**A MILLION DOLLAR RAIN.**

Norfolk Drenched by Another Downpour this Morning.

**HOUSE STRUCK BY LIGHTNING.**

Residents of the West End Deluged by Another Overflow From Corporation Gulch—General Results of the Storm Beneficial—Unprecedented Rainfall During May—Crops Looking Fine.

From Friday's Daily.

Before day break this morning there were gentle showers but it was evident to all at breakfast time that there were heavier rains just ahead. During the forenoon it rained the larger part of the time. Much of the time it poured. At noon it made an attempt to clear but the clouds gathered up again and there is every prospect of another heavy downpour before the weather lets up.

The streets were turned into rivers during the progress of the storm this morning and the people living in the west part of town for the second time this spring saw their beautiful lawns and tidy yards covered with the debris and garbage that floats down through Corporation gulch.

The thunder was very heavy at times and the lightning vivid and sharp. During the storm the lightning struck a house belonging to M. B. Cox, located near the round house at the Junction. The southeast corner of the building was torn out and the inside badly demoralized. A family by the name of Marshall who have been living in the dwelling during the winter and spring, fortunately for themselves, moved out yesterday.

The rain fall this month already equals that of any month for a number of years past. Last June held the record previously as the banner month of recent years, the rain fall being six inches. This month of May has already exceeded that figure and is liable to go one or two inches higher before it closes.

If "A wet May makes hay," there will be an immense hay crop this season. Crops of all kinds, under the influence of the abundant rains that are falling, are pushing forward rapidly. This storm will hinder the working of some low lands but its general results will be highly beneficial to Northeastern Nebraska and still further insure the era of prosperity which it is enjoying.

**A Magnificent Production.**

A Cuban war play founded upon our late war with Spain should be an attraction above all others to win the hearts of our citizens. The Prisoner of Spain is said to contain some well known actors. The unflinching success of this play is in part owing to the splendid and picturesque scenery with which the piece is dressed—the stage settings are accurate in detail as they are beautiful in effect. The comedy is first class and the dramatic element is singularly fascinating, possessing as it does a stirring and romantic martial spirit, tempered with the qualities of a refined and high class drama. The play is in every way deserving of the remarkable success which has attended it. To be at Marquardt's hall next Tuesday evening, May 30.

**GO OVER PEACE TERMS.**

Filipino Envoys Seem to Like American Plan.

**HAVE NO AUTHORITY TO RATIFY IT**

Army Officers of the Opinion It Will Be Cheaper and More Effective to Whip Them Thoroughly While They Are at It. Admiral Dewey Arrives at Hong Kong. Running Fight With Insurgents.

MANILA, May 24.—The Filipino commissioners spent the day at the residence of the American commissioners. They discussed every point of the scheme of government and the peace proclamation details, asking for information as to what personal rights would be guaranteed them.

Colonel Dunby of the American commission explained that they would be the same as under the United States constitution. The Filipinos also desired information as to the school system to be established and approved of the American policy of the separation of the church and state. They chiefly objected to the scheme on the ground that it gave them personal liberty, which they know they would have, but did not give them political liberty.

Finally, the Filipinos said they were personally pleased with the plan, but could not endorse it officially.

There is much comment here on the coming of the Filipino envoys. They are the centers of continual leaves at Filipino houses, where they have been entertained and have had every opportunity to advance the interests of the insurrection. Military sentiment disapproves of the Filipinos being lionized by their civilian element.

General Otis, from antebellum experience, and owing to the Filipinos' fondness of discussion, has maintained the attitude he assumed with the first commission. He has had no offer to make the Filipinos save that they lay down their arms without terms. The army believes that if we intend to remain in the Philippine islands it will be cheaper in the long run to whip the insurgents so thoroughly that they will be glad of the opportunity to surrender, rather than parley with them and make terms which they would construe as a compromise. The army is also of the opinion that while the first course may cost more men and more money in the beginning than the latter, it will prove an effectual damper upon future insurrections, whereas, if the war is ended by a compromise the professional revolutionists among the Tagals may be encouraged to try it again in a few years.

Professor Schurman, speaking of the commission's policy, said: "I believe force was necessary, because they thought us weaklings and cowards, but I believe also that conciliation should accompany force. My endeavor has been ever since I came here to exercise conciliation."

Major Bell, with two companies of the Fourth cavalry, has been reconnoitering in the direction of Santa Arita. He found 100 Filipinos there and was driving them away when large reinforcements of rebels arrived and he was obliged to withdraw with four men wounded.

