PANAMA IS ALL STIRRED UP.

Public Demonstration Against Colombia is Made by Crowd.

Panama, Jan. 31.- A public demon stration significant of the feeling existing in Panama against the Colombians was made last night in front of the residence of the confidential agent of Colombia. The incident had its origin in an article written to the Star and Herald by Antonio Zubieta, a prominent young Panaman, in answer to an insulting article published recently in a Bogota newspaper against Panama. In response, the confidential agent of Colombia here issued a fly sheet signed by himself and another Colombian and containing offensive remarks concerning Panama. As a protest against his conduct hundreds of citizens gathered last night

in front of the confidential agent's house where they hooted Colombia and made a terrific demonstration. No violence occurred but Gov. Paredes as a precaution ordered the police to disperse the crowd and placed a strong guard in the Colombian agent's residence.
