H. A. Pasewalk, tocal distributor for E. M. F. 30 and Flanders 20 auto mobiles, and C. B. Cabantss, adver-Ising manager of The News have re turned from a trip to Detroit, where they were the guests of the Studebaker corporation. They joined the Studebaker special train at Omaha last Wednesday morning, arriving to Detroit Thursday morning. In all there were 136 Nebraska dealers in the party and the train consisted of six Pullmans, two diners, a buffet car and an observation car. Walter E Flanders, general manager of the Studebaker corporation, stated that the object of the trip was to show just how the Flanders 20 and E. M. F. 30 cars are made and to convince their dealers that they are just as good as they are advertised to be Mr. Pasewalk said he was a little skeptical himself about the ability of No. 68-Jake Janson, Kimball, S. The Nebraska party, of the "Corn Feds," as they soon came to be known, were in charge of L. A. Keller, the Omaha branch manager, Nothing was left undone to make the party comfortable and have a good time. There was plenty to eat and drink and something doing all the time.

Two days were spent in Detroit and not one of the party will soon forget that continuous round of pleasure and sightseeing. They saw in full blast operation one of the greatest manu facturing plants in the world, a plant which occupies about thirty-three acres of floor space, employs an army of over 8,000 men and has a payroll of \$525,000 a month. The visit was a ocial one, so specied by Mr. Flander in his invitation, but there was not a dealer in the party who did not ap preciate the significance of the affair from a business standpoint. Mi Flanders, who is the most talked-ofmanufacturer in the country today the giant of them all, wanted to show his dealers that no business, how large can get past the stage of a man to man transaction. He wanted then to get the spirit of the organization ie has built up in Detroit. He wanted to show them his promise to build 50. 000 cars next year was not an idle boast but that he had the men and

the plant to do it. Perfect system was manifested i he details of the trip from the very start. The dealers were assigned to their places in one of the Pullmans and several representatives of the sales department of the company join ed the party and helped other live ones keep things moving, and to see

that the dealers had a good time.

Arriving at Detroit, the party was
