitute the proposed stove heating plan. Mr. Carlson will probably have the plans ready to hand to the contractor within a few days.

Mr. Dietrick, however, played a joke on himself when he clipped from the paper the account of the photographers who were impersonating themselves as employes of the Baker Construction company. Instead of pasting the account of these fake photographers right side up, he turned it over and sent the clipping to General Traveling Agent Melton, who was kept wondering why a clipping with the account of a change in President Taft's cabinet should interest him. He returned the clipping with a letter which stated many reasons why a traveling man is much better off on a Northwestern passenger train than mingling with the cabinet of any nation. Mr. Dietrick declares the joke is on him.

Secured Conviction of O'Reilly, Laying Foundation for Settlement. Lincoln, June 2.—For his work in the Dan O'Reilly case in New York City, Emory Buckner, son of Rev. and Mrs. J. D. M. Buckner of University Place, is receiving much credit both from eminent legal authorities in that city and from the daily press. Buckner, who is a graduate of the state university and who, while a student here, was manager of the football team, has been assistant district attorney of the federal service for some time past and in the O'Reilly case succeeded in securing a conviction of the defendant for various criminal practices. Excerpts from the New York Evening Mail tell the following relative to the Nebraska's part in the trial:

It was Buckner who wrote the trial brief on both the law and the facts in the original suit against the Sugar trust. He also presented a large part of the evidence in this case in court. And so well was his work performed that a verdict of \$136,000 was brought in against the trust. It is also conceded that the result of this trial led to the settlement by the Sugar trust of all other civil claims, amounting to upward of \$2,000,000.

"Following this successful work as an assistant district attorney in the federal service, Mr. Whitman sent for Buckner and appointed him on his staff here. There was no political influence behind the appointment, for Buckner had no political friends."

That order was issued to facilitate the re-establishment of peace and has not been rescinded.

This declaration came as the result of the testimony of S. J. Hurst, a member of the exchange, after he had admitted on the stand that eggs are stored to keep up prices. Merchants were not in business for their health, he said.

"If the merchants did not store eggs, the prices would be very low while the big early spring and summer supply was coming to the market," he explained.

"We are not in business for our health," Mr. Hurst frankly admitted. "We try to sell our products for just as much as we can get for them."