The wet season has finally begun and another week's rain will make the rice fields thick with mud.

**Message From Schurman.**

WASHINGTON, May 24.—Secretary Hay has received from President Schurman of the Philippine commission a long message, giving the results of the meetings thus far held with the native Filipino commission, sent by Aguinaldo to treat with the Americans. The message was laid before the president. He was very much gratified with its contents, which were said to be very encouraging for the outlook that something definite may be accomplished. President Schurman reports that the native commissioners will take back to their people the proposition for a form of government, etc., suggested by the American commission.

**Royal Family at Windsor.**

LONDON, May 24.—The gathering of the royal family at Windsor castle today to celebrate the 80th birthday of Queen Victoria will be the largest with the exception of the jubilee gathering that has assembled there in many years. Not only will four generations in succession be present, but there will be a great gathering of children and grandchildren of her majesty. Everything points to a gorgeous pageant of military knights, Scots guards, choral societies and holiday makers.

**Phoenix Park Conspirators Released.**

DUBLIN, May 24.—The lord lieutenant of Ireland, Earl Cadogan, has released O'Hanlon, Mullot and James Fitzharris, the last three Irish political prisoners who were sentenced to imprisonment for life for conspiring to murder Lord Frederick Cavendish, chief secretary for Ireland, and T. H. Burke, under-secretary, who were assassinated by stabbing, in Phoenix park, Dublin, May 6, 1882.

**In a Running Fight.**

MANILA, May 24.—The Twenty-second and Twenty-third infantry, escorting the signal corps, which is at work between San Miguel and Baling, have had a severe running fight all the way with the insurgents of that vicinity. The Americans lost one man killed and inflicted considerable loss upon the enemy. The insurgents are coming in back of Lawton's advance.

**Queen Must Undergo Operation.**

LONDON, May 24.—Truth, in spite of semi-official statements to the contrary insists that an operation for cancer on the queen's eyes is inevitable. It says: "The queen has just consulted Professor Pagenstecker of Wiesbaden, who guarantees the success of the operation and opens the queen will entirely regain the excellent sight she possessed until recently."

Quaint Sayings.  
It is interesting and instructive to read bright and well constructed advertisements. Messrs. C. I. Hood & Co., of Sarsaparilla fame, must have been at a great feast and taken everything home with them. They are using a bright selection of quaint old sayings and proverbs as the starters in a series of clever advertisements, wherein the proverbs are neatly turned and paraphrased to fit the subject matter. The public like this breezy advertising, as it reminds of other proverbs and opens up discussion.

**New Blood and Life.**

The remedy which will keep their systems young, by purifying the blood, thoroughly removing all waste accumulations, and imparting new strength and life to the whole body. It increases the appetite, builds up the energies, and sends new life-giving blood throughout the entire system.

Mrs. Sarah Pike, 477 Broadway, South Boston, writes: "I am seventy years old, and had not enjoyed good health for twenty years. I was sick in different ways, and in addition, had Eczema terribly on one of my legs. The doctor said that on account of my age, I would never be well again. I took a dozen bottles of S. S. S. and it cured me completely, and I am happy to say that I feel as well as I ever did in my life."

Mr. J. W. Loving, of Colquitt, Ga., says: "For eighteen years I suffered tortures from a fiery eruption on my skin. I tried almost every known remedy, but they failed one by one, and I was told that my age, which is sixty six, was against me, and that I could never hope to be well again. I finally took S. S. S., and it cleansed my blood thoroughly, and now I am in perfect health."

**S. S. S. FOR THE BLOOD**

is the only remedy which can build up and strengthen old people, because it is the only one which is guaranteed free from potash, mercury, arsenic and other damaging minerals. It is made from roots and herbs, and has no chemicals whatever in it. S. S. S. cures the worst cases of Scrofula, Cancer, Eczema, Rheumatism, Tetter, Open Sores, Chronic Ulcers, Boils, or any other disease of the blood.

Books on these diseases will be sent free by Swift Specific Co., Atlanta, Ga.

Age does not necessarily mean feebleness and ill health, and nearly all of the sickness among older people can be avoided. Most elderly people are very susceptible to illness, but it is wholly unnecessary. By keeping their blood pure they can fortify themselves so as to escape three-fourths of the ailments from which they suffer so generally. S. S.
